Notes to Unaudited Condensed Consolidated Financial Statements

(Dollars in thousands, except share and per share amounts)

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Take-Two Interactive Software, Inc. (the "Company," "we," "us," or similar pronouns) was incorporated in the state of Delaware in 1993. We are a leading developer, publisher and marketer of interactive entertainment for consumers around the globe. The Company develops and publishes products through its two wholly-owned labels Rockstar Games and 2K. Our products are designed for console systems, handheld gaming systems and personal computers, including smart phones and tablets, and are delivered through physical retail, digital download, online platforms and cloud streaming services.

Basis of Presentation

The accompanying Unaudited Condensed Consolidated Financial Statements include the accounts of the Company and its wholly-owned subsidiaries and reflect all normal and recurring adjustments necessary for the fair presentation of our financial position, results of operations and cash flows. All material inter-company accounts and transactions have been eliminated in consolidation. The preparation of these Unaudited Condensed Consolidated Financial Statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in these Unaudited Condensed Consolidated Financial Statements and accompanying notes. As permitted under U.S. generally accepted accounting principles, interim accounting for certain expenses, including income taxes, are based on full year assumptions when appropriate. Actual results could differ materially from those estimates.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been omitted pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"), although we believe that the disclosures are adequate to make the information presented not misleading. These Unaudited Condensed Consolidated Financial Statements and accompanying notes should be read in conjunction with our annual consolidated financial statements and the notes thereto, included in our Annual Report on Form 10-K for the year ended March 31, 2013.

Certain reclassifications have been made to prior period amounts to conform to the current period presentation.

Discontinued Operations

In February 2010, we completed the sale to SYNnex Corporation ("Synnex") of our Jack of All Games third party distribution business, which primarily distributed third party interactive entertainment software, hardware and accessories in North America. The financial information of our distribution business has been classified as discontinued operations in these Unaudited Condensed Consolidated Financial Statements for all of the periods presented. See Note 2 for additional information regarding discontinued operations. Unless otherwise noted, amounts and disclosures throughout the Notes to Unaudited Condensed Consolidated Financial Statements relate to the Company's continuing operations.

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial Instruments

The carrying amounts of our financial instruments, including cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities, approximate fair value because of their short maturities. We consider all highly liquid instruments purchased with original maturities of three months or less to be cash equivalents. At June 30, 2013 and March 31, 2013 we had \$25,458 and \$7,489, respectively, of cash on deposit reported as a component of prepaid expenses and other in the accompanying Condensed Consolidated Balance Sheets because its use was restricted.

As of June 30, 2013, the estimated fair value of the Company's 4.375% Convertible Notes due 2014, the Company's 1.75% Convertible Notes due 2016 and the Company's 1.00% Convertible Notes due 2018 was \$195,725, \$274,525 and \$244,350, respectively. See Note 8 for additional information regarding our Convertible Notes. The fair value was determined using observable market data for the Convertible Notes and its embedded option feature.

We transact business in various foreign currencies and have significant sales and purchase transactions denominated in foreign currencies, subjecting us to foreign currency exchange rate risk. From time to time, we use hedging programs in an effort to mitigate the effect of foreign currency exchange rate movements.

Cash Flow Hedging Activities

We use foreign currency forward contracts to mitigate foreign currency exchange rate risk associated with forecasted transactions involving non-functional currency denominated expenditures. These contracts, which are designated and qualify as cash flow hedges, are accounted for as derivatives whereby the fair value of the contracts is reported as either assets or liabilities on our Condensed Consolidated Balance Sheets. The effective portion of gains or losses resulting from changes in the fair value of these hedges is initially reported, net of tax, as a component of accumulated other comprehensive income (loss) in stockholders' equity. The gross amount of the effective portion of gains or losses resulting from changes in the fair value of these hedges is subsequently reclassified into cost of goods sold or research and development expenses, as appropriate, in the period when the forecasted transaction is recognized in our Condensed Consolidated Statements of Operations. In the event that the gains or losses in accumulated other comprehensive income (loss) are deemed to be ineffective, the ineffective portion of gains or losses resulting from changes in fair value, if any, is reclassified to interest and other, net, in our Condensed Consolidated Statements of Operations. In the event that the underlying forecasted transactions do not occur, or it becomes probable that they will not occur, within the defined hedge period, the gains or losses on the related cash flow hedges are reclassified from accumulated other comprehensive income (loss) to interest and other, net, in our Condensed Consolidated Statements of Operations. During the reporting periods presented, all forecasted transactions occurred, and therefore, there were no such gains or losses reclassified into interest and other, net. We do not enter into derivative financial contracts for speculative or trading purposes. At June 30, 2013 and March 31, 2013, we had \$5,544 and \$7,906, respectively, of forward contracts outstanding to buy foreign currencies in exchange for U.S. dollars all of which have maturities of less than one year. As of June 30, 2013, the fair value of these outstanding forward contracts was immaterial and is included in accrued expenses and other current liabilities. As of March 31, 2013, the fair value of these outstanding forward contracts was immaterial and is included in prepaid expenses

and other. The fair value of these outstanding forward contracts is estimated based on the prevailing exchange rates of the various hedged currencies as of the end of the period.

Balance Sheet Hedging Activities

We use foreign currency forward contracts to mitigate foreign currency exchange rate risk associated with non-functional currency denominated cash balances and inter-company funding loans, non-functional currency denominated accounts receivable and non-functional currency denominated accounts payable. These transactions are not designated as hedging instruments and are accounted for as derivatives whereby the fair value of the contracts is reported as either assets or liabilities on our Condensed Consolidated Balance Sheets, and gains and losses resulting from changes in the fair value are reported in interest and other, net, in our Condensed Consolidated Statements of Operations. We do not enter into derivative financial contracts for speculative or trading purposes. At June 30, 2013 and March 31, 2013, we had \$19,544 and \$55,397, respectively, of forward contracts outstanding to sell foreign currencies in exchange for U.S. dollars all of which have maturities of less than one year. For the three months ended June 30, 2013 and 2012, we recorded gains of \$542 and \$1,659, respectively, related to foreign currency forward contracts in interest and other, net on the Condensed Consolidated Statements of Operations. As of June 30, 2013 and March 31, 2013, the fair value of these outstanding forward contracts was immaterial and is included in accrued expenses and other current liabilities. The fair value of these outstanding forward contracts is estimated based on the prevailing exchange rates of the various hedged currencies as of the end of the period.

Recently Issued Accounting Pronouncements

Reclassification of Accumulated Other Comprehensive Income

In February 2013, new guidance was issued requiring new disclosures about reclassifications from accumulated other comprehensive income to net income. This new guidance requires an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under U.S. GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under U.S. GAAP that provide additional detail about those amounts. The new guidance is effective prospectively for annual and interim periods beginning after December 15, 2012 (April 1, 2013 for the Company). The adoption of this new guidance did not have a material impact on our Condensed Consolidated Financial Statements and the required disclosures are provided in Note 10.

2. DISCONTINUED OPERATIONS

In February 2010, we completed the sale of our Jack of All Games third party distribution business, which primarily distributed third party interactive entertainment software, hardware and accessories in North America, for approximately \$44,000, including \$37,250 in cash, subject to purchase price adjustments, and up to an additional \$6,750 subject to the achievement of certain items, which

were not met. In April 2011, we settled on the purchase adjustments and as a result the purchase price was lowered by \$1,475. Consequently, the net purchase price after the settlement was \$35,775. The sale has allowed us to focus our resources on our publishing operations. The financial information of our distribution business has been classified as discontinued operations in the Unaudited Condensed Consolidated Financial Statements for all of the periods presented. The following is a summary of the liabilities of discontinued operations primarily related to a liability for a lease assumption without economic benefit less estimates of sublease income. The lease matures on September 30, 2014.

3. MANAGEMENT AGREEMENT

In March 2007, we entered into a management services agreement (as amended, the "Management Agreement") with ZelnickMedia Corporation ("ZelnickMedia"), whereby ZelnickMedia provides us with certain management, consulting and executive level services. In May 2011, we entered into a new management agreement (the "New Management Agreement") with ZelnickMedia, which upon effectiveness, superseded and replaced the Management Agreement pursuant to which ZelnickMedia will continue to provide management, consulting and executive level services to the Company through May 2015. As part of the New Management Agreement, Strauss Zelnick, the President of ZelnickMedia, continues to serve as Executive Chairman and Chief Executive Officer and Karl Slatoff, a partner of ZelnickMedia, serves as President. The New Management Agreement provides for the annual management fee to remain at \$2,500, subject to annual increases in the amount of 3% over the term of the agreement, and the maximum annual bonus was increased to \$3,500 from \$2,500, subject to annual increases in the amount of 3% over the term of the agreement, based on the Company achieving certain performance thresholds. For the three months ended June 30, 2013 and 2012, we recorded an expense of \$1,127 and \$1,094, respectively, of consulting expense (a component of general and administrative expenses) in consideration for ZelnickMedia's services.

Pursuant to the Management Agreement, in August 2007, we issued stock options to ZelnickMedia to acquire 2,009,075 shares of our common stock at an exercise price of \$14.74 per share, which vested over 36 months and expire 10 years from the date of grant. In June 2008, pursuant to the Management Agreement, we granted 600,000 shares of restricted stock to ZelnickMedia that vested annually over a three year period and 900,000 shares of market-based restricted stock that could have vested over a four year period through June 2012, provided that the Company's Total Shareholder Return (as defined in the relevant grant agreements) was at or higher than the 75th percentile of the NASDAQ Industrial Index measured annually on a cumulative basis. Because the price of our common stock did not

3. MANAGEMENT AGREEMENT (Continued)

achieve its performance targets, the 900,000 shares of market-based restricted stock were forfeited in June 2012.

