

Earnings Conference Call

First Quarter 2017

April 21, 2017

Cautionary Statements And Risk Factors That May Affect Future Results

This presentation includes forward-looking statements within the meaning of the federal securities laws. Actual results could differ materially from such forward-looking statements. The factors that could cause actual results to differ are discussed in the Appendix herein and in NextEra Energy's and NextEra Energy Partners' SEC filings.

Non-GAAP Financial Information

This presentation refers to certain financial measures that were not prepared in accordance with U.S. generally accepted accounting principles. Reconciliations of those non-GAAP financial measures to the most directly comparable GAAP financial measures can be found in the Appendix herein.

NextEra Energy and NextEra Energy Partners each achieved solid financial results in the first quarter

First Quarter 2017 Highlights

- **NEE grew adjusted EPS ~10% from the prior-year comparable quarter**
- **FPL:**
 - Regulatory capital growth of 9.7% year-over-year
 - Major capital initiatives on track
 - Announced plans for ~2,100 MW of incremental solar (including 1,200 MW under the SoBRA mechanism), ~1,200 MW modernization, and additional buyout of coal-fired unit
- **Energy Resources:**
 - Growth driven by strong contributions from additions in our contracted renewables portfolio and investments in natural gas pipelines
 - Added 621 MW of new contracted renewables to our backlog
- **NEP delivered first quarter performance in line with expectations**
 - Grew distributions per unit by 15% from prior-year comparable period
 - Announcing agreement to acquire ~250 MW wind project from Energy Resources

FPL's EPS grew 10 cents from the prior-year comparable quarter

Florida Power & Light Results – First Quarter

The primary driver of FPL's earnings growth was continued investment in the business

Florida Power & Light EPS Contribution Drivers

EPS Growth

| | First Quarter |
|--------------------------|------------------|
| FPL – 2016 EPS | \$0.85 |
| Drivers: | |
| New Investments | \$0.09 |
| Share dilution and other | \$0.01 |
| FPL – 2017 EPS | \$0.95 |

Regulatory Capital Employed⁽¹⁾

(1) Average over the quarter; includes retail rate base, wholesale rate base, clause-related investments, and AFUDC projects

(2) First quarter 2016 Regulatory Capital Employed retrospectively adjusted to include Cedar Bay which is a clause related investment

Florida's economy remains strong driving continued customer growth

Customer Characteristics & Florida Economy

Retail kWh Sales
(Change vs. prior-year quarter)

| | Q1 | Rolling 12 months |
|---------------------------------|-------|-------------------|
| Customer Growth & Mix | +0.8% | +1.2% |
| + Usage Change Due to Weather | +1.0% | -1.5% |
| + Underlying Usage Change/Other | -2.4% | -0.5% |
| + Leap Year | -0.6% | -0.1% |
| + Hurricane Matthew | 0.0% | -0.2% |
| = Retail Sales Change | -1.2% | -1.1% |

Customer Growth^(1,2)
(Change vs. prior-year quarter)

Florida Unemployment & Labor Participation Rates⁽³⁾

Florida Consumer Sentiment⁽⁴⁾

- (1) Based on average number of customer accounts for the quarter
- (2) Increases in customers and decreases in inactive accounts reflect the acceleration in customer growth resulting from the automatic disconnection of unknown KW usage (UKU) premises
- (3) Source: Bureau of Labor Statistics, Labor participation and unemployment through February 2017
- (4) Source: Bureau of Economic and Business Research through March 2017

We continue to execute well on our key initiatives, while identifying smart investments to deliver on our customer value proposition

Florida Power & Light Development Highlights

- **Major capital initiatives remain on track**
 - Okeechobee Clean Energy Center remains on budget and on schedule
 - Continued transmission and distribution hardening and automation projects on track
- **FPL solar growth**
 - Plans to commence construction this spring of eight 74.5 MW projects totaling ~600 MW for 2017 and 2018 COD
 - Incremental ~1,500 MW expected beyond 2018
- **Additional opportunities**
 - Announced plans for new ~1,200 MW generation modernization project, Dania Beach Clean Energy Center
 - Reached preliminary agreement with JEA to decommission the St. Johns River Power Park, a 1,252 MW coal-fired plant

