

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15 (d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2016
Commission file number 000-04217

ACETO CORPORATION

(Exact name of registrant as specified in its charter)

New York
(State or other jurisdiction of
incorporation or organization)

11-1720520
(I.R.S. Employer Identification
Number)

4 Tri Harbor Court, Port Washington, NY 11050
(Address of principal executive offices) (Zip Code)

(516) 627-6000
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every interactive data file required to be submitted and posted pursuant to Rule 405 of Regulation S-T (section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The registrant had 30,051,333 shares of common stock outstanding as of November 1, 2016.

ACETO CORPORATION AND SUBSIDIARIES
QUARTERLY REPORT FOR THE PERIOD ENDED SEPTEMBER 30, 2016

TABLE OF CONTENTS

PART I. FINANCIAL INFORMATION

- Item 1. Financial Statements
- Condensed Consolidated Balance Sheets – September 30, 2016 (unaudited) and June 30, 2016
- Condensed Consolidated Statements of Income – Three Months Ended September 30, 2016 and 2015 (unaudited)
- Condensed Consolidated Statements of Comprehensive Income – Three Months Ended September 30, 2016 and 2015 (unaudited)
- Condensed Consolidated Statements of Cash Flows – Three Months Ended September 30, 2016 and 2015 (unaudited)
- Notes to Condensed Consolidated Financial Statements (unaudited)
- Report of Independent Registered Public Accounting Firm
- Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations
- Item 3. Quantitative and Qualitative Disclosures about Market Risk
- Item 4. Controls and Procedures

PART II. OTHER INFORMATION

- Item 1. Legal Proceedings
- Item 1A. Risk Factors
- Item 2. Unregistered Sales of Equity Securities and Use of Proceeds
- Item 3. Defaults Upon Senior Securities

Non-Cash Item

The Company had a non-cash item excluded from the Condensed Consolidated Statement of Cash Flows during the three months ended September 30, 2015 of \$1,745 related to dividends declared but not paid.

See accompanying notes to condensed consolidated financial statements and accountants' review report

ACETO CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited and in thousands, except per-share amounts)

(1) Basis of Presentation

The condensed consolidated financial statements of Aceto Corporation and subsidiaries (“Aceto” or the “Company”) included herein have been prepared by the Company and reflect all adjustments (consisting solely of normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows for all periods presented. Interim results are not necessarily indicative of results which may be achieved for the full year.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses reported in those financial statements and the disclosure of contingent assets and liabilities at the date of the financial statements. These judgments can be subjective and complex, and consequently actual results could differ from those estimates and assumptions. The Company’s most critical accounting policies relate to revenue recognition; allowance for doubtful accounts; inventory; goodwill and other indefinite-life intangible assets; long-lived assets; environmental matters and other contingencies; income taxes; and stock-based compensation.

These condensed consolidated financial statements do not include all disclosures associated with consolidated financial statements prepared in accordance with GAAP. Accordingly, these statements should be read in conjunction with the Company’s consolidated financial statements and notes thereto contained in the Company’s Form 10-K for the year ended June 30, 2016.

(2) Stock-Based Compensation

At the annual meeting of shareholders of the Company, held on December 15, 2015, the Company’s shareholders approved the Aceto Corporation 2015 Equity Participation Plan (the “2015 Plan”). Under the 2015 Plan, grants of stock options, stock appreciation rights, restricted stock, restricted stock units and other stock-based awards (“Stock Awards”) may be offered to employees, non-employee directors, consultants and advisors of the Company, including the chief executive officer, chief financial officer and other named executive officers. The maximum number of shares of common stock of the Company that may be issued pursuant to Stock Awards granted under the 2015 Plan will not exceed, in the aggregate, 4,250 shares. Stock Awards that are intended to qualify as “performance-based compensation” for purposes of Section 162(m) of the Internal Revenue Code of 1986, as amended, may be granted. Performance-based awards may be granted, vested and paid based on the attainment of specified performance goals.

At the annual meeting of shareholders of the Company, held on December 6, 2012, the Company’s shareholders approved the amended and restated Aceto Corporation 2010 Equity Participation Plan (the “2010 Plan”). Under the 2010 Plan, grants of stock options, restricted stock, restricted stock units, stock appreciation rights, and stock bonuses may be made to employees, non-employee directors and consultants of the Company. The maximum number of shares of common stock of the Company that may be issued pursuant to awards granted under the 2010 Plan will not exceed, in the aggregate, 5,250 shares. In addition, restricted stock may be granted to an eligible participant in lieu of a portion of any annual cash bonus earned by such participant. Such award may include additional shares of restricted stock (premium shares) greater than the portion of bonus paid in restricted stock. The restricted stock award is vested at issuance and the restrictions lapse ratably over a period of years as determined by the Board of Directors, generally three years. The premium shares vest when all the restrictions lapse, provided that the participant remains employed by the Company at that time.

During the three months ended September 30, 2016, the Company granted 256 shares of restricted common stock to its employees that vest over three years and 42 restricted stock units to its employees that have varying vest dates through July 2017. In addition, the Company also issued a target grant of 160 performance-vested restricted stock units, which grant could be as much as 280 units if certain performance criteria and market conditions are met. Performance-vested restricted stock units will cliff vest 100% at the end of the third year following grant in accordance with the performance metrics set forth in the applicable employee performance-vested restricted stock unit grant.

ACETO CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited and in thousands, except per-share amounts)

In September 2016, the Company granted 28 performance stock options to an executive officer at an exercise price of \$20.03 per share. The performance options vest if the closing stock price meets or exceeds the target price of \$40 for 20 consecutive trading days prior to June 30, 2021 and the explicit service period of 1 year has been met. The options will expire June 30, 2021, if the stock price target is not achieved. If it is achieved, the options will expire ten years from the date of grant.

During the year ended June 30, 2016, the Company granted 221 shares of restricted common stock to its employees that vest over three years and 14 shares of restricted common stock to its non-employee directors, which vest over approximately one year as well as 46 restricted stock units that have varying vest dates through July 2017. In addition, the Company also issued a target grant of 142 performance-vested restricted stock units, which grant could be as much as 248 if certain performance criteria and market conditions are met. Performance-vested restricted stock units will cliff vest 100% at the end of the third year following grant in accordance with the performance metrics set forth in the applicable employee performance-vested restricted stock unit grant.

