First Data is furnishing proxy materials to its shareholders through the Internet as permitted under the rules of the Securities and Exchange Commission. Under these rules, many shareholders will receive a Notice of Internet Availability of Proxy Materials instead of a paper copy of the Notice of Annual Meeting of Shareholders and Proxy Statement, our proxy card, and our Annual Report on Form 10-K. We believe this process gives us the opportunity to serve you more efficiently by making the proxy materials available quickly online and reducing costs associated with printing and postage. Shareholders who do not receive a Notice of Internet Availability of Proxy Materials will receive a paper copy of the proxy materials by mail.

Sincerely,

Adam L. Rosman
Executive Vice President, General Counsel, and Secretary

March 31, 2016

Your vote is important. Instructions on how to vote are contained in our Proxy Statement and in the Notice of Internet Availability of Proxy Materials. Please cast your vote by telephone or over the Internet as described in those materials. Questions and Answers About the Annual Meeting

Q: Why did I receive these materials?

A: We are making this Proxy Statement available to you on or around March 31, 2016 because the Board is soliciting your proxy to vote at the 2016 Annual Meeting of Shareholders on May 11, 2016. The information provided in this Proxy Statement is for your use in deciding how to vote on the proposals described below.

Q: Who is entitled to attend and vote at the Annual Meeting?

A: You can attend and vote at the Annual Meeting if, as of the close of business on March 14, 2016 (Record Date), you were a shareholder of record of First Data's Class A common stock or Class B common stock. As of the Record Date, there were 182,458,255 shares of our Class A common stock and 719,330,114 shares of our Class B common stock outstanding.

Q: What are the voting rights of each class of stock?

A: For each proposal, shareholders are entitled to cast one vote for each share of Class A common stock held as of the Record Date and 10 votes for each share of Class B common stock held as of the Record Date. There are no cumulative voting rights.

Q: How do I gain admission to the Annual Meeting?

A: If you are a *registered shareholder*, you must bring with you the Notice of Internet Availability of Proxy Materials and a government-issued photo identification (such as a valid driver's license or passport) or an employee badge issued by First Data to gain admission to the Annual Meeting. If you did not receive a Notice of Internet Availability of Proxy Materials, please call our Investor Relations Department at (404) 890-2647 to request admission to the meeting.

If you hold your shares in *street name* and want to attend the Annual Meeting, you must bring your government-issued photo identification or an employee badge issued by First Data, together with:

- The Notice of Internet Availability of Proxy Materials you received from your broker, bank or other holder of record; or
- A letter from your broker, bank or other holder of record indicating that you were the beneficial owner of First Data stock as of the Record Date; or
- Your most recent account statement indicating that you were the beneficial owner of First Data stock as of the Record Date.

All packages and bags are subject to inspection.

Q: What is the difference between a registered shareholder and a shareholder who owns stock in street name?

A: If you hold shares of Class A common stock or Class B common stock directly in your name, you are a *registered shareholder*. If you own your First Data shares indirectly through a broker, bank or other holder of record, those shares are held in *street name*.

Q: Can I vote my shares before the Annual Meeting?

A: Yes. If you are a *registered shareholder*, there are three ways to vote your shares before the Annual Meeting:

- By Internet (*www.proxyvote.com*) – Use the Internet to transmit your voting instructions until 11:59 p.m. ET on May 10, 2016. Have your Notice of Internet Availability of Proxy Materials or proxy card available and follow the instructions on the website to vote your shares.
- By telephone (1-800-690-6903) – Submit your vote by telephone until 11:59 p.m. ET on May 10, 2016. Have your Notice of Internet Availability of Proxy Materials or proxy card available and follow the instructions provided by the recorded message to vote your shares.
- By mail – If you received a paper copy of the proxy materials, you can vote by mail by filling out the proxy card enclosed with those materials and returning it using the instructions on the card. To be valid, proxy cards must be received before the start of the Annual Meeting.

If your shares are held in *street name*, your broker, bank or other holder of record may provide you with a Notice of Internet Availability of Proxy Materials that contains instructions on how to access our proxy materials and vote online or to request a paper or email copy of our proxy materials. If you received these materials in paper form, the materials included a voting instruction card so you can instruct your broker, bank or other holder of record how to vote your shares.

Please see the Notice of Internet Availability of Proxy Materials or the information your bank, broker or other holder of record provided you for more information on these voting options.

Q: Can I vote in person at the Annual Meeting instead of by proxy?

A: If you are a *registered shareholder*, you can vote at the Annual Meeting any shares that were registered in your name as the shareholder of record as of the Record Date.

If your shares are held in *street name*, you cannot vote those shares at the Annual Meeting unless you have a legal proxy from the holder of record. If you plan to attend and vote your street-name shares at the Annual Meeting, you should request a legal proxy from your broker, bank or other holder of record and bring it with you to the Annual Meeting.

Whether or not you plan to attend the Annual Meeting, we strongly encourage you to vote your shares by proxy before the Annual Meeting.

Q: Can I revoke my proxy or change my voting instructions once submitted?

A: If you are a *registered shareholder*, you can revoke your proxy and change your vote before the Annual Meeting by:

- Sending a written notice of revocation to our Corporate Secretary at 225 Liberty Street, 29th Floor, New York, New York 10281 (the notification must be received by the close of business on May 10, 2016);
- Voting again by Internet or telephone before 11:59 p.m. ET on May 10, 2016 (only the latest vote you submit will be counted); or
- Submitting a new properly signed and dated paper proxy card with a later date (your proxy card must be received before the start of the Annual Meeting).

If your shares are held in *street name*, you should contact your broker, bank or other holder of record about revoking your voting instructions and changing your vote before the Annual Meeting.

If you are eligible to vote at the Annual Meeting, you also can revoke your proxy or voting instructions and change your vote at the Annual Meeting by submitting a written ballot before the polls close.

Q: What will happen if I submit my proxy but do not vote on a proposal?

A: If you submit a valid proxy but fail to provide instructions on how you want your shares to be voted, properly submitted proxies will be voted:

- “FOR” the election of all director nominees;
- “FOR” the approval of, on an advisory basis, the compensation of our named executive officers;
- “3 Years” for conducting future advisory votes on named executive officer compensation; and
- “FOR” the ratification of the appointment of Ernst & Young LLP as First Data’s independent registered public accounting firm.

If any other item is properly presented for a vote at the meeting, the shares represented by your properly submitted proxy will be voted at the discretion of the proxies.

Q: What will happen if I neither submit my proxy nor vote my shares in person at the Annual Meeting?

A: If you are a *registered shareholder*, your shares will not be voted.

If your shares are held in *street name*, your broker, bank or other holder of record may vote your shares on certain “routine” matters. The ratification of independent auditors is currently considered to be a routine matter. On this matter, your broker, bank or other holder of record can:

- Vote your street-name shares even though you have not provided voting instructions; or
- Choose not to vote your shares.

The other matters you are being asked to vote on are not routine and cannot be voted by your broker, bank or other holder of record without your instructions. When a broker, bank or other holder of record is unable to vote shares for this reason, it is called a “broker non-vote.”

Q: What does it mean if I receive more than one set of materials?

A: You probably have multiple accounts with us and/or brokers, banks, or other holders of record. You should vote all of the shares represented by the notices/proxy cards. Certain brokers, banks, and other holders of record have procedures in place to discontinue duplicate mailings upon a shareholder’s request. You should contact your broker, bank or other holder of record for more information.

Q: How many shares must be present to conduct business at the Annual Meeting?

A: To carry on the business of the Annual Meeting, holders of a majority of the voting power of Class A common stock and Class B common stock issued and outstanding as of the Record Date must be present in person or represented by proxy.

Q: What vote is required to approve each proposal?

A: For Proposal No. 1, directors will be elected by a plurality of the votes of the shares of our Class A common stock and Class B common stock (voting together as a single class) present in person or represented by proxy at the Annual Meeting and entitled to vote on the election of directors, which means that the three nominees receiving the highest number of affirmative votes will be elected. Proposal No. 2, the non-binding advisory vote on the compensation program for our named executive officers, as disclosed in the proxy statement, will be determined by the affirmative vote of a majority of the voting power of the shares of our Class A common stock and Class B common stock (voting together as a single class) present in person or represented by proxy at the Annual Meeting. As an advisory vote, this proposal is not binding. However, our Board and Governance, Compensation and Nominations Committee will consider the outcome of the vote when making future compensation decisions for our named executive officers.

Proposal No. 3, the non-binding advisory vote on the frequency with which we will conduct a non-binding advisory vote on the compensation program for our named executive officers, will be determined by a plurality of the votes of the shares of our Class A common stock and Class B common stock (voting together as a single class) present in person or represented by proxy at the Annual Meeting and entitled to vote, which means that the option receiving the highest number of votes will be determined to be the preferred frequency. As an advisory vote, this proposal is not binding. However, our Board and Governance, Compensation and Nominations Committee will consider the choice that receives the most votes in making future decisions regarding the frequency of future votes on compensation program for our named executive officers.

Proposal No. 4, the ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2016, will be determined by the affirmative vote of a majority of the voting power of the shares of our Class A common stock and Class B common stock (voting together as a single class) present in person or represented by proxy at the Annual Meeting.

Q: Are abstentions and broker non-votes counted in the vote totals?