In addition, pursuant to the New Management Agreement, we granted 1,100,000 shares of restricted stock to ZelnickMedia that will vest annually through April 1, 2015 and 1,650,000 shares of market-based restricted stock that will be eligible to vest through April 1, 2015, based on the Company's Total Shareholder Return (as defined in the relevant grant agreements) relative to the Total Shareholder Return of the companies that constitute the NASDAQ Composite Index measured annually on a cumulative basis. To earn all of the shares of market-based restricted stock, the Company must perform at the 75th percentile, or top quartile, of the NASDAQ Composite Index. Each reporting period, we remeasure the fair value of the unvested portion of the shares of market-based restricted stock granted to ZelnickMedia. The unvested portion of the shares of restricted stock granted pursuant to the New Management Agreement as of June 30, 2013 and March 31, 2013 was 1,894,750 and 2,169,750 shares, respectively. For the three months ended June 30, 2013 and 2012, we recorded an expense of \$487 and a benefit of \$783, respectively, of stock-based compensation (a component of general and administrative expenses) related to the shares of restricted stock granted pursuant to the New Management Agreement.

4. FAIR VALUE MEASUREMENTS

We follow a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy requires entities to maximize the use of "observable inputs" and minimize the use of "unobservable inputs." The three levels of inputs used to measure fair value are as follows:

- Level 1—Quoted prices in active markets for identical assets or liabilities.
- Level 2—Observable inputs other than quoted prices included in Level 1, such as quoted prices for markets that are not active or other inputs that are observable or can be corroborated by observable market data.
- Level 3—Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The table below segregates all assets that are measured at fair value on a recurring basis (which is measured at least annually) into the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value at the measurement date.

	June 30, 2013	Quoted prices in active markets for identical assets (level 1)	Significant other observable inputs (level 2)	Significant unobservable inputs (level 3)	Balance Sheet Classification
Money market funds	\$ 415,205	\$ 415,205	\$ —	\$ —	Cash and cash equivalents

In October 2011, we entered into a Second Amended and Restated Credit Agreement (the "Credit Agreement") which amended and restated our July 2007 Credit Agreement. The Credit Agreement provides for borrowings of up to \$100,000, which may be increased by up to \$40,000 pursuant to the terms of the Credit Agreement, and is secured by substantially all of our assets and the equity of our subsidiaries. The Credit Agreement expires on October 17, 2016. Revolving loans under the Credit Agreement bear interest at our election of (a) 1.50% to 2.00% above a certain base rate (4.75% at June 30, 2013), or (b) 2.50% to 3.00% above the LIBOR Rate (approximately 2.69% at June 30, 2013), with the margin rate subject to the achievement of certain average liquidity levels. We are also required to pay a monthly fee on the unused available balance, ranging from 0.375% to 0.50% based on availability. We had no outstanding borrowings at June 30, 2013 and March 31, 2013.

Availability under the Credit Agreement is restricted by our United States and United Kingdom based accounts receivable and inventory balances. The Credit Agreement also allows for the issuance of letters of credit in an aggregate amount of up to \$25,000.

Information related to availability on our Credit Agreement is as follows:

	<u>June 30,</u> <u>2013</u>	<u>March 31,</u> <u>2013</u>
Available borrowings	\$ 71,863	\$ 73,565
Outstanding letters of credit	1,664	1,664

We recorded interest expense and fees related to the Credit Agreement of \$159 for the three months ended June 30, 2013 and 2012.

The Credit Agreement contains covenants that substantially limit us and our subsidiaries' ability to: create, incur, assume or be liable for indebtedness; dispose of assets outside the ordinary course of business; acquire, merge or consolidate with or into another person or entity; create, incur or allow any lien on any of their respective properties; make investments; or pay dividends or make distributions (each subject to certain limitations); or optionally prepay any indebtedness (subject to certain exceptions, including an exception permitting the redemption of the Company's unsecured convertible senior notes upon the meeting of certain minimum liquidity requirements). In addition, the Credit Agreement provides for certain events of default such as nonpayment of principal and interest, breaches of representations and warranties, noncompliance with covenants, acts of insolvency, default on indebtedness held by third parties and default on certain material contracts (subject to certain limitations and cure periods). The Credit Agreement also contains a requirement that we maintain an interest coverage ratio of more than one to one for the trailing twelve month period, if certain average liquidity levels fall below \$30,000. As of June 30, 2013, we were in compliance with all covenants and requirements outlined in the Credit Agreement.

4.375% Convertible Notes Due 2014

In June 2009, we issued \$138,000 aggregate principal amount of 4.375% Convertible Notes due 2014 (the "4.375% Convertible Notes"). The issuance of the 4.375% Convertible Notes included \$18,000 related to the exercise of an over-allotment option by the underwriters. Interest on the 4.375%

Convertible Notes is payable semi-annually in arrears on June 1st and December 1st of each year, and commenced on December 1, 2009. The 4.375% Convertible Notes mature on June 1, 2014, unless earlier redeemed or repurchased by the Company or converted. As further described below, on June 12, 2013, we issued a notice of redemption calling all of our outstanding 4.375% Convertible Notes for redemption on August 29, 2013.

The 4.375% Convertible Notes are convertible at an initial conversion rate of 93.6768 shares of our common stock per \$1 principal amount of 4.375% Convertible Notes (representing an initial conversion price of approximately \$10.675 per share of common stock for a total of approximately 12,927,000 underlying conversion shares) subject to adjustment in certain circumstances. Holders may convert the 4.375% Convertible Notes at their option prior to the close of business on the business day immediately preceding December 1, 2013 only under the following circumstances: (1) during any fiscal quarter commencing after July 31, 2009, if the last reported sale price of the common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the preceding fiscal quarter is greater than or equal to 130% of the applicable conversion price on each applicable trading day; (2) during the five business day period after any 10 consecutive trading day period (the "measurement period") in which the trading price per \$1 principal amount of 4.375% Convertible Notes for each day of that measurement period was less than 98% of the product of the last reported sale price of our common stock and the applicable conversion rate on each such day; (3) if we call the 4.375% Convertible Notes for redemption, at any time prior to the close of business on the third scheduled trading day prior to the redemption date; or (4) upon the occurrence of specified corporate events. On and after December 1, 2013 until the close of business on the third scheduled trading day immediately preceding the maturity date, holders may convert their 4.375% Convertible Notes at any time, regardless of the foregoing circumstances. Upon conversion, the 4.375% Convertible Notes may be settled, at our election, in cash, shares of our common stock, or a combination of cash and shares of the Company's common stock.

At any time on or after June 5, 2012, the Company may redeem all of the outstanding 4.375% Convertible Notes for cash, but only if the last reported sale of our common stock for 20 or more trading days in a period of 30 consecutive trading days ending on the trading day prior to the date we provide notice of redemption to holders of the 4.375% Convertible Notes exceeds 150% of the conversion price in effect on each such trading day. This condition was met on June 12, 2013. The redemption price will equal 100% of the principal amount of the 4.375% Convertible Notes to be redeemed, plus all accrued and unpaid interest (including additional interest, if any) to, but excluding, the redemption date.

Upon the occurrence of certain fundamental changes involving the Company, holders of the 4.375% Convertible Notes may require us to purchase all or a portion of their 4.375% Convertible Notes for cash at a price equal to 100% of the principal amount of the notes to be purchased, plus accrued and unpaid interest (including additional interest, if any) to, but excluding, the fundamental change purchase date.

The indenture governing the 4.375% Convertible Notes contains customary terms and covenants and events of default. If an event of default (as defined therein) occurs and is continuing, the Trustee by notice to the Company, or the holders of at least 25% in aggregate principal amount of the 4.375% Convertible Notes then outstanding by notice to the Company and the Trustee, may, and the Trustee at

the request of such holders shall, declare 100% of the principal of and accrued and unpaid interest (including additional interest, if any) on all the 4.375% Convertible Notes to be due and payable. In the case of an event of default arising out of certain bankruptcy events, 100% of the principal of and accrued and unpaid interest (including additional interest, if any), on the 4.375% Convertible Notes will automatically become due and payable immediately. As of June 30, 2013, we were in compliance with all covenants and requirements outlined in the indenture governing the 4.375% Convertible Notes.

The 4.375% Convertible Notes are senior unsecured obligations and rank senior in right of payment to our existing and future indebtedness that may be expressly subordinated in right of payment to the 4.375% Convertible Notes; equal in right of payment to our existing and future indebtedness that is not so subordinated; junior in right of payment to any of our secured indebtedness to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness incurred by our subsidiaries.

On June 12, 2013, we issued a notice of redemption calling all of our outstanding 4.375% Convertible Notes, in aggregate principal amount of \$138,000, for redemption on August 29, 2013 at a redemption price of \$1 per \$1 principal amount, plus accrued and unpaid interest up to, but not including, the redemption date. Holders who elect to convert following receipt of the notice of redemption shall be entitled to make-whole shares in addition to such shares they would otherwise be entitled to receive upon conversion. The notice of redemption specified that we will settle any 4.375% Convertible Notes surrendered for conversion in connection with the redemption on a combination settlement basis by paying cash up to a cash amount equal to \$166,000 in the aggregate of converted notes and delivering shares of our common stock in respect of the amount, if any, by which our conversion obligation exceeds such cash amount.

In connection with the offering of the 4.375% Convertible Notes, we entered into convertible note hedge transactions which are expected to reduce the potential dilution to our common stock upon conversion of the 4.375% Convertible Notes. The convertible note hedge transactions allow the Company to receive shares of its common stock related to the excess conversion value that it would convey to the holders of the 4.375% Convertible Notes upon conversion. The transactions include options to purchase approximately 12,927,000 shares of common stock at \$10.675 per share, expiring on June 1, 2014, for a total cost of approximately \$43,600, which was charged to additional paid-in capital.

Separately, the Company entered into warrant transactions with a strike price of \$14.945 per share. The warrants will be net share settled and will cover approximately 12,927,000 shares of the Company's common stock and expire on August 30, 2014, for total proceeds of approximately \$26,300, which was credited to additional paid-in capital.

