¹ Includes unsecured long-term vanilla debt issues of benchmark size issued in the last twelve months.

² Substantially all of our senior and subordinated debt obligations contain no provisions that could trigger a requirement for an early repayment, require additional collateral support, result in changes to terms, accelerate maturity, or create additional financial obligations upon an adverse change in our credit ratings, financial ratios, earnings, cash flows or stock price.

³ Recent notable debt issuances exclude four debt issuances for \$12B that were related to the BAC senior debt exchange which settled on 12/20/17.

⁴ "BAC" refers to Bank of America Corporation.

⁵ Also includes make-whole call option.

⁶ Floating rate period begins on the issuer optional par call date.

⁷ Formosa bond issued in Taiwan; pricing is typically quoted based on yield rather than spread.

⁸ Accrual yield and for reference only.

⁹ Size includes reopen.
