

# Fact Sheet

SENSATA TECHNOLOGIES

**Sensata Technologies** is a world leader and early innovator in mission-critical sensors and controls. On average, Sensata manufactures over 17,000 different products and ships 1.4 billion units a year under the Sensata brand and more than 12 other familiar brand names.

Our devices are used in automotive, appliance, aircraft, industrial, military, heavy vehicle, heating, air conditioning, data and telecommunications, recreational vehicle and marine applications and help satisfy the world's growing need for safety, energy efficiency and a clean environment, improving safety, efficiency and comfort for millions of people every day.

Our devices improve **safety, efficiency and comfort** for millions of people every day.

## Where are Sensata devices?

**COMMERCIAL JET**  
Up to 1,500 circuit breakers & switches

**AUTOMOBILE**  
Up to 50 sensors & controls

**U.S. HOME**  
30 or more sensors, switches, & other safety devices

**LARGE HVAC SYSTEM**  
Dozens of sensors & switches

**PHOTOVOLTAIC SYSTEM**  
1 to 4 high voltage switches & fuses

**RV & LARGE BOAT**  
Up to 60 power inverters, sensors, & protection devices

**CONSTRUCTION VEHICLE**  
5 to 10 sensors, switches, & circuit breakers

**MOBILE PHONE SYSTEM**  
300 or more circuit breakers, sensors, & switches

## TWO MAJOR BUSINESS SEGMENTS

**Sensing Solutions** – a major player in worldwide electrical and power protection industries.

**Performance Sensing** – a market leader in automotive, heating, ventilation, air conditioning and industrial markets.

## 2016 REVENUES: \$3.2 BILLION

Revenues by region:

## EMPLOYMENT

Over **20,300** employees worldwide as of December 31, 2016

## LOCATIONS

Business centers and manufacturing sites in 13 countries, plus sales and marketing offices worldwide.

## BRIEF HISTORY

- **1916:** We got our start when businessman Rathbun Willard founded the General Plate Company in Attleboro, MA to provide gold plate to the Rhode Island jewelry industry
- **1931:** General Plate merged with Spencer Thermostat Company to create the Metals and Controls Corp.
- **1959:** We merged with Texas Instruments (TI) and became a new TI division
- **2006:** We were reborn as a private company named Sensata Technologies; acquired First Technology
- **2007:** Acquired Airpax Holdings and its four operating units
- **2010:** Held our Initial Public Offering (IPO); began trading on NYSE under "ST"
- **2011:** Bought Honeywell's "Automotive on Board" Sensors business and Elex Group's Sensor-NITE
- **2012:** We acquired WELLS-CTI test socket and thermal control product lines
- **2014:** We acquired Wabash Technologies, DeltaTech Controls, Magnum Power and Schrader International
- **2015:** We acquired Custom Sensors & Technologies' sensing portfolio.
- **2016:** Celebrated Sensata's Centennial. 100 years of improving safety, efficiency and comfort for millions of people.