On June 12, 2013, the Company entered into Unwind Agreements with respect to the convertible note hedge transactions and Unwind Agreements with respect to the warrant transactions with each of the hedge counterparties (collectively, the "Unwind Agreements"). Pursuant to the terms of the Unwind Agreements, and in connection with the Company's issuance of a notice of redemption for all the 4.375% Convertible Notes, the Company has the right to deliver a notice to the hedge counterparties, prior to the redemption date set forth in such redemption notice, designating an early termination date for the convertible note hedge transactions and warrant transactions. The hedge counterparties will owe a cash payment to the Company as a result of the early termination of the

convertible note hedge transactions that will be calculated based on its current fair market value. The Company will owe a cash payment to the hedge counterparties, as applicable, as a result of the early termination of the warrant transactions that will be calculated based on its current fair market value. As a result of the Unwind Agreements, the convertible note hedge transactions and warrant transactions are accounted for as derivatives whereby the fair values of these transactions are reported as a convertible note hedge receivable and as a convertible note warrant liability on our Condensed Consolidated Balance Sheets with an offsetting impact to additional paid-in capital. Gains and losses resulting from changes in the fair value are reported in interest and other, net, in our Condensed Consolidated Statements of Operations. As of June 30, 2013, the fair value of the convertible note hedge transactions was approximately \$62,759 and is reported as a convertible note hedge receivable and the fair value of the warrant transactions was approximately \$39,354 and is reported as a convertible note warrant liability. During the three months ended June 30, 2013, we recorded a loss of approximately \$4,411 resulting from the change in the fair value of the convertible note hedge transactions and a gain of approximately \$2,500 resulting from the change in the fair value of the convertible note warrant liability to interest and other, net, in our Condensed Consolidated Statements of Operations. The fair values of these convertible note hedge transactions and warrant transactions were estimated using a Black-Scholes-Merton based approach before the modification of the Unwind Agreements and a Monte Carlo Simulation method based on simulated future stock prices after the modification of the Unwind Agreements.

A portion of the net proceeds from the 4.375% Convertible Notes offering was used to pay the net cost of the convertible note hedge transactions (after such cost was partially offset by proceeds from the sale of the warrants). We recorded approximately \$3,410 of banking, legal and accounting fees related to the issuance of the 4.375% Convertible Notes which were capitalized as debt issuance costs and will be amortized to interest and other, net over the term of the 4.375% Convertible Notes.

1.75% Convertible Notes Due 2016

On November 16, 2011, we issued \$250,000 aggregate principal amount of 1.75% Convertible Notes due 2016 (the "1.75% Convertible Notes"). Interest on the 1.75% Convertible Notes is payable semi-annually in arrears on June 1st and December 1st of each year, commencing on June 1, 2012. The 1.75% Convertible Notes mature on December 1, 2016, unless earlier repurchased by the Company or converted. The Company does not have the right to redeem the 1.75% Convertible Notes prior to maturity.

The 1.75% Convertible Notes are convertible at an initial conversion rate of 52.3745 shares of our common stock per \$1 principal amount of 1.75% Convertible Notes (representing an initial conversion price of approximately \$19.093 per share of common stock for a total of approximately 13,094,000 underlying conversion shares) subject to adjustment in certain circumstances. Holders may convert the 1.75% Convertible Notes at their option prior to the close of business on the business day immediately preceding June 1, 2016 only under the following circumstances: (1) during any fiscal quarter commencing after March 31, 2012, if the last reported sale price of the common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the preceding fiscal quarter is greater than or equal to 130% of the applicable conversion price on each applicable trading day; (2) during the five business day period after any 10 consecutive trading day period (the "measurement period") in which the trading price per \$1 principal amount of 1.75% Convertible Notes for each day of that measurement period was less than 98% of the product of the last reported sale price of our common stock and the applicable conversion rate on each such day; or (3) upon the occurrence of specified corporate events. On and after June 1, 2016 until the close of business on the business day immediately preceding the maturity date, holders may convert their 1.75% Convertible Notes at any time, regardless of the foregoing circumstances. Upon conversion, the 1.75% Convertible Notes may be settled, at our election, in cash, shares of our common stock, or a combination of cash and shares of the Company's common stock.

Upon the occurrence of certain fundamental changes involving the Company, holders of the 1.75% Convertible Notes may require us to purchase all or a portion of their 1.75% Convertible Notes for cash at a price equal to 100% of the principal amount of the notes to be purchased, plus accrued and unpaid interest (including additional interest, if any) to, but excluding, the fundamental change purchase date.

In accounting for the \$6,875 of banking, legal and accounting fees related to the issuance of the 1.75% Convertible Notes, we allocated \$5,428 to the liability component and \$1,447 to the equity component. Debt issuance costs attributable to the liability component are being amortized to interest and other, net over the term of the 1.75% Convertible Notes, and issuance costs attributable to the equity component were netted with the equity component in additional paid-in capital.

1.00% Convertible Notes Due 2018

On June 18, 2013, we issued \$250,000 aggregate principal amount of 1.00% Convertible Notes due 2018 (the "1.00% Convertible Notes" and together with the 4.375% Convertible Notes and the 1.75% Convertible Notes, the "Convertible Notes"). The 1.00% Convertible Notes were issued at 98.5% of par value for proceeds of \$246,250. Interest on the 1.00% Convertible Notes is payable semi-annually in arrears on July 1st and January 1st of each year, commencing on January 1, 2014. The 1.00% Convertible Notes mature on July 1, 2018, unless earlier repurchased by the Company or converted. The Company does not have the right to redeem the 1.00% Convertible Notes prior to maturity. The Company also granted the underwriters a 30-day option to purchase up to an additional \$37,500 principal amount of 1.00% Convertible Notes to cover overallocments, if any. On July 17, 2013, the Company closed its public offering of \$37,500 principal amount of the Company's 1.00% Convertible Notes as a result of the underwriters exercising their overallocation option in full on July 12, 2013, bringing the proceeds to \$283,188.

The 1.00% Convertible Notes are convertible at an initial conversion rate of 46.4727 shares of our common stock per \$1 principal amount of 1.00% Convertible Notes (representing an initial conversion price of approximately \$21.52 per share of common stock) subject to adjustment in certain circumstances. Holders may convert the 1.00% Convertible Notes at their option prior to the close of business on the business day immediately preceding January 1, 2018 only under the following circumstances: (1) during any fiscal quarter commencing after September 30, 2013, if the last reported sale price of the common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the preceding fiscal quarter is greater than or equal to 130% of the applicable conversion price on each applicable trading day; (2) during the five business day period after any 10 consecutive trading day period (the "measurement period") in which the trading price per \$1 principal amount of 1.00% Convertible Notes for each day of that measurement period was less than 98% of the product of the last reported sale price of our common stock and the applicable conversion rate on each such day; or (3) upon the occurrence of specified corporate events. On and after January 1, 2018 until the close of business on the business day immediately preceding the maturity date, holders may convert their 1.00% Convertible Notes at any time, regardless of the foregoing circumstances. Upon conversion, the 1.00% Convertible Notes may be settled, at our election, in cash, shares of our common stock, or a combination of cash and shares of the Company's common stock.

Upon the occurrence of certain fundamental changes involving the Company, holders of the 1.00% Convertible Notes may require us to purchase all or a portion of their 1.00% Convertible Notes for cash at a price equal to 100% of the principal amount of the notes to be purchased, plus accrued and unpaid interest (including additional interest, if any) to, but excluding, the fundamental change purchase date.

The indenture governing the 1.00% Convertible Notes contains customary terms and covenants and events of default. If an event of default (as defined therein) occurs and is continuing, the Trustee by notice to the Company, or the holders of at least 25% in aggregate principal amount of the 1.00% Convertible Notes then outstanding by notice to the Company and the Trustee, may, and the Trustee at the request of such holders shall, declare 100% of the principal of and accrued and unpaid interest (including additional interest, if any) on all the 1.00% Convertible Notes to be due and payable. In the

case of an event of default arising out of certain bankruptcy events, 100% of the principal of and accrued and unpaid interest (including additional interest, if any), on the 1.00% Convertible Notes will automatically become due and payable immediately. As of June 30, 2013, we were in compliance with all covenants and requirements outlined in the indenture governing the 1.00% Convertible Notes.

The 1.00% Convertible Notes are senior unsecured obligations and rank senior in right of payment to our existing and future indebtedness that is expressly subordinated in right of payment to the 1.00% Convertible Notes; equal in right of payment to our existing and future indebtedness that is not so subordinated; effectively junior in right of payment to any of our secured indebtedness to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness incurred by our subsidiaries.

We separately account for the liability and equity components of the 1.00% Convertible Notes in a manner that reflects the Company's nonconvertible debt borrowing rate. We estimated the fair value of the 1.00% Convertible Notes to be \$196,145, as of the date of issuance of our 1.00% Convertible Notes, assuming a 6.15% non-convertible borrowing rate. The carrying amount of the equity component was determined to be \$50,105 by deducting the fair value of the liability component from the net proceeds of the 1.00% Convertible Notes. The excess of the principal amount of the liability component over its carrying amount is amortized to interest and other, net over the term of the 1.00% Convertible Notes using the effective interest method. The equity component is not remeasured as long as it continues to meet the conditions for equity classification. In accounting for the \$2,455 of banking, legal and accounting fees related to the issuance of the 1.00% Convertible Notes, we allocated \$1,926 to the liability component and \$529 to the equity component. Debt issuance costs attributable to the liability component are being amortized to interest and other, net over the term of the 1.00% Convertible Notes, and issuance costs attributable to the equity component were netted with the equity component in additional paid-in capital.

The following table provides additional information related to our 1.00% Convertible Notes:

9. EARNINGS (LOSS) PER SHARE ("EPS")

The following table sets forth the computation of basic and diluted EPS (shares in thousands):

	Three Months Ended June 30,	
	2013	2012
Computation of Basic EPS:		
Net loss	\$ (61,914)	\$ (110,838)
Weighted average shares outstanding—basic and diluted	86,992	85,010
Basic and Diluted EPS	\$ (0.71)	\$ (1.30)

The Company incurred a net loss for the three months ended June 30, 2013 and 2012; therefore, the basic and diluted weighted average shares outstanding exclude the impact of unvested share-based awards that are considered participating restricted stock and all common stock equivalents because their impact would be antidilutive.

Our unvested restricted stock rights (including restricted stock units, time-based and market-based restricted stock awards) are considered participating restricted stock since these securities have non-forfeitable rights to dividends or dividend equivalents during the contractual period of the award, and thus require the two-class method of computing EPS. The calculation of EPS for common stock shown above excludes the income attributable to the unvested restricted stock rights from the numerator and excludes the dilutive impact of those awards from the denominator. For the three months ended June 30, 2013 and 2012, we had approximately 7,139,000 and 5,900,000, respectively, of unvested share-based awards that are considered participating restricted stock which are excluded due to the net loss for those periods.

