These unaudited condensed consolidated financial statements include the accounts of NuStar GP Holdings and subsidiaries in which it has a controlling interest. Intercompany balances and transactions have been eliminated in consolidation.

We account for our ownership interest in NuStar Energy using the equity method. Therefore, our financial results reflect a portion of NuStar Energy’s net income based on our ownership interest in NuStar Energy. We have no separate operating activities apart from those conducted by NuStar Energy and therefore generate no revenues from operations.

Accordingly, they do not include all of the information and notes required by GAAP for complete consolidated financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included, and all disclosures are adequate. All such adjustments are of a normal recurring nature unless disclosed otherwise. New Accounting Pronouncements

Unit-Based Payments. In March 2016, the Financial Accounting Standards Board (FASB) issued amended guidance that simplifies certain aspects of accounting for unit-based payments to employees, including the accounting for income taxes, forfeitures, and statutory tax withholding requirements, as well as classification in the statement of cash flows. The changes are effective for annual and interim periods beginning after December 15, 2016, and early adoption is permitted. The new requirements should be applied prospectively, retrospectively or using a modified retrospective transition method depending on the area affected by the amended guidance. We adopted this amended guidance effective January 1, 2016, which did not have a material impact on our financial position, results of operations or disclosures.

Financial Instruments. In January 2016, the FASB issued new guidance that addresses certain aspects of recognition, measurement, presentation and disclosure of financial instruments. The changes are effective for annual and interim periods beginning after December 15, 2017, and amendments should be applied by means of a cumulative-effect adjustment to the balance sheet as of the beginning of the fiscal year of adoption. We will adopt these provisions January 1, 2018, and we do not expect the guidance to have a material impact on our financial position, results of operations or disclosures.

Deferred Taxes. In November 2015, the FASB issued amended guidance that requires deferred tax assets and liabilities to be classified as noncurrent on the balance sheet. The changes are effective for annual and interim periods beginning after December 15, 2016, using either a prospective or retrospective transition method, and early adoption is permitted. We will adopt these provisions on a prospective basis on January 1, 2017, and we do not expect the guidance to have a material impact on our financial position, results of operations or disclosures.

GP Services Agreement. Prior to the Employee Transfer, NuStar GP, LLC managed the operations of NuStar Energy under a services agreement effective January 1, 2008 pursuant to which employees of NuStar GP, LLC performed services for NuStar Energy’s U.S. operations. 5. FAIR VALUE MEASUREMENTS

We segregate the inputs used in measuring fair value into three levels: Level 1, defined as observable inputs such as quoted prices for identical assets or liabilities in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable, such as quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in markets that are not active; and Level 3, defined as unobservable inputs in which little or no market data exists.

As of December 31, 2015, NuStar Energy restricted and performance unit liabilities of \$3.8 million was measured at fair value on a recurring basis and categorized as a Level 1 in the fair value hierarchy. As a result of the Employee Transfer, our consolidated balance sheet as of March 31, 2016 no longer reflects these liabilities which were reported in “Accrued compensation expense” on our consolidated balance sheet as of December 31, 2015. Please refer to Note 3 and Note 11 for a discussion of the employee-related obligations transferred.

We recognize cash equivalents, receivables, payables and short-term debt in our consolidated balance sheets at their carrying amounts. The fair values of these financial instruments approximate their carrying amounts. The fair value of our short-term debt would fall in Level 2 of the fair value hierarchy.

7. CREDIT FACILITY

Our revolving credit facility dated June 28, 2013, as most recently amended on June 17, 2015, will mature on June 27, 2016 and has a borrowing capacity of up to \$50.0 million, of which up to \$10.0 million may be available for letters of credit. Our obligations under our revolving credit facility are guaranteed by Riverwalk Holdings, LLC (Riverwalk), a wholly owned subsidiary. Riverwalk pledged 1,792,918 NuStar Energy common units that it owns to secure its guarantee. Borrowings under our revolving credit facility are used to fund capital contributions to NuStar Energy to maintain our 2% general partner interest when NuStar Energy issues additional common units and to meet other liquidity and capital resource requirements.

