Notes to Condensed Consolidated Financial Statements
(unaudited)

Note 1 – Significant Accounting Policies

Interim Financial Statements. The unaudited interim condensed consolidated financial statements of Brunswick Corporation (Brunswick or the Company) have been prepared pursuant to Securities and Exchange Commission (SEC) rules and regulations. Therefore, certain information and disclosures normally included in financial statements and related notes prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been condensed or omitted. Certain previously reported amounts have been reclassified to conform to the current period presentation, including reclassifying the Deferred income tax liability in the prior period to Other long-term liabilities on the Condensed Consolidated Balance Sheets.

These financial statements should be read in conjunction with, and have been prepared in conformity with, the accounting principles reflected in the consolidated financial statements and related notes included in Brunswick's 2016 Annual Report on Form 10-K for the year ended December 31, 2016 (the 2016 Form 10-K). These results include, in management's opinion, all normal and recurring adjustments necessary to present fairly Brunswick's financial position, results of operations and cash flows. Due to the seasonality of Brunswick's businesses, the interim results are not necessarily indicative of the results that may be expected for the remainder of the year.

The Company maintains its financial records on the basis of a fiscal year ending on December 31, with the fiscal quarters spanning approximately thirteen weeks. The first quarter ends on the Saturday closest to the end of the first thirteen-week period. The second and third quarters are thirteen weeks in duration and the fourth quarter is the remainder of the year. The first two quarters of fiscal year 2017 ended on April 1, 2017 and July 1, 2017, and the first two quarters of fiscal year 2016 ended on April 2, 2016 and July 2, 2016.

Recent Accounting Pronouncements. The following are recent accounting pronouncements that have been adopted during 2017, or will be adopted in future periods.

Presentation of Benefit Costs: In March 2017, the Financial Accounting Standards Board (FASB) amended the Accounting Standards Codification (ASC) related to the income statement presentation of the components of net periodic benefit cost for an entity's sponsored defined benefit pension and other postretirement plans. The amendments require entities to present the current-service-cost component with other current compensation costs in the income statement and present the other components outside of income from operations. The amendment is effective for interim and annual periods beginning after December 15, 2017, with early adoption permitted. The Company is currently evaluating the impact of adopting this ASC amendment, but does not expect it will have a material impact on the Company's condensed consolidated financial statements.

Statement of Cash Flows Classifications: In August 2016, the FASB amended the ASC to add and/or clarify guidance on the classification of certain transactions in the statement of cash flows. The amendment is to be applied retrospectively and is effective for fiscal years, and the interim periods within those years, beginning after December 15, 2017, with early adoption permitted. The Company is currently evaluating the impact it will have on the Company's Condensed Consolidated Statements of Cash Flows.

Share-Based Compensation: In March 2016, the FASB amended the ASC to simplify the accounting for employee share-based payment transactions. The Company adopted this amendment during the first quarter of 2017, and recognized \$7.6 million of net excess tax benefits related to share-based payments in the income tax provision for the six months ended July 1, 2017. These net excess tax benefits were historically recorded in additional paid-in capital when recognized. Additionally, the Company adopted the amendment retrospectively for presentation of net excess tax benefits on the Condensed Consolidated Statements of Cash Flows, resulting in an increase of \$8.2 million in Net cash provided by operating activities and Net cash used for financing activities for the six months ended July 2, 2016. The Company elected to recognize forfeitures of share-based awards as they occur. The remaining amendments, including those related to statutory withholding requirements, did not have a material impact.

Recognition of Leases: In February 2016, the FASB amended the ASC to require lessees to recognize assets and liabilities on the balance sheet for all leases with terms greater than twelve months. Lessees will recognize expenses similar to current lease accounting. The amendment is to be applied using a modified retrospective method with certain practical expedients, and is effective for fiscal years and interim periods within those years, beginning after December 15, 2018, with early adoption permitted. The Company is currently evaluating the impact that the adoption of the new standard will have on the Company's condensed consolidated financial statements.

BRUNSWICK CORPORATION
Notes to Condensed Consolidated Financial Statements
(unaudited)

Revenue Recognition: In May 2014, the FASB issued a final standard on revenue recognition which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. This standard will supersede current revenue recognition guidance. Under the new standard, entities are required to identify the contract with a customer; identify the separate performance obligations in the contract; determine the transaction price; allocate the transaction price to the separate performance obligations in the contract; and recognize the appropriate amount of revenue when (or as) the entity satisfies each performance obligation. In August 2015, the FASB amended the ASC to delay the effective date to fiscal years, and the interim periods within those years, beginning on or after January 1, 2018, from the original effective date of January 1, 2017, with early adoption permitted no earlier than January 1, 2017. Entities have the option of using either retrospective transition or a modified retrospective approach in applying the new standard.

The Company plans to use the modified retrospective approach in applying the new standard. The Company's implementation process is progressing as planned and there are no significant implementation matters that have yet to be addressed. The most meaningful changes will be in the Boat and Fitness segments. In the Boat segment, certain customers are offered retail promotions that are currently recorded at the later of when the program has been communicated to the customer or at the time of sale. Under the new standard, these promotions will now be recognized at the time of sale, primarily upon shipment to customers. In the Fitness segment, certain customer contracts include product rebates recorded in cost of sales at the time of sale. Under the new standard, the Company will no longer record the rebate at the time of sale; however a portion of revenue will be deferred and not recognized until the rebate is redeemed. As a result, the Company expects a change in the timing of recording certain promotions and rebates; however, it does not expect a change in the total amount of cumulative revenue recognized for each transaction.

Note 2 – Restructuring, Exit and Integration Activities

In the second quarter of 2017, the Company recorded restructuring charges within the Fitness and Boat segments related to headcount reductions aimed at improving general operating efficiencies.

In the first quarter of 2017, the Company announced that it will close its boat manufacturing facility in Joinville, Santa Catarina, Brazil, as a result of continued market weakness and unfavorable foreign currency impacts in the region. The facility manufactures certain Bayliner and Sea Ray boat models for the Latin American market. The long-lived assets at this facility were previously fully impaired.

In the first quarter of 2017, the Company also recorded restructuring charges within Corporate related to the transition of certain corporate officers.

The Company acquired Cybex International, Inc. in the first quarter of 2016 and executed certain integration activities within the Fitness segment in 2016 and 2017.

The Company recorded restructuring, exit and integration charges in the Condensed Consolidated Statements of Comprehensive Income as a result of these activities. The following table is a summary of the expense associated with the restructuring, exit and integration activities for the three months ended July 1, 2017 and July 2, 2016, as discussed above:

Note 3 – Financial Instruments

The Company operates globally with manufacturing and sales facilities around the world. Due to the Company's global operations, the Company engages in activities involving both financial and market risks. The Company utilizes normal operating and financing activities, along with derivative financial instruments, to minimize these risks. See Note 14 in the Notes to Consolidated Financial Statements in the 2016 Form 10-K for further details regarding the Company's financial instruments and hedging policies.

Foreign Currency Derivatives. Forward exchange contracts outstanding at July 1, 2017, December 31, 2016 and July 2, 2016 had notional contract values of \$309.3 million, \$263.7 million and \$237.8 million, respectively. There were no option contracts outstanding at July 1, 2017. Option contracts outstanding at December 31, 2016 and July 2, 2016 had notional contract values of \$30.4 million and \$55.0 million, respectively. The forward contracts outstanding at July 1, 2017 mature during 2017 and 2018 and mainly relate to the Euro, Japanese yen, Canadian dollar, Australian dollar, Swedish krona, Brazilian real, British pound, Mexican peso, Norwegian krone, Hungarian forint and New Zealand dollar. As of July 1, 2017, the Company estimates that during the next 12 months, it will reclassify approximately \$0.9 million of net losses (based on current rates) from Accumulated other comprehensive loss to Cost of sales.