The Company defines common stock equivalents as unexercised stock options, common stock equivalents underlying the Convertible Notes (see Note 8) and warrants outstanding during the period. Common stock equivalents are measured using the treasury stock method, except for the Convertible Notes, which are assessed for their impact on diluted EPS using the more dilutive of the treasury stock method or the if-converted method. Under the provisions of the if-converted method, the Convertible Notes are assumed to be converted and the underlying conversion shares included in the denominator

of the EPS calculation and the interest expense, net of tax, recorded in connection with the Convertible Notes is added back to the numerator.

In connection with the issuance of our 4.375% Convertible Notes in June 2009, the Company purchased convertible note hedges (see Note 8) which were excluded from the calculation of diluted EPS because their impact is always considered antidilutive since the call option would be exercised by the Company when the exercise price is lower than the market price. Also in connection with the issuance of our 4.375% Convertible Notes, the Company entered into warrant transactions (see Note 8). On June 12, 2013, the Company entered into Unwind Agreements with respect to the convertible note hedge transactions and Unwind Agreements with respect to the warrant transactions with each of the hedge counterparties (see Note 8).

Other common stock equivalents excluded from the diluted EPS calculation were unexercised stock option awards of approximately 2,009,000 for the three months ended June 30, 2013 and 2012 due to the net loss for those periods.

For the three months ended June 30, 2013, we issued approximately 1,014,000 shares of common stock in connection with restricted stock awards and we canceled approximately 19,000 shares of unvested restricted stock awards.

11. SEGMENT AND GEOGRAPHIC INFORMATION

We operate in one reportable segment in which we are a publisher of interactive software games designed for console systems, handheld gaming systems and personal computers, including smart phones and tablets, and are delivered through physical retail, digital download, online platforms and cloud streaming services. Our reporting segment is based upon our internal organizational structure, the manner in which our operations are managed and the criteria used by our Chief Executive Officer, our chief operating decision maker ("CODM") to evaluate performance. The Company's operations involve similar products and customers worldwide. We are centrally managed and the CODM primarily uses consolidated financial information supplemented by sales information by product category, major product title and platform to make operational decisions and assess financial performance. Our business consists of our Rockstar Games and 2K labels which have been aggregated into a single reportable segment (the "publishing segment") based upon their similar economic characteristics, products and distribution methods. Revenue earned from our publishing segment is primarily derived from the sale of internally developed software titles and software titles developed on our behalf by third-parties.

We attribute net revenue to geographic regions based on product destination. Net revenue by geographic region was as follows:

	Three Months Ended June 30,	
	2013	2012
Net revenue by geographic region:

12. COMMITMENTS AND CONTINGENCIES

At June 30, 2013, we did not have any significant changes to our commitments since March 31, 2013 other than in June 2013, we (i) issued a notice of redemption calling all of our outstanding 4.375% Convertible Notes for redemption on August 29, 2013, (ii) entered into Unwind Agreements with respect to the warrant transactions associated with the offering of the 4.375% Convertible Notes and (iii) issued \$250,000 principal amount of 1.00% Convertible Notes during the three months ended June 30, 2013. See Note 8 for additional information regarding our Convertible Notes. See Note 12 of the Notes to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended March 31, 2013 for more information regarding our commitments.

Below is a summary of the annual commitments as of June 30, 2013 related to our 1.00% Convertible Notes:

Legal and Other Proceedings

We are, or may become, subject to demands and claims (including intellectual property claims) and are involved in routine litigation in the ordinary course of business which we do not believe to be material to our business or financial statements. We have appropriately accrued amounts related to certain of these claims and legal and other proceedings. While it is reasonably possible that a loss may be incurred in excess of the amounts accrued in our financial statements, we believe that such losses, unless otherwise disclosed, would not be material.

13. SHARE REPURCHASE PROGRAM

In January 2013, our Board of Directors authorized the repurchase of up to 7,500,000 shares of our common stock. The authorization permits the Company to purchase shares from time to time through a variety of methods, including in the open market or through privately negotiated transactions, in accordance with applicable securities laws. It does not obligate the Company to make any purchases at any specific time or situation. Repurchases are subject to the availability of stock, prevailing market conditions, the trading price of the stock, the Company's financial performance and other conditions. The program may be suspended or discontinued at any time for any reason. Through June 30, 2013, the Company has not repurchased any shares of our common stock as part of the program.

CAUTIONARY NOTE ABOUT FORWARD-LOOKING STATEMENTS

The statements contained herein which are not historical facts are considered forward-looking statements under federal securities laws and may be identified by words such as "anticipates," "believes," "estimates," "expects," "intends," "plans," "potential," "predicts," "projects," "seeks," "will," or words of similar meaning and include, but are not limited to, statements regarding the outlook for the Company's future business and financial performance. Such forward-looking statements are based on the current beliefs of our management as well as assumptions made by and information currently available to them, which are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. Actual outcomes and results may vary materially from these forward-looking statements based on a variety of risks and uncertainties including those contained herein, in the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2013, in the section entitled "Risk Factors," and the Company's other periodic filings with the SEC. All forward-looking statements are qualified by these cautionary statements and speak only as of the date they are made. The Company undertakes no obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise.

Our Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is provided in addition to the accompanying Unaudited Condensed Consolidated Financial Statements and notes to assist readers in understanding our results of operations, financial condition and cash flows. The following discussion should be read in conjunction with the MD&A and our annual consolidated financial statements and the notes thereto, included in our Annual Report on Form 10-K for the fiscal year ended March 31, 2013.

Overview

Our Business

We are a leading developer, publisher and marketer of interactive entertainment for consumers around the globe. We develop and publish products through our two wholly-owned labels Rockstar Games and 2K. Our products are currently designed for console gaming systems such as Sony's PlayStation®3 ("PS3"), Microsoft's Xbox 360® ("Xbox 360") and Nintendo's Wii™ ("Wii") and Wii U ("Wii U"); handheld gaming systems such as Nintendo's DS ("DS") and Sony's PlayStation Portable ("PSP"); and personal computers including smartphones and tablets. In addition, we have products in development for next-generation console gaming platforms, including Sony's PlayStation®4 and Xbox One®, the all-in-one games and entertainment system from Microsoft. We deliver our products through physical retail, digital download, online platforms and cloud streaming services.

We endeavor to be the most creative, innovative and efficient company in our industry. Our core strategy is to capitalize on the popularity of video games by developing and publishing high-quality interactive entertainment experiences across a range of genres. We focus on building compelling entertainment franchises by publishing a select number of titles for which we can create sequels and add-on content. Most of our intellectual property is internally owned and developed, which we believe best positions us financially and competitively. We have established a portfolio of proprietary software content for the major hardware platforms in a wide range of genres, including action, adventure, family/casual, racing, role-playing, shooter, sports and strategy, which we distribute worldwide. We believe that our commitment to creativity and innovation is a distinguishing strength, enabling us to differentiate our products in the marketplace by combining advanced technology with compelling storylines and characters that provide unique gameplay experiences for consumers. We have created, acquired or licensed a group of highly recognizable brands to match the broad consumer demographics we serve, ranging from adults to children and game enthusiasts to casual gamers. Another cornerstone of our strategy is to support the success of our products in the marketplace through innovative

[Table of Contents](#)

marketing programs and global distribution on all platforms and through all channels that are relevant to our target audience.

Our revenue is primarily derived from the sale of internally developed software titles and software titles developed by third-parties for our benefit. Operating margins are dependent in part upon our ability to continually release new, commercially successful software products and to effectively manage their development costs. We have internal development studios located in Australia, Canada, China, Czech Republic, the United Kingdom, and the United States.

Software titles published by our Rockstar Games label are primarily internally developed. We expect Rockstar Games, our wholly-owned publisher of the *Grand Theft Auto*, *Max Payne*, *Midnight Club*, *Red Dead* and other popular franchises, to continue to be a leader in the action / adventure product category and create groundbreaking entertainment by leveraging our existing titles as well as developing new brands. We believe that Rockstar has established a uniquely original, popular cultural phenomenon with its *Grand Theft Auto* series, which is the interactive entertainment industry's most iconic and critically acclaimed brand and has sold-in over 128 million units. Rockstar continues to expand on our established franchises by developing sequels, offering downloadable episodes and content, and releasing titles for smartphones and tablets such as *Grand Theft Auto III —10th Anniversary Edition*, *Max Payne Mobile*, and *Grand Theft Auto: Vice City 10th Anniversary Edition*. In May 2011, Rockstar released the commercially successful and critically acclaimed *L.A. Noire*, which became the first video game ever chosen as an official selection of the Tribeca Film Festival and has become another key franchise for the Company. Rockstar is also well known for developing brands in other genres, including the *Bully* and *Manhunt* franchises.

Our 2K label has published a variety of popular entertainment properties across all key platforms and across a range of genres including shooter, action, role-playing, strategy, sports and family/casual entertainment. We expect 2K to continue to develop new and successful franchises in the future.

2K's internally owned and developed franchises include the critically acclaimed, multi-million unit selling *BioShock*, *Mafia*, and *Sid Meier's Civilization* series. 2K also publishes highly successful externally developed franchises, such as *Borderlands*. 2K successfully launched *Borderlands 2* in September 2012 and is supporting the title with a robust add-on content campaign. In addition, in October 2012, 2K released *XCOM: Enemy Unknown*, which, along with *Borderlands 2* and *NBA 2K13*, was among the ten highest-rated console video game releases of 2012 based on average review score on Metacritic.com. *XCOM: Enemy Unknown* is being supported with add-on content and has also been released as a mobile game, *XCOM: Enemy Unknown for iOS*. We expect *XCOM: Enemy Unknown* to become another successful franchise for the Company. In March 2013, 2K released *BioShock Infinite*, the highest-rated release of 2013 to date on Xbox 360 and the PC according to Metacritic.com. *BioShock Infinite* is being supported with add-on content.