For the three months ended September 30, 2016 and 2015, the Company recorded stock-based compensation expense of approximately \$1,659 and \$1,462, respectively, related to restricted common stock, restricted stock units and stock options. As of September 30, 2016, the total unrecognized stock-based compensation cost is approximately \$15,142.

(3) Capital Stock

On August 25, 2016, the Company's board of directors declared a regular quarterly dividend of \$0.065 per share which was paid on September 20, 2016 to shareholders of record as of September 9, 2016.

On May 8, 2014, the Board of Directors of the Company authorized the continuation of the Company's stock repurchase program, expiring in May 2017. Under the stock repurchase program, the Company is authorized to purchase up to 5,000 shares of common stock in open market or private transactions, at prices not to exceed the market value of the common stock at the time of such purchase.

The Company is authorized to issue 75,000 shares of Common Stock and 2,000 shares of Preferred Stock. The Board of Directors has authority under the Company's Restated Certificate of Incorporation to issue shares of preferred stock with voting and other relative rights to be determined by the Board of Directors.

(4) Net Income Per Common Share

Basic income per common share is based on the weighted average number of common shares outstanding during the period. Diluted income per common share includes the dilutive effect of potential common shares outstanding. The following table sets forth the reconciliation of weighted average shares outstanding and diluted weighted average shares outstanding:

	Three months Ended September 30,	
	<u>2016</u>	<u>2015</u>
Weighted average shares outstanding	29,518	28,983
Dilutive effect of stock options and restricted stock awards and units	<u>322</u>	<u>409</u>
Diluted weighted average shares outstanding	<u>29,840</u>	<u>29,392</u>

The Convertible Senior Notes (see Note 5) will only be included in the dilutive net income per share calculations using the treasury stock method during periods in which the average market price of Aceto's common stock is above the applicable conversion price of the Convertible Senior Notes, or \$33.215 per share, and the impact would not be anti-dilutive.

ACETO CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited and in thousands, except per-share amounts)

(5) Debt

Long-term debt

	September 30, <u>2016</u>	June 30, <u>2016</u>
Convertible Senior Notes, net	\$117,261	\$115,829
Mortgage	<u>2,911</u>	<u>2,960</u>
	120,172	118,789
Less current portion	<u>197</u>	<u>197</u>
	<u>\$119,975</u>	<u>\$118,592</u>

Convertible Senior Notes

In November 2015, Aceto offered \$125,000 aggregate principal amount of Convertible Senior Notes due 2020 (the "Notes") in a private offering to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended. In addition, Aceto granted the initial purchasers for the offering an option to purchase up to an additional \$18,750 aggregate principal amount pursuant to the initial purchasers' option to purchase additional Notes, which was exercised in November 2015. Therefore the total offering was \$143,750 aggregate principal amount. The Notes are unsecured obligations of Aceto and rank senior in right of payment to any of Aceto's subordinated indebtedness, equal in right of payment to all of Aceto's unsecured indebtedness that is not subordinated, effectively junior in right of payment to any of Aceto's secured indebtedness to the extent of the value of the assets securing such indebtedness and structurally junior in right of payment to all indebtedness and other liabilities (including trade payables) of Aceto's subsidiaries. Interest will be payable semi-annually in arrears. The Notes will be convertible into cash, shares of Aceto common stock or a combination thereof, at Aceto's election, upon the satisfaction of specified conditions and during certain periods. The Notes will mature in November 2020. The Notes pay 2.0% interest semi-annually in arrears on May 1 and November 1 of each year, which commenced on May 1, 2016. The Notes are convertible into 4,328 shares of common stock, based on an initial conversion price of \$33.215 per share.

Holders may convert all or any portion of their notes, in multiples of one thousand dollar principal amount, at their option at any time prior to the close of business on the business day immediately preceding May 1, 2020 only under the following circumstances: (i) during any calendar quarter (and only during such calendar quarter), if the last reported sale price of the common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than or equal to 130% of the conversion price on each applicable trading day, (ii) during the five consecutive business day period after any five consecutive trading day period (which is referred to as the "measurement period") in which the trading price per one thousand dollar principal amount of Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price of Aceto's common stock and the conversion rate on each such trading day; or (iii) upon the occurrence of specified corporate events.

Upon conversion by the holders, the Company may elect to settle such conversion in shares of its common stock, cash, or a combination thereof. As a result of its cash conversion option, the Company separately accounted for the value of the embedded conversion option as a debt discount (with an offset to capital in excess of par value). The debt discount is being amortized as additional non-cash interest expense using the effective interest method over the term of the Notes. Debt issuance costs are being amortized as additional non-cash interest expense using the straight-line method over the term of the debt, since this method was not significantly different from the effective interest method. The Company presents debt issuance costs as a direct deduction from the carrying value of the debt liability rather than showing the debt issuance costs as a deferred charge on the balance sheet.

In connection with the offering of the Notes, Aceto entered into privately negotiated convertible note hedge transactions with option counterparties, which are affiliates of certain of the initial purchasers. The convertible note hedge transactions are expected generally to reduce the potential dilution to Aceto's common stock and/or offset any

ACETO CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited and in thousands, except per-share amounts)

cash payments Aceto is required to make in excess of the principal amount of converted Notes upon any conversion of Notes. Aceto also entered into privately negotiated warrant transactions with the option counterparties. The warrant transactions could separately have a dilutive effect to the extent that the market price per share of Aceto's common stock as measured over the applicable valuation period at the maturity of the warrants exceeds the applicable strike price of the warrants. By entering into these transactions with the option counterparties, the Company issued convertible debt and a freestanding "call-spread."