A: A broker non-vote occurs when shares held by a broker are not voted with respect to a particular proposal because the broker does not have discretionary authority to vote on the matter and has not received voting instructions from its clients. If your broker holds your shares in its name and you do not instruct your broker how to vote, your broker will only have discretion to vote your shares on “routine” matters. Where a proposal is not “routine,” a broker who has received no instructions from its clients does not have discretion to vote its clients’ uninstructed shares on that proposal. At our Annual Meeting, only Proposal No. 4 (ratifying the appointment of our independent registered public accounting firm) is considered a routine matter. Your broker will therefore not have discretion to vote on the following “non-routine” matters absent direction from you: the election of directors, the non-binding advisory vote on the compensation program of our named executive officers, and the non-binding advisory vote on the frequency with which we will conduct a non-binding advisory vote on the compensation program for our named executive officers.

Broker non-votes and abstentions by stockholders from voting (including brokers holding their clients’ shares of record who cause abstentions to be recorded) will be counted towards determining whether or not a quorum is present. However, because broker non-votes and abstentions are not voted affirmatively or negatively, they will have no effect on the approval of any of the proposals, except where brokers may exercise their discretion on routine matters.

Q: How are votes counted?

A: In the election of directors, Proposal No. 1, you may vote “FOR” all or some of the nominees or your vote may be “WITHHELD” with respect to one or more of the nominees.

For Proposal No. 2 and Proposal No. 4, you may vote “FOR,” “AGAINST,” or “ABSTAIN.” If you elect to “ABSTAIN,” the abstention has the same effect as a vote “AGAINST.”

For Proposal No. 3, you may select “1 Year,” “2 Years,” “3 Years,” or “ABSTAIN.”

If you provide specific instructions with regard to certain items, your shares will be voted as you instruct on such items. If no instructions are indicated on a properly executed proxy card or over the telephone or Internet, the shares will be voted as recommended by our board of directors.

Q: Is my vote confidential?

A: Yes. The vote of any shareholder will not be revealed to anyone other than a non-employee tabulator of votes or an independent election inspector, except (i) as necessary to meet applicable legal and stock exchange listing requirements, (ii) to assert claims for or defend claims against First Data, (iii) to allow the Inspectors of Election to certify the results of the shareholder vote, (iv) in the event a proxy solicitation in opposition to First Data or the election of the Board takes place, (v) if a shareholder has requested that their vote be disclosed, or (vi) to respond to shareholders who have written comments on Proxy Cards.

Q: Will any other business be transacted at the meeting? If so, how will my proxy be voted?

A: Management does not know of any business to be transacted at the Annual Meeting other than those matters described in this Proxy Statement. The period specified in First Data’s By-Laws for submitting additional proposals to be considered at the meeting has passed and there are no such proposals to be considered. However, should any other matters properly come before the meeting, and any adjournments and postponements, shares with respect to which voting authority has been granted to the proxies will be voted by the proxies in accordance with their judgment.

Q: Who will pay the cost of soliciting votes for the Annual Meeting?

A: We will bear the entire cost of solicitation of proxies, including the preparation, assembly, printing, and mailing of this Proxy Statement and the accompanying materials. We have engaged the firm of Morrow & Co. to assist in distributing and soliciting proxies for a fee of \$6,500 plus expenses. However, the proxy solicitor fee is only a small fraction of the total cost of the proxy process. The largest expense in the proxy process is printing and mailing the proxy materials. Proxies also may be solicited on behalf of First Data by directors, officers or employees of First Data in person or by mail, telephone or facsimile transmission. No additional compensation will be paid to such directors, officers, or employees for soliciting proxies.

Board Governance

Board Leadership Structure

Our governance framework provides the Board with flexibility to select the appropriate leadership structure. In making leadership structure determinations, the Board considers many factors, including the specific needs of the business and what is in the best interests of the our shareholders. The current leadership structure is comprised of a combined Chairperson of the Board and Chief Executive Officer, a Lead Director, and three Board committees. The directors believe that the positions of Chairperson and CEO currently should be held by the same person, as this combination has served us well by providing unified leadership and direction for the Board.

If the individual elected as Chairperson is also an employee of First Data, the Board believes that a Lead Director should be appointed to help ensure robust independent leadership on the Board. Accordingly, the non-management directors have elected Scott Nuttall as Lead Director. As Lead Director, Mr. Nuttall assists in optimizing the effectiveness of the Board by performing the duties described below and such other duties as determined by the Board or non-management directors:

- Presides at all meetings of the directors and any Board meeting when the Chairperson and the CEO are not present, including meetings or executive sessions of the non-management directors;
- Calls meetings of the non-management directors, as appropriate;
- Provides feedback from executive sessions of the non-management directors to the Chairperson, CEO, and members of senior management, as appropriate;
- Serves as a liaison and facilitator between the non-management directors and the Chairperson and the CEO, as appropriate;
- Before the Board meetings, advises the Chairperson and CEO regarding the information to be provided to directors, including the quality, quantity, and timeliness of such information;
- Advises the Chairperson and CEO regarding Board meeting agenda items and the Board's calendar, including the number and frequency of Board meetings, to ensure that there is sufficient time for discussion of all agenda items. The Lead Director (and any director) may request inclusion of additional agenda items;
- Consults with the Chairperson and the Governance, Compensation and Nominations Committee on the appointment of chairs and members for board committees;
- Collaborates with such Committee on the evaluation of the CEO;
- Collaborates with such Committee on matters related to Board effectiveness and independence including the performance and structure of the Board and its committees, and the performance of individual directors; and
- Together with the Chairperson, recommends to the Board and the Board committees the retention of advisers and consultants who report directly to the Board.

Board Role in Risk Oversight

Our Board has extensive involvement in the oversight of risk management related to us and our business and accomplishes this oversight through the regular reporting by the Audit Committee and the Risk Committee. The Risk Committee represents the Board by overseeing our risk governance structure, risk assessment, and risk management practices, and making recommendations to the Board regarding our willingness to accept risks and strategies related to key risks. The Audit Committee represents the Board by periodically reviewing our accounting, reporting, and financial practices, including the integrity of our consolidated financial statements, the surveillance of administrative and financial controls and our compliance with legal and regulatory requirements. Through its regular meetings with management, including the finance, legal, and internal audit functions, the Audit Committee reviews and discusses all significant areas of our business and summarizes for the Board all areas of risk and the appropriate mitigating factors. In addition, our Board receives periodic detailed operating performance reviews from management.

Our Chief Executive Officer and other executive officers will regularly report to the non-management directors and the Audit, the Governance, Compensation and Nominations, and the Risk Committees to ensure effective and efficient oversight of our activities and to assist in proper risk management and the ongoing evaluation of management controls. The Head of Internal Audit reports administratively to our Chief Control Officer and directly to the Audit Committee. We believe that the leadership structure of our Board provides appropriate risk oversight of our activities given the controlling interests held by KKR.

Controlled Company Exception

Kohlberg Kravis Roberts & Co. L.P. controls a majority of the voting power of our outstanding common stock. As a result, we are a “controlled company” within the meaning of the corporate governance standards of the New York Stock Exchange. Under these rules, a company of which more than 50% of the voting power is held by an individual, group or another company is a “controlled company” and may elect not to comply with certain corporate governance requirements, including:

- the requirement that a majority of the Board consist of “independent directors” as defined under the rules of the NYSE;
- the requirement that we have a compensation committee that is composed entirely of independent directors with a written charter addressing the committee’s purpose and responsibilities; and
- the requirement that we have a nominating and corporate governance committee that is composed entirely of independent directors.

As a result, we do not have a majority of independent directors on our Board and we do not have a nominating and corporate governance committee or a compensation committee that is composed entirely of independent directors. In the event that we cease to be a “controlled company,” we will be required to comply with these provisions within the transition periods specified in the corporate governance rules of the NYSE.

Meetings of the Board and Director Attendance at Annual Meeting

Our Board held 7 meetings in 2015. Each director attended at least 90% of all of the meetings of the Board and committees of the Board on which he or she served in 2015.

At the end of each Board meeting our Lead Director presides at an executive session without any management directors present. These sessions allow the directors to discuss important issues, including the business and affairs of First Data as well as matters concerning management, without any member of management present. In addition, an executive session including only independent directors is held at least

once a year. Ms. Miller, as Chairperson of the Risk Committee, presides at such executive sessions. Members of the Audit Committee, Governance, Compensation and Nominations Committee, and Risk Committee also meet regularly in executive session.

Directors are expected to attend our annual meetings of shareholders.

Director Nominations

Our Board is responsible for nominating directors for election by the shareholders and filling any new positions or vacancies on the Board that may occur. The Governance, Compensation and Nominations Committee is responsible for identifying, screening, and recommending candidates to the Board for Board membership. Shareholders may also propose nominees for consideration by the Committee by writing to First Data Secretary, c/o General Counsel Office, First Data Corporation, 225 Liberty Street, 29th Floor, New York, New York 10281.

Nominees for director are selected on the basis of experience, integrity, skills, diversity, independence, ability to make independent analytical inquiries, understanding of First Data's business environment, and willingness to devote adequate time to Board duties -- all in the context of an assessment of the perceived needs of the Board at that point in time. The Board believes that its membership should reflect a diversity of experience, gender, race, ethnicity, and age. In formulating its recommendations, the Governance, Compensation and Nominations Committee will consider recommendations offered by any shareholder, director, or officer of First Data.