As of March 31, 2016, we had outstanding borrowings of \$30.0 million and availability of \$20.0 million for borrowings under our revolving credit facility. Interest on our revolving credit facility is based upon, at our option, either an alternative base rate or a LIBOR-based rate. As of March 31, 2016, the weighted-average interest rate was 2.4%.

As of March 31, 2016, NuStar Energy's consolidated debt coverage ratio (as defined in our revolving credit agreement) could not exceed 5.00-to-1.00. As of March 31, 2016, NuStar Energy's consolidated debt coverage ratio was 4.6x. We are also required to receive cash distributions of at least \$16.0 million in respect of our ownership interests in NuStar Energy each fiscal quarter. Our management believes that we are in compliance with the covenants of our revolving credit facility as of March 31, 2016.

8. COMMITMENTS AND CONTINGENCIES

Contingencies

We are not currently a party to any material legal proceedings and have not recorded any accruals for loss contingencies. NuStar Energy is a party to claims and legal proceedings arising in the ordinary course of its business, which it believes are not material to its financial position or results of operations. However, due to the inherent uncertainty of litigation, there can be no assurance that the resolution of any particular claim or proceeding would not have a material adverse effect on NuStar Energy's results of operations and ability to pay distributions, which would impact our results of operations and ability to pay distributions.

9. MEMBERS' EQUITY

10. NET INCOME PER UNIT

We treat restricted units granted under our long-term incentive plan as participating securities in computing net income per unit pursuant to the two-class method. Basic and diluted net income per unit are the same for the three months ended March 31, 2016 and 2015 because we have no potentially dilutive securities outstanding.

11. EMPLOYEE BENEFIT PLANS AND UNIT-BASED COMPENSATION

Prior to the Employee Transfer, NuStar GP, LLC sponsored and maintained the following employee related benefit plans:

- The NuStar Thrift Plan (the Thrift Plan), a qualified employee profit-sharing plan;
- The NuStar Excess Thrift Plan, a benefit plan to those employees whose compensation and/or annual contributions under the Thrift Plan are subject to the limitations applicable to qualified retirement plans;
- The NuStar Pension Plan, a qualified non-contributory defined benefit pension plan;
- The NuStar Excess Pension Plan, a benefit plan to a select group of management or other highly compensated employees (the NuStar Pension Plan and the NuStar Excess Pension Plan are collectively referred to as the Pension Plans);
- The NuStar GP, LLC Retiree Welfare Benefits Plan, a medical benefits plan for certain retired employees; and
- The Fifth Amended and Restated 2000 Long-Term Incentive Plan (the Amended 2000 LTIP).

Prior to the Employee Transfer, NuStar Energy reimbursed NuStar GP, LLC for expenses incurred under these plans. Effective March 1, 2016, NuStar Services Co pays employee costs directly and assumed sponsorship and responsibility for the above employee related benefit plans.

Employee Benefit Plans

On March 1, 2016, and in conjunction with the Employee Transfer, we transferred to NuStar Services Co \$32.7 million in benefit obligations associated with the Pension Plans and other postretirement benefit plans. As a result of the Employee Transfer, our consolidated balance sheet as of March 31, 2016 no longer reflects these liabilities which were primarily reported in “Long-term liabilities” on our consolidated balance sheet as of December 31, 2015. Additionally, we transferred an accumulated other comprehensive income balance related to the unrecognized components of net periodic benefit cost (income) of \$4.2 million out of accumulated other comprehensive loss.

Unit-Based Compensation

On March 1, 2016, we transferred to NuStar Services Co all outstanding awards under the Amended 2000 LTIP, which represented 688,647 units, and removed the obligation related to these unit-based awards from our consolidated balance sheet.