The carrying value of the Notes is as follows:

	September 30, <u>2016</u>	June 30, <u>2016</u>
Principal amount	\$ 143,750	\$ 143,750
Unamortized debt discount	(23,044)	(24,267)
Unamortized debt issuance costs	<u>(3,445)</u>	<u>(3,654)</u>
Net carrying value	\$ <u>117,261</u>	\$ <u>115,829</u>

The following table sets forth the components of total "interest expense" related to the Notes recognized in the accompanying consolidated statements of income for the three months ended September 30:

	Three months Ended September 30, <u>2016</u>
Contractual coupon	\$ 725
Amortization of debt discount	1,223
Amortization of debt issuance costs	<u>209</u>
	\$ <u>2,157</u>

Credit Facilities

On October 28, 2015, the Company entered into an Amended and Restated Credit Agreement (the "A&R Credit Agreement"), which amended and restated in its entirety the Credit Agreement, dated as of April 30, 2014 with three domestic financial institutions, as amended on June 25, 2015 by Amendment No. 1 to the Credit Agreement (together, the "First Amended Credit Agreement"). The A&R Credit Agreement increases the aggregate available revolving commitment under the First Amended Credit Agreement from \$75,000 to an initial aggregate available revolving commitment of \$150,000 (the "Initial Revolving Commitment"), which may be increased in accordance with the terms and conditions of the A&R Credit Agreement by an aggregate amount not to exceed \$100,000 (the "Expansion Commitment" and, together with the Initial Revolving Commitment, the "Revolving Commitment"). Under the A&R Credit Agreement, the Company may borrow, repay and reborrow loans up to the Revolving Commitment from and as of October 28, 2015, to but excluding the earlier of October 28, 2020 and the termination of the Revolving Commitment, in amounts up to, but not exceeding at any one time, the Revolving Commitment. The A&R Credit Agreement does not provide for any term loan commitment. The proceeds from initial borrowings under the A&R Credit Agreement have been used to repay all amounts outstanding pursuant to the term loan commitment and revolving loan commitment under Aceto's First Amended Credit Agreement. The proceeds from the issuance of the Notes were used to pay initial borrowings under the A&R Credit Agreement. As of September 30, 2016, there were no amounts outstanding under the A&R Credit Agreement.

The A&R Credit Agreement provides for (i) Eurodollar Loans (as such term is defined in the A&R Credit Agreement), (ii) ABR Loans (as such term is defined in the A&R Credit Agreement) or (iii) a combination thereof.

ACETO CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited and in thousands, except per-share amounts)

Borrowings under the A&R Credit Agreement will bear interest per annum at a base rate or, at the Company's option, LIBOR, plus an applicable margin ranging from 0.00% to 0.75% in the case of ABR Loans, and 1.00% to 1.75% in the case of Eurodollar Loans. The applicable interest rate margin percentage will be determined by the Company's senior secured net leverage ratio.

The A&R Credit Agreement, similar to Aceto's First Amended Credit Agreement, provides that commercial letters of credit shall be issued to provide the primary payment mechanism in connection with the purchase of any materials, goods or services in the ordinary course of business. The Company had no open letters of credit at September 30, 2016 and June 30, 2016.

The A&R Credit Agreement, like Aceto's First Amended Credit Agreement, provides for a security interest in substantially all of the personal property of the Company and certain of its subsidiaries. The A&R Credit Agreement contains several financial covenants including, among other things, maintaining a minimum level of debt service. Under the A&R Credit Agreement, the Company and its subsidiaries are also subject to certain restrictive covenants, including, among other things, covenants governing liens, limitations on indebtedness, limitations on guarantees, limitations on sales of assets and sales of receivables, and limitations on loans and investments. The Company was in compliance with all covenants at September 30, 2016.

Mortgage

On June 30, 2011, the Company entered into a mortgage payable for \$3,947 on its corporate headquarters, in Port Washington, New York. This mortgage payable is secured by the land and building and is being amortized over a period of 20 years. The mortgage payable, which was modified in October 2013, bears interest at 4.92% per annum as of September 30, 2016 and matures on June 30, 2021.

(6) Commitments, Contingencies and Other Matters

The Company and its subsidiaries are subject to various claims which have arisen in the normal course of business. The Company provides for costs related to contingencies when a loss from such claims is probable and the amount is reasonably determinable. In determining whether it is possible to provide an estimate of loss, or range of possible loss, the Company reviews and evaluates its litigation and regulatory matters on a quarterly basis in light of potentially relevant factual and legal developments. If the Company determines an unfavorable outcome is not probable or reasonably estimable, the Company does not accrue for a potential litigation loss. While the Company has determined that there is a reasonable possibility that a loss has been incurred, no amounts have been recognized in the financial statements, other than what has been discussed below, because the amount of the liability cannot be reasonably estimated at this time.

In fiscal years 2011, 2009, 2008 and 2007, the Company received letters from the Pulvair Site Group, a group of potentially responsible parties (PRP Group) who are working with the State of Tennessee (the State) to remediate a contaminated property in Tennessee called the Pulvair site. The PRP Group has alleged that Aceto shipped hazardous substances to the site which were released into the environment. The State had begun administrative proceedings against the members of the PRP Group and Aceto with respect to the cleanup of the Pulvair site and the PRP Group has begun to undertake cleanup. The PRP Group is seeking a settlement of approximately \$1,700 from the Company for its share to remediate the site contamination. Although the Company acknowledges that it shipped materials to the site for formulation over twenty years ago, the Company believes that the evidence does not show that the hazardous materials sent by Aceto to the site have significantly contributed to the contamination of the environment and thus believes that, at most, it is a de minimis contributor to the site contamination. Accordingly, the Company believes that the settlement offer is unreasonable. Management believes that the ultimate outcome of this matter will not have a material adverse effect on the Company's financial condition or liquidity.

The Company has environmental remediation obligations in connection with Arsynco, Inc. ("Arsynco"), a subsidiary formerly involved in manufacturing chemicals located in Carlstadt, New Jersey, which was closed in 1993 and is currently held for sale. Based on continued monitoring of the contamination at the site and the approved plan of remediation, Arsynco received an estimate from an environmental consultant stating that the costs of remediation could be between \$19,700 and \$21,500. Remediation commenced in fiscal 2010, and as of September 30, 2016 and June 30, 2016, a liability of \$10,035 and \$12,532, respectively, is included in the accompanying

ACETO CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited and in thousands, except per-share amounts)

consolidated balance sheets for this matter. In the three months ended September 30, 2016, \$170 environmental remediation charge was recorded and included in selling, general and administrative expenses in the accompanying consolidated statement of income. In accordance with GAAP, management believes that the majority of costs incurred to remediate the site will be capitalized in preparing the property which is currently classified as held for sale. An appraisal of the fair value of the property by a third-party appraiser supports the assumption that the expected fair value after the remediation is in excess of the amount required to be capitalized. However, these matters, if resolved in a manner different from those assumed in current estimates, could have a material adverse effect on the Company's financial condition, operating results and cash flows when resolved in a future reporting period.