Interest Rate Derivatives. The Company enters into fixed-to-floating interest rate swaps to convert a portion of the Company's long-term debt from fixed to floating rate debt. As of July 1, 2017, December 31, 2016 and July 2, 2016, the outstanding swaps had notional contract values of \$200.0 million, of which \$150.0 million corresponds to the Company's 4.625 percent Senior notes due 2021 and \$50.0 million corresponds to the Company's 7.375 percent Debentures due 2023.

As of July 1, 2017, December 31, 2016 and July 2, 2016, the Company had \$4.0 million, \$4.5 million and \$5.1 million, respectively, of net deferred losses associated with all settled forward-starting interest rate swaps, which were included in Accumulated other comprehensive loss. As of July 1, 2017, the Company estimates that during the next 12 months, it will reclassify approximately \$1.1 million of net losses resulting from settled forward-starting interest rate swaps from Accumulated other comprehensive loss to Interest expense.

Commodity Price Derivatives. There were no commodity swap contracts outstanding at July 1, 2017 and December 31, 2016. As of July 2, 2016, the notional value of commodity swap contracts outstanding was \$4.9 million. The amount of gain or loss associated with the change in fair value of these instruments is either recorded through earnings each period as incurred or, if designated as cash flow hedges, deferred in Accumulated other comprehensive loss and recognized in Cost of sales in the same period or periods during which the hedged transaction affects earnings.

Fair Value of Other Financial Instruments. The carrying values of the Company's short-term financial instruments, including cash and cash equivalents, accounts and notes receivable and short-term debt approximate their fair values because of the short maturity of these instruments. At July 1, 2017, December 31, 2016 and July 2, 2016, the fair value of the Company's long-term debt was approximately \$499.3 million, \$498.5 million and \$472.8 million, respectively, and was determined using Level 1 and Level 2 inputs described in **Note 7 – Fair Value Measurements**, in the Notes to Consolidated Financial Statements in the 2016 Form 10-K. The carrying value of long-term debt, including current maturities, was \$443.1 million, \$444.6 million and \$447.3 million as of July 1, 2017, December 31, 2016 and July 2, 2016, respectively.

Note 5 – Share-Based Compensation

Under the Brunswick Corporation 2014 Stock Incentive Plan, the Company may grant stock options, stock appreciation rights (SARs), non-vested stock awards and performance awards to executives, other employees and non-employee directors from treasury shares and from authorized, but unissued, shares of common stock, in addition to: (i) the forfeiture of past awards; (ii) shares not issued upon the net settlement of SARs; or (iii) shares delivered to or withheld by the Company to pay the withholding taxes related to awards. As of July 1, 2017, 5.4 million shares remained available for grant.

Non-vested stock awards

The Company grants both stock-settled and cash-settled non-vested stock units and awards to key employees as determined by management and the Human Resources and Compensation Committee of the Board of Directors. The Company did not grant stock awards during the three months ended July 1, 2017 or July 2, 2016. The Company granted 0.2 million and 0.3 million of stock awards during the six months ended July 1, 2017 and July 2, 2016, respectively. The Company recognizes the cost of non-vested stock units and awards on a straight-line basis over the requisite vesting period. Additionally, cash-settled non-vested stock units and awards are recorded as a liability on the balance sheet and adjusted to fair value each reporting period through stock compensation expense. During the three months and six months ended July 1, 2017, the Company charged \$2.8 million and \$5.6 million, respectively, and charged \$2.9 million and \$4.5 million during the three months and six months ended July 2, 2016, respectively, to compensation expense for non-vested stock awards.

As of July 1, 2017, there was \$13.9 million of total unrecognized compensation cost related to non-vested share-based compensation arrangements. The Company expects this cost to be recognized over a weighted average period of 1.5 years.

Performance awards

In February of both 2017 and 2016, the Company granted 0.1 million performance shares to certain senior executives. The 2017 and 2016 share awards are based on three performance measures: a cash flow return on investment (CFROI) measure, an operating margin (OM) measure and a total shareholder return (TSR) modifier. Performance shares are earned based on a three-year performance period commencing at the beginning of the calendar year of each grant. The performance shares earned are then subject to a TSR modifier based on stock returns measured against stock returns of a predefined comparator group over a three-year performance period. Additionally, in February 2017 and 2016, the Company granted 26,300 and 38,690 performance shares,

BRUNSWICK CORPORATION
Notes to Condensed Consolidated Financial Statements
(unaudited)

respectively, to certain officers and certain senior managers based on the respective measures and performance periods described above but excluding the TSR modifier. During the three months and six months ended July 1, 2017, the Company charged \$1.8 million and \$3.1 million, respectively, and charged \$1.8 million and \$3.0 million for the three months and six months ended July 2, 2016, respectively, to compensation expense based on projections of probable attainment of the performance measures and the projected TSR modifier used to determine the performance awards.

The fair values of the senior executives' performance share award grants with a TSR modifier for grants in 2017 and 2016 were \$64.82 and \$38.54, respectively, which were estimated using the Monte Carlo valuation model, and incorporated the following assumptions:

	2017	2016
Risk-free interest rate	1.5%	0.8%
Dividend yield	1.1%	1.0%
Volatility factor	38.3%	40.8%
Expected life of award	2.9 years	2.9 years

The fair value of the certain officers' and certain senior managers' performance awards granted based solely on the CFROI and OM performance factors was \$58.77 and \$37.76 in 2017 and 2016, respectively, which was equal to the stock price on the date of grant in 2017 and 2016, respectively, less the present value of dividend payments over the vesting period.

As of July 1, 2017, the Company had \$6.4 million of total unrecognized compensation cost related to performance awards. The Company expects this cost to be recognized over a weighted average period of 1.3 years.

Director Awards

The Company issues stock awards to non-employee directors in accordance with the terms and conditions determined by the Nominating and Corporate Governance Committee of the Board of Directors. A portion of each director's annual fee is paid in Brunswick common stock, the receipt of which may be deferred until a director retires from the Board of Directors. Each director may elect to have the remaining portion paid in cash, in Brunswick common stock distributed at the time of the award or in deferred Brunswick common stock with a 20 percent premium.

Note 6 – Earnings per Common Share

Basic earnings per common share is calculated by dividing Net earnings by the weighted average outstanding shares which includes certain vested, unissued equity awards. Diluted earnings per common share is calculated similarly, except that the calculation includes the dilutive effect of stock-settled SARs, non-vested stock awards and performance awards.

Basic and diluted earnings per common share for the three months and six months ended July 1, 2017 and July 2, 2016 were calculated as follows:

(in millions, except per share data)	Three Months Ended		Six Months Ended	
	July 1, 2017	July 2, 2016	July 1, 2017	July 2, 2016

Dilutive effect of common stock equivalents	0.8	0.8	0.8	1.0
Weighted average outstanding shares-diluted	90.6	92.3	90.8	92.6
Basic earnings (loss) per common share:				
Continuing operations	\$ 1.33	\$ 1.18	\$ 2.05	\$ 1.87
Discontinued operations	—	(0.00)	—	0.02
Net earnings	\$ 1.33	\$ 1.18	\$ 2.05	\$ 1.89
Diluted earnings (loss) per common share:				
Continuing operations	\$ 1.32	\$ 1.17	\$ 2.03	\$ 1.85
Discontinued operations	—	(0.00)	—	0.02
Net earnings	\$ 1.32	\$ 1.17	\$ 2.03	\$ 1.87

There were no anti-dilutive shares of SARs that were excluded from the computation of diluted earnings per share for the periods ended July 1, 2017 and July 2, 2016.