Director Independence

Our Board determines which of our directors are independent. Under our Corporate Governance Guidelines, to be considered "independent" a director (1) must meet the independence standards under the NYSE listing standards; and (2) the Board must affirmatively determine that the director otherwise has no material relationship with First Data directly, or as an officer, shareholder, or partner of an organization that has a relationship with First Data. In making its independence determinations, the Board reviews any material direct and indirect relationships between each director and First Data, as well as the compensation and other payments each director received from or made to First Data. Our Board has determined that Ms. Miller and Mr. Nevels are independent directors.

Corporate Governance Guidelines

Our Board has adopted Corporate Governance Guidelines that, along with the charters of the Board committees, provide the basic framework for the Board's operation and role in the governance of First Data. You can find our Corporate Governance Guidelines on our website at www.firstdata.com under "Investors" and "Corporate Governance."

Code of Ethics

We have adopted an Employee Code of Conduct, which applies to all employees, a Code of Ethics for Senior Financial Officers, which applies to our Chief Executive Officer, Chief Financial Officer, and Principal Accounting Officer, and a Directors' Code of Ethics, which applies to our directors. These Codes can be viewed on our website at www.firstdata.com under "Investors" and "Corporate Governance." We will post amendments to, or waivers from, a provision of such codes, on the same website.

Related Transactions

Policies Regarding the Approval of Transactions with Related Parties

Our Related Party Transaction Policy requires Board approval of any transactions over \$120,000 between First Data and an executive officer, director, 5% or more shareholder, or an immediate family member of any of such individual.

In addition, under our Director Code of Conduct, each director must report to our General Counsel upon learning of any prospective transaction or relationship in which the director will have a financial or personal interest (direct or indirect) that is with us, involves the use of our assets, or involves competition against us (consistent with any confidentiality obligation the director may have). Our General Counsel must then advise our Board of any such transaction or relationship and our Board must pre-approve any material transaction or relationship.

Under our Code of Conduct, executive officers may not use their personal influence to get us to do business with a company in which they, their family members or their friends have an interest. In situations where an executive officer is in a position of influence or where a conflict of interest would arise, the prior approval of our General Counsel is required.

Certain Relationships and Related Transactions

Management Agreement

In connection with our 2007 acquisition by affiliates of KKR, we entered into a management agreement with KKR and one of its affiliates under which KKR provided advisory services and received fees and reimbursements of related out-of-pocket expenses. The Management Agreement was terminated upon the consummation of our initial public offering of Class A common stock in October 2015. Upon termination, we paid a \$78 million termination fee to KKR which was based on the net present value of future payment obligations under the Management Agreement. For the years ended December 31, 2015, 2014, and 2013, we paid, inclusive of the termination fee, \$98 million, \$20 million, and \$20 million, respectively, of management fees to KKR.

Relationship with KKR Capital Markets

For the year ended December 31, 2015, KKR Capital Markets LLC, an affiliate of KKR, acted as an arranger and bookrunner for various financing transactions related to our credit agreements, and as an initial purchaser relating to issuances of our notes, and received underwriter and transaction fees totaling \$25 million. KKR Capital Markets LLC is also assisting with two current transactions and will receive additional underwriter and transaction fees associated with such transactions.

KKR Capital Markets LLC also acted as an underwriter in our 2015 initial public offering of Class A common stock and as a placement agent in our 2014 private placement of a previously outstanding class of common stock and received \$19 million and \$41 million, respectively, for such services.

Messrs. Kravis, Nuttall, and Olson are associated with KKR. Mr. Nuttall also serves as a director on the board of KKR Capital Markets LLC.

Share Ownership

Directors, Management, and Certain Beneficial Owners

The following table shows the amount of our Class A common stock and Class B common stock beneficially owned by each of our directors, each of our named executive officers, all of our directors and executive officers as a group, and each person or group known by us to be the beneficial owner of more than 5% of either Class A or Class B common stock.

We have determined beneficial ownership in accordance with the rules of the SEC. Applicable percentage ownership is based on 182,458,255 shares of Class A common stock and 719,330,114 shares of Class B common stock outstanding at March 1, 2016. In computing the number of shares of common stock beneficially owned by a person and the percentage ownership of that person, we deemed to be outstanding all shares of common stock subject to options, restricted stock or other convertible securities held by that person or entity that are currently exercisable or vested or that will become exercisable or vested within 60 days of March 1, 2016. We did not deem these shares outstanding, however, for the purpose of computing the percentage ownership of any other person.

Except as indicated by the footnotes below, (a) all amounts are as of March 1, 2016, (b) we believe, based on the information furnished to us, that the persons and entities listed have sole voting and investment power with respect to the shares they beneficially own, and (c) the address of each beneficial owner is c/o First Data Corporation, 225 Liberty Street, 29th Floor, New York, New York 10281.

Section 16(a) Beneficial Ownership Reporting Compliance

Based on a review of reports filed with the SEC by our directors and executive officers regarding their ownership and transactions in our common stock and written representations from those directors and officers, we believe that each director and executive officer has filed timely reports under Section 16(a) of the Securities Exchange Act of 1934 during fiscal 2015, except for a Form 5 filed on February 16, 2016 for each of Henry Kravis, Scott Nuttall, and Tagar Olson, and a Form 4 filed on February 16, 2016 for Heidi Miller, all of which reported one transaction each for units granted under such director's deferred director compensation plan.

Proposal 2 – Advisory Vote on Executive Compensation

The Dodd-Frank Act enables our shareholders to vote to approve, on an advisory (non-binding) basis, the compensation of our named executive officers as disclosed in this Proxy Statement in accordance with the SEC’s rules, including the Compensation Discussion and Analysis, the Summary Compensation table and related tables and disclosure (also referred to as “say-on-pay”).

Before submitting your vote, we encourage you to read our Compensation Discussion and Analysis beginning on page 27 and the accompanying executive compensation tables beginning on page 40 for details about our executive compensation program, including information about the 2015 compensation of our named executive officers.

As discussed in more detail in the Compensation Discussion and Analysis, we believe our executive compensation program is competitive and governed by pay-for-performance principles. We emphasize compensation opportunities that reward results. Our stock ownership requirements and use of equity-based incentives reinforce the alignment of the interests of our executives with those of our long-term shareholders. In doing so, our executive compensation program supports our strategic objectives and mission.

We are asking our shareholders to indicate their support for our named executive officer compensation as described in this Proxy Statement. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers. Accordingly, we ask you to approve the following resolution at the Annual Meeting:

“Resolved, that the shareholders of First Data Corporation approve, on an advisory basis, the compensation paid to First Data’s named executive officers, as disclosed in the Proxy Statement for the 2016 Annual Meeting of Shareholders under the SEC’s compensation disclosure rules, including the Compensation Discussion and Analysis, the Summary Compensation table and related tables and disclosure.”

The advisory vote will not be binding on the Governance, Compensation and Nominations Committee or the Board. However, they will carefully consider the outcome of the vote and take into consideration any specific concerns raised by investors when determining future compensation arrangements.

The Board of Directors recommends a vote FOR the resolution approving, on an advisory basis, the compensation of our named executive officers.

Compensation Discussion and Analysis

Introduction

Our executive compensation program is designed to attract and retain individuals qualified to manage and lead us, as well as to motivate them to help us reach our financial goals and create equity value for our shareholders. Our named executive officers (NEOs) identified in the following table are paid based on performance, primarily in time- and performance-vested equity, and competitively compared to the market.

For 2015, our NEO compensation was substantially higher than 2014 because of one-time equity and cash retention awards related to our successful completion of an initial public offering on October 15, 2015. The Board of Directors decided to make these one-time awards primarily in equity with strict retention requirements to incentivize our NEOs to remain with us for the long term and ensure executive and shareholder interests are aligned.

The table below reflects the compensation for each NEO for fiscal 2015, *excluding* the one-time IPO equity grants and cash retention awards. Other than the one-time IPO grants and awards, information for the supplemental table is the same as that provided in our Summary Compensation Table and accompanying footnotes. Because we view the IPO awards as a one-time event relating to a significant milestone in our transformation, we believe that excluding these awards from the table below and discussing them separately gives our shareholders a clearer view of our standard compensation program and the compensation awarded to our NEOs in fiscal 2015. The table below differs substantially from and does not replace our Summary Compensation Table that appears later in this proxy, which has been prepared in accordance with the SEC's disclosure rules.

How We Determine Compensation

Role of the Governance, Compensation and Nominations Committee

During 2015, the Governance, Compensation and Nominations Committee (the Committee) consisted of Messrs. Forehand, Kravis, and Nuttall, with Mr. Nuttall serving as Chairperson.

The Committee approves all aspects of our compensation program for our executive officers, including the form and amount of compensation as well as the performance metrics and targets under our incentive plans. Specifically, the Committee:

- establishes our compensation philosophy in consultation with management and oversees management's development and implementation of our compensation and benefits policies;
- evaluates performance and sets compensation for our executive officers;
- oversees our equity plans; and
- keeps informed of good governance best practices, and determines when and how these should be applied in matters of compensation.

The Board of Directors, however, approves equity grants to executive officers, generally after recommendations from the Committee, to exempt the grants from short-swing profit rules.