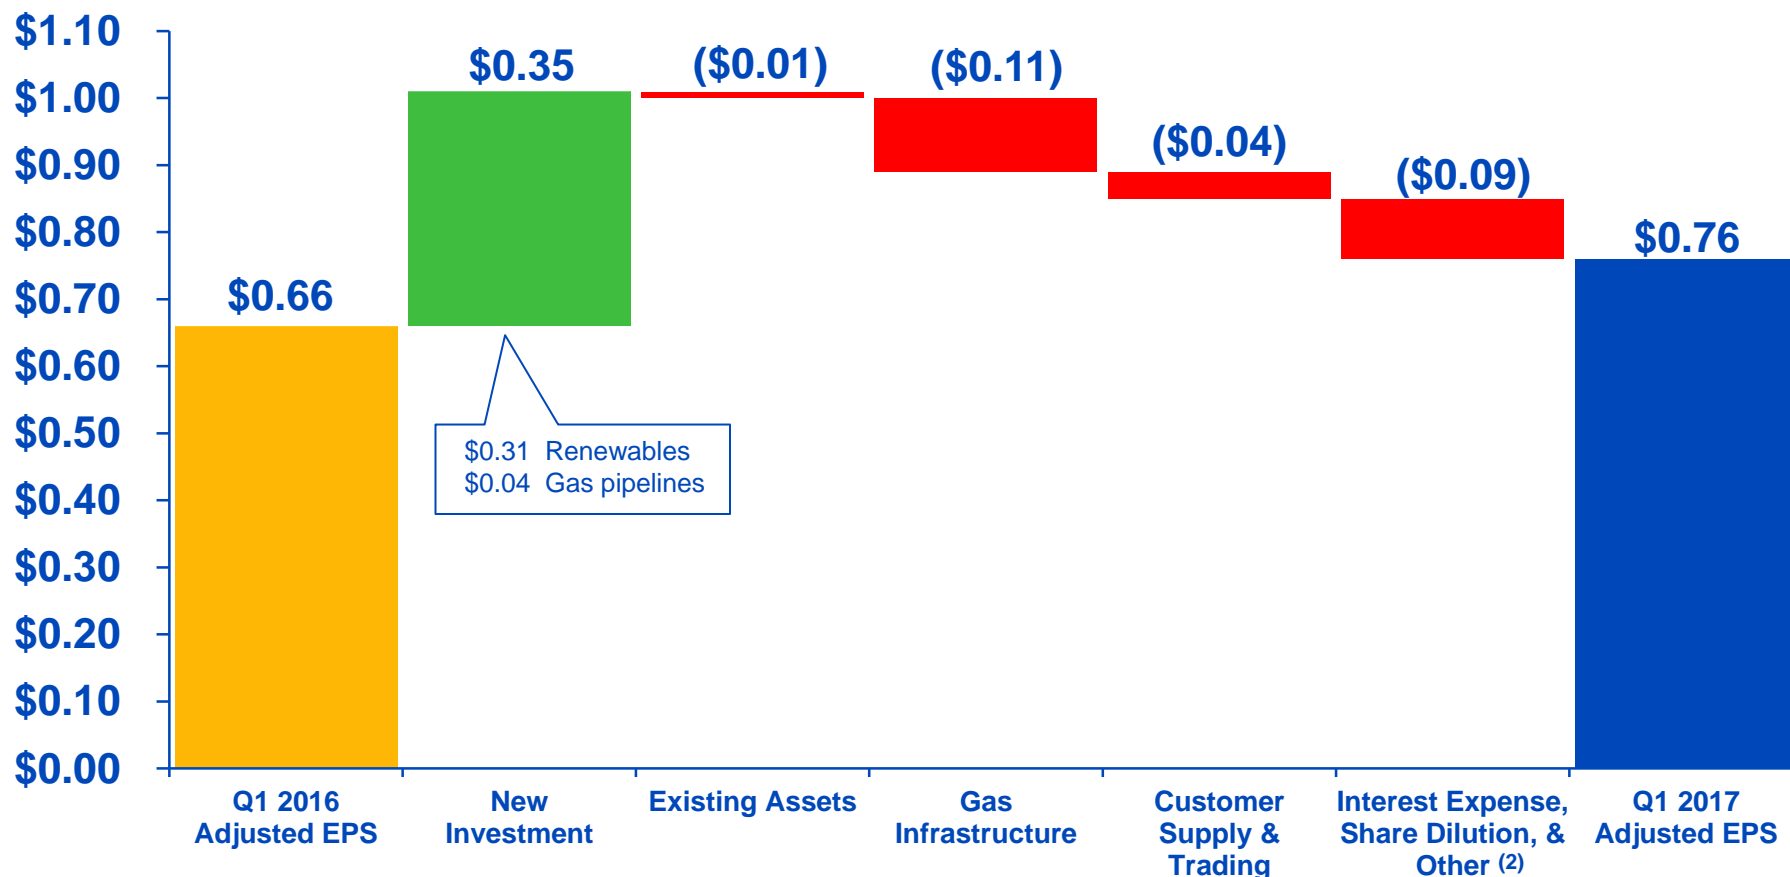

Energy Resources' adjusted EPS increased 15% from the comparable prior-year quarter

Energy Resources Results⁽¹⁾ – First Quarter

Energy Resources' adjusted EPS growth was driven by contributions from new investments

Energy Resources First Quarter Adjusted EPS⁽¹⁾ Contribution Drivers

(1) See Appendix for reconciliation of adjusted amounts to GAAP amounts

(2) Includes charges related to interest expense, income taxes, and rounding

We continue to have an outstanding opportunity set for new renewables growth

Energy Resources Development Program⁽¹⁾

- **Announcing 621 MW of renewables projects added to backlog**
 - Includes 545 MW of new wind and solar projects for delivery post-2018
- **Additional 1,028 MW of project sales not included in backlog**
 - Combination of 628 MW of development asset sales and 400 MW of build-own-transfer opportunities
- **Current 2017 – 2018 development program:**

| 2017-2018 | Signed & Repowering | Additional Forecast | Current Expectations |
|--|-------------------------------|-------------------------|-------------------------|
| U.S. Wind | 1,134 ⁽²⁾ | 1,266 – 2,666 | 2,400 – 3,800 |
| Canadian Wind | 0 | 0 – 300 | 0 – 300 |
| U.S. Solar | 323 ⁽³⁾ | 77 – 977 | 400 – 1,300 |
| Total | 1,457 MW | 1,343 – 3,943 MW | 2,800 – 5,400 MW |
| Total w/ Repowering | 3,057 MW⁽⁴⁾ | | |
| Total w/ Repowering and Project Sales | 3,685 MW⁽⁵⁾ | | |

(1) See Appendix for detail of Energy Resources' wind and solar development projects included in backlog

