NRG: A Track Record
of Delivering on Our Intentions

Reflecting on NRG Investor Day 2009

NRG: Planning for Two Outcomes

Perfecting the current competitive power generator model (wholesaler of safe, reliable affordable power)

Priorities:

1. Baseload in PJM
2. Low carbon generation
3. Revenue diversification away from Texas
4. Cash accretive acquisitions well below replacement cost
5. Cost synergies through consolidation of G&A; procurement synergies

Transforming to a post-hydrocarbon purveyor of sustainable energy solutions ("Energizing Lifestyles")

Priorities:

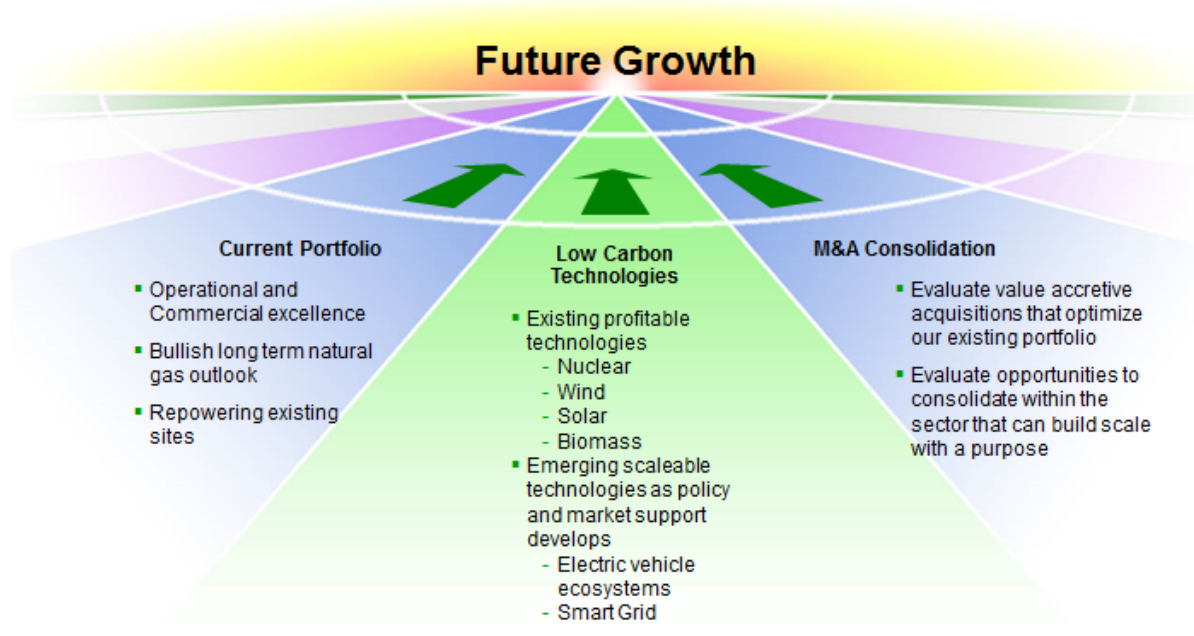

1. Low carbon baseload (primarily nuclear)
2. Renewables... and not just terrestrial wind
3. Fast start, high efficiency gas-fired capacities in each region
4. Electric Vehicle Ecosystems
5. Smart Meter Systems

NRG will look to perfect its core business while using the strength of that business as a springboard into 21st century

Reflecting on NRG Investor Day 2009

We Have Charted a Clear Path to Future Growth

And in pursuing this growth, NRG management knows who we work for...