We continue to sponsor and maintain the 2006 Long-Term Incentive Plan (the 2006 LTIP), which was not impacted by the Employee Transfer. Under the 2006 LTIP, awards of NSH units may be awarded to NuStar GP Holdings employees, consultants and directors who perform services for us or our affiliates. For further details on the 2006 LTIP, please see Note 15 of the Notes to Consolidated Financial Statements in Item 8. “Financial Statements and Supplementary Data” contained in our Annual Report on Form 10-K for the year ended December 31, 2015.

OVERVIEW

NuStar GP Holdings, LLC (NuStar GP Holdings) (NYSE: NSH) is a publicly traded Delaware limited liability company. Unless otherwise indicated, the terms "NuStar GP Holdings," "we," "our" and "us" are used in this report to refer to NuStar GP Holdings, LLC, to one or more of our consolidated subsidiaries or to all of them taken as a whole. Our Management's Discussion and Analysis of Financial Condition and Results of Operations is presented in seven sections:

- Overview
- Results of Operations
- Trends and Outlook
- Liquidity and Capital Resources
- Related Party Transactions
- Critical Accounting Policies
- New Accounting Pronouncements

Our only cash generating assets are our ownership interests in NuStar Energy L.P. (NuStar Energy), a publicly traded Delaware limited partnership (NYSE: NS). As of March 31, 2016, our aggregate ownership interests of approximately 15% in NuStar Energy consisted of the following:

- the 2% general partner interest;
- 100% of the incentive distribution rights issued by NuStar Energy, which entitle us to receive increasing percentages of the cash distributed by NuStar Energy, currently at the maximum percentage of 23%; and
- 10,214,626 common units of NuStar Energy representing limited partner interests.

We account for our ownership interest in NuStar Energy using the equity method. Therefore, our financial results reflect a portion of NuStar Energy's net income based on our ownership interest. We have no separate operating activities apart from those conducted by NuStar Energy and therefore generate no revenues from operations.

NuStar Energy is engaged in the transportation of petroleum products and anhydrous ammonia, the terminalling and storage of petroleum products and the marketing of petroleum products. NuStar Energy has terminal and storage facilities in the United States, Canada, Mexico, the Netherlands, including St. Eustatius in the Caribbean, and the United Kingdom.

NuStar Energy's partnership agreement requires that it distribute all "Available Cash" to its partners each quarter, and this term is defined in its partnership agreement as cash on hand at the end of the quarter, plus certain permitted borrowings made subsequent to the end of the quarter, less cash reserves determined by NuStar Energy's board of directors. Similarly, we are required by our limited liability company agreement to distribute all of our available cash at the end of each quarter, less reserves established by our board of directors.

Recent Developments

Employee Transfer from NuStar GP, LLC. On March 1, 2016, NuStar GP, LLC, our wholly owned subsidiary, transferred and assigned to NuStar Services Company LLC (NuStar Services Co), a wholly owned subsidiary of NuStar Energy, all of NuStar GP, LLC’s employees and related benefit plans, programs, contracts and policies (the Employee Transfer). The Employee Transfer did not materially change our results of operations since NuStar Energy previously reimbursed us for nearly all of NuStar GP, LLC’s employee costs. However, as a result of the Employee Transfer, NuStar Services Co pays employee costs directly and sponsors the long-term incentive plan and other employee benefit plans.

Linden Acquisition. On January 2, 2015, NuStar Energy acquired full ownership of a refined products terminal in Linden, NJ (the Linden Acquisition). Prior to the Linden Acquisition, the terminal operated as a joint venture between NuStar Energy and Linden Holding Corp, with each party owning 50%.

Equity in earnings of NuStar Energy

Our equity in earnings related to our general and limited partner interests in NuStar Energy decreased \$10.5 million for the three months ended March 31, 2016, compared to the three months ended March 31, 2015, due to a decrease in NuStar Energy's net income.

TRENDS AND OUTLOOK

We expect our equity in earnings of NuStar Energy to increase or decrease consistent with NuStar Energy's earnings.

