1 Summary of significant accounting policies

a) Basis of presentation

These unaudited interim consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles (GAAP) and have been prepared on a basis consistent with the audited financial statements for the year ended September 30, 2010, except as described below.

The preparation of these interim consolidated financial statements requires management to make assumptions and estimates that affect the figures within these interim consolidated financial statements and notes. Actual results could differ significantly from those assumptions and estimates. Furthermore, the operating results for the interim periods presented are not necessarily indicative of the results anticipated for the full year. In the opinion of management, these interim consolidated financial statements reflect adjustments necessary to state fairly the results for the periods presented.

b) Principle of consolidation

The consolidated financial statements include the financial statements of the Company, and its wholly owned subsidiary companies, of which the principal subsidiaries are Redknee (Ireland) Limited, Redknee (Germany) GmbH, Redknee (UK) Limited, Redknee (ME) FZ-LLC (Dubai), Redknee (US) Limited, Redknee (India) Technologies Pvt. Limited, Redknee Solutions (UK) Limited, Redknee MEA SAL (offshore) (Lebanon), Redknee Singapore PTE Limited, Redknee Spain SAL, S.L.U., and Nimbus Systems, S.L. and NMB Lda. (collectively Nimbus or Nimbus Systems). All significant intercompany balances and transactions have been eliminated on consolidation.

c) Future changes in accounting standards

In October 2008, The Canadian Institute of Chartered Accountants issued Section 1582, Business Combinations (Section 1582), concurrently with Sections 1601, Consolidated Financial Statements (Section 1601), and 1602, Non-controlling Interests (Section 1602). Section 1582, which replaces Section

(expressed in Canadian dollars, except as otherwise indicated)

1581, Business Combinations, establishes standards for the measurement of a business combination and the recognition and measurement of assets acquired and liabilities assumed. Section 1601, which replaces Section 1600, carries forward the existing guidance on aspects of the preparation of consolidated financial statements subsequent to acquisition other than non-controlling interests. Section 1602 establishes guidance for the treatment of non-controlling interests subsequent to acquisition through a business combination. These new standards are effective for the Company's interim and annual periods commencing on January 1, 2011, with earlier adoption permitted as at the beginning of a fiscal year. The Company is currently assessing the impact of the new standards on its consolidated financial statements.

In December 2009, the CICA issued Emerging Issues Committee Abstract 175 (EIC 175), replacing EIC 142. This abstract was amended to: (a) provide updated guidance on whether multiple deliverables exist, how the deliverables in an arrangement should be separated, and the consideration allocated; (b) require, in situations where a vendor does not have vendor specific objective evidence or third party evidence of selling price, that the entity allocate revenue in an arrangement using the estimated selling prices of deliverables; (c) eliminate the use of the residual method and require an entity to allocate revenue using the relative selling price method; and (d) require expanded qualitative and quantitative disclosures regarding significant judgments made in applying this guidance. The accounting changes summarized in EIC 175 are effective for fiscal years beginning on or after January 1, 2011, with early adoption permitted. Adoption may either be on a prospective basis or by retrospective application. If the abstract is adopted early, in a reporting period that is not the first reporting period in the entity's fiscal year, it must be applied retroactively from the beginning of the entity's fiscal period of adoption. The Company is currently assessing the future impact of these amendments on its consolidated financial statements and has not yet determined the timing and method of their adoption.

2 Business acquisition

On August 12, 2010, the Company acquired 100% of the shares of Nimbus. Established in 2001, Nimbus has been engaged in analysis, control and management solutions, with a particular focus on customer relationship management systems and billing, rating and partner relationship management. Nimbus currently supports group operators and non-telecommunications clients engaged in one of the world's leading transaction credit and loyalty card infrastructure companies. The acquisition was accounted for by the purchase method and the results of operations of Nimbus since the date of acquisition have been consolidated.

The total purchase price, net of cash acquired, of \$13,042,946 consists of cash paid on closing of \$8,053,600, 3,628,044 common shares issued, including 1,814,022 common shares placed in escrow, valued at \$4,473,378 and acquisition costs of \$789,868. The fair value of the common shares was determined to be \$1.37 per common share. The fair value of the common shares held in escrow (which are subject to the terms and conditions of an escrow agreement) was determined to be \$1.10 per common share. The 20% discount takes into consideration the length of the escrow period, the volatility of the share prices during the period and the inability to transact with these shares during this time. The purchase agreement also contains an earn-out provision, which outlines that the aggregate amount of up to €1,050,000 will be paid by the Company to the sellers in cash if certain future criteria are met. The earn-out has not been accrued at either the date of purchase

or the reporting date. Management has determined that the earn-out is non-compensatory in nature and will be accrued as part of the purchase equation once the likelihood of payment can be reasonably determined.

Interest on this facility is LIBOR plus 4% and is payable semi-annually after the first specified repayment date. Accounts receivable, chattel paper, documents of title, equipment, intangible assets, inventory and securities are pledged as security for the credit facility.

Certain non-financial covenants exist under the agreement, which, if interpreted to be violated by the lender, could result in the amounts borrowed being due and payable to the lender on demand. The Company is in compliance with its debt covenants as at June 30, 2011.