(2) Excludes 868 MW signed for post-2018 delivery

(3) Excludes 402 MW signed for post-2018 delivery

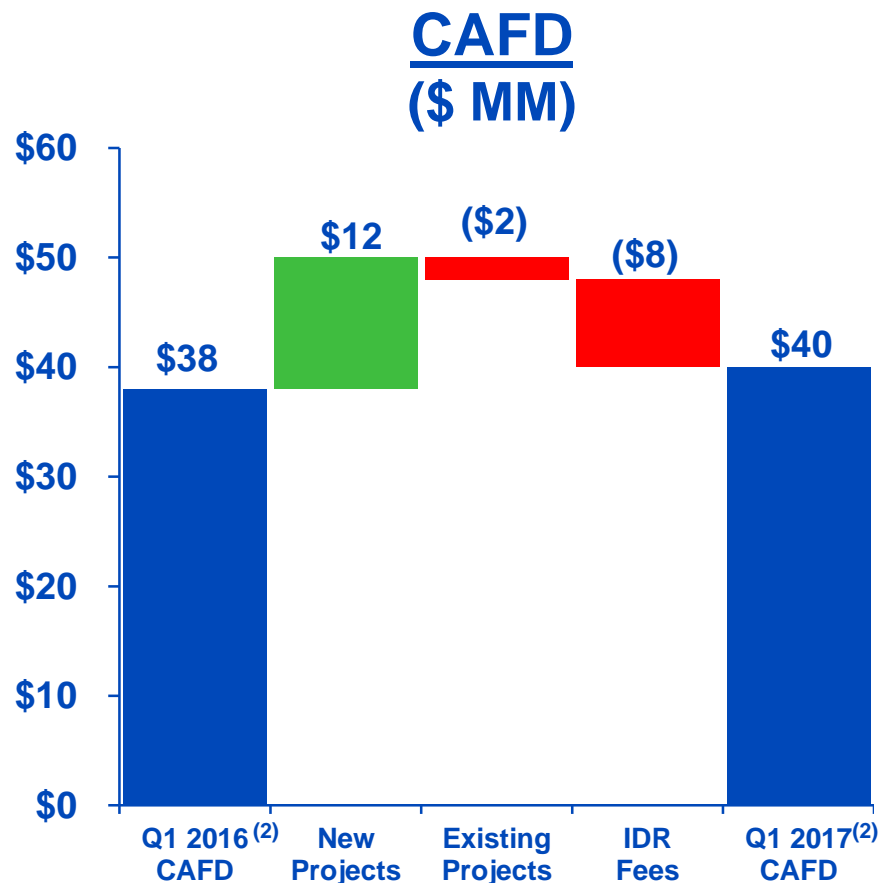

(4) Includes ~1,600 MW of repowering projects for completion in 2017-2018

10 (5) Includes 628 MW of project sales in 2017-2018; excludes 400 MW of project sales for post-2018

NEP delivered first quarter results in line with expectations, driven by portfolio growth over the last year

NextEra Energy Partners – First Quarter Drivers⁽¹⁾

(1) NEP consolidates 100% of the assets and operations of NEE Operating LP in which both NextEra and NEP LP unitholders hold an ownership interest; See Appendix for non-GAAP reconciliation

(2) Before accounting for debt service, cash available for distribution was \$112 MM in Q1 2016 and \$121 MM in Q1 2017

We continue to execute on our plan to expand NextEra Energy Partners' portfolio

NextEra Energy Partners – Portfolio Addition

- **Acquisition of Golden West Wind Energy Center from Energy Resources expected to close in May**
 - ~250 MW wind project located in El Paso County, Colorado
 - ~23.5 year remaining PPA life
- **Expected Purchase Price:**
 - Total consideration of ~\$238 MM, subject to working capital and other adjustments
 - Plus the assumption of tax equity financing liabilities totaling ~\$184 MM
 - Acquisition to be fully funded through existing debt capacity
- **Expected acquisition run-rate contribution:**
 - Adjusted EBITDA of \$53 - 63 MM
 - CAFD of \$22 - 27 MM

Note: Project-Level Adjusted EBITDA and CAFD represents Adjusted EBITDA before IDR Fees and Corporate Expenses

NextEra Energy's adjusted earnings per share increased ~10% versus the prior-year comparable quarter

NextEra Energy EPS Summary⁽¹⁾ – First Quarter

| GAAP | <u>2016⁽²⁾</u> | <u>2017</u> | <u>Change</u> |
|---------------------|----------------------------------|--------------------|----------------------|
| FPL | \$0.85 | \$0.95 | \$0.10 |
| Energy Resources | \$0.48 | \$1.01 | \$0.53 |
| Corporate and Other | \$0.08 | \$1.41 | \$1.33 |
| Total | \$1.41 | \$3.37 | \$1.96 |

| Adjusted | <u>2016⁽²⁾</u> | <u>2017</u> | <u>Change</u> |
|---------------------|----------------------------------|--------------------|----------------------|
| FPL | \$0.85 | \$0.95 | \$0.10 |
| Energy Resources | \$0.66 | \$0.76 | \$0.10 |
| Corporate and Other | \$0.08 | \$0.04 | (\$0.04) |
| Total | \$1.59 | \$1.75 | \$0.16 |

(1) Attributable to NEE, see Appendix for reconciliation of adjusted amounts to GAAP amounts

(2) Corporate and other reflects the first-quarter 2016 favorable impact of approximately \$17 million, or \$0.04 per share, of the adoption in the second quarter of 2016 of an accounting standards update related to stock-based compensation

NextEra Energy's Adjusted Earnings Per Share Expectations⁽¹⁾

2017

\$6.35 - \$6.85

2018

\$6.80 - \$7.30

2020

6% - 8% CAGR off a 2016 base

NextEra Energy Partners' Adjusted EBITDA and CAFD Expectations⁽¹⁾

| | <u>Adjusted EBITDA</u> | <u>CAFD</u> |
|--|--|-------------------------|
| 12/31/17 Run Rate⁽²⁾ | \$875 - \$975 MM | \$310 - \$340 MM |
| <u>Unit Distributions</u> | | |
| 2017⁽³⁾ | \$1.58 - \$1.62 annualized rate by year end | |
| 2016 – 2022⁽⁴⁾ | 12% - 15% average annual growth | |

(1) See Appendix for definition of Adjusted EBITDA and CAFD expectations

(2) Reflects calendar year 2018 expectations for forecasted portfolio as of 12/31/17; includes announced portfolio, plus expected impact of additional acquisitions not yet identified

(3) Represents expected fourth quarter annualized distributions payable in February of the following year

(4) From a base of our fourth quarter 2016 distribution per common unit at an annualized rate of \$1.41

Q&A Session

| Fitch | A Midpoint | Actual 2014 | Actual 2015 | Actual 2016 | Target 2017 |
| Debt/FFO | 3.5x | 3.9x | 3.9x | 3.8x | 3.7x |
| FFO/Interest | 5.0x | 5.9x | 6.5x | 6.2x | 6.2x |

Potential drivers of variability to consolidated adjusted EPS

Balance of 2017 Potential Sources of Variability⁽¹⁾

Florida Power & Light

- Wholesale (primarily volume) \pm \$0.01 - \$0.02
- Timing of investment \pm \$0.02 - \$0.04

NextEra Energy Resources

- Natural gas prices (\pm \$1/MMBtu change) \pm \$0.01 - \$0.02
- Wind resource⁽²⁾ (\pm 1% deviation) \pm \$0.02 - \$0.03
- Asset reliability⁽³⁾ (\pm 1% EFOR) \pm \$0.04
- Texas market conditions \pm \$0.02
- Asset optimization \pm \$0.01 - \$0.02
- Interest rates (\pm 100 bps shift in yield curve) \pm \$0.04 - \$0.05