Note 7 – Commitments and Contingencies

On January 21, 2015, Cobalt Boats, LLC (Cobalt) filed a patent infringement lawsuit against the Company alleging that certain of the Company's Sea Ray branded boats include a feature that infringes a Cobalt patent relating to a submersible swim step. On June 21, 2017, a jury in the US District Court in the Eastern District of Virginia returned a verdict in Cobalt's favor in the amount of \$2.7 million subject to adjustments and, at the discretion of the court, a potential award of exceptional damages (up to three times the award) and Cobalt's attorney's fees. The Company believes it has meritorious defenses, has filed post-trial motions and if necessary will pursue an appeal.

There were no other material changes during the three months and six months ended July 1, 2017 to the financial commitments or the legal and environmental commitments that were discussed in Note 13 in the Notes to Consolidated Financial Statements in the 2016 Form 10-K.

Product Warranties

The Company records a liability for product warranties at the time revenue is recognized. The liability is estimated using historical warranty experience, projected claim rates and expected costs per claim. The Company adjusts its liability for specific warranty matters when they become known and the exposure can be estimated. Product failure rates as well as material usage and labor costs incurred in correcting a product failure affect the Company's warranty liabilities. If actual costs or projected experience differ from estimated costs, the Company must make a revision to the warranty liability. Changes in the Company's warranty

BRUNSWICK CORPORATION
Notes to Condensed Consolidated Financial Statements
(unaudited)

liabilities resulting from the Company's experience and adjustments related to changes in estimates are included as Aggregate changes for preexisting warranties presented in the table below.

The following activity related to product warranty liabilities was recorded in Accrued expenses during the six months ended July 1, 2017 and July 2, 2016:

(in millions)	July 1, 2017	July 2, 2016

Balance at end of period	<u>\$ 115.5</u>	<u>\$ 113.9</u>

Additionally, end users of the Company's products may purchase a contract from the Company that extends product warranty beyond the standard period. For certain extended warranty contracts in which the Company retains the warranty or administration obligation, a deferred revenue liability is recorded based on the aggregate sales price for contracts sold. The liability is reduced and revenue is recognized on a straight-line basis over the contract period during which costs corresponding costs are expected to be incurred.

The following activity related to deferred revenue for extended product warranty contracts was recorded in Accrued expenses and Other long-term liabilities during the six months ended July 1, 2017 and July 2, 2016:

(in millions)	July 1, 2017	July 2, 2016

Note 11 – Income Taxes

The Company recognized an income tax provision from continuing operations for the three months and six months ended July 1, 2017 of \$47.1 million and \$69.1 million, respectively, and included a net tax benefit of \$2.3 million and \$7.6 million respectively, associated with the net excess tax benefits related to share-based compensation which was recognized as an income tax benefit in accordance with recent changes in accounting guidance. The Company recognized an income tax provision from continuing operations for the three months and six months ended July 2, 2016 of \$48.1 million and \$76.3 million. The effective tax rate from continuing operations, which is calculated as the income tax provision as a percentage of pre-tax income, for the three months and six months ended July 1, 2017 was 28.3 percent and 27.3 percent, respectively. The effective tax rate from continuing operations for both the three months and six months ended July 2, 2016 was 30.8 percent.

No deferred income taxes have been provided as of July 1, 2017, December 31, 2016 or July 2, 2016 on the applicable undistributed earnings of the non-U.S. subsidiaries where the indefinite reinvestment assertion has been applied. If at some future date these earnings cease to be indefinitely reinvested and are repatriated, the Company may be subject to additional U.S. income taxes and foreign withholding and other taxes on such amounts. The Company continues to provide deferred taxes, as required, on the undistributed net earnings of foreign subsidiaries and unconsolidated affiliates that are not deemed to be indefinitely reinvested in operations outside the United States.

As of July 1, 2017, December 31, 2016 and July 2, 2016, the Company had \$3.5 million, \$3.5 million and \$5.5 million of gross unrecognized tax benefits, including interest, respectively. The Company believes it is reasonably possible that the total amount of gross unrecognized tax benefits as of July 1, 2017 could decrease by approximately \$1.4 million in the next 12 months due to settlements with taxing authorities or lapses in the applicable statute of limitations. Due to the various jurisdictions in which the Company files tax returns and the uncertainty regarding the timing of the settlement of tax audits, it is possible that there could be significant changes in the amount of unrecognized tax benefits in 2017, but the amount cannot be estimated.

The Company is regularly audited by federal, state and foreign tax authorities. The Internal Revenue Service (IRS) has completed its field examination and has issued its Revenue Agents Report through the 2012 tax year and all open issues have been resolved. The Company is currently open to tax examinations by the IRS for the 2013 through 2015 tax years. The 2014 tax year

is currently under examination and the Company has been notified by the IRS that it will also be examining the 2015 tax year. Primarily as a result of filing amended returns, which were generated by the closing of federal income tax audits, the Company is still open to state and local tax audits in major tax jurisdictions dating back to the 2011 taxable year. The Company is no longer subject to income tax examinations by any major foreign tax jurisdiction for years prior to 2013.

Note 12 – Postretirement Benefits

The Company has defined contribution plans, qualified and nonqualified defined benefit pension plans and other postretirement benefit plans covering substantially all of its employees. The Company's contributions to its defined contribution plans include matching and annual discretionary contributions which are based on various percentages of compensation, and in some instances are based on the amount of the employees' contributions to the plans. See Note 17 in the Notes to Consolidated Financial Statements in the 2016 Form 10-K for further details regarding these plans.

Pension and other postretirement benefit costs included the following components for the three months and six months ended July 1, 2017 and July 2, 2016:

(in millions)	Pension Benefits				Other Postretirement Benefits			
	Three Months Ended		Six Months Ended		Three Months Ended		Six Months Ended	
	July 1, 2017	July 2, 2016	July 1, 2017	July 2, 2016	July 1, 2017	July 2, 2016	July 1, 2017	July 2, 2016
Interest cost	\$ 7.1	\$ 9.0	\$ 14.2	\$ 17.9	\$ 0.4	\$ 0.4	\$ 0.7	\$ 0.7

Net pension and other benefit costs	\$ 2.4	\$ 3.7	\$ 4.7	\$ 7.4	\$ 0.2	\$ 0.3	\$ 0.3	\$ 0.4

Portions of Net pension and other benefit costs are recorded in Cost of sales as well as Selling, general and administrative expenses in the Condensed Consolidated Statements of Comprehensive Income.

Employer Contributions and Benefit Payments. During the six months ended July 1, 2017 and July 2, 2016, the Company contributed \$40.0 million and \$35.0 million, respectively, to its qualified pension plans. Company contributions are subject to change based on funding regulations and Company discretion. During the six months ended July 1, 2017 and July 2, 2016, the Company contributed \$2.1 million and \$1.8 million, respectively, to fund benefit payments to its nonqualified pension plan.

