Immediate Report Regarding the Sale of Potash to Customers in China

The Company wishes to announce that it completed yesterday the signature of agreements to supply its customers in China with an aggregate 1.1 million metric tons of potash during 2015. The agreements include options for additional 100,000 metric tons of potash. According to the terms of the agreements, the selling price for the first half of the year will be in line with the prevailing market price in China (this reflects an increase of \$10 per metric ton).

According to the contracts, which are part of three-year framework agreements between ICL and its customers in China, most of the quantities which the Company will be unable to supply during the first half of 2015 as a result of the strike at ICL Dead Sea, will be delivered during the second half of the year.