NuStar Energy believes that the fact that it provides both storage and pipeline services, for crude and refined products, to customers in sectors across the energy industry, throughout the country and around the world, serves to offer some insulation from the impact of market fluctuations on its results of operations. Since high crude oil prices have tended to benefit NuStar Energy's producer customers, high prices have also correlated with increased demand for its crude oil pipeline services. On the other hand, depressed crude oil prices, when coupled with an industry expectation of higher prices in the future, or a contango market, has historically correlated with increased demand from trading companies for NuStar Energy's storage services.

Because of the geographic diversity of NuStar Energy's assets, its results of operations are not dependent on the regions or markets that have been hardest hit by depressed crude oil prices, the domestic shale play regions, which was demonstrated by the fact that, in 2015, revenue from NuStar Energy's Eagle Ford pipeline and storage assets constituted less than 16% of its total pipeline and storage segment revenue. Although NuStar Energy's assets in the Eagle Ford region have experienced lower throughputs as production has slowed, the fact that NuStar Energy has minimum volume throughput contracts with large, creditworthy customers has minimized the negative impact of that slowdown on its results of operations.

In addition to the diversity of NuStar Energy's customers, its assets, the services it offers and the markets it serves, NuStar Energy believes its contracts, many of which are long-term, take-or-pay arrangements for committed storage or throughput capacity, also help to blunt the impact of volatility of crude oil prices on its results of operations. In the locations at which NuStar Energy's assets are integrated physically with the refineries the assets serve, NuStar Energy believes the results generated by those assets depend to a greater degree on the refinery's continuing need to receive, store and transport the crude and refined products than on crude or refined product prices.

NuStar Energy's Pipeline Segment

NuStar Energy expects earnings for its pipeline segment to benefit from higher forecasted volumes on its refined product pipelines. However, NuStar Energy expects these increases to be more than offset by reduced throughput volumes on its Eagle Ford crude pipelines due to lower domestic shale production, and higher maintenance expenses resulting in lower earnings in the second quarter and full-year 2016 as compared to the comparable periods of 2015.

NuStar Energy's Storage Segment

NuStar Energy expects second quarter earnings in its storage segment to be lower than the comparable period in 2015 due to the effect of lower Eagle Ford throughputs at its Corpus Christi North Beach terminal and higher maintenance expenses.

For the full-year, earnings at many of NuStar Energy's terminals should improve from favorable storage contract renewals and higher forecasted throughput volumes. However, NuStar Energy expects these increases to be more than offset by lower throughputs at its Corpus Christi North Beach terminal and lower revenue from some of its foreign terminal facilities resulting in lower earnings in the full-year 2016 as compared to 2015.

NuStar Energy's Fuels Marketing Segment

NuStar Energy expects second quarter 2016 and full-year results for its fuels marketing segment to be slightly higher than the comparable periods of 2015. However, earnings in this segment, as in any margin-based business, are subject to many factors that can increase or reduce margins, which may cause the segment's actual results to vary significantly from NuStar Energy's forecast.

NuStar Energy's outlook for the partnership, both overall and for any of its segments, may change, as NuStar Energy bases its expectations on its continuing evaluation of a number of factors, many of which are outside its control. These factors include, but are not limited to, the state of the economy and the capital markets, changes to its customers' refinery maintenance schedules and unplanned refinery downtime, supply of and demand for crude oil, refined products and anhydrous ammonia, demand for its transportation and storage services and changes in laws or regulations affecting its assets.

LIQUIDITY AND CAPITAL RESOURCES

General

Our cash flows consist of distributions from NuStar Energy on our partnership interests, including the incentive distribution rights that we own. Due to our ownership of NuStar Energy’s incentive distribution rights, our portion of NuStar Energy’s total distributions may exceed our ownership interest in NuStar Energy. Our primary cash requirements are for distributions to members, capital contributions to maintain our 2% general partner interest in NuStar Energy in the event that NuStar Energy issues additional units, debt service requirements, if any, and general and administrative expenses. In addition, because NuStar GP, LLC, a wholly owned subsidiary of NuStar GP Holdings, elected to be treated as a taxable entity in August 2006, we may be required to pay income taxes, which may exceed the amount of tax expense recorded in the consolidated financial statements. We expect to fund our cash requirements primarily with the quarterly cash distributions we receive from NuStar Energy and borrowings under our revolving credit facility, if necessary.