Note 13 – Debt

There was no significant activity in Long-term debt during the six months ended July 1, 2017 and July 2, 2016. See Note 16 in the Notes to Consolidated Financial Statements in the 2016 Form 10-K for details regarding the Company's debt.

In June 2016, the Company entered into an Amended and Restated Credit Agreement (Credit Facility). The Credit Facility amends and restates the Company's existing credit agreement, dated as of March 2011, as amended and restated as of June 2014. The Credit Facility provides for \$300 million of borrowing capacity and is in effect through June 2021. No borrowings were outstanding as of or during the six months ended July 1, 2017, and available borrowing capacity totaled \$295.7 million, net of \$4.3 million of letters of credit outstanding under the Credit Facility. As of July 1, 2017, the Company was in compliance with the financial covenants in the Credit Facility. See Note 16 in the Notes to Consolidated Financial Statements in the 2016 Form 10-K for details regarding the Company's Credit Facility.

Note 14 – Subsequent Events

On July 18, 2017, the Company's Board of Directors declared a quarterly dividend on its common stock of \$0.165 per share. The dividend will be payable September 15, 2017 to shareholders of record as of August 22, 2017.

On July 19, 2017, the Company signed an agreement to acquire Lankhorst Taselaar B.V., a leading marine parts and accessories distribution company based in the Netherlands and Germany. The acquisition will augment the marine parts and accessories businesses through a broader product line and an expanded distribution network. Lankhorst Taselaar will be managed as part of the Company's Marine Engine segment.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Certain statements in Management's Discussion and Analysis are based on non-GAAP financial measures. Specifically, the discussion of Brunswick Corporation's (Brunswick or the Company) cash flows includes an analysis of free cash flows and total liquidity, the discussion of the Company's net sales includes comparisons of net sales on a constant currency basis and excluding acquisitions, and the discussion of the Company's earnings includes comparisons of diluted earnings per common share, as adjusted. A "non-GAAP financial measure" is a numerical measure of a registrant's historical or future financial performance, financial position or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the statements of comprehensive income, balance sheets or statements of cash flows of the issuer; or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented. Non-GAAP financial measures do not include operating and statistical measures.

The Company includes non-GAAP financial measures in Management's Discussion and Analysis, as Brunswick's management believes that these measures and the information they provide are useful to investors because they permit investors to view Brunswick's performance using the same tools that management uses and to better evaluate the Company's ongoing business performance.

Certain statements in Management's Discussion and Analysis are forward-looking as defined in the Private Securities Litigation Reform Act of 1995. These statements are based on current expectations that are subject to risks and uncertainties. Actual results may differ materially from expectations as of the date of this filing because of factors discussed in Part I, Item 1A – Risk Factors in Brunswick's 2016 Annual Report on Form 10-K for the year ended December 31, 2016 (the 2016 Form 10-K).

Brunswick does not provide forward-looking guidance for certain financial measures on a GAAP basis because it is unable to predict certain items contained in the GAAP measures without unreasonable efforts. These items may include pension settlement charges, restructuring, exit, integration and impairment costs, special tax items and certain other unusual adjustments.

Overview and Outlook

General

Net sales increased 9 percent during the second quarter of 2017 when compared with the second quarter of 2016. Excluding the impact of acquisitions, net sales increased 7 percent over the comparative period. Marine Engine segment net sales increased due to strong growth in outboard engines and solid growth in the marine parts and accessories businesses, partially offset by declines in sterndrive engines. Boat segment net sales increased due to strong growth across all three primary boat categories. Fitness segment net sales increased, reflecting overall growth in international markets which included benefits from the Indoor Cycling Group GmbH (ICG) acquisition. International net sales for the Company increased 12 percent in the second quarter of 2017 on a GAAP basis when compared with the second quarter of 2016. Excluding acquisitions, international sales increased 8 percent, driven by increases in Asia-Pacific, Latin America, Canada and Europe.

Net sales during the first six months of 2017 increased 9 percent on a GAAP basis and 7 percent excluding the impact of acquisitions when compared with the same prior year period. The increases reflect the same factors as the quarterly period above. International net sales increased 11 percent on a GAAP basis and increased 7 percent when excluding the impact of acquisitions. Increases were mainly driven by Asia-Pacific, Latin America, Europe and Canada.

Operating earnings in the second quarter of 2017 were \$168.6 million with an operating margin of 12.5 percent, which included restructuring, exit and integration charges of \$5.7 million. In the second quarter of 2016, the Company reported operating earnings of \$161.9 million with an operating margin of 13.0 percent, which included restructuring, exit and integration charges of \$2.6 million. The increase in operating earnings reflected benefits from higher net sales, net favorable cost efficiencies and strong discipline over operating expenses. These items were partially offset by a number of factors in the Fitness segment, including unfavorable changes in sales mix, as well as unfavorable warranty adjustments and legal costs in the fiberglass sterndrive/inboard boat business, unfavorable impacts of foreign exchange and increased restructuring, exit and integration charges.

Operating earnings in the first half of 2017 were \$257.6 million with an operating margin of 10.3 percent, which included restructuring, exit and integration charges of \$20.9 million. In the first half of 2016, the Company reported operating earnings of \$257.9 million, which included restructuring, exit and integration charges of \$6.4 million. The slight decline in operating earnings was due to the same factors described in the quarterly period above, except restructuring, exit and integration charges had a much greater unfavorable impact.

[Table of Contents](#)

The Company continues to expect that 2017 will be another year of outstanding earnings growth with excellent cash flow generation. The Company is targeting approximately 7 percent to 8 percent net sales growth when compared with 2016. The Company's plan reflects the continuation of solid marine market growth in the U.S. and international markets and the success of new products, which will result in growth in average selling prices and market share gains. The Fitness segment is expected to benefit from overall growth in commercial fitness markets and contributions from new products, particularly in the second half of 2017. Acquisitions are estimated to account for approximately one percentage point of the growth rate in 2017, reflecting the impact of completed transactions in 2016.

The Company expects to have increased revenue and a slight improvement in operating margin levels in 2017 including benefits from volume leverage and cost reductions, including efficiency improvements. The Company anticipates a slight decline in gross margin levels in 2017 with gross margin trends improving over the second half of the year. The Company projects operating expenses, including research and development expenses, to be higher in 2017 when compared with 2016 as the Company continues to increase investment spending to support growth including new products, productivity initiatives and information technology. Operating expenses are projected to be slightly lower on a percentage of sales basis in 2017 versus 2016.

The Company is planning for its effective tax rate in 2017 to be approximately 28 percent on a GAAP basis and 29 percent as adjusted to exclude the impact of restructuring, exit and integration charges and special tax items. Effective tax rates are based on existing tax law and the adoption of recent accounting guidance related to net excess tax benefits or deficiencies resulting from share-based compensation activity.