2K publishes a range of realistic sports simulation titles, including our flagship *NBA 2K* series, which has been the top-ranked NBA basketball video game for 12 years running, the *Major League Baseball 2K* series, and our *Top Spin* tennis series. We develop most of our sports simulations software titles through our internal development studios. 2K has secured long-term licensing agreements with the National Basketball Association ("NBA"). Our current licenses with Major League Baseball Properties, the Major League Baseball Players Association and Major League Baseball Advanced Media expire in December 2013. In addition, in February 2013, 2K entered into an exclusive multi-year agreement with WWE to publish the *WWE* video game franchise worldwide.

2K also develops and publishes titles for the casual and family-friendly games market. Internally developed titles include *Carnival Games* and *Let's Cheer!*. 2K also has an agreement with Nickelodeon to publish video games based on its top rated Nick Jr. titles such as *Dora the Explorer*, *Go, Diego, Go!*, *Ni Hao, Kai-lan* and *The Backyardigans*. Our current agreement with Nickelodeon expires in December 2013. Throughout the current fiscal year, 2K has released a slate of new titles designed exclusively for

[Table of Contents](#)

smartphones and tablets, including *Haunted Hollow*, *Sid Meier's Ace Patrol for iOS*, *Beejumbled*, and *Turd Birds*.

We also have expansion initiatives in the rapidly growing Asia markets, where our strategy is to broaden the distribution of our existing products, expand our business in Japan, and establish an online gaming presence, especially in China and Korea. 2K has secured a multi-year license from the NBA to develop an online version of the NBA simulation game in China, Taiwan, South Korea and Southeast Asia. In October 2012, *NBA 2K Online*, our free-to-play NBA simulation game co-developed by 2K and Tencent, launched commercially on the Tencent Games portal in China. In May 2013, *Pro Baseball 2K*, our online baseball simulation game co-developed by 2K and Nexon Corporation, launched commercially in Korea. In addition, during the summer of 2012, 2K released our first mobile social game for Japan, *NBA 2K All Stars* on the GREE social platform.

Discontinued operations

In February 2010, we completed the sale to SYNnex Corporation ("Synnex") of our Jack of All Games third-party distribution business, which primarily distributed third-party interactive entertainment software, hardware and accessories in North America. The financial information of our distribution business has been classified as discontinued operations in the Unaudited Condensed Consolidated Financial Statements for all of the periods presented. See Note 2 to our Unaudited Condensed Consolidated Financial Statements for additional information regarding discontinued operations.

Trends and Factors Affecting our Business

Product Release Schedule. Our financial results are affected by the timing of our product releases and the commercial success of those titles. Our *Grand Theft Auto* products in particular have historically accounted for a substantial portion of our revenue. Sales of *Grand Theft Auto* products generated approximately 19.7% of the Company's net revenue for the three months ended June 30, 2013. The timing of our *Grand Theft Auto* releases varies significantly, which in turn may impact our financial performance on a quarterly and annual basis.

Economic Environment and Retailer Performance. We continue to monitor economic conditions that may unfavorably affect our businesses, such as deteriorating consumer demand, pricing pressure on our products, credit quality of our receivables, and foreign currency exchange rates. Our business is dependent upon a limited number of customers who account for a significant portion of our revenue. Our five largest customers accounted for 61.7% and 48.7% of net revenue during the three months ended June 30, 2013 and 2012, respectively. As of June 30, 2013 and March 31, 2013, our five largest customers comprised approximately 58.5% and 57.2% of our gross accounts receivable, respectively, with our significant customers (those that individually comprised more than 10% of our gross accounts receivable balance) accounting for approximately 45.6% and 30.5% of such balance at June 30, 2013 and March 31, 2013, respectively. The economic environment has affected our customers in the past, and may do so in the future. Bankruptcies or consolidations of our large retail customers could seriously hurt our business, due to uncollectible accounts receivables and the concentration of purchasing power among the remaining large retailers. Certain of our large customers sell used copies of our games, which may negatively affect our business by reducing demand for new copies of our games. While the downloadable content that we now offer for certain of our titles may serve to reduce used game sales, we expect used game sales to continue to adversely affect our business.

Hardware Platforms. We derive most of our revenue from the sale of products made for video game platforms manufactured by third-parties, such as Sony's PS3, Microsoft's Xbox 360 and Nintendo's Wii, which comprised approximately 72.0% of the Company's net revenue by product platform for the three months ended June 30, 2013. The success of our business is dependent upon the

[Table of Contents](#)

consumer acceptance of these platforms and the continued growth in the installed base of these platforms. When new hardware platforms are introduced, demand for software based on older platforms declines, which may negatively affect our business. In February 2013, Sony announced that it intends to launch its PlayStation®4 system by the 2013 year-end holiday buying season. In May 2013, Microsoft announced that it intends to launch Xbox One®, the all-in-one games and entertainment system, later in the year. We continually monitor console hardware sales, as well as the development of "next-generation" consoles. We manage our product delivery on each current and future platform in a manner we believe to be most effective to maximize our revenue opportunities and achieve the desired return on our investments in product development. Additionally, our development costs are generally higher for titles based on new platforms, and we have limited ability to predict the consumer acceptance of the new platforms, which may affect our sales and profitability. As a result, our strategy is to focus our development efforts on a select number of the highest quality titles for these platforms, while also expanding our offerings for emerging platforms such as mobile and online games.

Online Content and Digital Distribution. The interactive entertainment software industry is delivering a growing amount of content through digital online delivery methods. We provide a variety of online delivered products and offerings. A number of our titles that are available through retailers as packaged goods products are also available through direct digital download through the Internet (from websites we own and others owned by third-parties) to the consumers' console systems or PC. We also offer downloadable add-on content to our packaged goods titles. In addition, we are publishing an expanding variety of titles for tablets and smartphones, which are delivered to consumers through digital download through the Internet. Note 11 to our Unaudited Condensed Consolidated Financial Statements, "Segment and Geographic Information," discloses that net revenue from digital online channels comprised approximately 51.1% of the Company's net revenue by distribution channel for the three months ended June 30, 2013. We expect online delivery of games and game offerings to become an increasing part of our business over the long-term.

Product Releases

We did not release any key titles during the three months ended June 30, 2013.

Critical Accounting Policies and Estimates

Our most critical accounting policies, which are those that require significant judgment, include: revenue recognition; allowances for returns, price concessions and other allowances; capitalization and recognition of software development costs and licenses; fair value estimates including inventory obsolescence, valuation of goodwill, intangible assets and long-lived assets; valuation and recognition of stock-based compensation; and income taxes. In-depth descriptions of these can be found in our Annual Report on Form 10-K for the fiscal year ended March 31, 2013.

Recently Issued Accounting Pronouncements

Reclassification of Accumulated Other Comprehensive Income

In February 2013, new guidance was issued requiring new disclosures about reclassifications from accumulated other comprehensive income to net income. This new guidance requires an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under U.S. GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under U.S. GAAP that provide additional detail about those amounts. The new guidance is effective prospectively for annual and interim periods beginning after December 15, 2012 (April 1, 2013 for the Company). The adoption of this new guidance did not have a material impact on our Condensed Consolidated Financial Statements and the required disclosures are provided in Note 10.

Results of Operations

(1) Includes \$1,098 and \$4,948 of stock-based compensation expense in 2013 and 2012, respectively.

Net revenue decreased \$83.5 million for the three months ended June 30, 2013 as compared to the prior year. This decrease is primarily due to \$133.9 million in lower sales of *Max Payne 3*, which released in May 2012, and *Spec Ops: The Line*, which released in June 2012. These decreases were partially offset by \$44.0 million in net revenue from the releases of *Borderlands 2* in September 2012 and *BioShock Infinite* in March 2013 as well as an increase of approximately \$2.3 million in sales of our *Grand Theft Auto* franchise.

Net revenue on consoles decreased to 72.6% of our total net revenue for the three months ended June 30, 2013 as compared to 84.1% for the same period in the prior year primarily due to the increased percentage of total net revenue on PC and other platforms. PC and other sales increased to 24.9% of our total net revenue for the three months ended June 30, 2013 as compared to 14.1% for the prior year primarily due to an increase in net revenue resulting from the PC releases of *Borderlands 2* in September 2012, *BioShock Infinite* in March 2013 and *XCOM: Enemy Unknown* in October 2012 and the iOS release of *Grand Theft Auto: Vice City 10th Anniversary Edition* in December 2012, partially offset by the decrease in net revenue from the June 2012 release of *Max Payne 3* on the PC. Handheld sales accounted for 2.5% of our total net revenue for the three months ended June 30, 2013 which is in line with 1.8% for the prior year.

Net revenue from digital online channels increased to 51.1% of our total net revenue for the three months ended June 30, 2013 as compared to 14.4% for the prior year primarily due to the releases of *Borderlands 2* in September 2012 and *BioShock Infinite* in March 2013, as well as higher sales of our *NBA 2K* and *Grand Theft Auto* franchises. Net revenue from physical retail and other channels decreased to 48.9% of our total net revenue for the three months ended June 30, 2013 as compared to 85.6% for the same period in the prior year primarily due to the increased proportion of total net revenue from digital online channels.

Gross profit as a percentage of net revenue for the three months ended June 30, 2013 was 34.2% as compared to 17.4% for the prior year. The increase was primarily due to (i) higher software development costs and royalties during the three months ended June 30, 2012 associated with the May 2012 release of *Max Payne 3* and the June 2012 release of *Spec Ops: The Line*, partially offset by software development impairment charges in the current year related to a 2K title in development and (ii) lower product costs in the current year as a percentage of net revenue as a result of a greater proportion of net revenue from digital online channels, partially offset by a greater share of net revenue in the current year being generated from a product mix with lower selling price points.

Net revenue earned outside of the United States accounted for 40.3% of our total net revenue for the three months ended June 30, 2013, as compared to 53.2% in the prior year. The year-over-year

[Table of Contents](#)

decrease as a percentage of net revenue earned outside of the United States was primarily due to the September 2012 global release of *Borderlands 2* and the March 2013 global release of *BioShock Infinite*, which had proportionally higher net revenue in the United States. Foreign currency exchange rates decreased net revenue and gross profit by \$0.7 million and \$0.5 million, respectively, for the three months ended June 30, 2013 as compared to the prior year.

