### *Three Months Ended September 30, 2017 Compared to 2016*

Net income for the three months ended September 30, 2017 included several significant items. In the third quarter of 2017, the Company incurred \$170 million of net catastrophe losses at CNA, as compared to \$10 million in 2016, and a loss of \$35 million in the aggregate on the early redemption of debt at CNA and Diamond Offshore. Excluding these significant items, earnings increased \$25 million as compared to the prior year period mainly due to higher earnings at CNA, Diamond Offshore and improved results from the parent company investment portfolio.

Excluding the significant items discussed above, CNA's earnings increased due to improved current non-catastrophe accident year underwriting results from its core P&C business partially offset by lower net investment income reflecting lower returns from limited partnership investments.

Excluding the significant items discussed above, Diamond Offshore's earnings increased due to higher fleet utilization, lower depreciation expense resulting mainly from the asset impairment charges taken in 2016 and in the first half of 2017 that reduced the depreciable asset base and a lower effective income tax rate due to the mix of domestic and international earnings. These increases were partially offset by higher contract drilling expense due to incremental operating costs for a new rig and lower average daily revenue.

Boardwalk Pipeline Partners, LP's earnings increased due to revenues from new growth projects recently placed in service and lower interest expense.

Loews Hotels' earnings increased primarily due to higher equity income from Universal Orlando joint venture properties and the completion of renovations at the Loews Miami Beach Hotel.

Income generated by the parent company investment portfolio increased primarily due to improved performance from equity investments partially offset by lower results from gold-related securities and limited partnership investments.

Corporate and other results reflected higher operating expenses due to the timing of compensation accruals, partially offset by the absence of prior year expenses related to the implementation of the 2016 Incentive Compensation Plan.

### *Nine Months Ended September 30, 2017 Compared to 2016*

Net income for the nine months ended September 30, 2017 included the aggregate debt redemption loss discussed above, net catastrophe losses at CNA of \$213 million in 2017 as compared with \$85 million in 2016, a loss of \$15 million on the sale of a processing facility at Boardwalk Pipeline in 2017 and asset impairment charges of \$23 million in 2017 and \$267 million in 2016 at Diamond Offshore. Excluding these items, earnings increased \$253 million mainly due to higher earnings at CNA, Diamond Offshore and Loews Hotels.

Excluding the significant items discussed above, CNA's earnings increased due to higher net investment income driven by improved limited partnership results, improved current non-catastrophe accident year underwriting results from its core P&C business, higher realized investment gains and lower adverse reserve development recorded in 2017 under CNA's 2010 asbestos and environmental pollution loss portfolio transfer as compared to 2016.

Excluding the significant items discussed above, Diamond Offshore's earnings increased primarily due to lower depreciation expense resulting mainly from the asset impairment charges taken in 2016 and in the first half of 2017 that reduced the depreciable asset base and a lower effective income tax

rate due to the mix of domestic and international earnings, partially offset by lower contract drilling revenue as a result of lower average daily revenue.

Excluding the significant items discussed above, Boardwalk Pipeline's net income increased primarily due to revenues from new growth projects recently placed into service and lower interest expense.

Loews Hotels' earnings increased primarily due to higher joint venture equity income which included a net benefit of \$14 million (after tax) primarily related to an asset sale in 2017.

Income generated by the parent company investment portfolio was consistent with the prior year period.

Corporate and other results reflected higher operating expenses due to the timing of compensation accruals and costs related to the acquisition of Consolidated Container in May 2017.
