The exact stock price and effective date applicable to a fundamental change may not be set forth on the table, in which case:

- if the stock price is between two stock price amounts on the table or the effective date is between two dates on the table, the amount of make-whole shares will be determined by straight line interpolation between the make-whole share amounts set forth for the higher and lower stock price amounts and the two dates, as applicable, based on a 365-day year;
- if the stock price is in excess of \$350 per share (subject to adjustment), then the amount of the make-whole shares will be zero; and
- if the stock price is less than \$25 per share (subject to adjustment) (the “minimum stock price”), then the amount of make-whole shares will be determined as if the stock price equaled the minimum stock price, using straight line interpolation, as described above, if the effective date is between two dates on the table.

Conflict of Interest:

An affiliate of Mizuho Securities USA Inc. (“Mizuho Securities”) is a lender to NEE Capital under a term loan agreement. NEE Capital will add the net proceeds from the sale of the NEE Capital debentures to its general funds. NEE Capital expects to use its general funds, among other things, for general corporate purposes, including the repayment of all of NEE Capital’s indebtedness under that term loan agreement. Since an

affiliate of Mizuho Securities will receive more than 5% of the net proceeds from the sale of the Corporate Units, Mizuho Securities will be deemed to have a “conflict of interest” under Rule 5121 of Financial Industry Regulatory Authority (“FINRA”). Accordingly, this offering will be made by Mizuho Securities in compliance with the applicable provisions of FINRA Rule 5121 and Mizuho Securities will not sell any of the Corporate Units to a discretionary account without the specific written approval of the account holder.

Allocation of the Purchase Price:

At the time of issuance, the fair market value of the applicable ownership interest in the NEE Capital Debentures will be reported as \$48.875 and the fair market value of each purchase contract will be reported as \$0.