Corporate and Other

- Interest rates (\pm 100 bps shift in yield curve) \pm \$0.03
- Corporate tax items \pm \$0.04

(1) These are not the only drivers of potential variability, and actual impacts could fall outside the ranges shown. Please refer to SEC filings, including full discussion of risk factors and uncertainties, made through the date of this presentation

(2) Per 1% deviation in the Wind Production Index

(3) \pm 1% of estimated megawatt hour production on all power generating assets

NextEra Energy Resources

Projected 2017 Portfolio Financial Information⁽¹⁾

| | Adjusted EBITDA by Asset Category ⁽²⁾ | Value of pre-tax tax credits included in adjusted EBITDA ⁽³⁾ | Debt Service ⁽⁴⁾ | Maintenance Capital ⁽⁵⁾ | Other ⁽⁶⁾ | Pre-Tax Cash Flows ⁽⁷⁾ | Remaining Contract Life ⁽⁸⁾ |

(1) Includes NEER's projected ownership share of NEP assets

(2) See appendix for definition of Adjusted EBITDA by Asset Category

(3) Pre-tax tax credits include investment tax credits, convertible investment tax credits, production tax credits earned by NEER, and production tax credits allocated to tax equity investors

(4) Debt service includes principal and interest payments on existing and projected third party debt and distributions net of contributions to/from tax equity investors

(5) Maintenance capital includes capital expenditures to maintain the existing capacity of the assets. It excludes capital expenditures associated with new development activities. For gas infrastructure it includes a level of capital spending to maintain the existing level of EBITDA

(6) Other represents non-cash revenue and expense items included in adjusted EBITDA. Included are nuclear fuel purchases, amortization of nuclear fuel, amortization of below or above market PPAs, earnings generated in our nuclear decommissioning funds, gains or losses on sale of assets and amortization of convertible investment tax credits, and AFUDC earnings on regulated pipelines under construction

(7) Pre-tax cash flows excludes changes in working capital, payments for income taxes, and corporate G&A not allocated to project operations

(8) Remaining contract life is the weighted average based on adjusted EBITDA

(9) Contracted assets includes wind assets without executed PPAs but for which PPAs are anticipated. Adjusted EBITDA for these wind assets reflects energy pricing based upon the forward curves until the PPAs are expected to be executed at which time a projected PPA energy price is reflected

(10) Includes NEER's projected share of Texas pipelines

(11) New Investment includes wind, solar and regulated natural gas pipelines forecasted additions for 2017

(12) Includes upstream and midstream business only. Texas pipelines are included in Contracted Other and regulated natural gas pipelines are included in New Investment

A 1% change in the wind production index equates to roughly 2 - 3 cents of EPS for the remainder 2017 and roughly 3 - 4 cents for 2018

- (1) Represents a measure of the actual wind speeds available for energy production for the stated period relative to long-term average wind speeds. The numerator is calculated from the actual wind speeds observed at each wind facility applied to turbine-specific power curves to produce the estimated MWh production for the stated period. The denominator is the estimated long-term average wind speeds at each wind facility applied to the same turbine-specific power curves to produce the long-term average MWh production
- (2) Reflects new methodology adopted in the first quarter of 2017 to include new wind investments one year after project COD/acquisition date. The previous methodology included new wind investments one month after project COD/acquisition date. The 2016 Wind Production Index has been adjusted for this change

Definitional information

NextEra Energy, Inc. Adjusted Earnings Expectations

This presentation refers to adjusted earnings per share expectations. Adjusted earnings expectations exclude the unrealized mark-to-market effect of non-qualifying hedges, net OTTI losses on securities held in NextEra Energy Resources' nuclear decommissioning funds and the cumulative effect of adopting new accounting standards, none of which can be determined at this time, and operating results from the Spain solar project and merger related expenses and, for 2017, the gain on sale of the fiber-optic telecommunications business. In addition, adjusted earnings expectations assume, among other things: normal weather and operating conditions; continued recovery of the national and the Florida economy; supportive commodity markets; current forward curves; public policy support for wind and solar development and construction; market demand and transmission expansion to support wind and solar development; access to capital at reasonable cost and terms; no divestitures, other than to NextEra Energy Partners, LP, or acquisitions; no adverse litigation decisions; and no changes to governmental tax policy or incentives. Expected adjusted earnings amounts cannot be reconciled to expected net income because net income includes the mark-to-market effect of non-qualifying hedges and net OTTI losses on certain investments, none of which can be determined at this time.

NextEra Energy Resources, LLC. Adjusted EBITDA

Adjusted EBITDA includes NextEra Energy Resources consolidated investments, excluding Spain, its share of NEP and forecasted investments, as well as its share of equity method investments. Adjusted EBITDA represents projected (a) revenue less (b) fuel expense, less (c) project operating expenses, less (d) corporate G&A, plus (e) other income, less (f) other deductions. Adjusted EBITDA excludes the impact of non-qualifying hedges, other than temporary impairments, and certain differential membership costs. Projected revenue as used in the calculations of Adjusted EBITDA represents the sum of projected (a) operating revenue plus a pre-tax allocation of (b) production tax credits, plus (c) investment tax credits and plus (d) earnings impact from convertible investment tax credits.

NextEra Energy Resources, LLC. Adjusted EBITDA by Asset Category

Adjusted EBITDA by Asset Category includes NextEra Energy Resources consolidated investments, excluding Spain, its share of NEP and forecasted investments, as well as its share of equity method investments. Adjusted EBITDA by Asset Category represents projected (a) revenue less (b) fuel expense, less (c) project operating expenses, less (d) a portion of corporate G&A deemed to be associated with project operations, plus (e) other income, less (f) other deductions. Adjusted EBITDA by Asset Category excludes the impact of non-qualifying hedges, other than temporary impairments, corporate G&A not allocated to project operations, and certain differential membership costs. Projected revenue as used in the calculations of Adjusted EBITDA by Asset Category represents the sum of projected (a) operating revenue plus a pre-tax allocation of (b) production tax credits, plus (c) investment tax credits and plus (d) earnings impact from convertible investment tax credits.