Since we were privately owned until last October, the Committee has not participated in shareholder outreach on matters of executive compensation.

Role of Management in Executive Officer Compensation Decisions

Our Chief Executive Officer, Chief Human Resources Officer, and General Counsel generally provide information, data, analysis, updates, and compensation recommendations to the Committee. Management periodically engages compensation consultants to assist it in this process, and it utilizes market data from a wide variety of sources. As part of the Committee's compensation setting process, our Chief Executive Officer makes recommendations to the Committee regarding compensation for executive officers other than himself.

Highlights of our Compensation Practices

Although we are a controlled company, we adhere to certain best practices regarding compensation, including:

- **Emphasis on Equity-Based Compensation:** A substantial portion of compensation is paid in the form of equity rather than cash to better align the interests of management with shareholders.
- **Meaningful Share Ownership Guidelines:** To further align these interests, we have implemented strict share ownership guidelines, which generally require each of our executive officers and directors to retain a substantial portion of the stock they acquire through our equity compensation plans while they remain affiliated with First Data.
- **Clawback Provisions:** We have adopted "clawback" provisions for all forms of equity compensation, requiring executives to repay amounts in circumstances when it is subsequently determined they should not have received them.
- **Restrictions on Hedging and Pledging of Our Stock:** We have implemented a policy that prohibits all employees and directors from hedging First Data stock. The policy also prohibits

pledging of First Data stock except if the employee or director receives the written consent of our General Counsel. We believe that these individuals generally should bear the full risks of equity ownership.

- **Limited Perquisites:** We provide minimal executive benefits and perquisites to our executives.

Transition to Public Company Pay Practices

Our common stock first became publicly traded on October 15, 2015, and for most of 2015 we were a privately owned company. The Committee is committed to adopting additional public company best pay practices over time, as it determines such changes are in the best interest of shareholders.

Our Compensation Philosophy and Strategy

We structure our compensation to promote First Data's growth goals and sustained long term share value creation. In particular:

- We focus on total compensation, which combines salary and incentive compensation
- We use equity as the primary component of pay
- We focus strongly on pay for performance
- We pay competitively, compared to market

Use of Equity and Share Retention Requirements

The Committee seeks to align the interests of management with the long-term interests of our shareholders by granting a significant portion of our NEOs' total compensation in the form of equity that increases in value as our financial performance improves. The Committee also seeks to retain management by requiring executives to be employed through various vesting periods of that equity in order to receive the full financial benefits of equity-based awards that vest over multiple years. As further described below, the Committee's first quarter 2015 equity-based awards reflect this approach: the awards generally vest over a period of three years and generally require the continued employment of our executives through each applicable vesting date.

As described in more detail below, our CEO is required to retain at least 90% of the stock acquired through equity compensation, net of taxes, and charitable donations, until termination of employment. Our other NEOs are required to retain at least 75% of the stock acquired through equity compensation, net of taxes, charitable donations, through termination of employment. These are among the most rigorous share retention requirements of any public company.

Pay our NEOs Based on Performance

We are committed to rewarding our executives based on our performance. At the close of each fiscal year, the Committee determines how First Data performed based on the achievement of various financial and qualitative objectives. The Committee then determines an award level for each NEO, based both on Company and individual performance.

As part of its deliberations, the Committee determines how the award for prior year performance will be paid. For 2014 and 2015, the award was paid in three different forms:

- A cash award under our Senior Executive Incentive Plan (the SEIP)
- An award of time vested stock options
- An award of time vested restricted stock

The size of the award varies based on Company performance. For example, awards made in the first quarter of 2015 (with respect to First Data's performance in 2014) were higher than those made in the first quarter of 2016 (with respect to First Data's performance in 2015) because First Data performed better in 2014 than in 2015. Additionally, at Mr. Bisignano's suggestion and the Committee's direction, Mr. Bisignano's base pay was reduced to \$1,320,000 from \$1,500,000.

Market Competitive Pay

The Committee wants to ensure that incoming and incumbent executives are paid competitively. In order to successfully attract and retain top performing executives, our Human Resources Department annually reviews market data and aims to provide our executives with competitive total compensation opportunities.

The Chief Executive Officer, Human Resources Department, and the Committee periodically review our executive compensation practices against a peer group of companies. Our peer group is comprised of direct competitors, frequently identified peer companies to our direct competitors, and other companies comparable to us in terms of industry, pay practices, revenue and market value. The peer group considered by the Committee to determine fiscal 2015 compensation for our NEOs included the following 21 companies:

- Accenture plc
- Capital One Financial Corporation
- eBay Inc.
- Fiserv, Inc.
- Science Applications International Corporation
- SunTrust Banks, Inc.
- Visa Inc.
- ADP, LLC
- Computer Sciences Corporation
- Fidelity National Information Services
- MasterCard Incorporated
- SLM Corporation
- Symantec Corporation
- The Western Union Company
- The American Express Company
- Discover Financial Services, Inc.
- Fifth Third Bancorp
- PNC Financial Group, Inc.
- State Street Corporation
- Total System Services
- Yahoo! Inc.

For 2015, the Committee used peer group data as one factor in its deliberations regarding pay. The Committee did not seek to benchmark NEO positions against the market data yielded by the peer group, nor did it seek to pay NEOs at any particular market percentile, relative to the peer group.

Summary of Fiscal 2015 Compensation

Fiscal 2015 Performance

For fiscal 2015, we considered the following aspects of our fiscal 2015 performance to determine our NEO compensation:

- In October we raised \$2.8 billion in our IPO and used the proceeds to reduce debt.
- We grew year-over-year revenues 3% in a challenging worldwide operating environment.
- During the year, we refinanced a total of \$8 billion of our maturing indebtedness and replaced it with debt at significantly lower interest rates. As a result of the refinancing and the payment of debt from the capital raised in the IPO, we reduced our annualized cash interest expense by approximately \$500 million and significantly improved operating cash flow.
- We grew our adjusted EBITDA to \$2.7 billion, although this was short of our target for the year. See the reconciliation of adjusted EBITDA to First Data's Net Loss for 2015 included below.

Elements of 2015 Compensation

In January 2016, the Committee determined our NEOs' total compensation packages based on Company and individual performance. Compensation included the following elements:

Element	Total Compensation
Base Salary	<i>In effect at December 31, 2015</i>
Incentive Compensation	<i>Annual cash incentive under the Senior Executive Incentive Plan (the SEIP) Time vested restricted stock Time vested stock options</i>
Other Compensation	<i>Benefits and perquisites, as detailed below</i>

Base salary

Base salary compensates our executives for performing the requirements of their positions and provides them with a level of cash income predictability and stability with respect to a portion of their total compensation. The Committee believes that base salaries for executives should reflect market competitive levels of pay and factors unique to each executive such as experience and breadth of responsibilities, performance, individual skill set, pay relative to peers within First Data, and base pay in previous roles outside of First Data. Initial base salaries for our NEOs are agreed to with the NEO at the time of hiring. Each executive officer is reviewed annually and is eligible for a discretionary annual merit increase. Base salaries may also be adjusted at other times to deal with competitive pressures or changes in job responsibilities. Mr. Bisignano's salary was not increased in 2015, and in fact was reduced from \$1,500,000 to \$1,320,000 in 2016.

The following table shows our NEOs' annual base salaries as of December 31, 2015:

Name and Principal Position	Base Salary
Frank J. Bisignano <i>Chief Executive Officer</i>	\$1,500,000
Himanshu A. Patel <i>Executive Vice President Chief Financial Officer</i>	\$600,000
Guy Chiarello <i>President</i>	\$1,000,000
Daniel J. Charron <i>Executive Vice President, Head of Global Business Solutions</i>	\$750,000
Sanjiv Das <i>Executive Vice President, International Regions</i>	\$750,000
Michael K. Neborak <i>Executive Vice President Director of Finance</i>	\$600,000

2015 Incentive Compensation

As described above, each NEO is eligible for an annual discretionary cash incentive award and equity awards based on First Data's performance against our strategic growth objectives and our NEOs' individual performance in meeting those objectives. Consistent with our overall compensation philosophy, the cash portion of discretionary incentive awards are generally a small percentage compared to long-term equity incentive awards for executives.

For fiscal 2015, the Board, with input from management, set strategic goals for our performance, many of which were tied to positioning us for the IPO. These goals included growing revenue and adjusted EBITDA,

improving free cash flow, managing expenses, and successfully completing our IPO. These were the basis of First Data's performance portion of incentive pay for the 2015 fiscal year.

The Committee also considers each individual's performance and contribution in meeting our strategic goals. The Committee considers a number of factors, including:

- the overall performance of the executive;
- the effective management of expenses;
- the effective management of risk;
- demonstration of leadership, teamwork, and innovation; and
- the extent of the accomplishment of our strategic goals.

The size of awards is based primarily on our financial performance during the year, but each NEO's individual performance is also considered. To best accomplish this, the Committee approved a fully discretionary funding structure for annual incentive compensation for the 2015 fiscal year. This structure allowed the Committee to maintain the ability to appropriately reward the performance of each NEO.

Although many of our strategic goals were met, we did not meet our adjusted EBITDA growth goal, which was a key performance metric. As a result, the Committee exercised its discretion and determined that total incentive compensation (in dollar value) for 2015 performance would be reduced compared to 2014.