In connection with the environmental remediation obligation for Arsynco, in July 2009, Arsynco entered into a settlement agreement with BASF Corporation ("BASF"), the former owners of the Arsynco property. In accordance with the settlement agreement, BASF paid for a portion of the prior remediation costs and going forward, will co-remediate the property with the Company. The contract requires that BASF pay \$550 related to past response costs and pay a proportionate share of the future remediation costs. Accordingly, the Company had recorded a gain of \$550 in fiscal 2009. This \$550 gain relates to the partial reimbursement of costs of approximately \$1,200 that the Company had previously expensed. The Company also recorded an additional receivable from BASF, with an offset against property held for sale, representing its estimated portion of the future remediation costs. The balance of this receivable for future remediation costs as of September 30, 2016 and June 30, 2016 is \$4,515 and \$5,639, respectively, which is included in the accompanying consolidated balance sheets.

In March 2006, Arsynco received notice from the EPA of its status as a PRP under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) for a site described as the Berry's Creek Study Area ("BCSA"). Arsynco is one of over 150 PRPs which have potential liability for the required investigation and remediation of the site. The estimate of the potential liability is not quantifiable for a number of reasons, including the difficulty in determining the extent of contamination and the length of time remediation may require. In addition, any estimate of liability must also consider the number of other PRPs and their financial strength. In July 2014, Arsynco received notice from the U.S. Department of Interior ("USDO") regarding the USDO's intent to perform a Natural Resource Damage (NRD) Assessment at the BCSA. Arsynco has to date declined to participate in the development and performance of the NRD assessment process. Based on prior practice in similar situations, it is possible that the State may assert a claim for natural resource damages with respect to the Arsynco site itself, and either the federal government or the State (or both) may assert claims against Arsynco for natural resource damages in connection with Berry's Creek; any such claim with respect to Berry's Creek could also be asserted against the approximately 150 PRPs which the EPA has identified in connection with that site. Any claim for natural resource damages with respect to the Arsynco site itself may also be asserted against BASF, the former owners of the Arsynco property. In September 2012, Arsynco entered into an agreement with three of the other PRPs that had previously been impleaded into New Jersey Department of Environmental Protection, et al. v. Occidental Chemical Corporation, et al., Docket No. ESX-L-9868-05 (the "NJDEP Litigation") and were considering impleading Arsynco into the same proceeding. Arsynco entered into an agreement to avoid impleader. Pursuant to the agreement, Arsynco agreed to (1) a tolling period that would not be included when computing the running of any statute of limitations that might provide a defense to the NJDEP Litigation; (2) the waiver of certain issue preclusion defenses in the NJDEP Litigation; and (3) arbitration of certain potential future liability allocation claims if the other parties to the agreement are barred by a court of competent jurisdiction from proceeding against Arsynco. In July 2015, Arsynco was contacted by an allocation consultant retained by a group of the named PRPs, inviting Arsynco to participate in the allocation among the PRPs' investigation and remediation costs relating to the BCSA. Arsynco declined that invitation. Since an amount of the liability cannot be reasonably estimated at this time, no accrual is recorded for these potential future costs. The impact of the resolution of this matter on the Company's results of operations in a particular reporting period is not currently known.

A subsidiary of the Company markets certain agricultural protection products which are subject to the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA). FIFRA requires that test data be provided to the EPA to register, obtain and maintain approved labels for pesticide products. The EPA requires that follow-on registrants of these products compensate the initial registrant for the cost of producing the necessary test data on a basis prescribed in the FIFRA regulations. Follow-on registrants do not themselves generate or contract for the data. However, when FIFRA requirements mandate that new test data be generated to enable all registrants to continue marketing a pesticide product, often both the initial and follow-on registrants establish a task force to jointly undertake the

ACETO CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited and in thousands, except per-share amounts)

testing effort. The Company is presently a member of several such task force groups, which requires payments for such memberships. In addition, in connection with our agricultural protection business, the Company plans to acquire product registrations and related data filed with the United States Environmental Protection Agency to support such registrations and other supporting data for several products. The acquisition of these product registrations and related data filed with the United States Environmental Protection Agency as well as payments to various task force groups could approximate \$1,826 through fiscal 2017.

(7) Fair Value Measurements

GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly fashion between market participants at the measurement date. GAAP establishes a fair value hierarchy for those instruments measured at fair value that distinguishes between assumptions based on market data (observable inputs) and the Company's assumptions (unobservable inputs). The hierarchy consists of three levels:

Level 1 – Quoted market prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than Level 1 inputs that are either directly or indirectly observable; and

Level 3 – Unobservable inputs that are not corroborated by market data.

On a recurring basis, Aceto measures at fair value certain financial assets and liabilities, which consist of cash equivalents, investments and foreign currency contracts. The Company classifies cash equivalents and investments within Level 1 if quoted prices are available in active markets. Level 1 assets include instruments valued based on quoted market prices in active markets which generally include corporate equity securities publicly traded on major exchanges. Time deposits are very short-term in nature and are accordingly valued at cost plus accrued interest, which approximates fair value, and are classified within Level 2 of the valuation hierarchy. The Company uses foreign currency futures contracts to minimize the risk caused by foreign currency fluctuation on its foreign currency receivables and payables by purchasing futures with one of its financial institutions. Futures are traded on regulated U.S. and international exchanges and represent commitments to purchase or sell a particular foreign currency at a future date and at a specific price. Aceto's foreign currency derivative contracts are classified within Level 2 as the fair value of these hedges is primarily based on observable futures foreign exchange rates. At September 30, 2016, the Company had foreign currency contracts outstanding that had a notional amount of \$55,921. Unrealized losses on hedging activities for the three months ended September 30, 2016 and 2015 was \$36 and \$251, respectively, and are included in interest and other income, net, in the consolidated statements of income. The contracts have varying maturities of less than one year.

During the fourth quarter of each year, the Company evaluates goodwill for impairment at the reporting unit level using a discounted cash flow model using Level 3 inputs. Additionally, on a nonrecurring basis, the Company uses fair value measures when analyzing asset impairment. Long-lived assets and certain identifiable intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If it is determined such indicators are present and the review indicates that the assets will not be fully recoverable, based on undiscounted estimated cash flows over the remaining amortization periods, their carrying values are reduced to estimated fair value. Measurements based on undiscounted cash flows are considered to be Level 3 inputs.