Cautionary Statement And Risk Factors That May Affect Future Results

This presentation contains “forward-looking statements” within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are not statements of historical facts, but instead represent the current expectations of NextEra Energy, Inc. (NextEra Energy) and Florida Power & Light Company (FPL) regarding future operating results and other future events, many of which, by their nature, are inherently uncertain and outside of NextEra Energy's and FPL's control. Forward-looking statements in this presentation include, among others, statements concerning adjusted earnings per share expectations and future operating performance], [and statements concerning future dividends. In some cases, you can identify the forward-looking statements by words or phrases such as “will,” “may result,” “expect,” “anticipate,” “believe,” “intend,” “plan,” “seek,” “potential,” “projection,” “forecast,” “predict,” “goals,” “target,” “outlook,” “should,” “would” or similar words or expressions. You should not place undue reliance on these forward-looking statements, which are not a guarantee of future performance. The future results of NextEra Energy and FPL and their business and financial condition are subject to risks and uncertainties that could cause their actual results to differ materially from those expressed or implied in the forward-looking statements, or may require them to limit or eliminate certain operations. These risks and uncertainties include, but are not limited to, the following: effects of extensive regulation of NextEra Energy's and FPL's business operations; inability of NextEra Energy and FPL to recover in a timely manner any significant amount of costs, a return on certain assets or a reasonable return on invested capital through base rates, cost recovery clauses, other regulatory mechanisms or otherwise; impact of political, regulatory and economic factors on regulatory decisions important to NextEra Energy and FPL; disallowance of cost recovery by FPL based on a finding of imprudent use of derivative instruments; effect of any reductions or modifications to, or elimination of, governmental incentives or policies that support utility scale renewable energy projects of NextEra Energy Resources, LLC and its affiliated entities (NextEra Energy Resources) or the imposition of additional tax laws, policies or assessments on renewable energy; impact of new or revised laws, regulations, interpretations or other regulatory initiatives on NextEra Energy and FPL; capital expenditures, increased operating costs and various liabilities attributable to environmental laws, regulations and other standards applicable to NextEra Energy and FPL; effects on NextEra Energy and FPL of federal or state laws or regulations mandating new or additional limits on the production of greenhouse gas emissions; exposure of NextEra Energy and FPL to significant and increasing compliance costs and substantial monetary penalties and other sanctions as a result of extensive federal regulation of their operations and businesses; effect on NextEra Energy and FPL of changes in tax laws, guidance or policies as well as in judgments and estimates used to determine tax-related asset and liability amounts; impact on NextEra Energy and FPL of adverse results of litigation; effect on NextEra Energy and FPL of failure to proceed with projects under development or inability to complete the construction of (or capital improvements to) electric generation, transmission and distribution facilities, gas infrastructure facilities or other facilities on schedule or within budget; impact on development and operating activities of NextEra Energy and FPL resulting from risks related to project siting, financing, construction, permitting, governmental approvals and the negotiation of project development agreements; risks involved in the operation and maintenance of electric generation, transmission and distribution facilities, gas infrastructure facilities and other facilities; effect on NextEra Energy and FPL of a lack of growth or slower growth in the number of customers or in customer usage; impact on NextEra Energy and FPL of severe weather and other weather conditions; threats of terrorism and catastrophic events that could result from terrorism, cyber attacks or other attempts to disrupt NextEra Energy's and FPL's business or the businesses of third parties; inability to obtain adequate insurance coverage for protection of NextEra Energy and FPL against significant losses and risk that insurance coverage does not provide protection against all significant losses; a prolonged period of low gas and oil prices could impact NextEra Energy Resources' gas infrastructure business and cause NextEra Energy Resources to delay or cancel certain gas infrastructure projects and for certain existing projects to be impaired; risk to NextEra Energy Resources of increased operating costs resulting from unfavorable supply costs necessary to provide NextEra Energy Resources' full energy and capacity requirement services; inability or failure by NextEra Energy Resources to manage properly or hedge effectively the commodity risk within its portfolio;

Cautionary Statement And Risk Factors That May Affect Future Results (cont.)

effect of reductions in the liquidity of energy markets on NextEra Energy's ability to manage operational risks; effectiveness of NextEra Energy's and FPL's risk management tools associated with their hedging and trading procedures to protect against significant losses, including the effect of unforeseen price variances from historical behavior; impact of unavailability or disruption of power transmission or commodity transportation facilities on sale and delivery of power or natural gas by FPL and NextEra Energy Resources; exposure of NextEra Energy and FPL to credit and performance risk from customers, hedging counterparties and vendors; failure of NextEra Energy or FPL counterparties to perform under derivative contracts or of requirement for NextEra Energy or FPL to post margin cash collateral under derivative contracts; failure or breach of NextEra Energy's or FPL's information technology systems; risks to NextEra Energy and FPL's retail businesses from compromise of sensitive customer data; losses from volatility in the market values of derivative instruments and limited liquidity in OTC markets; impact of negative publicity; inability of NextEra Energy and FPL to maintain, negotiate or renegotiate acceptable franchise agreements with municipalities and counties in Florida; occurrence of work strikes or stoppages and increasing personnel costs; NextEra Energy's ability to successfully identify, complete and integrate acquisitions, including the effect of increased competition for acquisitions; NextEra Energy Partners, LP's (NEP's) acquisitions may not be completed and, even if completed, NextEra Energy may not realize the anticipated benefits of any acquisitions; environmental, health and financial risks associated with NextEra Energy Resources' and FPL's ownership and operation of nuclear generation facilities; liability of NextEra Energy and FPL for significant retrospective assessments and/or retrospective insurance premiums in the event of an incident at certain nuclear generation facilities; increased operating and capital expenditures and/or result in reduced revenues at nuclear generation facilities of NextEra Energy or FPL resulting from orders or new regulations of the Nuclear Regulatory Commission; inability to operate any of NextEra Energy Resources' or FPL's owned nuclear generation units through the end of their respective operating licenses; effect of disruptions, uncertainty or volatility in the credit and capital markets on NextEra Energy's and FPL's ability to fund their liquidity and capital needs and meet their growth objectives; inability of NextEra Energy, FPL and NextEra Energy Capital Holdings, Inc. to maintain their current credit ratings; impairment of NextEra Energy's and FPL's liquidity from inability of credit providers to fund their credit commitments or to maintain their current credit ratings; poor market performance and other economic factors that could affect NextEra Energy's defined benefit pension plan's funded status; poor market performance and other risks to the asset values of NextEra Energy's and FPL's nuclear decommissioning funds; changes in market value and other risks to certain of NextEra Energy's investments; effect of inability of NextEra Energy subsidiaries to pay upstream dividends or repay funds to NextEra Energy or of NextEra Energy's performance under guarantees of subsidiary obligations on NextEra Energy's ability to meet its financial obligations and to pay dividends on its common stock; the fact that the amount and timing of dividends payable on NextEra Energy's common stock, as well as the dividend policy approved by NextEra Energy's board of directors from time to time, and changes to that policy, are within the sole discretion of NextEra Energy's board of directors and, if declared and paid, dividends may be in amounts that are less than might be expected by shareholders; NEP's inability to access sources of capital on commercially reasonable terms could have an effect on its ability to consummate future acquisitions and on the value of NextEra Energy's limited partner interest in NextEra Energy Operating Partners, LP; and effects of disruptions, uncertainty or volatility in the credit and capital markets on the market price of NextEra Energy's common stock. NextEra Energy and FPL discuss these and other risks and uncertainties in their annual report on Form 10-K for the year ended December 31, 2016 and other SEC filings, and this presentation should be read in conjunction with such SEC filings made through the date of this presentation. The forward-looking statements made in this presentation are made only as of the date of this presentation and NextEra Energy and FPL undertake no obligation to update any forward-looking statements.