After determining the total compensation for each NEO, the Committee determines the amount of the incentive compensation that will be paid in cash versus equity. For fiscal 2015, we elected to pay only a portion (0% -15%) of each NEO's annual incentive compensation in cash. The remaining portion was paid in time-vested restricted stock awards and time vested stock options, which the Committee granted on February 24, 2016. We believe this cash/equity ratio best aligns the NEO's interest with creating value for shareholders.

2015 Cash Incentive Awards

The annual cash incentive awards for fiscal 2015 performance under the SEIP were as follows:

Name and Principal Position	Annual Cash Incentive Award
Frank J. Bisignano <i>Chief Executive Officer</i>	\$0
Himanshu A. Patel <i>Executive Vice President Chief Financial Officer</i>	\$177,500
Guy Chiarello <i>President</i>	\$ 516,000
Daniel J. Charron <i>Executive Vice President, Head of Global Business Solutions</i>	\$ 283,500
Sanjiv Das <i>Executive Vice President, International Regions</i>	\$0
Michael K. Neborak <i>Executive Vice President Director of Finance</i>	\$ 200,400

2016 Equity-Based Grants Based on 2015 Performance

In the first quarter of 2016, the Committee granted the awards shown on the table below under the 2015 Omnibus Incentive Plan. The grants reflect the portion of the 2015 incentive award that was made in time vested equity. The awards have the following terms:

- options that generally vest in three equal installments on the first, second, and third anniversaries of the grant, subject to continued employment on each applicable vesting date; and
- restricted stock that generally vests in three installments, 20% on the first anniversary of the grant, 40% on the second anniversary of the grant and 40% on the third anniversary of the grant, subject to continued employment on each applicable vesting date.

Name and Principal Position	Number of Options	Number of Shares of Restricted Stock

Incentive Compensation – 2015 Equity Grants based on 2014 Performance

The Committee determined the award for 2014 performance in the first quarter of 2015, and determined to grant a small portion of the award under the SEIP in cash, and the bulk of the award in a combination of time vested restricted stock and time vested options under the 2007 Stock Incentive Plan. In the first quarter of 2015, the Committee granted to each of our NEOs the following equity-based awards under the 2007 Stock Incentive Plan:

- options that generally vest in three equal installments in January 2016, January 2017, and January 2018, subject to continued employment on each applicable vesting date; and
- restricted stock that generally vests in three installments, subject to continued employment on each applicable vesting date, as follows: (1) 20 percent vests on April 11, 2016 in connection with the expiration of the IPO-related lock-up; (2) 40 percent vests on January 1, 2017, and (3) 40 percent vests on January 1, 2018.

The first quarter 2015 equity-based awards were as follows:

Name and Principal Position	Number of Options	Number of Shares of Restricted Stock
Frank J. Bisignano <i>Chief Executive Officer</i>	360,655	540,983
Himanshu A. Patel <i>Executive Vice President Chief Financial Officer</i>	52,727	79,091

IPO Compensation

In order to retain our senior leaders, including the NEOs, for several years after the IPO, the Board of Directors decided to make one-time awards, which were made up of:

- Time vested stock options
- Performance vested stock options
- Time vested restricted stock
- Performance vested restricted stock
- A cash retention award, which is subject to repayment in certain circumstances as described below

The Board determined that these grants were a critical retention tool because the IPO would result in a significant portion of the NEOs' pre-2015 equity grants vesting by early 2017. The IPO equity grants provide an ongoing incentive for our executives to remain with us for several years following the IPO and help ensure that they will have significant ongoing equity ownership. The heavy concentration of equity, coupled with the equity retention requirements discussed in more detail below, will help ensure executive and shareholder interests are aligned for the long term.

IPO Equity Grants

In October 2015, in connection with the IPO, the Committee granted both time-vested and performance-vested options and restricted stock to our executive officers, including to our NEOs as follows:

Name and Principal Position	IPO Equity Grants			
	Time Vested Options (#)	Time Vested Restricted Stock (#)	Performance Vested Options (#)	Performance Vested Restricted Stock (#)
Frank J. Bisignano <i>Chief Executive Officer</i>	1,476,368	632,729	738,184	316,365
Himanshu A. Patel <i>Executive Vice President Chief Financial Officer</i>	421,819	210,910	210,910	105,455
Guy Chiarello <i>President</i>	527,274	210,910	263,637	105,455
Daniel J. Charron <i>Executive Vice President, Head of Global Business Solutions</i>	527,274	210,910	263,637	105,455
Sanjiv Das* <i>Executive Vice President, International Regions</i>	316,365	210,910	158,182	105,455
Michael K. Neborak <i>Executive Vice President Director of Finance</i>	52,727	52,727	26,364	26,364

*Due to his departure, Mr. Das will forfeit all of his IPO equity awards.

Performance-Vested Restricted Stock and Options. The performance-vested stock options and restricted stock fully vest, subject to the recipient's continued employment with us through the applicable vesting date, if the closing trading price of a share of our Class A common stock on the NYSE equals or exceeds two times the per share price to the public in the IPO (*i.e.*, \$32) for ten consecutive trading days. If the recipient's employment terminates for any reason before the date on which the performance-vested stock options or performance-vested restricted stock vests, any outstanding and unvested performance-vested stock options and performance-vested restricted stock will be forfeited.

Time-Vested Restricted Stock and Options. The time-vested stock options and restricted stock vest in equal installments on December 31, 2017, December 31, 2018, December 31, 2019 and December 31, 2020, subject to the recipient's continued employment with us through each applicable vesting date. If the recipient's employment is terminated by us without cause, by the recipient for good reason, or as a result of the recipient's death or disability, any outstanding and unvested time-vested stock options and time-vested restricted stock that would have vested on the next vesting date will vest pro-rata based on the recipient's completed number of months of employment with us since the vesting date immediately preceding the recipient's termination. Upon any other termination of employment, all unvested time-vested stock options and time-vested restricted stock will be forfeited.

IPO Cash Retention Awards

In connection with our IPO, we also granted a special cash retention award to certain executive officers, including Messrs. Bisignano, Chiarello, Das and Patel. The retention award was paid in a lump sum to the NEOs in the following amounts:

Name and Principal Position	IPO Cash Retention Award
Frank J. Bisignano <i>Chief Executive Officer</i>	\$5,000,000
Himanshu A. Patel <i>Executive Vice President Chief Financial Officer</i>	\$2,000,000
Guy Chiarello <i>President</i>	\$2,500,000
Daniel J. Charron* <i>Executive Vice President, Head of Global Business Solutions</i>	\$0
Sanjiv Das <i>Executive Vice President, International Regions</i>	\$4,000,000
Michael K. Neborak* <i>Executive Vice President Director of Finance</i>	\$0

*Mr. Charron did not receive an IPO cash retention award because he started his employment with us in February 2015. Mr. Neborak also did not receive an IPO cash retention award due to his relatively short tenure with First Data.

Repayment Provisions for IPO Cash Award. The cash retention award is subject to certain repayment provisions. In the 5-year period between October 20, 2015 and October 20, 2020, if the company terminates the recipient's employment for cause or the recipient voluntarily resigns without good reason, First Data has the right to require the recipient to pay back a pro-rata portion of the award based on the period of time the recipient worked over the 5-year term.

Other Fiscal 2015 Compensation

From time to time, the Committee may award sign-on bonuses or grant sign-on equity-based awards in connection with the start of an NEO's employment with us. Sign-on bonuses and/or equity-based awards are used only when necessary to attract highly skilled individuals to First Data. Generally, they are used to incentivize candidates to leave their current employers, or may be used to offset the loss of unvested compensation they may forfeit as a result of leaving their current employer.

During fiscal 2015, Mr. Charron received a sign-on bonus in the amount of \$5,000,000. If Mr. Charron's employment is terminated by us for cause or he voluntarily resigns without good reason within two years following the start of his employment, First Data has the right to require him to repay to us the portion of the sign-on bonus that would have been earned in respect of the period from the termination date until the second anniversary of the start of his employment. Mr. Charron also received \$4,500,000 in sign on stock awards and \$2,496,000 in sign on options awards. In addition, a sign-on bonus was paid to Mr. Das in 2014, and reflected in the Summary Compensation Table for fiscal 2014 compensation. First Data has the right to require him to repay a prorated amount of his sign-on bonus if he resigns or is terminated for cause within 24 months of his employment commencement date. First Data and Mr. Das agreed that he would not be required to repay a prorated amount of his sign-on bonus or IPO cash award to resolve all disputes regarding his departure.

Benefits and Perquisites

While our compensation philosophy is to focus on performance-based forms of compensation while providing only minimal executive benefits, we provide to all of our employees, including our NEOs, broad-

based employee benefits that are intended to attract and retain employees while providing them with retirement and health and welfare security. These include:

- a 401(k) savings plan; and
- medical, dental, vision, life and disability insurance coverage, and dependent care and flexible spending accounts.

We do not currently offer defined benefit pension benefits or non-qualified retirement benefits to our NEOs. We also do not currently offer a Company match in our 401(k) savings plan.