In November 2015, the Company issued \$143,750 aggregate principal amount of Notes (see Note 5). Since Aceto has the option to settle the potential conversion of the Notes in cash, the Company separated the embedded conversion option feature from the debt feature and accounts for each component separately, based on the fair value of the debt component assuming no conversion option. The calculation of the fair value of the debt component required the use of Level 3 inputs, and was determined by calculating the fair value of similar non-convertible debt, using a theoretical borrowing rate of 6.5%. The value of the embedded conversion option was determined using an expected present value technique (income approach) to estimate the fair value of similar non-convertible debt and included utilization of convertible investors' credit assumptions and high yield bond indices. The Notes approximate

ACETO CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited and in thousands, except per-share amounts)

a full fair value of \$131,800 at September 30, 2016 giving effect for certain factors, including the term of the Notes, current stock price of Aceto stock and effective interest rate.

The carrying values of all financial instruments classified as a current asset or current liability are deemed to approximate fair value because of the short maturity of these instruments. The fair values of the Company's notes receivable and short-term and long-term bank loans were based upon current rates offered for similar financial instruments to the Company.

The following tables summarize the valuation of the Company's financial assets and liabilities which were determined by using the following inputs at September 30, 2016 and June 30, 2016:

Fair Value Measurements at September 30, 2016 Using

	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Cash equivalents:				
Time deposits	-	\$6,292	-	\$ 6,292
Investments:				
Time deposits	-	1,910	-	1,910
Foreign currency contracts- liabilities (1)	-	38	-	38
Contingent consideration (2)	-	-	\$135	135

- (1) Included in "Accrued expenses" in the accompanying Condensed Consolidated Balance Sheet as of September 30, 2016.
(2) Included in "Long-term liabilities" in the accompanying Condensed Consolidated Balance Sheet as of September 30, 2016.

Fair Value Measurements at June 30, 2016 Using

	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Cash equivalents:				
Time deposits	-	\$ 6,249	-	\$ 6,249
Investments:				
Time deposits	-	881	-	881
Foreign currency contracts- assets (3)	-	160	-	160
Foreign currency contracts- liabilities (4)	-	169	-	169
Contingent consideration (5)	-	-	\$132	132

- (3) Included in "Other receivables" in the accompanying Condensed Consolidated Balance Sheet as of June 30, 2016.
(4) Included in "Accrued expenses" in the accompanying Condensed Consolidated Balance Sheet as of June 30, 2016.
(5) Included in "Long-term liabilities" in the accompanying Consolidated Balance Sheet as of June 30, 2016.

ACETO CORPORATION AND SUBSIDIARIES

(unaudited and in thousands, except per-share amounts)

(8) Recent Accounting Pronouncements

In August 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*, which addresses eight specific cash flow issues with the objective of reducing diversity in how certain cash receipts and cash payments are presented and classified in the statement of cash flows. ASU 2016-15 is effective for public business entities for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. The Company is currently evaluating the impact of the provisions of ASU 2016-15.

In March 2016, the FASB issued ASU 2016-09, *Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*, which will change certain aspects of accounting for share-based payments to employees. ASU 2016-09 is effective for fiscal years (and interim reporting periods within those years) beginning after December 15, 2016. The Company is currently evaluating the impact of the provisions of ASU 2016-09.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)* that replaces existing lease guidance. The new standard is intended to provide enhanced transparency and comparability by requiring lessees to record right-of-use assets and corresponding lease liabilities on the balance sheet. The new guidance will continue to classify leases as either finance or operating, with classification affecting the pattern of expense recognition in the statement of income. ASU 2016-02 is effective for fiscal years (and interim reporting periods within those years) beginning after December 15, 2018. The Company is currently evaluating the impact of the provisions of ASU 2016-02.

In November 2015, the FASB issued ASU 2015-17, *Income Taxes (Topic 740) Balance Sheet Classification of Deferred Assets*. This ASU is intended to simplify the presentation of deferred taxes on the balance sheet and will require an entity to present all deferred tax assets and deferred tax liabilities as non-current on the balance sheet. Under the current guidance, entities are required to separately present deferred taxes as current or non-current. Netting deferred tax assets and deferred tax liabilities by tax jurisdiction will still be required under the new guidance. This guidance will be effective for Aceto beginning in the first quarter of fiscal 2018, with early adoption permitted. The Company does not believe this new accounting standard update will have a material impact on its consolidated financial statements.

In July 2015, the FASB issued ASU 2015-11, *Inventory (Topic 330) – Simplifying the Measurement of Inventory*. This ASU requires that an entity measure inventory at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. This guidance is effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. The Company is currently evaluating the impact of adopting this guidance.

In August 2014, the FASB issued ASU 2014-15, *Presentation of Financial Statements-Going Concern (Subtopic 205-40)*. This ASU provides guidance to determine when and how to disclose going-concern uncertainties in the financial statements. The new standard requires management to assess an entity’s ability to continue as a going concern, and to provide related footnote disclosure in certain circumstances. ASU 2014-15 will be effective for all entities in the first annual period ending after December 15, 2016. Earlier adoption is permitted. ASU 2014-15 will be effective for the Company beginning June 30, 2017. The Company does not believe that this pronouncement will have an impact on its consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which is the new comprehensive revenue recognition standard that will supersede all existing revenue recognition guidance under U.S. GAAP. The standard's core principle is that a company will recognize revenue when it transfers promised goods or services to a customer in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. In August 2015, the FASB subsequently issued ASU 2015-14, *Revenue from Contracts with Customers - Deferral of the Effective Date*, which approved a one year deferral of ASU 2014-09 for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. In March 2016 and April 2016, the FASB issued ASU 2016-08, *Revenue from Contracts with Customers - Principal versus Agent Considerations (Reporting Revenue Gross versus Net)*, and ASU 2016-10, *Revenue from Contracts with Customers - Identifying Performance Obligations and Licensing*, respectively, which

ACETO CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited and in thousands, except per-share amounts)

further clarify the guidance related to those specific topics within ASU 2014-09. Additionally, in May 2016, the FASB issued ASU 2016-12, *Revenue from Contracts with Customers - Narrow Scope Improvements and Practical Expedients*, to reduce the risk of diversity in practice for certain aspects in ASU 2014-09, including collectibility, noncash consideration, presentation of sales tax and transition. The Company is currently evaluating the impact of adoption on its consolidated financial statements.

(9) Segment Information

The Company's business is organized along product lines into three principal segments: Human Health, Pharmaceutical Ingredients and Performance Chemicals.

Human Health - includes finished dosage form generic drugs and nutraceutical products.

Pharmaceutical Ingredients – includes pharmaceutical intermediates and active pharmaceutical ingredients (“APIs”).