Foreign currency exchange rates decreased total operating expenses by \$0.5 million for the three months ended June 30, 2013 as compared to the prior year.

Selling and marketing

Selling and marketing expenses decreased \$37.4 million for the three months ended June 30, 2013, as compared to the prior year primarily due to advertising expenses incurred in the prior year for the releases of *Max Payne 3* in May 2012 and *Spec Ops: The Line* in June 2012, partially offset by advertising expenses incurred in the current year for the upcoming release of *Grand Theft Auto V* and the March 2013 release of *BioShock Infinite*.

General and administrative

General and administrative expenses decreased \$10.3 million for the three months ended June 30, 2013, as compared to the prior year primarily due to the absence of a \$15.0 million contractual provision that was triggered in June 2012, partially offset by an increase of \$2.3 million in stock-based compensation expense in the current year primarily due to stock-based awards granted to ZelnickMedia.

General and administrative expenses for the three months ended June 30, 2013 and 2012 include occupancy expense (primarily rent, utilities and office expenses) of \$4.2 million and \$3.9 million, respectively, related to our development studios.

Research and development

Research and development expenses increased \$5.6 million for the three months ended June 30, 2013 as compared to the prior year primarily due to lower payroll capitalization rates at our development studios due to the transition of efforts being refocused to new projects following the March 2013 release of *BioShock Infinite*.

[Table of Contents](#)

Interest and other, net

Interest and other, net was an expense of \$11.2 million for the three months ended June 30, 2013, as compared to an expense of \$8.0 million for the three months ended June 30, 2012. The increase of \$3.2 million was primarily due to a \$1.9 million loss on the change in fair value of our convertible note hedge and warrant transactions in the current year and an increase of \$0.9 million in interest expense associated with our Convertible Notes primarily due to the June 2013 issuance of the 1.00% Convertible Notes.

Provision for income taxes

Income tax expense was \$1.1 million for the three months ended June 30, 2013 as compared to income tax expense of \$1.8 million for the three months ended June 30, 2012. The decrease was primarily attributable to a decrease in gross unrecognized tax benefits in foreign jurisdictions during the three months ended June 30, 2013.

Our effective tax rate differed from the federal statutory rate primarily due to changes in valuation allowances and changes in gross unrecognized tax benefits during the periods.

We are generally no longer subject to audit for U.S. federal income tax returns for periods prior to our fiscal year ended October 31, 2010 and state income tax returns for periods prior to fiscal year ended October 31, 2004. With few exceptions, we are no longer subject to income tax examinations in non-U.S. jurisdictions for years prior to fiscal year ended October 31, 2010. U.S. federal taxing authorities have completed their audit through the fiscal years ended October 31, 2009. Certain U.S. state taxing authorities are currently examining our income tax returns from fiscal years ended October 31, 2004 through October 31, 2009. The determination as to further adjustments to our gross unrecognized tax benefits during the next 12 months is not practicable.

We are regularly audited by domestic and foreign taxing authorities. Audits may result in tax assessments in excess of amounts claimed and the payment of additional taxes. We believe that our tax positions comply with applicable tax law, and that we have adequately provided for reasonably foreseeable tax assessments.

Net loss and net loss per share

For the three months ended June 30, 2013, our net loss was \$61.9 million, as compared to a net loss of \$110.8 million in the prior year. Net loss per share for the three months ended June 30, 2013 was \$0.71 as compared to a net loss per share of \$1.30 for the three months ended June 30, 2012. Basic and diluted weighted average shares outstanding increased compared to the prior year period primarily due to the vesting of restricted stock awards over the last twelve months. See Note 9 to our unaudited condensed consolidated financial statements for additional information regarding net loss per share.

Liquidity and Capital Resources

Our primary cash requirements have been to fund (i) the development, manufacturing and marketing of our published products, (ii) working capital, (iii) acquisitions and (iv) capital expenditures. We expect to rely on funds provided by our operating activities, our Credit Agreement and our Convertible Notes to satisfy our working capital needs.

Credit Agreement

In October 2011, we entered into a Second Amended and Restated Credit Agreement (the "Credit Agreement") which amended and restated our July 2007 Credit Agreement. The Credit Agreement provides for borrowings of up to \$100.0 million, which may be increased by up to \$40.0 million pursuant to the terms of the Credit Agreement, and is secured by substantially all of our assets and the

[Table of Contents](#)

equity of our subsidiaries. The Credit Agreement expires on October 17, 2016. Revolving loans under the Credit Agreement bear interest at our election of (a) 1.50% to 2.00% above a certain base rate (4.75% at June 30, 2013), or (b) 2.50% to 3.00% above the LIBOR Rate (approximately 2.69% at June 30, 2013), with the margin rate subject to the achievement of certain average liquidity levels. We are also required to pay a monthly fee on the unused available balance, ranging from 0.375% to 0.50% based on availability.

Availability under the Credit Agreement is restricted by our United States and United Kingdom based accounts receivable and inventory balances. The Credit Agreement also allows for the issuance of letters of credit in an aggregate amount of up to \$25.0 million.

As of June 30, 2013, there was \$71.9 million available to borrow under the Credit Agreement. At June 30, 2013, we had no outstanding borrowings under the Credit Agreement and \$1.7 million of letters of credit outstanding.

The Credit Agreement contains covenants that substantially limit us and our subsidiaries' ability to: create, incur, assume or be liable for indebtedness; dispose of assets outside the ordinary course of business; acquire, merge or consolidate with or into another person or entity; create, incur or allow any lien on any of their respective properties; make investments; or pay dividends or make distributions (each subject to certain limitations); or optionally prepay any indebtedness (subject to certain exceptions, including an exception permitting the redemption of the Company's unsecured convertible senior notes upon the meeting of certain minimum liquidity requirements). In addition, the Credit Agreement provides for certain events of default such as nonpayment of principal and interest, breaches of representations and warranties, noncompliance with covenants, acts of insolvency, default on indebtedness held by third parties and default on certain material contracts (subject to certain limitations and cure periods). The Credit Agreement also contains a requirement that we maintain an interest coverage ratio of more than one to one for the trailing twelve month period, if certain average liquidity levels fall below \$30.0 million. As of June 30, 2013, we were in compliance with all covenants and requirements outlined in the Credit Agreement.

4.375% Convertible Notes Due 2014

In June 2009, we issued \$138.0 million aggregate principal amount of 4.375% Convertible Notes due 2014 (the "4.375% Convertible Notes"). Interest on the 4.375% Convertible Notes is payable semi-annually in arrears on June 1st and December 1st of each year, and commenced on December 1, 2009. The 4.375% Convertible Notes mature on June 1, 2014, unless earlier redeemed or repurchased by the Company or converted. As further described below, on June 12, 2013, we issued a notice of redemption calling all of our outstanding 4.375% Convertible Notes for redemption on August 29, 2013.

The 4.375% Convertible Notes are convertible at an initial conversion rate of 93.6768 shares of our common stock per \$1,000 principal amount of 4.375% Convertible Notes (representing an initial conversion price of approximately \$10.675 per share of common stock for a total of approximately 12,927,000 underlying conversion shares) subject to adjustment in certain circumstances. Holders may convert the 4.375% Convertible Notes at their option prior to the close of business on the business day immediately preceding December 1, 2013 only under the following circumstances: (1) during any fiscal quarter commencing after July 31, 2009, if the last reported sale price of the common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the preceding fiscal quarter is greater than or equal to 130% of the applicable conversion price on each applicable trading day; (2) during the five business day period after any 10 consecutive trading day period (the "measurement period") in which the trading price per \$1,000 principal amount of 4.375% Convertible Notes for each day of that measurement period was less than 98% of the product of the last reported sale price of our common stock and the applicable conversion

[Table of Contents](#)

rate on each such day; (3) if we call the 4.375% Convertible Notes for redemption, at any time prior to the close of business on the third scheduled trading day prior to the redemption date; or (4) upon the occurrence of specified corporate events. On and after December 1, 2013 until the close of business on the third scheduled trading day immediately preceding the maturity date, holders may convert their 4.375% Convertible Notes at any time, regardless of the foregoing circumstances. Upon conversion, the 4.375% Convertible Notes may be settled, at our election, in cash, shares of our common stock, or a combination of cash and shares of our common stock.

At any time on or after June 5, 2012, the Company may redeem all of the outstanding 4.375% Convertible Notes for cash, but only if the last reported sale of our common stock for 20 or more trading days in a period of 30 consecutive trading days ending on the trading day prior to the date we provide notice of redemption to holders of the 4.375% Convertible Notes exceeds 150% of the conversion price in effect on each such trading day. This condition was met on June 12, 2013. The redemption price will equal 100% of the principal amount of the 4.375% Convertible Notes to be redeemed, plus all accrued and unpaid interest (including additional interest, if any) to, but excluding, the redemption date.

The indenture governing the 4.375% Convertible Notes contains customary terms and covenants and events of default. As of June 30, 2013, we were in compliance with all covenants and requirements outlined in the indenture governing the 4.375% Convertible Notes.

On June 12, 2013, we issued a notice of redemption calling all of our outstanding 4.375% Convertible Notes, in aggregate principal amount of \$138.0 million, for redemption on August 29, 2013 at a redemption price of \$1,000 per \$1,000 principal amount, plus accrued and unpaid interest up to, but not including, the redemption date. Holders who elect to convert following receipt of the notice of redemption shall be entitled to make-whole shares in addition to such shares they would otherwise be entitled to receive upon conversion. The notice of redemption specified that we will settle any 4.375% Convertible Notes surrendered for conversion in connection with the redemption on a combination settlement basis by paying cash up to a cash amount equal to \$166.0 million in the aggregate of converted notes and delivering shares of our common stock in respect of the amount, if any, by which our conversion obligation exceeds such cash amount.

