WALTHAM, Mass., (January 25, 2018) - Raytheon Company (NYSE: RTN) today announced net sales for the fourth quarter 2017 of \$6.8 billion, up 8.0 percent compared to \$6.3 billion in the fourth quarter 2016. Fourth quarter 2017 EPS from continuing operations was \$1.35 compared to \$1.87 in the fourth quarter 2016. Fourth quarter and full-year 2017 included an unfavorable \$0.59 provisional tax-related impact due to the enactment of the Tax Cuts and Jobs Act of 2017.

In addition, the company made a \$1.0 billion pretax discretionary pension plan contribution in the fourth quarter 2017, which had an unfavorable tax-related EPS impact of \$0.09 and was not included in the company's prior guidance. Outlook

The company has provided its financial outlook for 2018. Charts containing additional information on the company's 2018 outlook are available on the company's website.

² Fourth quarter and twelve months 2016 Federal and Foreign Income Taxes and Income from Continuing Operations attributable to Raytheon Company included a \$13 million unfavorable tax-related impact due to the \$0.5 billion discretionary pension plan contribution, which had an EPS impact of \$0.04.

³ Twelve months 2016 Income from Continuing Operations before Taxes and Income from Continuing Operations attributable to Raytheon Company included the tax-free gain of \$158 million for the second quarter 2016 TRS transaction, which had a favorable EPS impact of \$0.53.

Effective January 1, 2018, the company adopted the new retirement benefit standard, which moves certain components of FAS pension and postretirement benefit expense from operating to non-operating income. The adoption of this standard increases operating income due to the removal of all components of FAS expense other than service cost, and decreases non-operating income by the same amount with no impact to net income. The standard does not impact our CAS expense, which is recorded in the results of each segment. As a result, our FAS/CAS Adjustment will be split into: FAS/CAS Operating Adjustment; and Other Pension Expense within non-operating. The 2017 Actuals - New Standard and the 2018 columns in the Financial Outlook table below reflect the adoption of the standard.