Expected Cash Available for Distribution⁽¹⁾ (December 31, 2017 Run Rate CAFD)

- (1) See Appendix for definition of Adjusted EBITDA and CAFD expectations. Project-Level Adjusted EBITDA represents Adjusted EBITDA before IDR Fees and Corporate Expenses
- (2) Debt service includes principal and interest payments on existing and projected third party debt and distributions net of contributions to/from tax equity investors
- (3) Pre-tax tax credits include investment tax credits, production tax credits earned by NEP, and production tax credits allocated to tax equity investors
- (4) Primarily reflects amortization of CITC
- (5) CAFD excludes proceeds from financings and changes in working capital

Definitional information

NextEra Energy Partners, LP. Adjusted EBITDA and CAFD Expectations

This presentation refers to adjusted EBITDA and CAFD expectations. NEP's adjusted EBITDA expectations represent projected (a) revenue less (b) fuel expense, less (c) project operating expenses, less (d) corporate G&A, plus (e) other income less (f) other deductions including IDR fees. Projected revenue as used in the calculations of projected EBITDA represents the sum of projected (a) operating revenues plus (b) a pre-tax allocation of production tax credits, plus (c) a pre-tax allocation of investment tax credits plus (d) earnings impact from convertible investment tax credits and plus (e) the reimbursement for lost revenue received pursuant to a contract with NextEra Energy Resources.

CAFD is defined as cash available for distribution and represents adjusted EBITDA less (1) a pre-tax allocation of production tax credits, less (2) a pre-tax allocation of investment tax credits, less (3) earnings impact from convertible investment tax credits, less (4) debt service, less (4) maintenance capital, less (5) income tax payments less, (6) other non-cash items included in adjusted EBITDA if any. CAFD excludes changes in working capital.

NextEra Energy Partners' expectations of 12/31/17 run rate adjusted EBITDA and CAFD reflect the consummation of forecasted acquisitions. These measures have not been reconciled to GAAP net income because NextEra Energy Partners did not prepare estimates of the effect of these acquisitions on certain GAAP line items that would be necessary to provide a forward-looking estimate of GAAP net income, and the information necessary to provide such a forward-looking estimate is not available without unreasonable effort.

Cautionary Statement And Risk Factors That May Affect Future Results

This presentation contains “forward-looking statements” within the meaning of the federal securities laws. Forward-looking statements are not statements of historical facts, but instead represent the current expectations of NextEra Energy Partners, LP (together with its subsidiaries, NEP) regarding future operating results and other future events, many of which, by their nature, are inherently uncertain and outside of NEP’s control. Forward-looking statements in this presentation include, among others, statements concerning cash available for distributions expectations and future operating performance. In some cases, you can identify the forward-looking statements by words or phrases such as “will,” “may result,” “expect,” “anticipate,” “believe,” “intend,” “plan,” “seek,” “aim,” “potential,” “projection,” “forecast,” “predict,” “goals,” “target,” “outlook,” “should,” “would” or similar words or expressions. You should not place undue reliance on these forward-looking statements, which are not a guarantee of future performance. The future results of NEP and its business and financial condition are subject to risks and uncertainties that could cause NEP’s actual results to differ materially from those expressed or implied in the forward-looking statements, or may require it to limit or eliminate certain operations. These risks and uncertainties include, but are not limited to, the following: NEP has a limited operating history and its projects include renewable energy projects that have a limited operating history. Such projects may not perform as expected; NEP’s ability to make cash distributions to its unitholders is affected by wind and solar conditions at its renewable energy projects; NEP’s business, financial condition, results of operations and prospects can be materially adversely affected by weather conditions, including, but not limited to, the impact of severe weather; NEP may fail to realize expected profitability or growth, and may incur unanticipated liabilities, as a result of the acquisition of NET Holdings Management, LLC (the Texas pipeline business); NEP is pursuing the expansion of natural gas pipelines in its portfolio that will require up-front capital expenditures and expose NEP to project development risks; NEP’s ability to maximize the productivity of the Texas pipeline business and to complete potential pipeline expansion projects is dependent on the continued availability of natural gas production in the Texas pipelines’ areas of operation; Operation and maintenance of renewable energy projects involve significant risks that could result in unplanned power outages, reduced output, personal injury or loss of life; Portions of NEP’s pipeline systems have been in service for several decades. There could be unknown events or conditions or increased maintenance or repair expenses and downtime associated with NEP’s pipelines that could have a material adverse effect on NEP’s business, financial condition, results of operations, liquidity and ability to make distributions; Natural gas gathering and transmission activities involve numerous risks that may result in accidents or otherwise affect the Texas pipelines’ operations; The wind turbines at some of NEP’s projects and some of NextEra Energy Resources LLC’s (NEER) right of first offer (ROFO) projects are not generating the amount of energy estimated by their manufacturers’ original power curves, and the manufacturers may not be able to restore energy capacity at the affected turbines; NEP depends on the Texas pipelines and certain of the renewable energy projects in its portfolio for a substantial portion of its anticipated cash flows; Terrorist or similar attacks could impact NEP’s projects, pipelines or surrounding areas and adversely affect its business; The ability of NEP to obtain insurance and the terms of any available insurance coverage could be materially adversely affected by international, national, state or local events and company-specific events, as well as the financial condition of insurers. NEP’s insurance coverage does not insure against all potential risks and it may become subject to higher insurance premiums; Warranties provided by the suppliers of equipment for NEP’s projects may be limited by the ability of a supplier to satisfy its warranty obligations, or by the terms of the warranty, so the warranties may be insufficient to compensate NEP for its losses; Supplier concentration at certain of NEP’s projects may expose it to significant credit or performance risks; NEP relies on interconnection and transmission facilities of third parties to deliver energy from its renewable energy projects and, if these facilities become unavailable, NEP’s wind and solar projects may not be able to operate or deliver energy; If third-party pipelines and other facilities interconnected to the Texas pipelines become partially or fully unavailable to transport natural gas, NEP’s revenues and cash available for distribution to unitholders could be adversely affected; NEP’s business is subject to liabilities and operating restrictions arising from environmental, health and safety laws and regulations; Natural gas operations are subject to numerous environmental laws and regulations, compliance with which may require significant capital expenditures, increase NEP’s cost of operations and affect or limit its business plans, or expose NEP to liabilities;

