Forward-Looking Statements

Except for the historical information contained herein, the matters discussed in this news release include forward-looking statements which are the Company's current views with respect to future events and financial performance. These forward-looking statements are subject to many assumptions, risks and uncertainties that could cause actual results to differ significantly from historical results or those anticipated by the Company. The most significant of these risks are detailed from time to time in the Company's filings and reports with the Securities and Exchange Commission including the Company's annual report on Form 10-K for the year ended December 31, 2012. Such risks include – but are not limited to – our ability to close the acquisition of the remaining portion of Ally Financial's international operations that we have not already acquired and integrate the operations that we have acquired and will acquire into our business successfully, changes in general economic and business conditions, GM's ability to sell new vehicles that we finance, our dependence on the financial condition of GM dealers, interest rate and exchange rate fluctuations, our financial condition and liquidity, as well as future cash flows and earnings, competition, the effect, interpretation or application of new or existing laws, regulations, court decisions and accounting pronouncements, the availability of sources of financing, the level of net charge-offs, delinquencies and prepayments on the loans and leases we originate, the prices at which used cars are sold in the wholesale auction markets, and changes in business strategy, including acquisitions and expansion of product lines and credit risk appetite. If one or more of these risks of uncertainties materializes, or if underlying assumptions prove incorrect, the Company's actual results may vary materially from those expected, estimated or projected. Actual events or results may differ materially. It is advisable not to place undue reliance on any forward-looking statements. The Company undertakes no obligation to, and does not, publicly update or revise any forward-looking statements, except as required by federal securities laws, whether as a result of new information, future events or otherwise.

⁽a) Repossession credit losses for the international segment represent the write-down of receivables to net realizable value, net of any recovery payments received. As a result, a calculation of recoveries as a percentage of gross repossession credit losses is not meaningful.

⁽b) Mandatory credit losses represent accounts 120 days delinquent in the post-acquisition portfolio that are charged off in full, with no recovery amounts realized at time of charge-off, net of any subsequent recoveries as well as the net write-down of consumer finance receivables in repossession to the net realizable value of the repossessed vehicle when the repossessed vehicle is legally available for sale.

⁽c) Average consumer finance receivables are defined as the average daily receivable balance excluding the carrying value adjustment.