We also provide our NEOs with limited perquisites and personal benefits that are not generally available to all employees such as reimbursements for relocation, housing, and moving expenses. In limited instances NEOs are also authorized to use the corporate aircraft for personal purposes. Per his employment agreement, Mr. Bisignano is provided with use of a car and driver and is eligible for financial planning assistance and use of the corporate aircraft. In addition, from time to time we provide tax gross-ups on perquisites we provide in order to allow our NEOs to enjoy the full benefit of the perquisite we are providing.

Severance and Change in Control Agreements

We believe that reasonable and appropriate severance and change in control benefits are necessary in order to be competitive in First Data's executive attraction and retention efforts. Our severance and change in control policy provides for certain payment, rights, and benefits to the NEOs (other than Mr. Bisignano) upon an involuntary termination of employment without cause from First Data. Under the policy, the cash severance payment is equal to one year's base pay plus the bonus paid for the prior fiscal year, if any, and a prorated portion of the bonus based on time worked during the year of termination. As a condition to receiving severance payments and benefits under the policy, all participating NEOs are required to release First Data and its employees from all claims they may have against them and agree to a number of restrictive covenants which are structured to protect us from potential loss of customers or employees and to prohibit the release of confidential company information. For Mr. Bisignano, his employment agreement described below provides for a cash severance payment equal to (1) the greater of (a) \$9.5 million or (b) two times the sum of his base salary and the average of his annual incentive payments paid in cash in respect of the two fiscal years prior to the date of his termination and (2) a pro rata portion of the annual incentive payment that would have otherwise been payable if he had remained employed through such year.

Share Ownership Guidelines

In connection with the IPO, we adopted an equity retention policy for our directors, NEOs, and all other members of our Management Committee, which require these individuals to maintain a minimum share ownership level of our stock throughout their employment with First Data. Equity retention requirements are also in place for our highly compensated employees.

Members of our Management Committee are required to retain at least 75% of the stock they acquire through our equity compensation plans (net of amounts required to pay taxes, transaction costs, and charitable donations) as long as they are employed by us. Our Chief Executive Officer and directors are required to retain at least 90% of the stock they acquire through our equity compensation plans (net of amounts required to pay taxes, transaction costs and charitable donations) as long as they are either employed by us or serve as a director on our Board. Under the policy, stock acquired through compensation plans includes vested restricted stock, restricted stock units, stock held after exercising options and vested equity contributed to qualified or non-qualified retirement plans, but does not include unvested restricted stock, unvested restricted stock units or vested or unvested stock options.

Exceptions to this policy may be granted by the Chief Executive Officer, in consultation with the chairperson of the Committee, as follows:

- where the retention commitment would create a financial hardship on the director or management committee member (in such instances, the Committee may also approve an alternative ownership plan that reflects both the intention of the policy and the individual's circumstances); or
- other situations that the Chief Executive Officer deems appropriate.

If the Chief Executive Officer or a director requests an exception, that request must be submitted to the chairperson of the Committee for their review and approval.

Clawback Provisions

We have implemented a policy to clawback incentive compensation received by executive officers in the event of a subsequent accounting restatement to ensure that incentive compensation is rightfully earned by the executives.

Hedging and Pledging Prohibition

As part of our insider trading policy, all employees, including our named executive officers, and non-employee directors are prohibited from engaging in short sales or engaging in hedging transactions involving our securities. They are also prohibited from establishing margin accounts or otherwise pledging or engaging in hedging transactions involving our securities. Pledging First Data stock may be permissible if the employee or director receives the written consent of our General Counsel.

Compensation and Risk

The Committee believes that the design and objectives of our executive compensation program provide an appropriate balance of incentives for executives and avoid inappropriate risks. In this regard, our executive compensation program includes, among other things, the following design features:

- Balances a mix of fixed versus variable, at-risk compensation;
- Balances a mix of short and long-term incentive compensation;
- Provides that variable compensation is based on a variety of qualitative and quantitative performance goals;
- Provides for a clawback of executive compensation in specified circumstances; and
- Share ownership guidelines.

Tax and Accounting Considerations

The Committee recognizes the tax and regulatory factors that can influence the structure of executive compensation programs. Section 162(m) of the Internal Revenue Code will limit our federal income tax deduction for compensation in excess of \$1 million paid to NEOs except for the Chief Financial Officer. However, performance-based compensation can be excluded from the limitation as long as specified requirements are met.

We expect to be able to claim the benefit of a special exemption rule that applies to compensation paid (or compensation in respect of equity awards such as stock options or restricted stock granted) during a specified transition period following the IPO. This transition period may extend until the first annual stockholders'

meeting that occurs after the close of the third calendar year following the calendar year in which the IPO occurred, unless the transition period is terminated earlier under the Section 162(m) post-offering transition rules.

The Committee also considers the accounting implications of the various elements of our compensation program, including the impact on our financial results and the dilutive impact to stockholders of various forms of compensation.

Reconciliation of Adjusted EBITDA

The following table reconciles the calculation of adjust EBITDA discussed above to First Data’s Net Loss for 2015.

(in millions)	2015
Total Adjusted EBITDA	\$ 2,730
Adjustments to reconcile to Net loss attributable to First Data Corporation:	
Adjustments for non-wholly owned entities (a)	26
Depreciation and amortization	(1,022)
Interest expense, net	(1,537)
Loss on debt extinguishment	(1,068)
Other items (b)	(75)
Income tax expense	(101)
Share-based compensation	(329)
Costs of alliance conversions	(5)
KKR related items	(100)
Net loss attributable to First Data Corporation	\$ (1,481)

- (a) Net adjustment to reflect First Data’s proportionate share of alliance revenue and adjusted EBITDA and amortization related to equity method investments not included in adjusted EBITDA.
- (b) Includes adjustments to exclude the official check and money order businesses due to First Data’s wind down of these businesses, restructuring, certain retention bonuses, non-normal course litigation and regulatory settlements, and “Other income (expense)” as presented in the consolidated statements of operations, which includes divestitures, impairments, derivative gains and (losses), and non-operating foreign currency gains and (losses).

Compensation Committee Report

The Governance, Compensation and Nominations Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management. Based on such review and discussions, the Governance, Compensation and Nominations Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement and incorporated by reference into the Form 10-K.

Executive Compensation Tables

As discussed above, our NEO compensation was substantially higher in 2015 compared to 2014 because of the one-time IPO-related equity and cash awards. For example, of Mr. Bisignano's \$51,560,726 in Total Compensation in 2015, \$39,226,357, or 76% was from the IPO-related equity award -- which vests over time and is in part based on First Data's performance, and the IPO-related cash award -- which is subject to repayment if Mr. Bisignano voluntarily resigns and certain other conditions. Similarly, the compensation for Mr. Chiarello, Mr. Charron, Mr. Das, and Mr. Patel is substantially higher in 2015 compared to 2014 because of the one-time IPO-related awards. For details on the portion of each NEOs' Total Compensation related to the IPO equity and cash awards, please see footnote 5 to the Summary Compensation Table below.

The 2013 compensation for Mr. Bisignano, Mr. Chiarello, and Mr. Patel was substantially higher compared to 2014 because of one-time sign-on payments in connection with the start of their employment with us. These payments were necessary to incentivize them to leave their then-current employers, and to offset unvested compensation that they forfeited as a result of leaving their previous employers.

- (1) Upon termination of Mr. Bisignano’s employment by First Data without “cause” (as defined in the Employment Agreement), by Mr. Bisignano for “good reason” (as defined in the Employment Agreement), due to Mr. Bisignano’s death or “disability” (as defined in the Employment Agreement) or due to First Data’s non-renewal of the employment term, conditioned upon the execution and effectiveness of a release of claims against First Data and its affiliates and in addition to certain accrued amounts, Mr. Bisignano will be entitled to receive (1) payment, in installments ratably over a 24 month period (Severance Period), of an amount equal to the greater of (X) \$9.5 million or (Y) two times the sum of his base salary and the average of his annual incentive payments paid in cash in respect of the two fiscal years prior to the date of his termination (provided, that if Mr. Bisignano’s employment is terminated by him for “good reason” following a “change of control” (within the meaning of Section 409A of the Code) within two years following such “change of control”, the payment will be made in a lump sum cash payment) and (2) a pro rata portion of the annual incentive payment, if any, that would have otherwise been payable in respect of such year if he had remained employed through such year.

For all other NEOs, reflects cash severance payable under the Policy as in effect on January 1, 2015, assuming a termination date of December 31, 2015.

- (2) Upon termination of Mr. Bisignano’s employment by First Data without “cause”, by Mr. Bisignano for “good reason”, due to Mr. Bisignano’s “disability” or due to First Data’s non-renewal of the employment term, Mr. Bisignano is entitled to receive health insurance, excess disability and life insurance coverage until his death, unless earlier terminated in accordance with the Employment Agreement (Retiree Benefits). In addition, upon termination of Mr. Bisignano’s employment with First Data by Mr. Bisignano without “good reason”, in

addition to certain accrued amounts, Mr. Bisignano will be entitled to receive the Retiree Benefits. The Retiree Benefits in this table assumes Mr. Bisignano dies at age 80 and benefits are not terminated before then.

With respect to the other NEOs, represents First Data-paid portion of medical, dental and vision benefits for each executive for a period of one year under the Policy.