Performance Chemicals - The Performance Chemicals segment is made up of two product groups: Specialty Chemicals and Agricultural Protection Products. Specialty Chemicals include a variety of chemicals used in the manufacture of plastics, surface coatings, cosmetics and personal care, textiles, fuels and lubricants, perform to their designed capabilities. Dye and pigment intermediates are used in the color-producing industries such as textiles, inks, paper, and coatings. Organic intermediates are used in the production of agrochemicals.

Agricultural Protection Products include herbicides, fungicides and insecticides that control weed growth as well as control the spread of insects and other microorganisms that can severely damage plant growth.

The Company's chief operating decision maker evaluates performance of the segments based on net sales, gross profit and income before income taxes. Unallocated corporate amounts are deemed by the Company as administrative, oversight costs, not managed by the segment managers. The Company does not allocate assets by segment because the chief operating decision maker does not review the assets by segment to assess the segments' performance, as the assets are managed on an entity-wide basis. During all periods presented, our chief operating decision maker has been the Chief Executive Officer of the Company. In accordance with GAAP, the Company has aggregated certain operating segments into reportable segments because they have similar economic characteristics, and the operating segments are similar in all of the following areas: (a) the nature of the products and services; (b) the nature of the production processes; (c) the type or class of customer for their products and services; (d) the methods used to distribute their products or provide their services; and (e) the nature of the regulatory environment.

Three months Ended September 30, 2016 and 2015:

	<u>Human Health</u>	<u>Pharmaceutical Ingredients</u>	<u>Performance Chemicals</u>	<u>Unallocated Corporate</u>	<u>Consolidated Totals</u>
<u>2016</u>					
Net sales	\$ 47,889	\$ 40,616	\$ 39,513	\$ -	\$128,018
Gross profit	14,205	6,954	9,680	-	30,839
Income (loss) before income taxes	3,972	3,067	4,832	(5,091)	6,780
<u>2015</u>					
Net sales	\$ 57,481	\$ 38,360	\$ 37,659	\$ -	\$133,500
Gross profit	20,309	6,114	8,158	-	34,581
Income (loss) before income taxes	10,503	2,099	3,544	(1,163)	14,983

ACETO CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited and in thousands, except per-share amounts)

(10) Subsequent Event

On November 2, 2016, Aceto and two newly-formed wholly-owned subsidiaries of Rising entered into a product purchase agreement (the “Purchase Agreement”) with Citron Pharma LLC (“Citron”), Lucid Pharma LLC (“Lucid” and together with Citron, the “Sellers”) and certain related parties to purchase certain launched and unlaunched products and related assets, and assume certain liabilities, of the Sellers’ generic pharmaceutical businesses. The purchase price is comprised of: (i) \$320,000 in cash, of which \$270,000 is payable on the closing date of the acquisition and \$50,000 is payable no sooner than the fifth anniversary of the closing date; (ii) approximately 5,122 shares of the Company’s common stock, 75% of which will be issued to the Sellers on the third anniversary of the closing and 25% of which will be issued on the fourth anniversary of the closing, subject to certain acceleration or deferral events; and (iii) up to \$50,000 in cash earn-out payments.

Report of Independent Registered Public Accounting Firm

Board of Directors and Shareholders
Aceto Corporation
Port Washington, NY

We have reviewed the condensed consolidated balance sheet of Aceto Corporation and subsidiaries as of September 30, 2016 and related condensed consolidated statements of income and comprehensive income for the three-month periods ended September 30, 2016 and 2015, and cash flows for the three-month periods ended September 30, 2016 and 2015 included in the accompanying Securities and Exchange Commission Form 10-Q for the period ended September 30, 2016. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the condensed consolidated financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with standards of the Public Company Accounting Oversight Board, the consolidated balance sheet of Aceto Corporation and subsidiaries as of June 30, 2016, and the related consolidated statements of income, comprehensive income, shareholders' equity and cash flows for the year then ended (not presented herein); and in our report dated August 26, 2016, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of June 30, 2016, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

/s/ BDO USA, LLP

Melville, New York
November 3, 2016

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

CAUTIONARY STATEMENT RELATING TO THE SAFE HARBOR PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This Quarterly Report contains forward-looking statements as that term is defined in the federal securities laws. The events described in forward-looking statements contained in this Quarterly Report may not occur. Generally, these statements relate to our business plans or strategies, projected or anticipated benefits or other consequences of our plans or strategies, financing plans, projected or anticipated benefits from acquisitions that we may make, or projections involving anticipated revenues, earnings or other aspects of our operating results or financial position, and the outcome of any contingencies. Any such forward-looking statements are based on current expectations, estimates and projections of management. We intend for these forward-looking statements to be covered by the safe-harbor provisions for forward-looking statements. Words such as “may,” “will,” “expect,” “believe,” “anticipate,” “project,” “plan,” “intend,” “estimate,” and “continue,” and their opposites and similar expressions are intended to identify forward-looking statements. We caution you that these statements are not guarantees of future performance or events and are subject to a number of uncertainties, risks and other influences, many of which are beyond our control that may influence the accuracy of the statements and the projections upon which the statements are based. Factors that could cause actual results to differ materially from those set forth or implied by any forward-looking statement include, but are not limited to, our ability to remain competitive with competitors, risks associated with the generic product industry, dependence on a limited number of suppliers, risks associated with healthcare reform and reductions in reimbursement rates, difficulty in predicting revenue stream and gross profit, industry and market changes, the effect of fluctuations in operating results on the trading price of our common stock, risks associated with holding a significant amount of debt, inventory levels, reliance on outside manufacturers, risks of incurring uninsured environmental and other industry specific liabilities, governmental approvals and regulations, risks associated with hazardous materials, potential violations of government regulations, product liability claims, reliance on Chinese suppliers, potential changes to Chinese laws and regulations, potential changes to laws governing our relationships in India, fluctuations in foreign currency exchange rates, tax assessments, changes in tax rules, global economic risks, risk of unsuccessful acquisitions, effect of acquisitions on earnings, indemnification liabilities, terrorist activities, reliance on key executives, litigation risks, volatility of the market price of our common stock, changes to estimates, judgments and assumptions used in preparing financial statements, failure to maintain effective internal controls, and compliance with changing regulations, as well as other risks and uncertainties discussed in our reports filed with the Securities and Exchange Commission, including, but not limited to, our Annual Report on Form 10-K for the fiscal year ended June 30, 2016 and other filings. Copies of these filings are available at www.sec.gov.

