## Forward-Looking and Cautionary Statements

This press release and today's remarks contain projections of future results and other forward-looking statements that involve a number of risks and uncertainties and are made pursuant to the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995.

Important factors that may cause actual results and outcomes to differ materially from those contained in the projections and forward-looking statements included in this press release and today's remarks are described in Altria's publicly filed reports, including in its Annual Report on Form 10-K for the year ended December 31, 2012 and its Quarterly Report on Form 10-Q for the period ended September 30, 2013.

These factors include the following: Altria's tobacco businesses (including PM USA, USSTC, Middleton and Nu Mark) being subject to significant competition; changes in adult tobacco consumer preferences and demand for their products; fluctuations in raw material availability, quality and price; reliance on key facilities and suppliers; reliance on critical information systems, many of which are managed by third-party service providers; fluctuations in levels of customer inventories; the effects of global, national and local economic and market conditions; changes to income tax laws; federal, state and local legislative activity, including actual and potential federal and state excise tax increases; increasing marketing and regulatory restrictions; the effects of price increases related to excise tax increases and concluded tobacco litigation settlements on trade inventories, consumption rates and consumer preferences within price segments; health concerns relating to the use of tobacco products and exposure to environmental tobacco smoke; privately imposed smoking restrictions; and, from time to time, governmental investigations.

Furthermore, the results of Altria's tobacco businesses are dependent upon their continued ability to promote brand equity successfully; to anticipate and respond to new and evolving adult consumer preferences; to develop,

manufacture, market and distribute products that appeal to adult tobacco consumers (including, where appropriate, through arrangements with, or investments in, third parties); to improve productivity; and to protect or enhance margins through cost savings and price increases.

Altria and its tobacco businesses are also subject to federal, state and local government regulation, including broad-based regulation of PM USA and USSTC by the U.S. Food and Drug Administration. Altria and its subsidiaries continue to be subject to litigation, including risks associated with adverse jury and judicial determinations, courts reaching conclusions at variance with the companies' understanding of applicable law, bonding requirements in the limited number of jurisdictions that do not limit the dollar amount of appeal bonds and certain challenges to bond cap statutes.

Altria cautions that the foregoing list of important factors is not complete and does not undertake to update any forward-looking statements that it may make except as required by applicable law. All subsequent written and oral forward-looking statements attributable to Altria or any person acting on its behalf are expressly qualified in their entirety by the cautionary statements referenced above.
