WELL CAPITALIZED TO SUPPORT GROWTH

Why Grupo Security?

Well-Established Brand in the Attractive Chilean Market. Chile offers market-friendly regulated industries with attractive growth potential and strong macroeconomic dynamics. Banco Security's (66% of Grupo Security's assets as of Jun'18) strategy centers on providing high service quality and segmented products to a well-defined niche market of large and medium-sized companies and affluent individuals. The Chilean insurance market provides attractive opportunities with penetration levels at 5%, below the 8-11% in developed countries. Gross life written premiums for the sector have expanded at a 10-year CAGR of 10.9% in Ch\$. Chile also has a strong asset management industry, with mutual funds expanding at a 10.7% 10-year CAGR in Ch\$. Recognized for its client service, Banco Security ranks among the first Chilean banks in Customer Satisfaction.

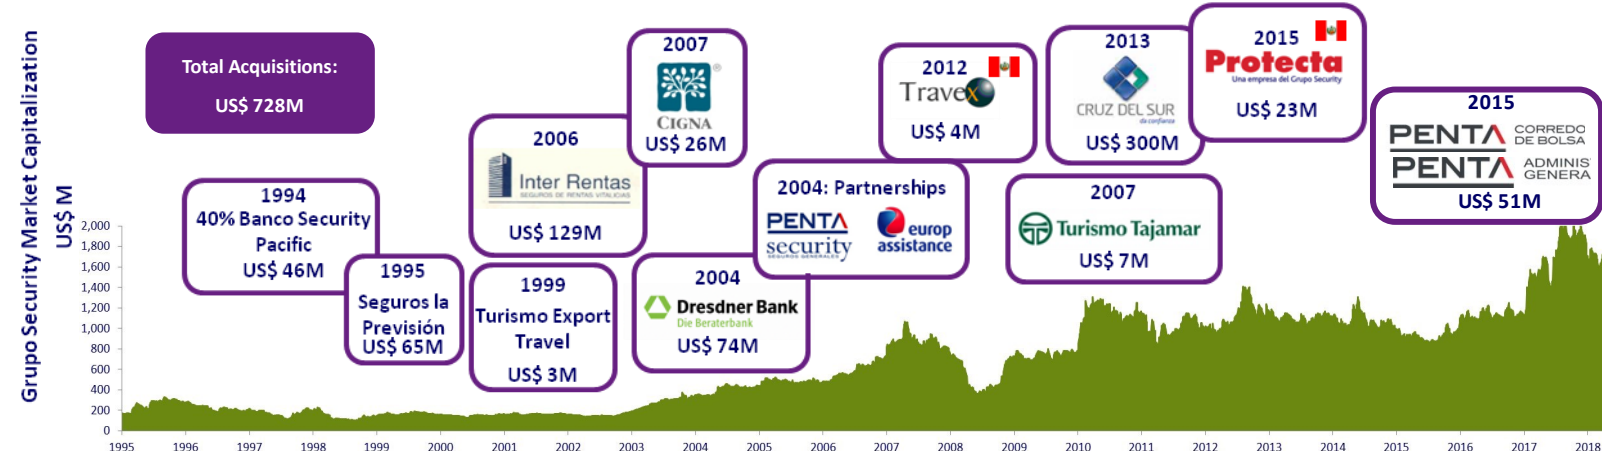

Successful Track Record of Acquiring and Integrating Operations Capitalizing on Industry Consolidation Opportunities. Over the past 23 years, Grupo Security has successfully completed 12 strategic acquisitions for a total investment of US\$728 million, expanding its service offering and market share in its target segments while achieving significant synergies. The acquisition of the Cruz del Sur insurance, asset management and brokerage businesses in mid-2013 for approx. US\$300 million resulted in annual synergies equivalent to US\$25.9 million, above the US\$15.8 million originally anticipated. In 2012, Grupo Security began its regional expansion strategy in the Andean region through the acquisition of the leading corporate travel agency in Peru to gain experience in that market and pave the way for further expansion. Early 2015 Grupo Security announced the US\$22.5 million acquisition of insurance company Protecta, the country's 5th largest life insurance company in terms of investments, establishing a foothold in the Peruvian financial market.

Expansion within the Andean Region Offers Long-Term Growth Potential. Peru offers one of the most attractive high-growth banking and insurance markets in LatAm, with low penetration of loans and insurance services. Despite high industry concentration, insurance to GDP stood at 1.7% in Dec'16, similar to that in Chile in 1990. Insurance system premiums and investments have expanded at a 10-year CAGR of 11% and 13% in US\$, respectively, compared with 8% and 7% in Chile. Furthermore, banking credit to GDP in Peru stood at 36% on Dec'16, compared with 81% in Chile, while system loans have expanded at a 10-year CAGR of 13.3% in US\$, compared with 7.0% in Chile. Expected GDP growth of 4.0% for 2018, ahead of most other countries in LatAm, low inflation and a growing middle class also support growth. Peru's legal, regulatory and operational environment shares similarities with Chile, promoting the development of this market.

Consistent Financial Performance Leveraging Operating and Financial Synergies. Through a combination of organic growth and acquisitions, a strategy based on segmentation and innovation, and leveraging our strong corporate brand and client loyalty, we have reported consistent profitability since 1991, achieving a 9.9% CAGR in profits over the past 5 years, and ROE of 11.6% in 2017. All businesses contributed to this performance, with the lending area reporting a 11.4% 5-year CAGR. As of Jun'18, profit at our asset management area reached Ch\$ 4,246 million, 11.1% of the LTM profits of the business areas of Grupo Security, and our life insurance business reported profit of Ch\$ 4,831 million, 6.1% of the LTM profits of the business areas of Grupo Security, synergies achieved from our last acquisitions.

Solid Balance Sheet Supported by Conservative Financial Policies and Risk Management. Grupo Security maintains a strong balance sheet with a stable debt to equity ratio of 33% on average for the last 10 years. The company has been supported by a group of long-term shareholders, which hold 72% of the shares outstanding and have exhibited a strong commitment with ten capital increases totaling US\$975 million since 1991. Banco Security maintains strong asset quality with risk levels consistently below industry average. As of Jun'18, the bank posted NPL and coverage ratios of 1.37% and 120% respectively, driven by tight credit standards and exposure to corporate and high-income clients, below the 1.93% and 124% NPL and coverage ratio registered for the industry.