Matters Affecting Comparability

Certain events have occurred during the three months and six months ended July 1, 2017 and July 2, 2016 which the Company believes affect the comparability of the results of operations. The tables below summarize the impact of changes in currency exchange rates as well as the impact of recent acquisitions on the Company's net sales:

(in millions)	Three Months Ended				
	Net Sales		2017 vs. 2016		
	July 1, 2017	July 2, 2016	GAAP	Constant Currency	Acquisition Contribution
Marine Engine	\$ 766.2	\$ 719.7	6.5%	7.1%	0.9%

Marine eliminations	(76.8)	(75.4)			
Total Marine	1,101.5	1,012.4	8.8%	9.4%	1.2%
Fitness	250.5	229.8	9.0%	9.9%	4.0%
Total	\$ 1,352.0	\$ 1,242.2	8.8%	9.5%	1.7%

(in millions)	Six Months Ended				
	Net Sales		2017 vs. 2016		
	July 1, 2017	July 2, 2016	GAAP	Constant Currency	Acquisition Contribution
Marine Engine	\$ 1,398.0	\$ 1,315.2	6.3%	6.6%	1.0%
Boat	794.8	704.9	12.8%	13.0%	1.3%
Marine eliminations	(166.6)	(155.7)			
Total Marine	2,026.2	1,864.4	8.7%	9.0%	1.2%
Fitness	486.1	448.1	8.5%	9.2%	5.7%
Total	\$ 2,512.3	\$ 2,312.5	8.6%	9.0%	2.1%

Changes in Foreign Currency Rates. Percentage changes in net sales expressed in constant currency are presented to reflect the impact that changes in currency exchange rates had on comparisons of net sales. To determine this information, 2017 net sales transacted in currencies other than U.S. dollars have been translated to U.S. dollars using the average exchange rates from 2016 that were in effect during the comparative period. The percentage change in net sales expressed on a constant currency basis better reflects the changes in the underlying business trends, excluding the impact of translation arising from foreign currency exchange rate fluctuations. Approximately 20 percent of the Company's annual net sales are transacted in a currency other than the U.S. dollar. The Company's most material exposures include sales in Euros, Canadian dollars, Australian dollars, Brazilian reais and British pounds.

Additionally, foreign exchange negatively affected operating earnings comparisons by approximately \$4 million in the second quarter of 2017 when compared with the second quarter of 2016. During the first six months of 2016, operating earnings comparisons were negatively affected by foreign exchange by approximately \$5 million when compared with the same prior year period. These estimates include the impact of translation on all sales and costs transacted in a currency other than the U.S. dollar, the impact of hedging activities and pricing actions in certain international markets in response to changes in the value of the U.S. dollar.

Acquisitions. The Company completed acquisitions throughout 2016 that affect the comparability of net sales. The Company acquired Cybex International, Inc. (Cybex), Thunder Jet Boats, Inc. (Thunder Jet), ICG and Payne's Marine Group (Payne's) in the first, second, third and fourth quarters of 2016, respectively. Refer to Note 4 in the Notes to Consolidated Financial Statements in the 2016 Form 10-K for further details on 2016 acquisitions.

[Table of Contents](#)

Restructuring, exit and integration charges. The Company recorded restructuring, exit and integration charges of \$5.7 million and \$20.9 million in the three months and six months ended July 1, 2017, respectively, compared with \$2.6 million and \$6.4 million of charges recorded in the three months and six months ended July 2, 2016, respectively. Refer to **Note 2 – Restructuring, Exit and Integration Activities** for further information. The Company anticipates it will incur restructuring, exit and integration charges of approximately \$26 to \$28 million for the full year.

Results of Operations

(A) Gross margin is defined as Net sales less Cost of sales as presented in the Condensed Consolidated Statements of Comprehensive Income.

Net sales increased during the second quarter of 2017 when compared with the second quarter of 2016. Marine Engine segment net sales increased due to strong growth in outboard engines and solid growth in marine parts and accessories businesses. Outboard engines benefited from a favorable retail environment, particularly for higher horsepower engines, and continued benefits from market share gains. The marine parts and accessories businesses benefited from a recent acquisition and new product launches, as well as the successful execution of the Company's international growth strategy. Net sales of sterndrive engines declined, reflecting unfavorable demand trends. Boat segment net sales increased due to strong growth across all three primary boat categories and benefited from higher average selling prices and increases in wholesale unit shipments. Fitness segment net sales increased, reflecting the benefit of overall growth in international markets, including the ICG acquisition. Fitness revenues in the U.S. were up slightly, reflecting improved commercial demand and benefits from acquisitions. International net sales for the Company increased 12 percent in the second quarter of 2017 on a GAAP basis when compared with the second quarter of 2016. Excluding acquisitions, international sales increased 8 percent, driven by increases in Asia-Pacific, Latin America, Canada and Europe.

[Table of Contents](#)

Net sales during the first six months of 2017 increased 9 percent on a GAAP basis and 7 percent excluding the impact of acquisitions when compared with the same prior year period. The increases reflect the same factors as the quarterly period above, except wholesale unit shipments showed stronger growth. International net sales increased 11 percent on a GAAP basis and increased 7 percent when excluding the impact of acquisitions. Increases were mainly driven by Asia-Pacific, Latin America, Europe and Canada.

Gross margin percentage was down in the second quarter of 2017 when compared with the same prior year period. A majority of the decline resulted from a number of factors in the Fitness segment, including unfavorable changes in sales mix, as well as unfavorable warranty adjustments in the fiberglass stemdrive/inboard boat business. In the first six months of 2017, gross margin percentage declined due to the same factors described above as well as changes in mix between segments.

Selling, general and administrative expenses increased overall but decreased as a percentage of net sales during both the second quarter and first six months of 2017, while Research and development remained relatively flat as a percentage of sales in both the second quarter and first six months of 2017. Both line items reflect increased funding to support investments in new products and growth initiatives. Additionally, legal costs in the fiberglass stemdrive/inboard boat business increased during the first and second quarters when compared with the same prior year periods.

The Company recorded restructuring, exit and integration charges of \$5.7 million and \$20.9 million during the three months and six months ended July 1, 2017, respectively, and recorded \$2.6 million and \$6.4 million of charges during the three months and six months ended July 2, 2016, respectively. Refer to **Note 2 – Restructuring, Exit and Integration Activities** for further information.

The Company recorded Equity earnings of \$1.4 million and \$3.7 million in the three months and six months ended July 1, 2017, respectively, which were mainly related to the Company's marine joint ventures. This compares with Equity earnings of \$1.0 million and \$1.8 million recorded in the three months and six months ended July 2, 2016, respectively. The Company recognized \$2.8 million and \$4.5 million in Other income (expense), net in the three months and six months ended July 1, 2017, respectively. This compares with \$(0.1) million and \$0.9 million recognized in Other income (expense), net in the three months and six months ended July 2, 2016, respectively. Other income (expense), net primarily includes the amortization of deferred income related to a trademark licensing agreement with AMF Bowling Centers, Inc. as discussed in Note 2 in the Notes to Consolidated Financial Statements in the 2016 Form 10-K as well as gains and losses on the remeasurement of foreign currencies.

Net interest expense was down for the three months and six months ended July 1, 2017 when compared with the same prior year period.

The Company recognized an income tax provision from continuing operations for the three months and six months ended July 1, 2017 of \$47.1 million and \$69.1 million, respectively, and included a net tax benefit of \$2.3 million and \$7.6 million respectively, associated with the net excess tax benefits related to share-based compensation which was recognized as an income tax benefit in accordance with recent changes in accounting guidance. The Company recognized an income tax provision from continuing operations for the three months and six months ended July 2, 2016 of \$48.1 million and \$76.3 million. The effective tax rate from continuing operations, which is calculated as the income tax provision as a percentage of pre-tax income, for the three months and six months ended July 1, 2017 was 28.3 percent and 27.3 percent, respectively. The effective tax rate from continuing operations for both the three months and six months ended July 2, 2016 was 30.8 percent.

