Re: Immediate Report Regarding the Sale of Potash to Customers in China

The Company has the pleasure of reporting that on January 16th, 2013 the signing of agreements with several customers in China for the sale of Potash during the course of H1 2013, at a scope of 660,000 tons, has been completed. The sale price in the signed agreements is similar to the price recently determined in transactions executed with other Potash suppliers to the Chinese market.

These sums constitute part of the framework agreement recently signed with the customers, as aforementioned, for the supply of a total of 3.3 million tons of Potash over the next three years. Prices for the quantities to be supplied subject to the framework agreements shall be determined in accordance with the acceptable prices for Potash in the Chinese market at the relevant date of supply.

Sincerely,

Israel Chemicals Ltd.