Any one or more of these uncertainties, risks and other influences could materially affect our results of operations and whether forward-looking statements made by us ultimately prove to be accurate. Our actual results, performance and achievements could differ materially from those expressed or implied in these forward-looking statements. We undertake no obligation to publicly update or revise any forward-looking statements, whether from new information, future events or otherwise.

NOTE REGARDING DOLLAR AMOUNTS

In this quarterly report, all dollar amounts are expressed in thousands, except for per-share amounts.

The following Management’s Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to provide the readers of our financial statements with a narrative discussion about our business. The MD&A is provided as a supplement to and should be read in conjunction with our financial statements and the accompanying notes.

Executive Summary

We are reporting net sales of \$128,018 for the three months ended September 30, 2016, which represents a 4.1% decrease from the \$133,500 reported in the comparable prior period. Gross profit for the three months ended September 30, 2016 was \$30,839 and our gross margin was 24.1% as compared to gross profit of \$34,581 and gross

margin of 25.9% in the comparable prior period. Our selling, general and administrative costs (“SG&A”) for the three months ended September 30, 2016 was \$21,024, an increase of \$3,391 from what we reported in the prior period. Our net income decreased to \$4,385, or \$0.15 per diluted share, compared to net income of \$9,298, or \$0.32 per diluted share, in the prior period.

Our financial position as of September 30, 2016 remains strong, as we had cash and cash equivalents and short-term investments of \$75,052, working capital of \$262,860 and shareholders’ equity of \$309,823.

Our business is separated into three principal segments: Human Health, Pharmaceutical Ingredients and Performance Chemicals.

Products that fall within the Human Health segment include finished dosage form generic drugs and nutraceutical products. Aceto sells niche generic prescription products and over-the-counter pharmaceutical products under the Rising Pharmaceuticals (“Rising”) label to leading wholesalers, chain drug stores, distributors and mass merchandisers. As part of our asset-light model, products are developed in collaboration with selected pharmaceutical development partners and with networks of finished dosage form manufacturing partners. Leveraging our extensive experience supplying active pharmaceutical ingredients and pharmaceutical intermediates, Aceto entered the end-user segment of the generic pharmaceuticals industry in 2010 through the acquisition of Rising, a U.S. marketer and distributor of finished dosage form generics founded in the early 1990s. To supplement our organic growth and further expand into the U.S. generic pharmaceuticals industry, Rising acquired PACK Pharmaceuticals (“PACK”), a national marketer and distributor of generic prescription and over-the-counter pharmaceutical products, in April, 2014. Rising, a wholly-owned subsidiary of Aceto, is an integral component of Aceto's continued strategy to become a Human Health oriented company.

According to an IMS Health press release on April 14, 2016, “total spending on medicines in the U.S. reached \$310 billion in 2015 on an estimated net price basis, up 8.5 percent from the previous year, according to a new report issued today by the IMS Institute for Healthcare Informatics. The surge of new medicines remained strong last year and demand for recently launched brands maintained historically high levels. The savings from branded medicines facing generic competition were relatively low in 2015, and the impact of price increases on brands was limited due to higher rebates and price concessions from manufacturers. Specialty drug spending reached \$121 billion on a net price basis, up more than 15 percent from 2014. The study—*Medicines Use and Spending in the U.S.: A Review of 2015 and Outlook to 2020*—found that longer-term trends continued to play out last year, driven by the Affordable Care Act and ongoing response to rising overall healthcare costs. Increasingly, healthcare is being delivered by different types of healthcare professionals and from different facilities, while patients face higher out-of-pocket costs and access barriers. The outlook for medicine spending through 2020 is for mid-single digit growth, driven by clusters of innovative treatments and offset by the rising impact of brands facing generic or biosimilar competition.”

Aceto supplies the raw materials used in the production of nutritional and packaged dietary supplements, including vitamins, amino acids, iron compounds and biochemicals used in pharmaceutical and nutritional preparations.

The Pharmaceutical Ingredients segment has two product groups: Active Pharmaceutical Ingredients (“APIs”) and Pharmaceutical Intermediates.

We supply APIs to many of the major generic drug companies, who we believe view Aceto as a valued partner in their effort to develop and market generic drugs. The process of introducing a new API from pipeline to market spans a number of years and begins with Aceto partnering with a generic pharmaceutical manufacturer and jointly selecting an API, several years before the expiration of a composition of matter patent, for future genericizing. We then identify the appropriate supplier, and concurrently utilizing our global technical network, work to ensure they meet standards of quality to comply with regulations. Our client, the generic pharmaceutical company, will submit the Abbreviated New Drug Application (“ANDA”) for U.S. Food and Drug Administration (“FDA”) approval or European-equivalent approval. The introduction of the API to market occurs after all the development testing has been completed and the ANDA or European-equivalent is approved and the patent expires or is deemed invalid. Aceto, at all times, has a pipeline of APIs at various stages of development both in the United States and Europe. Additionally, as the pressure to lower the overall cost of healthcare increases, Aceto has focused on, and works very closely with our customers to develop new API opportunities to provide alternative, more economical, second-

source options for existing generic drugs. By leveraging our worldwide sourcing, regulatory and quality assurance capabilities, we provide to generic drug manufacturers an alternative, economical source for existing API products.

Aceto has long been a supplier of pharmaceutical intermediates, the complex chemical compounds that are the building blocks used in producing APIs. These are the critical components of all drugs, whether they are already on the market or currently undergoing clinical trials. Faced with significant economic pressures as well as ever-increasing regulatory barriers, the innovative drug companies look to Aceto as a source for high quality intermediates.

Aceto employs, on occasion, the same second source strategy for our pharmaceutical intermediates business that we use in our API business. Historically, pharmaceutical manufacturers have had one source for the intermediates needed to produce their products. Utilizing our global sourcing, regulatory support and quality assurance network, Aceto works with the large, global pharmaceutical companies, sourcing lower cost, quality pharmaceutical intermediates that will meet the same high level standards that their current commercial products adhere to.

The Performance Chemicals segment includes specialty chemicals and agricultural protection products.