Due to the factors described in the preceding paragraphs, Operating earnings, Net earnings from continuing operations and Diluted earnings per common share from continuing operations increased during the second quarter of 2017 as well as the first six months of 2017 when compared with the same prior year periods, except operating earnings decreased slightly during the six month comparative period. The increases in Diluted earnings per common share from continuing operations also included the impact of common stock repurchases on shares outstanding.

Diluted earnings from continuing operations per common share, as adjusted to exclude the earnings per share impact for restructuring, exit and integration charges and special tax items - increased by \$0.16 per share, or 13 percent, to \$1.35 per share in the second quarter of 2017 when compared with \$1.19 per share for the same period in 2016. The increase in diluted earnings per share from continuing operations, as adjusted, is due to the factors discussed in the preceding paragraphs. In the second quarters of 2017 and 2016, restructuring, exit and integration charges from continuing operations were \$0.03 per share and \$0.02 per share, respectively.

In the first six months of 2017, Diluted earnings from continuing operations per common share, as adjusted, increased by \$0.30 per share, or 16 percent, to \$2.19 per share when compared with \$1.89 per share for the same prior year period. The increase in diluted earnings per share from continuing operations, as adjusted, is due to the factors discussed in the preceding paragraphs.

[Table of Contents](#)

In the first six months of 2017, restructuring, exit and integration charges were \$0.17 per share and special tax items were a net benefit of \$0.01 per share. In the first six months of 2016, restructuring, exit and integration charges were \$0.04 per share.

Marine Engine Segment

The following table sets forth Marine Engine segment results for the three months and six months ended:

(in millions)	Three Months Ended		2017 vs. 2016		Six Months Ended		2017 vs. 2016	
	July 1, 2017	July 2, 2016	\$ Change	% Change	July 1, 2017	July 2, 2016	\$ Change	% Change

Net sales for the Marine Engine segment increased due to strong growth in outboard engines, particularly in higher horsepower engines, and solid growth in the marine parts and accessories businesses. Outboard engines benefited from a favorable retail environment, particularly for higher horsepower engines, and continued benefits from market share gains. The marine parts and accessories businesses benefited from a recent acquisition and new product launches, as well as the successful execution of the Company's international growth strategy. Partially offsetting these factors was a decrease in sterndrive engine net sales due to the continuing shift to outboards and unfavorable global retail demand trends. The acquisition of Payne's accounted for one percentage point of the Marine Engine segment's overall revenue growth rate in the second quarter of 2017. International net sales were 28 percent of the segment's net sales in the second quarter of 2017, and increased 11 percent from the prior year on a GAAP basis. On a constant currency basis and excluding acquisitions, international net sales increased 10 percent, which included increases in Europe, Asia-Pacific, Canada and Latin America.

Net sales for the Marine Engine segment increased in the first six months of 2017 when compared with the same prior year period due to the same factors described in the quarterly period above. International net sales were 29 percent of the segment's net sales in the first half of 2017, and increased 10 percent from the prior year on a GAAP basis. On a constant currency basis and excluding acquisitions, international net sales increased 8 percent, which primarily included increases in Europe, Asia-Pacific, Latin-America and Canada.

Marine Engine segment operating earnings increased in the second quarter and first half of 2017 when compared with the same prior year period as a result of higher net sales and improved cost efficiencies, partially offset by the unfavorable effects of foreign exchange and planned increases in growth related investments.

Boat Segment

The following table sets forth Boat segment results for the three months and six months ended:

(in millions)	Three Months Ended		2017 vs. 2016		Six Months Ended		2017 vs. 2016	
	July 1, 2017	July 2, 2016	\$ Change	% Change	July 1, 2017	July 2, 2016	\$ Change	% Change

Boat segment net sales increased in the second quarter of 2017 when compared with the second quarter of 2016 due to strong growth across all three primary boat categories. Sales benefited from higher average selling prices as consumers continue to migrate to boats with more content and higher horsepower engines. The increase was more pronounced as growth in the fiberglass categories, including benefits from new products, outpaced aluminum which continued to have an increased weighting toward value-oriented models. The segment also benefited from increased wholesale unit demand. The acquisition of Thunder Jet accounted for 2 percentage points of the Boat segment's overall revenue growth rate in the second quarter of 2017. International net sales were 27 percent of the segment's net sales in the second quarter of 2017, and increased 11 percent from the prior year on both a GAAP basis and on a constant currency basis excluding acquisitions. Sales increases in Canada, Europe and Latin America were partially offset by declines in Africa and the Middle East and Asia-Pacific.

Boat segment net sales increased in the first six months of 2017 when compared with the same prior year period due to the same factors described in the quarterly period above, except wholesale unit shipments showed stronger growth and the acquisition of Thunder Jet accounted for one percentage point of the Boat segment's overall revenue growth rate. International net sales were 26 percent of the segment's net sales in the first half of 2017, and increased 10 percent from the prior year on a GAAP basis. On a constant currency basis and excluding acquisitions, international net sales increased 9 percent as increases in Canada, Europe and Latin America were partially offset by declines in Africa and the Middle East and Asia-Pacific.

Boat segment operating earnings increased in the second quarter of 2017 when compared with the second quarter of 2016. Higher sales were partially offset by unfavorable warranty adjustments related to larger boats and litigation costs in the fiberglass stemdrive/inboard boats business.

Boat segment operating earnings decreased in the first six months of 2017 compared with 2016 due to the same factors discussed for the quarterly period above as well as higher restructuring, exit and integration charges and operating losses mostly associated with the closure of the manufacturing facility in Brazil, as well as unfavorable changes in sales mix and higher commodity costs that affected our aluminum boat business.

Fitness Segment

The following table sets forth Fitness segment results for the three months and six months ended:

(in millions)	Three Months Ended		2017 vs. 2016		Six Months Ended		2017 vs. 2016	
	July 1, 2017	July 2, 2016	\$ Change	% Change	July 1, 2017	July 2, 2016	\$ Change	% Change
Net sales	\$ 250.5	\$ 229.8	\$ 20.7	9.0 %	\$ 486.1	\$ 448.1	\$ 38.0	8.5 %
Restructuring, exit and integration charges	4.5	2.6	1.9	73.1 %	6.9	6.4	0.5	7.8 %
Operating earnings	18.5	24.1	(5.6)	(23.2)%	36.8	44.2	(7.4)	(16.7)%

[Table of Contents](#)

Fitness segment net sales increased, reflecting the benefit of overall growth in international markets and the ICG acquisition, which contributed 4 percent to the segment's growth rate in the quarter. Fitness revenues in the U.S. were up slightly, excluding the impact of acquisitions, reflecting improved commercial demand led by growth in sales to franchise club customers. International net sales were 48 percent of the segment's net sales in the second quarter of 2017 and increased 17 percent compared with the same prior year period on a GAAP basis. On a constant currency basis and excluding acquisitions, the segment's international net sales increased 12 percent when compared with the same prior year period as a result of growth in all international regions, particularly Asia-Pacific.

Fitness segment net sales increased in the first six months of 2017 when compared with the same prior year period due to the same factors described in the quarterly period above, except net sales decreased slightly in the U.S. The ICG and Cybex acquisitions accounted for 6 percentage points of the segment's overall revenue growth rate. International net sales were 47 percent of the segment's net sales in the first six months of 2017 and increased 14 percent compared with the same prior year period on a GAAP basis. On a constant currency basis and excluding acquisitions, the segment's international net sales increased 8 percent in the first six months of 2017 as a result of the same factors described in the quarterly period above, except net sales declined in Canada.