- (3) Upon termination of Mr. Bisignano's employment by First Data without "cause", by Mr. Bisignano for "good reason", or due to First Data's non-renewal of the employment term, Mr. Bisignano is entitled to receive payment, in installments over the Severance Period of an amount equal to financial planning benefits for two years following his termination of employment.
- (4) Mr. Bisignano's 2013 stock option agreement provides that, in the event of a termination of employment due to death or "disability," by him for Good Reason or by First Data without Cause, the unvested options that would have otherwise vested during the 12 month period following such termination will immediately vest and become exercisable. Messrs. Chiarello's and Patel's 2013 stock option agreements contain the same provision as Mr. Bisignano's 2013 stock option agreement.

Other than as specifically provided in Mr. Bisignano's 2013 stock option agreement and not including the stock options granted in connection with the IPO, with respect to all other outstanding stock options held by the NEOs, in the event of a termination of an NEO's employment due to death or "disability", by the NEO for "good reason" or by First Data without "cause", the unvested options that would have vested on the next anniversary of the grant date will vest pro-rata as determined by multiplying the number of shares of common stock subject to the option that would have so vested by a fraction, the numerator of which corresponds to the number of completed months of employment since the anniversary of the grant date immediately preceding the date of the termination of employment and the denominator of which is 12.

For all stock options granted to the NEOs in connection with the IPO, in the event of a termination due to death or "disability", by the NEO for "good reason" or by First Data without "cause", the unvested time options that would have vested on the next Time-Vesting Date vest pro-rata as determined by multiplying the number of Time Options that would have vested on such next Time-Vesting Date by a fraction, the numerator of which corresponds to the number of completed months of employment since the Time-Vesting Vesting Date immediately preceding the date of the termination of employment and the denominator of which is 12.

In the event of a termination prior to the Performance Vesting Date for the Performance Options that were granted to the NEOs in connection with the IPO, all unvested Performance Options shall be forfeited as of the date of the termination of employment.

In addition, in the event of a Change in Control, all unvested options become fully vested, except for the Performance Options granted in connection with the IPO. If the Performance Vesting Date has not occurred and the IPO does not result in a transaction equal to or exceeding \$32.00, then all Performance Options will be forfeited as of the date of the Change in Control.

- (5) Mr. Chiarello's 2013 Restricted Stock agreement provides that in the event of termination due to death, "disability", involuntary termination for any reason or voluntary termination, then all unvested restricted stock shall become 100% vested if such termination occurs on or after July 8, 2015. Mr. Patel's 2013 Restricted Stock agreement provides that in the event of termination due to death, "disability", involuntary termination for any reason or voluntary termination, then 80% of his unvested restricted stock shall vest if such termination occurs after January 1, 2015 but on or before December 31, 2015.

The terms of restricted stock awards issued to NEOs in 2014 and 2015, except for those issued in connection with the IPO, provide that, if the NEO's employment terminates due to death or disability or is terminated by First Data without cause or by the NEO for good reason, awards will vest based on the number of full months completed since the grant date divided by 36 months.

For all restricted stock granted to the NEOs in connection with the IPO, in the event of a termination due to death or "disability", by the NEO for "good reason" or by First Data without "cause", the unvested time restricted stock that would have vested on the next Time-Vesting Date vest pro-rata as determined by multiplying the number of shares that would have vested on such next Time-Vesting Date by a fraction, the numerator of which corresponds to the number of completed months of employment since the Time-Vesting

Vesting Date immediately preceding the date of the termination of employment and the denominator of which is 12.

In the event of a termination prior to the Performance Vesting Date for the Performance Restricted Stock that were granted to the NEOs in connection with the IPO, all unvested Performance Restricted Stock shall be forfeited as of the date of the termination of employment.

In addition, in the event of a Change in Control, all unvested shares of restricted stock will become fully vested, except for the Performance Restricted Stock granted in connection with the IPO. If the Performance Vesting Date has not occurred and the IPO does not result in a transaction equal to or exceeding \$32.00, then all Performance Restricted Stock will be forfeited as of the date of the Change in Control.

- (6) Under the terms of Mr. Bisignano's Employment Agreement, First Data agreed that during the term of the Employment Agreement and for a period of two years thereafter, it would continue for his benefit the tax-gross up provided under the Policy as in effect as of the date of the Employment Agreement.

Under the terms of the Policy, a "Gross-Up Payment" is made if it is determined that any Code Section 280G parachute payments provided by First Data to or, on behalf of, an eligible executive would be subject to the excise tax imposed by Code Section 4999. The Gross-Up Payment is an amount so that after payment of all taxes, the eligible executive retains an amount equal to the excise tax imposed by Code Section 4999.

However, if it is determined that the executive officer is entitled to a Gross-Up Payment but the payments to the executive officer do not exceed 110% of the amount which is one dollar less than the smallest amount that would give rise to any excise tax, then no Gross-Up Payment will be made and the payments will be reduced so as to not give rise to the excise tax. Executive officers are eligible for this payment regardless of whether their employment is terminated in connection with a Change in Control.

However, the provision in the Policy regarding "Gross-Up Payments" will not apply with respect to any payment that would otherwise be subject to the excise tax if such excise tax would be avoided by obtaining stockholder approval of the payment in the manner prescribed by Code Section 280G. As of December 31, 2014, the excise tax could have been avoided by obtaining stockholder approval pursuant to Code Section 280G. Accordingly, no amounts are reflected above.

Description of Termination Provisions

Employment Agreement Termination Provisions

Upon termination of Mr. Bisignano's employment by First Data without "cause" (as defined in the Employment Agreement), by Mr. Bisignano for "good reason" (as defined in the Employment Agreement), due to Mr. Bisignano's death or "disability" (as defined in the Employment Agreement) or due to First Data's non-renewal of the employment term, conditioned upon the execution and effectiveness of a release of claims against First Data and its affiliates and in addition to certain accrued amounts, Mr. Bisignano will be entitled to receive (1) payment, in installments ratably over a 24 month period (Severance Period), of an amount equal to the greater of (X) \$9.5 million or (Y) two times the sum of his base salary and the average of his annual incentive payments paid in cash in respect of the two fiscal years prior to the date of his termination (provided, that if Mr. Bisignano's employment is terminated by him for "good reason" following a "change of control" (within the meaning of Section 409A of the Code) within two years following such "change of control", the payment will be made in a lump sum cash payment) and (2) a pro rata portion of the annual incentive payment, if any, that would have otherwise been payable in respect of such year if he had remained employed through such year. In addition, Mr. Bisignano is entitled for continued health insurance coverage in accordance with the Consolidated Omnibus Budget Reconciliation Act of 1986 (COBRA), including medical and dental coverage and excess disability and life insurance coverage during the COBRA period. First Data's portion of the cost of such coverage and the provision of the coverage itself will be borne/provided by First Data in a manner that does not affect its medical plan or otherwise result in adverse tax consequences as determined in its sole discretion. Thereafter, and until Mr. Bisignano's death (Retiree Benefits), First Data

shall provide Mr. Bisignano with health insurance, excess disability and life insurance coverage that is reasonable comparable to the coverage provided to Peer Executives under such policies at such time. However, in the event that First Data determines in its reasonable judgment that maintaining the Retiree Benefits would adversely affect its medical plan or the benefits paid thereunder or would result in penalties under Public Health Service Act section 2716 or related provisions of the Internal Revenue Code or the Employee Retirement Income Security Act of 1974, as amended, or any other applicable law, then First Data may cease providing the Retiree Benefits to Mr. Bisignano and in lieu thereof agrees to pay Mr. Bisignano, on the first business day of each month, a monthly amount equal to First Data's allocable portion of the cost of such Retiree Benefits. Mr. Bisignano's rights to the Retiree Benefits shall terminate as of (i) the date on which reasonably comparable health insurance is made available to Mr. Bisignano by a subsequent employer, including First Data, or through the employment of his spouse, if any, or (ii) if Mr. Bisignano's employment with First Data was terminated by Mr. Bisignano without Good Reason or due to Mr. Bisignano's election not to extend the Term, in each case, the date on which Mr. Bisignano commences any employment, consulting, advisory, directorship, agency, promotional or independent contractor arrangement with any person or Entity (as defined in the Employment Agreement) (other than any such arrangement in which Mr. Bisignano serves solely as a non-executive director).