On June 12, 2013, the Company entered into Unwind Agreements with respect to the convertible note hedge transactions and Unwind Agreements with respect to the warrant transactions associated with the offering of the 4.375% Convertible Notes with each of the hedge counterparties (collectively, the "Unwind Agreements"). Pursuant to the terms of the Unwind Agreements, and in connection with the Company's issuance of a notice of redemption for all the 4.375% Convertible Notes, the Company has the right to deliver a notice to the hedge counterparties, prior to the redemption date set forth in such redemption notice, designating an early termination date for the convertible note hedge transactions and warrant transactions. The hedge counterparties will owe a cash payment to the Company as a result of the early termination of the convertible note hedge transactions that will be calculated based on its current fair market value. The Company will owe a cash payment to the hedge counterparties, as applicable, as a result of the early termination of the warrant transactions that will be calculated based on its current fair market value. As a result of the Unwind Agreements, the convertible note hedge transactions and warrant transactions are accounted for as derivatives whereby the fair values of these transactions are reported as a convertible note hedge receivable and as a convertible note warrant liability on our Condensed Consolidated Balance Sheets with an offsetting impact to additional paid-in capital. Gains and losses resulting from changes in the fair value are reported in interest and other, net, in our Condensed Consolidated Statements of Operations. As of June 30, 2013, the fair value of the convertible note hedge transactions was approximately \$62.8 million and is reported as a convertible note hedge receivable and the fair value of the warrant transactions was approximately \$39.4 million and is reported as a convertible note warrant liability. During the three months ended June 30, 2013, we recorded a loss of approximately \$4.4 million resulting from the

[Table of Contents](#)

change in the fair value of the convertible note hedge transactions and a gain of approximately \$2.5 million resulting from the change in the fair value of the convertible note warrant liability to interest and other, net, in our Condensed Consolidated Statements of Operations. The fair values of these convertible note hedge transactions and warrant transactions were estimated using a Black-Scholes-Merton based approach before the modification of the Unwind Agreements and a Monte Carlo Simulation method based on simulated future stock prices after the modification of the Unwind Agreements.

1.75% Convertible Notes Due 2016

On November 16, 2011, we issued \$250.0 million aggregate principal amount of 1.75% Convertible Notes due 2016 (the "1.75% Convertible Notes"). Interest on the 1.75% Convertible Notes is payable semi-annually in arrears on June 1st and December 1st of each year, commencing on June 1, 2012. The 1.75% Convertible Notes mature on December 1, 2016, unless earlier repurchased by the Company or converted. The Company does not have the right to redeem the 1.75% Convertible Notes prior to maturity.

The 1.75% Convertible Notes are convertible at an initial conversion rate of 52.3745 shares of our common stock per \$1,000 principal amount of 1.75% Convertible Notes (representing an initial conversion price of approximately \$19.093 per share of common stock for a total of approximately 13,094,000 underlying conversion shares) subject to adjustment in certain circumstances. Holders may convert the 1.75% Convertible Notes at their option prior to the close of business on the business day immediately preceding June 1, 2016 only under the following circumstances: (1) during any fiscal quarter commencing after March 31, 2012, if the last reported sale price of the common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the preceding fiscal quarter is greater than or equal to 130% of the applicable conversion price on each applicable trading day; (2) during the five business day period after any 10 consecutive trading day period (the "measurement period") in which the trading price per \$1,000 principal amount of 1.75% Convertible Notes for each day of that measurement period was less than 98% of the product of the last reported sale price of our common stock and the applicable conversion rate on each such day; or (3) upon the occurrence of specified corporate events. On and after June 1, 2016 until the close of business on the business day immediately preceding the maturity date, holders may convert their 1.75% Convertible Notes at any time, regardless of the foregoing circumstances. Upon conversion, the 1.75% Convertible Notes may be settled, at our election, in cash, shares of our common stock, or a combination of cash and shares of the Company's common stock.

The indenture governing the 1.75% Convertible Notes contains customary terms and covenants and events of default. As of June 30, 2013, we were in compliance with all covenants and requirements outlined in the indenture governing the 1.75% Convertible Notes.

1.00% Convertible Notes Due 2018

On June 18, 2013, we issued \$250.0 million aggregate principal amount of 1.00% Convertible Notes due 2018 (the "1.00% Convertible Notes" and together with the 4.375% Convertible Notes and the 1.75% Convertible Notes, the "Convertible Notes"). The 1.00% Convertible Notes were issued at 98.5% of par value for proceeds of \$246.3 million. Interest on the 1.00% Convertible Notes is payable semi-annually in arrears on July 1st and January 1st of each year, commencing on January 1, 2014. The 1.00% Convertible Notes mature on July 1, 2018, unless earlier repurchased by the Company or converted. The Company does not have the right to redeem the 1.00% Convertible Notes prior to maturity. The Company also granted the underwriters a 30-day option to purchase up to an additional \$37.5 million principal amount of 1.00% Convertible Notes to cover overallocments, if any. On July 17, 2013, the Company closed its public offering of \$37.5 million principal amount of the Company's 1.00%

[Table of Contents](#)

Convertible Notes as a result of the underwriters exercising their overallotment option in full on July 12, 2013, bringing the proceeds to \$283.2 million.

The 1.00% Convertible Notes are convertible at an initial conversion rate of 46.4727 shares of our common stock per \$1,000 principal amount of 1.00% Convertible Notes (representing an initial conversion price of approximately \$21.52 per share of common stock) subject to adjustment in certain circumstances. Holders may convert the 1.00% Convertible Notes at their option prior to the close of business on the business day immediately preceding January 1, 2018 only under the following circumstances: (1) during any fiscal quarter commencing after September 30, 2013, if the last reported sale price of the common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the preceding fiscal quarter is greater than or equal to 130% of the applicable conversion price on each applicable trading day; (2) during the five business day period after any 10 consecutive trading day period (the "measurement period") in which the trading price per \$1,000 principal amount of 1.00% Convertible Notes for each day of that measurement period was less than 98% of the product of the last reported sale price of our common stock and the applicable conversion rate on each such day; or (3) upon the occurrence of specified corporate events. On and after January 1, 2018 until the close of business on the business day immediately preceding the maturity date, holders may convert their 1.00% Convertible Notes at any time, regardless of the foregoing circumstances. Upon conversion, the 1.00% Convertible Notes may be settled, at our election, in cash, shares of our common stock, or a combination of cash and shares of the Company's common stock.

The indenture governing the 1.00% Convertible Notes contains customary terms and covenants and events of default. As of June 30, 2013, we were in compliance with all covenants and requirements outlined in the indenture governing the 1.00% Convertible Notes.

Financial Condition

We are subject to credit risks, particularly if any of our receivables represent a limited number of customers or are concentrated in foreign markets. If we are unable to collect our accounts receivable as they become due, it could adversely affect our liquidity and working capital position.

Generally, we have been able to collect our accounts receivable in the ordinary course of business. We do not hold any collateral to secure payment from customers. We have trade credit insurance on the majority of our customers to mitigate accounts receivable risk.

A majority of our trade receivables are derived from sales to major retailers and distributors. Our five largest customers accounted for approximately 61.7% and 48.7% of net revenue for the three months ended June 30, 2013 and 2012, respectively. As of June 30, 2013 and March 31, 2013, amounts due from our five largest customers comprised approximately 58.5% and 57.2% of our gross accounts receivable balance, respectively, with our significant customers (those that individually comprised more than 10% of our gross accounts receivable balance) accounting for approximately 45.6% and 30.5% of such balance at June 30, 2013 and March 31, 2013, respectively. Based upon performing ongoing credit evaluations, maintaining trade credit insurance on a majority of our customers and our past collection experience, we believe that the receivable balances from these largest customers do not represent a significant credit risk, although we actively monitor each customer's credit worthiness and economic conditions that may affect our customers' business and access to capital. We are monitoring the current global economic conditions, including credit markets and other factors as it relates to our customers in order to manage the risk of uncollectible accounts receivable.

We believe our current cash and cash equivalents and projected cash flow from operations, along with availability under our Credit Agreement will provide us with sufficient liquidity to satisfy our cash requirements for working capital, capital expenditures and commitments through at least the next 12 months.

[Table of Contents](#)

As of June 30, 2013, the amount of cash and cash equivalents held outside of the U.S. by our foreign subsidiaries was approximately \$144.2 million. These balances are dispersed across various locations around the world. We believe that such dispersion meets the business and liquidity needs of our foreign affiliates. In addition, the Company expects in the foreseeable future to have the ability to generate sufficient cash domestically to support ongoing operations. Consequently, it is the Company's intention to indefinitely reinvest undistributed earnings of its foreign subsidiaries. In the event the Company needed to repatriate funds outside of the U.S., such repatriation may be subject to local laws and tax consequences including foreign withholding taxes or U.S. income taxes. It is not practicable to estimate the tax liability and the Company would try to minimize the tax impact to the extent possible. However, any repatriation may not result in actual cash payments as the taxable event would likely be offset by the utilization of the then available net operating losses and tax credits.

In January 2013, our board of directors authorized the repurchase of up to 7,500,000 shares of our common stock. The authorization permits the Company to purchase shares from time to time through a variety of methods, including in the open market or through privately negotiated transactions, in accordance with applicable securities laws. It does not obligate the Company to make any purchases at any specific time or situation. Repurchases are subject to the availability of stock, prevailing market conditions, the trading price of the stock, the Company's financial performance and other conditions. The program may be suspended or discontinued at any time for any reason. Through June 30, 2013, the Company has not repurchased any shares of our common stock as part of the program.

Our changes in cash flows were as follows:

<u>(thousands of dollars)</u>	<u>Three Months Ended</u>	
	<u>June 30,</u>	
	<u>2013</u>	<u>2012</u>
Net cash provided by (used in) operating activities	\$ 7,201	\$ (52,516)
Net cash used in investing activities	(7,994)	(3,290)

Effects of foreign currency exchange rates on cash and cash equivalents	399	2,583
Net increase (decrease) in cash and cash equivalents	\$ 243,813	\$ (53,223)

At June 30, 2013 we had \$646.3 million of cash and cash equivalents, compared to \$402.5 million at March 31, 2013. The increase in cash and cash equivalents from March 31, 2013 was primarily a result of cash provided by financing activities generated from the proceeds of \$246.3 million from the issuance of \$250.0 million aggregate principal amount of 1.00% Convertible Notes in June 2013 along with \$154.4 million generated by the collection of accounts receivable balances primarily attributable to the release of *BioShock Infinite* near the end of the fiscal year, partially offset by \$92.6 million in payments attributable to accounts payable and accruals primarily related to *BioShock Infinite* and royalties payable and investments in software development of \$42.1 million.

