AIG TO REPORT FOURTH QUARTER AND FULL YEAR 2009 RESULTS

NEW YORK, February 23, 2010 – American International Group, Inc. (AIG) will report its fourth quarter and full year 2009 results before the market opens on Friday, February 26, 2010. AIG's Annual Report on Form 10-K, earnings release and financial supplement will be available in the Investor Information section of www.aig.com after the results are reported.

It should be noted that the earnings release and financial supplement may include projections and statements which may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These projections and statements are not historical facts but instead represent only AIG's belief regarding future events, many of which, by their nature, are inherently uncertain and outside AIG's control. These projections and statements may address, among other things, the outcome of the completed transactions with the Federal Reserve Bank of New York (FRBNY) and the United States Department of the Treasury (Department of the Treasury), the number, size, terms, cost, proceeds and timing of dispositions and their potential effect on AIG's businesses, financial condition, results of operations, cash flows and liquidity (and AIG at any time and from time to time may change its plans with respect to the sale of one or more businesses), AIG's exposures to subprime mortgages, monoline insurers and the residential and commercial real estate markets, the separation of AIG's businesses from AIG parent company, AIG's ability to retain and motivate its employees and AIG's strategy for customer retention, growth, product development, market position, financial results and reserves. It is possible that AIG's actual results and financial condition will differ, possibly materially, from the anticipated results and financial condition indicated in these projections and statements. Factors that could cause AIG's actual results to differ, possibly materially, from those in the specific projections and statements include a failure to close transactions contemplated in AIG's restructuring plan; developments in global credit markets; and such other factors as discussed throughout Part I, Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, and in Part II, Item 1A. Risk Factors of, AIG's Annual Report on Form 10-K for the year ended December 31, 2009. AIG is not under any obligation (and expressly disclaims any obligation) to update or alter any projection or other statement, whether written or oral, that may be made from time to time, whether as a result of new information, future events or otherwise.