Fitness segment operating earnings decreased in the second quarter as well as the first six months of 2017, reflecting the negative impact of changes in sales mix; planned costs associated with capacity expansions, new product introductions and manufacturing facility transitions; the net unfavorable impacts of non-recurring adjustments in both 2017 and 2016; as well as unfavorable impacts of foreign exchange. The non-recurring items related to an unfavorable liability adjustment in 2017 and the favorable resolution of a claim in 2016. These factors more than offset contributions from higher sales, benefits from the ICG acquisition and cost reduction actions, including acquisition synergies.

Corporate/Other

The following table sets forth Corporate/Other results for the three months and six months ended:

(in millions)	Three Months Ended		2017 vs. 2016		Six Months Ended		2017 vs. 2016	
	July 1, 2017	July 2, 2016	\$ Change	% Change	July 1, 2017	July 2, 2016	\$ Change	% Change
Restructuring, exit and integration charges	\$ —	\$ —	\$ —	NM	\$ 2.4	\$ —	\$ 2.4	NM
Operating loss	(20.4)	(20.2)	(0.2)	(1.0)%	(39.1)	(35.3)	(3.8)	(10.8)%

NM = not meaningful

Corporate operating expenses were flat in the second quarter and higher during the first half of 2017 when compared with the same prior year period, with the increase in the year-to-date period primarily due to increased restructuring, exit and integration charges recorded in the first quarter.

[Table of Contents](#)**Cash Flow, Liquidity and Capital Resources**

The following table sets forth an analysis of free cash flow for the six months ended:

(in millions)	July 1, 2017	July 2, 2016
Net cash provided by operating activities of continuing operations	\$ 171.8	\$ 221.3
Net cash provided by (used for):		
Capital expenditures	(107.9)	(90.0)
Proceeds from the sale of property, plant and equipment	7.8	1.6
Effect of exchange rate changes	4.5	5.6
Total free cash flow from continuing operations ^(A)	<u>\$ 76.2</u>	<u>\$ 138.5</u>

(A) The Company defines “Free cash flow from continuing operations” as cash flow from operating and investing activities of continuing operations (excluding cash provided by or used for acquisitions and investments, purchases or sales/maturities of marketable securities) and the effect of exchange rate changes. Free cash flow from continuing operations is not intended as an alternative measure of cash flow from operations, as determined in accordance with generally accepted accounting principles (GAAP) in the United States. The Company uses this financial measure, both in presenting its results to shareholders and the investment community and in its internal evaluation and management of its businesses. Management believes that this financial measure and the information it provides are useful to investors because it permits investors to view Brunswick’s performance using the same tool that management uses to gauge progress in achieving its goals. Management believes that the non-GAAP financial measure “Free cash flow from continuing operations” is also useful to investors because it is an indication of cash flow that may be available to fund investments in future growth initiatives.

Brunswick’s major sources of funds for investments, acquisitions, dividend payments and share repurchase programs are cash generated from operating activities, available cash and marketable securities balances and potential borrowings. The Company evaluates potential acquisitions, divestitures and joint ventures in the ordinary course of business.

2017 Cash Flow

In the first six months of 2017, net cash provided by operating activities of continuing operations totaled \$171.8 million. The primary driver of the cash provided by operating activities was net earnings from continuing operations net of non-cash expense items, partially offset by a seasonal increase in working capital. Working capital is defined as Accounts and notes receivable, Inventories and Prepaid expenses and other, net of Accounts payable and Accrued expenses as presented in the Condensed Consolidated Balance Sheets, excluding the impact of acquisitions and non-cash adjustments. Accounts and notes receivable increased \$107.6 million due primarily to normal seasonal changes in net sales and timing of collections in the Marine Engine segment. Net inventories increased by \$14.4 million due to increases in production. Partially offsetting these items was an increase in Accrued expenses of \$16.0 million, primarily driven by accrued rebates associated with higher sales, partially offset by the payment of the prior year’s variable compensation which had been accrued as of December 31, 2016. Accounts payable increased \$12.7 million due to normal volume increases.

Net cash used for investing activities of continuing operations during the first half of 2017 totaled \$63.6 million, which included capital expenditures of \$107.9 million. The Company’s capital spending is focused on new product introductions and capacity expansion projects in all segments. Capital spending was partially offset by net proceeds from maturities of marketable securities of \$35.0 million and proceeds from the sale of property, plant and equipment of \$7.8 million.

Net cash used for financing activities of continuing operations was \$98.1 million during the first half of 2017. The cash outflow included common stock repurchase activity and cash dividends paid to common shareholders.

2016 Cash Flow

In the first six months of 2016, net cash provided by operating activities of continuing operations totaled \$221.3 million. The primary driver of the cash provided by operating activities was net earnings from continuing operations net of non-cash expense items. An increase in working capital, excluding the impact of acquisitions, had a negative effect on net cash provided by operating activities. Accounts and notes receivable increased \$52.4 million during the first six months of 2016, due primarily to seasonally higher net sales in the Marine Engine segment. Accrued expenses decreased \$16.3 million during the first six months of the year, primarily driven by the payment of the prior year's variable compensation, which had been accrued as of December 31, 2015, partially offset by the timing of certain payments. Partially offsetting these items was an increase in Accounts payable of \$30.1 million, which was the result of increased domestic production in the Company's Marine Engine segment.

Net cash used for investing activities of continuing operations during the first half of 2016 totaled \$293.6 million, which included capital expenditures of \$90.0 million. Cash paid for the acquisitions of Cybex and Thunder Jet in the first and second quarters of 2016, respectively, net of cash acquired, totaled \$215.9 million in the first half of 2016. Partially offsetting these items were net proceeds from marketable securities of \$10.7 million that were used to satisfy working capital requirements during the first half of 2016.

Net cash used for financing activities of continuing operations was \$94.6 million during the first half of 2016. The cash outflow included common stock repurchase activity and cash dividends paid to common shareholders.

Liquidity and Capital Resources

The Company views its highly liquid assets as of July 1, 2017, December 31, 2016, and July 2, 2016 as:

(in millions)	July 1, 2017	December 31, 2016	July 2, 2016
Cash and cash equivalents	\$ 437.2	\$ 422.4	\$ 492.8
Short-term investments in marketable securities	0.8	35.8	0.5
Total cash, cash equivalents and marketable securities	\$ 438.0	\$ 458.2	\$ 493.3

The following table sets forth an analysis of total liquidity as of July 1, 2017, December 31, 2016, and July 2, 2016:

(in millions)	July 1, 2017	December 31, 2016	July 2, 2016
Cash, cash equivalents and marketable securities	\$ 438.0	\$ 458.2	\$ 493.3
Amounts available under lending facility ^(A)	295.7	295.7	296.2
Total liquidity^(B)	\$ 733.7	\$ 753.9	\$ 789.5

(A) In June 2016, the Company amended and restated its existing credit agreement, dated as of March 2011, as amended and restated as of June 2014. See **Note 13 – Debt** in the Notes to Condensed Consolidated Financial Statements for further details on the Company's lending facility.