Contractual Obligations and Commitments

We have entered into various agreements in the ordinary course of business that require substantial cash commitments over the next several years. Other than agreements entered into in the ordinary course of business and in addition to the agreements requiring known cash commitments as reported in Part II, Item 7 of our Annual Report on Form 10-K for the fiscal year ended March 31, 2013, in June 2013, we (i) issued a notice of redemption calling all of our outstanding 4.375% Convertible Notes for redemption on August 29, 2013, (ii) entered into Unwind Agreements with respect to the warrant transactions associated with the offering of the 4.375% Convertible Notes and (iii) issued \$250.0 million principal amount of 1.00% Convertible Notes during the three months ended

[Table of Contents](#)

June 30, 2013. Interest on the 1.00% Convertible Notes is payable semi-annually in arrears on July 1st and January 1st of each year, commencing on January 1, 2014. The 1.00% Convertible Notes mature on July 1, 2018, unless earlier repurchased by the Company or converted. For additional details on our Convertible Notes see Note 8 to our Unaudited Condensed Consolidated Financial Statements.

Off-Balance Sheet Arrangements

As of June 30, 2013 and March 31, 2013, we did not have any material relationships with unconsolidated entities or financial parties, such as entities often referred to as structured finance or variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. As such, we are not exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in such relationships.

International Operations

Net revenue earned outside of the United States is principally generated by our operations in Europe, Canada, Latin America, Asia and Australia. For the three months ended June 30, 2013 and 2012, approximately 40.3% and 53.2%, respectively, of our net revenue was earned outside of the United States. We are subject to risks inherent in foreign trade, including increased credit risks, tariffs and duties, fluctuations in foreign currency exchange rates, shipping delays and international political, regulatory and economic developments, all of which can have a significant effect on our operating results.

Fluctuations in Quarterly Operating Results and Seasonality

We have experienced fluctuations in quarterly operating results as a result of the timing of the introduction of new titles; variations in sales of titles developed for particular platforms; market acceptance of our titles; development and promotional expenses relating to the introduction of new titles; sequels or enhancements of existing titles; projected and actual changes in platforms; the timing and success of title introductions by our competitors; product returns; changes in pricing policies by us and our competitors; the accuracy of retailers' forecasts of consumer demand; the size and timing of acquisitions; the timing of orders from major customers; and order cancellations and delays in product shipment. Sales of our titles are also seasonal, with higher shipments typically occurring in the fourth calendar quarter as a result of increased demand for titles during the holiday season. Quarterly comparisons of operating results are not necessarily indicative of future operating results.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

Historically, fluctuations in interest rates have not had a significant impact on our operating results. Under our Credit Agreement, outstanding balances bear interest at our election of (a) 1.50% to 2.00% above a certain base rate (4.75% at June 30, 2013), or (b) 2.50% to 3.00% above the LIBOR rate (approximately 2.69% at June 30, 2013), with the margin rate subject to the achievement of certain average liquidity levels. Changes in market rates may impact our future interest expense if there is an outstanding balance on our line of credit. The 1.00% Convertible Notes, 1.75% Convertible Notes and 4.375% Convertible Notes pay interest semi-annually at a fixed rate of 1.00%, 1.75% and 4.375%, respectively, per annum and we expect that there will be no fluctuation in rates related to the Convertible Notes impacting our cash component of interest expense. For additional details on our Convertible Notes see Note 8 to our Unaudited Condensed Consolidated Financial Statements.

Foreign Currency Exchange Rate Risk

We transact business in foreign currencies and are exposed to risks resulting from fluctuations in foreign currency exchange rates. Accounts relating to foreign operations are translated into United States dollars using prevailing exchange rates at the relevant period end. Translation adjustments are included as a separate component of stockholders' equity. For the three months ended June 30, 2013, our foreign currency translation loss adjustment was approximately \$0.8 million. We recognized a foreign currency exchange transaction loss for the three months ended June 30, 2013 and 2012 of \$0.7 million and \$0.6 million, respectively, in interest and other, net in our Condensed Consolidated Statements of Operations.

Cash Flow Hedging Activities

We use foreign currency forward contracts to mitigate foreign currency exchange rate risk associated with forecasted transactions involving non-functional currency denominated expenditures. These contracts, which are designated and qualify as cash flow hedges, are accounted for as derivatives whereby the fair value of the contracts is reported as either assets or liabilities on our Condensed Consolidated Balance Sheets. The effective portion of gains or losses resulting from changes in the fair value of these hedges is initially reported, net of tax, as a component of accumulated other comprehensive income (loss) in stockholders' equity. The gross amount of the effective portion of gains or losses resulting from changes in the fair value of these hedges is subsequently reclassified into cost of goods sold or research and development expenses, as appropriate, in the period when the forecasted transaction is recognized in our Condensed Consolidated Statements of Operations. In the event that the gains or losses in accumulated other comprehensive income (loss) are deemed to be ineffective, the ineffective portion of gains or losses resulting from changes in fair value, if any, is reclassified to interest and other, net, in our Condensed Consolidated Statements of Operations. In the event that the underlying forecasted transactions do not occur, or it becomes probable that they will not occur, within the defined hedge period, the gains or losses on the related cash flow hedges are reclassified from accumulated other comprehensive income (loss) to interest and other, net, in our Condensed Consolidated Statements of Operations. During the reporting periods presented, all forecasted transactions occurred, and therefore, there were no such gains or losses reclassified into interest and other, net. We do not enter into derivative financial contracts for speculative or trading purposes. At June 30, 2013 and March 31, 2013, we had \$5.5 million and \$7.9 million, respectively, of forward contracts outstanding to buy foreign currencies in exchange for U.S. dollars all of which have maturities of less than one year. As of June 30, 2013, the fair value of these outstanding forward contracts was immaterial and is included in accrued expenses and other current liabilities. As of March 31, 2013, the fair value of these outstanding forward contracts was immaterial and is included in prepaid expenses

and other. The fair value of these outstanding forward contracts is estimated based on the prevailing exchange rates of the various hedged currencies as of the end of the period.

Balance Sheet Hedging Activities

We use foreign currency forward contracts to mitigate foreign currency exchange rate risk associated with non-functional currency denominated cash balances and inter-company funding loans, non-functional currency denominated accounts receivable and non-functional currency denominated accounts payable. These transactions are not designated as hedging instruments and are accounted for as derivatives whereby the fair value of the contracts is reported as either assets or liabilities on our Condensed Consolidated Balance Sheets, and gains and losses resulting from changes in the fair value are reported in interest and other, net, in our Condensed Consolidated Statements of Operations. We do not enter into derivative financial contracts for speculative or trading purposes. At June 30, 2013 and March 31, 2013, we had \$19.5 million and \$55.4 million, respectively, of forward contracts outstanding to sell foreign currencies in exchange for U.S. dollars all of which have maturities of less than one year. For the three months ended June 30, 2013 and 2012, we recorded gains of \$0.5 million and \$1.7 million, respectively, related to foreign currency forward contracts in interest and other, net on the Condensed Consolidated Statements of Operations. As of June 30, 2013 and March 31, 2013, the fair value of these outstanding forward contracts was immaterial and is included in accrued expenses and other current liabilities. The fair value of these outstanding forward contracts is estimated based on the prevailing exchange rates of the various hedged currencies as of the end of the period.

Our hedging programs are designed to reduce, but do not entirely eliminate, the effect of currency exchange rate movements. We believe the counterparties to these foreign currency forward contracts are creditworthy multinational commercial banks and that the risk of counterparty nonperformance is not material. Notwithstanding our efforts to mitigate some foreign currency exchange rate risks, there can be no assurance that our hedging activities will adequately protect us against the risks associated with foreign currency fluctuations. For the three months ended June 30, 2013, 40.3% of the Company's revenue was generated outside the United States. Using sensitivity analysis, a hypothetical 10% increase in the value of the U.S. dollar against all currencies would decrease revenues by 4.0%, while a hypothetical 10% decrease in the value of the U.S. dollar against all currencies would increase revenues by 4.0%. In the opinion of management, a substantial portion of this fluctuation would be offset by cost of goods sold and operating expenses incurred in local currency.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Based on an evaluation under the supervision and with the participation of management, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures as defined in rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended ("Exchange Act") were effective as of the end of the period covered by this report to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms and (ii) accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended June 30, 2013, which were identified in connection with management's evaluation required by

paragraph (d) of Rules 13a-15 and 15d-15 under the Exchange Act, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are, or may become, subject to demands and claims (including intellectual property claims) and are involved in routine litigation in the ordinary course of business which we do not believe to be material to our business or financial statements. We have appropriately accrued amounts related to certain of these claims and legal and other proceedings. While it is reasonably possible that a loss may be incurred in excess of the amounts accrued in our financial statements, we believe that such losses, unless otherwise disclosed, would not be material.

Item 1A. Risk Factors

There have been no material changes to the Risk Factors disclosed in Item 1A of our Annual Report on Form 10-K for the fiscal year ended March 31, 2013 other than the following.

We expect to implement a new enterprise resource planning (ERP) system later this year, and we may encounter technical or operational difficulties during the transition that could disrupt our operations.

We expect to implement a new enterprise resource planning (ERP) system later this year, and we may encounter technical and operating difficulties during the transition to that new system. We may experience problems in implementing the new system as our employees learn the new system, transfer data from our existing system to the new system and operate with the new system. The transition may not be completed promptly or at all, or could require us to revert to the currently existing system. Any difficulties that we encounter in implementing the new system may disrupt our ability to deal effectively with our employees, vendors, customers and other companies with which we have commercial relationships and also may prevent us from effectively closing a quarterly period and reporting our financial results in a timely manner. If we are unable to produce accurate and timely financial statements, our stock price may be adversely affected and we may be unable to maintain compliance with the listing requirements of the Nasdaq Global Market.

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER
Section 302 Certification

I, Strauss Zelnick, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2013 of Take-Two Interactive Software, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