In addition to the amounts described above, on the 60th day after Mr. Bisignano's termination of employment, to the extent not theretofore paid, Mr. Bisignano shall be entitled to: (A) any other accrued but unpaid Base Salary to the date of termination of employment; (B) any Annual Incentive Payments earned but unpaid for fiscal years ended prior to the year in which the date of termination occurs; (C) contingent upon the execution and effectiveness of the Release prior to the 60th day after Mr. Bisignano's termination of employment, a pro rata portion of the Annual Incentive Payment, if any, for the fiscal year in which the termination of employment occurs, equal to the product of (x) the full Annual Incentive Payment amount that would otherwise be payable in respect of such year if Mr. Bisignano had remained employed through such year, if any, without any reduction due to individual performance factors, and (y) a fraction, the numerator of which is equal to the number of days elapsed in such fiscal year to the date of termination and the denominator of which is 365, with such incentive payment amount to be paid in the calendar year following the year in which Mr. Bisignano's termination occurred at the time that the full Annual Incentive Payment amount would have been paid had Mr. Bisignano's employment not been terminated, (D) to the extent applicable to Mr. Bisignano and to the extent provided under the terms of the Severance/Change in Control Policy (as defined in the Employment Agreement), if any outstanding cash incentive awards granted to Executive are eligible to become fully vested and payable solely contingent upon Mr. Bisignano's continued employment hereunder and the passage of time, continued vesting of such awards, with payment of such awards to be made in accordance with the awards' terms, notwithstanding Mr. Bisignano's earlier termination of employment, (E) any unreimbursed business expenses incurred prior to the date of termination and to which Mr. Bisignano is entitled to be reimbursed under Section 5(f) of the Employment Agreement and (F) other amounts or accrued benefits required to be paid or provided or which Mr. Bisignano is eligible to receive (whether on such 60th day or thereafter) under any employee benefit plan, program, policy or practice or contract or agreement of First Data (all of such other amounts and benefits referred to Section 9(a)(ii) of the Employment Agreement shall be referred to as the Other Benefits). For the avoidance of doubt, Mr. Bisignano shall not be a participant in that certain Company Severance/Change in Control Policy as amended and restated effective as of September 24, 2007 and amended by Amendment No. 1 thereto, as it may be further amended from time to time.

Severance/Change in Control Policy

We believe that reasonable and appropriate severance and Change in Control benefits are necessary in order to be competitive in our executive attraction and retention efforts. As such, we adopted the First Data Corporation Severance/Change in Control Policy (Management Committee Level) (Policy) which provides

for certain payments, rights and benefits to the NEOs (other than Mr. Bisignano) upon an involuntary termination of employment without cause or for good reason with or without a Change in Control.

The Policy provides for the following payments, rights and benefits for Eligible Executives (as defined in the Policy) who are involuntarily terminated (other than for Cause or due to Disability) or who voluntarily terminate for Good Reason, after January 1, 2015:

- (1) an amount equal to the product of (i) the sum of the executive's Base Salary and the incentive award paid to the executive, if any, pursuant to the SEIP (or the incentive plan then applicable to the executive) for the year immediately preceding the year in which the termination date occurs, and (ii) one (1) year (Severance Period); plus
- (2) A pro-rata portion of the incentive award paid to the Eligible Executive pursuant to the SEIP (or the incentive plan then applicable to the executive) for the year immediately preceding the year in which the termination date occurs. Such payment is based on the portion of the year the Eligible Executive was actively employed by First Data;
- (3) Continuation of medical, dental and vision benefits coverage for the Severance Period (i.e., one year) with a portion of the costs of the benefits paid by the executive officer;
- (4) Continued vesting of outstanding cash incentive awards granted to the executive officer that vest and are payable solely contingent upon continued employment and the passage of time, notwithstanding the executive officer's earlier termination of employment; and
- (5) A "Gross-Up Payment" is made if it is determined that any Internal Revenue Code section 280G parachute payments provided by First Data to or, on behalf of, an eligible executive would be subject to the excise tax imposed by Code section 4999. The Gross-Up Payment is an amount so that after payment of all taxes, the eligible executive retains an amount equal to the excise tax imposed by Code section 4999. However, if it is determined that the executive officer is entitled to a Gross-Up Payment but the payments to the executive officer do not exceed 110% of the amount which is one dollar less than the smallest amount that would give rise to any excise tax, then no Gross-Up Payment will be made and the payments will be reduced so as to not give rise to the excise tax.
Executive officers are eligible for this payment regardless of whether their employment is terminated in connection with a Change in Control.
However, the provision in the Policy regarding "Gross-Up Payments" will not apply with respect to any payment that would otherwise be subject to the excise tax if such excise tax would be avoided by obtaining stockholder approval of the payment in the manner prescribed by Code Section 280G, which is not applicable to us now following the IPO.

In addition, in the Committee's sole discretion, executive officers may also be eligible for outplacement services selected by First Data.

As a condition to receiving severance payments and benefits under the Policy, all employees are required to release First Data and its affiliates from all claims they may have against them and agree to a number of restrictive covenants which are structured to protect First Data from potential loss of customers or employees and to prohibit the release of confidential company information. Severance payments under the Policy that are not subject to Code Section 409A may be paid in installments or a lump sum payment and severance payments that are subject to Code Section 409A are paid in installments.

We have reserved the right to amend or terminate the Policy at any time in our sole discretion, provided, however, that during the period commencing on the closing of the 2007 merger and ending on the 36 month anniversary of a Change in Control (other than the 2007 merger), we are not permitted to amend or terminate the Policy without the consent of each affected executive officer.

Proposal 3 – Frequency of Advisory Vote on Executive Compensation

As described in Proposal 2, shareholders are being asked to cast an advisory vote on the compensation of our named executive officers as disclosed in the Compensation Discussion and Analysis, the accompanying compensation tables, and the related narrative disclosure in this Proxy Statement. Shareholders are also being asked to vote on whether future advisory votes on named executive officer compensation should occur every year, every two years, or every three years. Shareholders may also abstain from voting on this issue. This advisory vote will not be binding on the Governance, Compensation and Nominations Committee or the Board.

The Board understands that there are many points of view on the appropriate frequency for advisory votes on executive compensation. After careful consideration, the Board recommends that future advisory votes on named executive officer compensation occur every 3 years, for the following reasons:

- A substantial portion of executive compensation is in the form of long-term equity awards. Triennial votes will allow our shareholders to evaluate the effectiveness of such long-term compensation strategies and related business outcomes for the corresponding period, while avoiding over-emphasis on short-term variations in compensation and business results.
- We believe a triennial vote complements our goal of creating a compensation program that enhances long-term shareholder value.

Engagement with our shareholders is a key component of our corporate governance practices, and we will continue to engage with our shareholders during the period between advisory votes.

The Board of Directors recommends that you vote, on an advisory basis, to conduct future advisory votes on named executive officer compensation every 3 years.

Proposal 4 – Ratification of Selection of Auditors

The Board of Directors recommends to the shareholders the ratification of the selection of Ernst & Young LLP, independent registered public accounting firm, to audit the accounts of First Data and its subsidiaries for 2016. Ernst & Young LLP has served as the independent registered public accounting firm for First Data or its predecessor entities since 1980. Consistent with regulations adopted under the Sarbanes-Oxley Act of 2002, the lead audit partner having primary responsibility for the audit and the concurring audit partner are rotated every five years.

A representative of Ernst & Young LLP will be present at the meeting, will have the opportunity to make a statement, and will be available to respond to appropriate questions.

Audit Committee Pre-approval of Service of Independent Registered Public Accounting Firm

Our Audit Committee has established a policy to pre-approve all audit and non-audit services provided by the independent registered public accounting firm. These services may include audit services, audit-related services, tax services, and other services. Under the policy, our Audit Committee annually reviews and pre-approves services that may be provided by the independent registered public accounting firm for each audit year. The pre-approval is detailed as to the particular service or category of services and is subject to a specific budget. Once pre-approved, the services and pre-approved amounts are monitored against actual charges incurred and modified if appropriate. The Chairperson of the Committee has the authority to pre-approve such services between meetings of our Audit Committee and reports such pre-approvals to our Audit Committee at the next regularly scheduled meeting.

During 2015, all audit and non-audit services provided by Ernst & Young LLP were pre-approved by our Audit Committee or, consistent with the pre-approval policy of our Audit Committee, by the Chairperson of our Audit Committee for inter-meeting pre-approvals.

In the event the shareholders fail to ratify the appointment, the Audit Committee will consider it a direction to select other auditors for the subsequent year. Even if the selection is ratified, the Audit Committee, in its discretion, may select a new independent registered public accounting firm at any time during the year if it feels that such a change would be in the best interest of First Data and its shareholders.

The Board of Directors recommends that you vote FOR proposal 4.

Audit Committee Report

The Audit Committee assists the Board in fulfilling its oversight responsibilities with respect to the integrity of First Data's financial statements, First Data's compliance with legal and regulatory requirements, the qualifications, performance and independence of First Data's independent registered public accounting firm, and the performance of First Data's internal auditing department.

The Audit Committee is responsible for appointing and retaining our independent auditor and approving the audit and non-audit services to be provided by the independent auditor.

Our management is responsible for preparing our financial statements and ensuring they are complete and accurate and prepared in accordance with generally accepted accounting principles. Ernst & Young LLP, our independent registered public accounting firm for 2015, was responsible for performing an independent audit of our consolidated financial statements and expressing an opinion on the conformity of those financial statements with generally accepted accounting principles and as to the effectiveness of our internal control over financial reporting.

The audit committee has reviewed and discussed our audited financial statements for the year ended December 31, 2015 with management and with EY. These audited financial statements are included in our Annual Report on Form 10-K for the year ended December 31, 2015.

The audit committee has also discussed with EY the matters required to be discussed by Auditing Standard No. 16 adopted by the Public Company Accounting Oversight Board (United States) regarding "*Communication with Audit Committees.*"

The audit committee also has received and reviewed the written disclosures and the letter from EY required by applicable requirements of the Public Company Accounting Oversight Board regarding EY's communications with the audit committee concerning independence, and has discussed with EY its independence from us.

Based on the audit committee's review and discussions referred to above, the audit committee recommended to First Data's board of directors that First Data's audited financial statements be included in the annual report on Form 10-K for the fiscal year ended December 31, 2015 for filing with the SEC.