Cash Distributions from NuStar Energy

NuStar Energy distributes all of its available cash within 45 days following the end of each quarter based on the partnership interests outstanding as of a record date that is set after the end of each quarter. The following table reflects the cash distributions earned for the periods shown with respect to our ownership interests in NuStar Energy and our incentive distribution rights:

	Three Months Ended March 31,

Distributions to us as a percentage of total cash distributions	24.4%	24.6%

Cash Flows for the Three Months Ended March 31, 2016 and March 31, 2015

Cash distributions received from NuStar Energy were \$24.0 million for each of the three months ended March 31, 2016 and 2015, respectively. The cash distributions we received were used principally to fund distributions to our unitholders, totaling \$23.4 million for each of the three months ended March 31, 2016 and 2015.

Credit Facility

As of March 31, 2016, we had outstanding borrowings of \$30.0 million and availability of \$20.0 million for borrowings under our revolving credit facility. Interest on our revolving credit facility is based upon, at our option, either an alternative base rate or a LIBOR-based rate. As of March 31, 2016, the weighted-average interest rate was 2.4%. Our management believes that we are in compliance with the covenants of our revolving credit facility as of March 31, 2016. We are in discussions with the lenders to renew or replace our revolving credit facility which will mature on June 27, 2016. Please refer to Note 7 of the Condensed Notes to Consolidated Financial Statements in Item 1. “Financial Statements” for a more detailed discussion on our revolving credit facility.

Cash Distributions to Unitholders

Our limited liability company agreement requires that, within 50 days after the end of each quarter, we distribute all of our available cash to the holders of record of our units on the applicable record date. Available cash is defined as all cash on hand at the end of any calendar quarter less the amount of cash reserves necessary or appropriate, as determined in good faith by our board of directors, to service debt we may incur, if any, and to fund general and administrative expenses, future distributions and other miscellaneous cash requirements. The following table reflects our cash distributions applicable to the period in which the distributions were earned:

	Three Months Ended March 31,	
	2016	2015
	(Thousands of Dollars, Except Per Unit Data)	
Cash distributions per unit	\$ 0.545	\$ 0.545
Total cash distributions	\$ 23,397	\$ 23,388

Contingencies

We are not currently a party to any material legal proceedings and have not recorded any accruals for loss contingencies. NuStar Energy is a party to claims and legal proceedings arising in the ordinary course of its business, which it believes are not material to its financial position or results of operations. However, due to the inherent uncertainty of litigation, there can be no assurance that the resolution of any particular claim or proceeding would not have a material adverse effect on NuStar Energy's results of operations and ability to pay distributions, which would impact our results of operations and ability to pay distributions.

RELATED PARTY TRANSACTIONS

Please refer to Note 3 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a discussion of our related party transactions.

CRITICAL ACCOUNTING POLICIES

The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. Our critical accounting policies are disclosed in our Annual Report on Form 10-K for the year ended December 31, 2015.

NEW ACCOUNTING PRONOUNCEMENTS

Please refer to Note 1 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a detailed discussion of new accounting pronouncements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our only cash generating assets are our ownership interests in NuStar Energy, which we account for using the equity method. We have no material market risk other than those market risks affecting NuStar Energy, which could therefore affect the value of our investment. NuStar Energy is exposed to various market risks, including interest rate risk and commodity price risk. For a description of NuStar Energy's market risks and how it manages its exposure to those risks, please see Item 3. "Quantitative and Qualitative Disclosures About Market Risk" contained in NuStar Energy's Form 10-Q for the quarter ended March 31, 2016.

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures.

Our management has evaluated, with the participation of our principal executive officer and principal financial officer, the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report, and has concluded that our disclosure controls and procedures were effective as of March 31, 2016.

(b) Changes in internal control over financial reporting.

There has been no change in our internal control over financial reporting that occurred during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