Cautionary Statement And Risk Factors That May Affect Future Results (cont.)

NEP's renewable energy projects may be adversely affected by legislative changes or a failure to comply with applicable energy regulations; A change in the jurisdictional characterization of some of the Texas pipeline entities' assets, or a change in law or regulatory policy, could result in increased regulation of these assets, which could have a material adverse effect on NEP's business, financial condition, results of operations and ability to make cash distributions to its unitholders; NEP may incur significant costs and liabilities as a result of pipeline integrity management program testing and any necessary pipeline repair or preventative or remedial measures; The Texas pipelines' operations could incur significant costs if the Pipeline and Hazardous Materials Safety Administration or the Railroad Commission of Texas adopts more stringent regulations; Petróleos Mexicanos (Pemex) may claim certain immunities under the Foreign Sovereign Immunities Act and Mexican law, and the Texas pipeline entities' ability to sue or recover from Pemex for breach of contract may be limited and may be exacerbated if there is a deterioration in the economic relationship between the U.S. and Mexico; NEP's partnership agreement restricts the voting rights of unitholders owning 20% or more of its common units, and under certain circumstances this could be reduced to 10%; NEP does not own all of the land on which the projects in its portfolio are located and its use and enjoyment of the property may be adversely affected to the extent that there are any lienholders or leaseholders that have rights that are superior to NEP's rights or the U.S. Bureau of Land Management suspends its federal rights-of-way grants; NEP is subject to risks associated with litigation or administrative proceedings that could materially impact its operations, including, but not limited to, proceedings related to projects it acquires in the future; NEP's wind projects located in Canada are subject to Canadian domestic content requirements under their Feed-In-Tariff contracts; NEP's cross-border operations require NEP to comply with anti-corruption laws and regulations of the U.S. government and non-U.S. jurisdictions; NEP is subject to risks associated with its ownership or acquisition of projects or pipelines that remain under construction, which could result in its inability to complete construction projects on time or at all, and make projects too expensive to complete or cause the return on an investment to be less than expected; NEP relies on a limited number of customers and is exposed to the risk that they are unwilling or unable to fulfill their contractual obligations to NEP or that they otherwise terminate their agreements with NEP; NEP may not be able to extend, renew or replace expiring or terminated power purchase agreements (PPAs) at favorable rates or on a long-term basis; NEP may be unable to secure renewals of long-term natural gas transportation agreements, which could expose its revenues to increased volatility; If the energy production by or availability of NEP's U.S. renewable energy projects is less than expected, they may not be able to satisfy minimum production or availability obligations under NEP's U.S. Project Entities' PPAs; NEP's growth strategy depends on locating and acquiring interests in additional projects consistent with its business strategy at favorable prices; NextEra Energy Operating Partners, LP's (NEP OpCo's) partnership agreement requires that it distribute its available cash, which could limit NEP's ability to grow and make acquisitions; NEP's ability to consummate future acquisitions will depend on NEP's ability to finance those acquisitions; Lower prices for other fuel sources may reduce the demand for wind and solar energy; Reductions in demand for natural gas in the United States or Mexico and low market prices of natural gas could materially adversely affect the Texas pipelines' operations and cash flows; Government laws, regulations and policies providing incentives and subsidies for clean energy could be changed, reduced or eliminated at any time and such changes may negatively impact NEP's growth strategy; NEP's growth strategy depends on the acquisition of projects developed by NextEra Energy, Inc. (NEE) and third parties, which face risks related to project siting, financing, construction, permitting, the environment, governmental approvals and the negotiation of project development agreements; Acquisitions of existing clean energy projects involve numerous risks; Renewable energy procurement is subject to U.S. state and Canadian provincial regulations, with relatively irregular, infrequent and often competitive procurement windows; NEP may continue to acquire other sources of clean energy, including, but not limited to, natural gas and nuclear projects, and may expand to include other types of assets including, but not limited to, transmission projects, and any further acquisition of non-renewable energy projects, including, but not limited to, transmission projects, may present unforeseen challenges and result in a competitive disadvantage relative to NEP's more-established competitors;

Cautionary Statement And Risk Factors That May Affect Future Results (cont.)

