Safe Harbor Statement

Safe Harbor Statement under the Private Securities Act of 1995: Statements in this news release that are forward-looking statements are subject to various risks and uncertainties concerning specific factors described in FMC Corporation's 2016 Form 10-K and other SEC filings. Such information contained herein represents management's best judgment as of the date hereof based on information currently available. FMC Corporation does not intend to update this information and disclaims any legal obligation to the contrary. Historical information is not necessarily indicative of future performance.

Non-GAAP Financial Terms

These slides contain certain “non-GAAP financial terms” which are defined on our website www.fmc.com. In addition, we have also provided on our website at www.fmc.com reconciliations of non-GAAP terms to the most directly comparable GAAP term. Amounts in this presentation focus on Adjusted Earnings for all EBIT, EBITDA and EPS references.

Although we provide forecasts for adjusted EPS and adjusted cash from operations (both of which are non-GAAP financial measures), we are not able to forecast the most directly comparable measures calculated and presented in accordance with GAAP. Certain elements of the composition of the GAAP amounts are not predictable, making it impractical for us to forecast. Such elements include, but are not limited to restructuring, acquisition charges, and discontinued operations and related cash activity. As a result, no GAAP outlook is provided.

Lithium Expansion Progress & Plans

Hydroxide Expansion to 30,000 MT

- Phase 1 adds 8,000 MT capacity
 - Started selling to qualified customers in June
 - Customer qualifications progressing well
 - **Approaching full 8,000 MT run rate (monthly volume basis) in sales by Sept. / Oct.**
- Phase 2 will bring additional 12,000 MT cap.
 - 3 additional 4,000 MT units at locations TBD
 - **Could begin construction by end of 2017, with production starting in late 2018**
 - Expect to be at full 30,000 MT capacity by end of 2019
- Contracts for EV applications are mostly 3-4 year contracts
 - Contracts include volume and price commitments from our customers
 - **Supply/demand dynamics indicate price increases are likely in 2018 and 2019**

Carbonate Expansion to 40,000+ MT

- Currently at 18,000 LCE
 - Operating at record levels due to manufacturing excellence improvements
- Debottlenecking adds ~4,000 MT capacity
 - Small positive impact in 2017
 - **2,000 MT to 3,000 MT impact in 2018**
 - Remainder in 2019
- Nemaska provides 8,000 MT sourcing
 - Starts shipping in 2H 2018
 - **Runs multiple years**
- FMC expansion to add ~20,000 MT cap.
 - Preferred option to source carbonate
 - \$250m to \$300m capex
 - Will bring online in 2020
 - **Working with government authorities in Argentina to finalize agreements**

(1) Information included is forecasted non-GAAP financial information. As certain elements of the comparable GAAP measures are not predictable and cannot be estimated at this time, we are unable to provide a reconciliation to the corresponding GAAP amounts.

(2) Modeling assumptions are FMC's best estimates based on information known to date.

(3) Represents FMC's estimate of the 2017 EBITDA of the acquired business, if it were a standalone business. EBITDA is a non-GAAP financial term and represents earnings before interest, taxes, depreciation, and amortization. Refer to definitions at the beginning of this presentation.

(4) EBIT growth of the combined Ag Solutions segment, assuming no contribution in 2017 from the DuPont acquisition.