(B) The Company defines Total liquidity as Cash and cash equivalents and Short-term investments in marketable securities as presented in the Condensed Consolidated Balance Sheets, plus amounts available for borrowing under its lending facilities. Total liquidity is not intended as an alternative measure to Cash and cash equivalents and Short-term investments in marketable securities as determined in accordance with GAAP in the United States. The Company uses this financial measure, both in presenting its results to shareholders and the investment community and in its internal evaluation and management of its businesses. Management believes that this financial measure and the information it provides are useful to investors because it permits investors to view the Company's performance using the same metric that management uses to gauge progress in achieving its goals. Management believes that the non-GAAP financial measure "Total liquidity" is also useful to investors because it is an indication of the Company's available highly liquid assets and immediate sources of financing.

Cash, cash equivalents and marketable securities totaled \$438.0 million as of July 1, 2017, a decrease of \$20.2 million from \$458.2 million as of December 31, 2016, and a decrease of \$55.3 million from \$493.3 million as of July 2, 2016. Total debt as of July 1, 2017, December 31, 2016 and July 2, 2016 was \$444.0 million, \$442.4 million and \$452.6 million, respectively. The Company's debt-to-capitalization ratio was 22.3 percent as of July 1, 2017, down from 23.5 percent as of December 31, 2016 and from 24.6 percent as of July 2, 2016.

Management believes that the Company has adequate sources of liquidity to meet the Company's short-term and long-term needs. The next significant long-term debt maturity is not until 2021.

The Company has executed share repurchases against authorizations approved by the Board of Directors in 2014 and 2016. In 2017, the Company repurchased \$60 million of stock under these authorizations, and as of July 1, 2017, the remaining authorization was \$180 million. The Company plans to repurchase approximately \$100 million of shares in 2017.

Net activity in working capital is projected to reflect a usage of cash in 2017 in the range of \$30 million to \$50 million. Additionally, the Company plans to make cash contributions to its defined benefit pension plans of approximately \$75 million, consistent with prior year levels. The Company is planning for capital expenditures of approximately \$185 million to \$195 million, reflecting substantial new product investments in the outboard engine and fitness businesses and continued capacity investments to support new products and growth. Including these factors, the Company plans to generate free cash flow in 2017 in excess of \$250 million.

The Company contributed \$40.0 million and \$35.0 million to its qualified pension plans in the first six months of 2017 and 2016, respectively, and expects to make additional contributions of \$30 million during 2017. The 2017 contributions include an estimated amount which will be used to fund the purchase of group annuity contracts in connection with the previously announced terminations of the Brunswick Pension Plan For Hourly Employees and the Brunswick Pension Plan For Hourly Wage Employees. The Company expects to incur a settlement loss of approximately \$45 million to \$55 million in the second half of 2017 in conjunction with these terminations. The Company also contributed \$2.1 million and \$1.8 million to fund benefit payments in its nonqualified pension plan during the first six months of 2017 and 2016, respectively, and expects to contribute approximately \$2 million of additional funding to the plan through the remainder of 2017. Company contributions are subject to change based on market conditions, pension funding regulations and Company discretion.

Financial Services

The Company's financial services joint venture, Brunswick Acceptance Company, LLC (BAC), is detailed in the 2016 Form 10-K.

Off-Balance Sheet Arrangements and Contractual Obligations

The Company's off-balance sheet arrangements and contractual obligations, as of December 31, 2016, are detailed in the 2016 Form 10-K. There have been no material changes in these arrangements and obligations outside the ordinary course of business since December 31, 2016.

Environmental Regulation

There were no material changes in the Company's environmental regulatory requirements since the filing of its 2016 Form 10-K.

Critical Accounting Policies

As discussed in the 2016 Form 10-K, the preparation of the consolidated financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the amount of reported assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and revenues and expenses during the periods reported. Actual results may differ from those estimates.

There were no material changes in the Company's critical accounting policies since the filing of its 2016 Form 10-K.

Recent Accounting Pronouncements

See **Note 1 – Significant Accounting Policies** in the Notes to Condensed Consolidated Financial Statements for the recent accounting pronouncements that have been adopted during the six months ended July 1, 2017, or will be adopted in future periods.

Forward-Looking Statements

Certain statements in this Quarterly Report on Form 10-Q are forward-looking as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on current expectations, estimates and projections about Brunswick's business and by their nature address matters that are, to different degrees, uncertain. Words such as "may," "could," "expect," "anticipate," "intend," "target," "plan," "seek," "estimate," "believe," "predict," "outlook" and similar expressions are intended to identify forward-looking statements. Such statements are not guarantees of future performance and involve certain risks and uncertainties that may cause actual results to differ materially from expectations as of the date of this quarterly report. These risks

[Table of Contents](#)

include, but are not limited to: adverse general economic conditions, including reductions in consumer discretionary spending; negative currency trends; our ability to complete and integrate targeted acquisitions; our ability to implement our strategic plan and growth initiatives; adequate financing access for dealers and customers and our ability to access capital and credit markets; maintaining effective distribution; retaining our relationships with dealers, distributors and independent boat builders; credit and collections risks; retaining key customers; protecting our brands and intellectual property; absorbing fixed costs in production; managing expansion or consolidation of manufacturing facilities; meeting supply objectives; meeting pension funding obligations; managing our share repurchases; higher energy and fuel costs; competitive pricing pressures; developing new and innovative products at a competitive price, in legal compliance; maintaining product quality and service standards; outages or breaches of technology systems; competitor activity; product liability, warranty and other claims risks; increased costs of legal and regulatory compliance; having to record an impairment to the value of goodwill and other assets; international business risks; attracting and retaining key contributors; and weather and catastrophic event risks.

Additional risk factors are included in the Company's Annual Report on Form 10-K for 2016. Forward-looking statements speak only as of the date on which they are made and Brunswick does not undertake any obligation to update them to reflect events or circumstances after the date of this presentation or for changes by wire services or Internet service providers.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company is exposed to market risk from changes in foreign currency exchange rates, interest rates and commodity prices. The Company enters into various hedging transactions to mitigate these risks in accordance with guidelines established by the Company's management. The Company does not use financial instruments for trading or speculative purposes. The Company's risk management objectives are described in **Note 3 – Financial Instruments** in the Notes to Condensed Consolidated Financial Statements and Notes 1 and 14 in the Notes to Consolidated Financial Statements in the 2016 Form 10-K.

There have been no significant changes to the Company's market risk since December 31, 2016. For a discussion of exposure to market risk, refer to Part II, Item 7A – Quantitative and Qualitative Disclosures about Market Risk, set forth in the 2016 Form 10-K.

Item 4. Controls and Procedures

Under the supervision and with the participation of the Company's management, including the Chief Executive Officer and the Chief Financial Officer of the Company (its principal executive officer and principal financial officer, respectively), the Company has evaluated its disclosure controls and procedures (as defined in Securities Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this Quarterly Report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective. There were no changes in the Company's internal control over financial reporting during the fiscal quarter covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION**Item 1A. Risk Factors**

Brunswick's operations and financial results are subject to various risks and uncertainties that could adversely affect the Company's business, financial condition, results of operations, cash flows and the trading price of Brunswick's common stock. There have been no material changes to the risk factors previously disclosed in the 2016 Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Company has executed share repurchases against authorization approved by the Board of Directors in 2014 and 2016. In 2017, the Company repurchased \$60 million of stock under these authorizations and as of July 1, 2017, the remaining authorization was \$180 million.

During the three months ended July 1, 2017, the Company repurchased the following shares of its common stock:

Period	Total Number of Shares Purchased	Weighted Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Amount of Dollars that May Yet Be Used to Purchase Shares Under the Program
April 2 to April 29	76,574	\$ 58.03	76,574

 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