NEP faces substantial competition primarily from regulated utilities, developers, independent power producers, pension funds and private equity funds for opportunities in North America; The natural gas pipeline industry is highly competitive, and increased competitive pressure could adversely affect NEP's business; NEP may not be able to access sources of capital on commercially reasonable terms, which would have a material adverse effect on its ability to consummate future acquisitions; Restrictions in NEP OpCo's subsidiaries' revolving credit facility and term loan agreements could adversely affect NEP's business, financial condition, results of operations and ability to make cash distributions to its unitholders; NEP's cash distributions to its unitholders may be reduced as a result of restrictions on NEP's subsidiaries' cash distributions to NEP under the terms of their indebtedness; NEP's subsidiaries' substantial amount of indebtedness may adversely affect NEP's ability to operate its business, and its failure to comply with the terms of its subsidiaries' indebtedness could have a material adverse effect on NEP's financial condition; Currency exchange rate fluctuations may affect NEP's operations; NEP is exposed to risks inherent in its use of interest rate swaps; NEE exercises substantial influence over NEP and NEP is highly dependent on NEE and its affiliates; NEP is highly dependent on credit support from NEE and its affiliates. NEP's subsidiaries may default under contracts or become subject to cash sweeps if credit support is terminated, if NEE or its affiliates fail to honor their obligations under credit support arrangements, or if NEE or another credit support provider ceases to satisfy creditworthiness requirements, and NEP will be required in certain circumstances to reimburse NEE for draws that are made on credit support; NEER or one of its affiliates is permitted to borrow funds received by NEP's subsidiaries, including, but not limited to, NEP OpCo, as partial consideration for its obligation to provide credit support to NEP, and NEER will use these funds for its own account without paying additional consideration to NEP and is obligated to return these funds only as needed to cover project costs and distributions or as demanded by NEP OpCo. NEP's financial condition and ability to make distributions to its unitholders, as well as its ability to grow distributions in the future, is highly dependent on NEER's performance of its obligations to return all or a portion of these funds; NEP may not be able to consummate future acquisitions from NEER or from third parties; NEP GP and its affiliates, including, but not limited to, NEE, have conflicts of interest with NEP and limited duties to NEP and its unitholders, and they may favor their own interests to the detriment of NEP and holders of NEP common units; Common units are subject to NEP GP's limited call right; NEE and other affiliates of NEP GP are not restricted in their ability to compete with NEP; NEP may be unable to terminate the Management Services Agreement among NEP, NextEra Energy Management Partners, LP (NEE Management), NEP OpCo and NextEra Energy Operating Partners GP, LLC (NEP OpCo GP) (MSA); If NEE Management terminates the MSA, NEER terminates the management sub-contract or either of them defaults in the performance of its obligations thereunder, NEP may be unable to contract with a substitute service provider on similar terms, or at all; NEP's arrangements with NEE limit NEE's liability, and NEP has agreed to indemnify NEE against claims that it may face in connection with such arrangements, which may lead NEE to assume greater risks when making decisions relating to NEP than it otherwise would if acting solely for its own account; The credit and business risk profiles of NEP GP and its owner, NEE, could adversely affect any NEP credit ratings and risk profile, which could increase NEP's borrowing costs or hinder NEP's ability to raise capital; NEP's ability to make distributions to its unitholders depends on the ability of NEP OpCo to make cash distributions to its limited partners; If NEP incurs material tax liabilities, NEP's distributions to its unitholders may be reduced, without any corresponding reduction in the amount of the incentive distribution rights (IDR) fee; Holders of NEP's common units have limited voting rights and are not entitled to elect NEP's general partner or NEP GP's directors; NEP's partnership agreement restricts the remedies available to holders of NEP's common units for actions taken by NEP GP that might otherwise constitute breaches of fiduciary duties; NEP's partnership agreement replaces NEP GP's fiduciary duties to holders of its common units with contractual standards governing its duties; Even if holders of NEP's common units are dissatisfied, they cannot remove NEP GP without NEE's consent; NEE's interest in NEP GP and the control of NEP GP may be transferred to a third party without unitholder consent; The IDR fee may be assigned to a third party without unitholder consent; NEP may issue additional units without unitholder approval, which would dilute unitholder interests;

Cautionary Statement And Risk Factors That May Affect Future Results (cont.)

Reimbursements and fees owed to NEP GP and its affiliates for services provided to NEP or on NEP's behalf will reduce cash distributions to or from NEP OpCo and from NEP to NEP's unitholders, and the amount and timing of such reimbursements and fees will be determined by NEP GP and there are no limits on the amount that NEP OpCo may be required to pay; Discretion in establishing cash reserves by NEP OpCo GP may reduce the amount of cash distributions to unitholders; While NEP's partnership agreement requires NEP to distribute its available cash, NEP's partnership agreement, including, but not limited to, provisions requiring NEP to make cash distributions, may be amended; NEP OpCo can borrow money to pay distributions, which would reduce the amount of credit available to operate NEP's business; Increases in interest rates could adversely impact the price of NEP's common units, NEP's ability to issue equity or incur debt for acquisitions or other purposes and NEP's ability to make cash distributions to its unitholders; The price of NEP's common units may fluctuate significantly and unitholders could lose all or part of their investment and a market that will provide a unitholder with its desired liquidity may not develop; The liability of holders of NEP's common units, which represent limited partnership interests in NEP, may not be limited if a court finds that unitholder action constitutes control of NEP's business; Unitholders may have liability to repay distributions that were wrongfully distributed to them; Except in limited circumstances, NEP GP has the power and authority to conduct NEP's business without unitholder approval; Contracts between NEP, on the one hand, and NEP GP and its affiliates, on the other hand, will not be the result of arm's-length negotiations; Unitholders have no right to enforce the obligations of NEP GP and its affiliates under agreements with NEP; NEP GP decides whether to retain separate counsel, accountants or others to perform services for NEP; The New York Stock Exchange does not require a publicly traded limited partnership like NEP to comply with certain of its corporate governance requirements; NEP's future tax liability may be greater than expected if NEP does not generate net operating losses (NOLs) sufficient to offset taxable income or if tax authorities challenge certain of NEP's tax positions; NEP's ability to use NOLs to offset future income may be limited; NEP will not have complete control over NEP's tax decisions; A valuation allowance may be required for NEP's deferred tax assets; Distributions to unitholders may be taxable as dividends; Unitholders who are not resident in Canada may be subject to Canadian tax on gains from the sale of common units if NEP's common units derive more than 50% of their value from Canadian real property at any time. NEP discusses these and other risks and uncertainties in its annual report on Form 10-K for the year ended December 31, 2016 and other SEC filings, and this presentation should be read in conjunction with such SEC filings made through the date of this presentation. The forward-looking statements made in this presentation are made only as of the date of this presentation and NEP undertakes no obligation to update any forward-looking statements.
