Warning and explanation on potential loss or substantial changes as compared with the same period last year of expected accumulated net profit from the beginning of this year to the end of next reporting period:

Expected results	Substantial decrease
Explanation on expected results	The selling price of steel products continued dropping due to its poor demand, resulting from sluggish situation in steel downstream industry which is affected by both severe surplus of production capacity and slowdown in economic growth. Since it is hard for such market situation to improve fundamentally in the third quarter, the results for the period

	from the beginning of this year to the next reporting period are expected to decrease substantially compared with the same period last year.