Aceto is a major supplier to many different industrial segments providing chemicals used in the manufacture of plastics, surface coatings, cosmetics and personal care, textiles, fuels and lubricants. The paint and coatings industry produces products that bring color, texture, and protection to houses, furniture, packaging, paper, and durable goods. Many of today's coatings are eco-friendly, by allowing inks and coatings to be cured by ultraviolet light instead of solvents, or allowing power coatings to be cured without solvents. These growing technologies are critical in protecting and enhancing the world's ecology and Aceto is focused on supplying the specialty additives that make modern coating techniques possible.

The chemistry that makes much of the modern world possible is often done by building up simple molecules to sophisticated compounds in step-by-step chemical processes. The products that are incorporated in each step are known as intermediates and they can be as varied as the end uses they serve, such as crop protection products, dyes and pigments, textiles, fuel additives, electronics - essentially all things chemical.

Aceto provides various specialty chemicals for the food, flavor, fragrance, paper and film industries. Aceto's raw materials are also used in sophisticated technology products, such as high-end electronic parts used for photo tooling, circuit boards, production of computer chips, and in the production of many of today's modern gadgets.

According to an October 17, 2016 Federal Reserve Statistical Release, in the third quarter of calendar year 2016, the index for consumer durables, which impacts the Specialty Chemicals business of the Performance Chemicals segment, is expected to grow at an annual rate of 9.4%.

Aceto's agricultural protection products include herbicides, fungicides and insecticides, which control weed growth as well as the spread of insects and microorganisms that can severely damage plant growth. One of Aceto's most widely used agricultural protection products is a sprout inhibitor that extends the storage life of potatoes. Utilizing our global sourcing and regulatory capabilities, we identify and qualify manufacturers either producing the product or with knowledge of the chemistry necessary to produce the product, and then file an application with the U.S. EPA for a product registration. Aceto has an ongoing working relationship with manufacturers in China and India to determine which of the non-patented or generic, agricultural protection products they produce can be effectively marketed in the Western world. We have successfully brought numerous products to market. We have a strong pipeline, which includes future additions to our product portfolio. The combination of our global sourcing and regulatory capabilities makes the generic agricultural market a niche for us and we will continue to offer new product additions in this market. In the National Agricultural Statistics Services release dated June 30, 2016, the total crop acreage planted in the United States in 2016 increased 1.5% to 323 million acres from 319 million acres in 2015. The number of peanut acres planted in 2016 decreased 2% from 2015 levels while sugarcane acreage harvested increased 3% from 2015. In addition, the potato acreage harvested in 2016 declined approximately 3% from the 2015 level.

We believe our main business strengths are sourcing, regulatory support, quality assurance and marketing and distribution. We distribute more than 1,100 chemical compounds used principally as finished products or raw

materials in the pharmaceutical, nutraceutical, agricultural, coatings and industrial chemical industries. With business operations in ten countries, we believe that our global reach is distinctive in the industry, enabling us to source and supply quality products on a worldwide basis. Leveraging local professionals, we source more than two-thirds of our products from Asia, buying from approximately 500 companies in China and 200 in India.

In this MD&A, we explain our general financial condition and results of operations, including, among other things, the following:

- factors that affect our business
- our earnings and costs in the periods presented
- changes in earnings and costs between periods
- sources of earnings
- the impact of these factors on our overall financial condition

As you read this MD&A section, refer to the accompanying condensed consolidated statements of income, which present the results of our operations for the three months ended September 30, 2016 and 2015. We analyze and explain the differences between periods in the specific line items of the condensed consolidated statements of income.

Critical Accounting Estimates and Policies

As disclosed in our Form 10-K for the year ended June 30, 2016, the discussion and analysis of our financial condition and results of operations is based on our consolidated financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles. In preparing these financial statements, we were required to make estimates and assumptions that affect the amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. We regularly evaluate our estimates including those related to allowances for bad debts, revenue recognition, partnered products, inventories, goodwill and indefinite-life intangible assets, long-lived assets, environmental and other contingencies, income taxes and stock-based compensation. We base our estimates on various factors, including historical experience, advice from outside subject-matter experts, and various assumptions that we believe to be reasonable under the circumstances, which together form the basis for our making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. Since June 30, 2016, there have been no significant changes to the assumptions and estimates related to those critical accounting estimates and policies.

RESULTS OF OPERATIONS

Three Months Ended September 30, 2016 Compared to Three Months Ended September 30, 2015

Net Sales by Segment Three months ended September 30,

<u>Segment</u>	<u>2016</u>		<u>2015</u>		<u>Comparison 2016 Over/(Under) 2015</u>	
	<u>Net sales</u>	<u>% of Total</u>	<u>Net sales</u>	<u>% of Total</u>	<u>\$ Change</u>	<u>% Change</u>
Human Health	\$47,889	37.4%	\$57,481	43.1%	\$ (9,592)	(16.7)%
Pharmaceutical Ingredients	40,616	31.7	38,360	28.7	2,256	5.9
Performance Chemicals	<u>39,513</u>	<u>30.9</u>	<u>37,659</u>	<u>28.2</u>	<u>1,854</u>	<u>4.9</u>
Net sales	<u>\$128,018</u>	<u>100.0%</u>	<u>\$133,500</u>	<u>100.0%</u>	<u>\$ (5,482)</u>	<u>(4.1)%</u>

Gross Profit by Segment Three months ended September 30,

<u>Segment</u>	<u>2016</u>		<u>2015</u>		<u>Comparison 2016 Over/(Under) 2015</u>	
	<u>Gross Profit</u>	<u>% of Sales</u>	<u>Gross Profit</u>	<u>% of Sales</u>	<u>\$ Change</u>	<u>% Change</u>
Human Health	\$14,205	29.7%	\$20,309	35.3%	\$(6,104)	(30.1)%
Pharmaceutical Ingredients	6,954	17.1	6,114	15.9	840	13.7
Performance Chemicals	<u>9,680</u>	<u>24.5</u>	<u>8,158</u>	<u>21.7</u>	<u>1,522</u>	<u>18.7</u>
Gross profit	<u>\$30,839</u>	<u>24.1%</u>	<u>\$34,581</u>	<u>25.9%</u>	<u>\$(3,742)</u>	<u>(10.8)%</u>

Net Sales

Net sales decreased \$5,482, or 4.1%, to \$128,018 for the three months ended September 30, 2016, compared with \$133,500 for the prior period. We reported sales increases in our Pharmaceutical Ingredients and Performance Chemicals segments and a decrease in the Human Health segment.

Human Health

Net sales for the Human Health segment decreased by \$9,592 for the three months ended September 30, 2016, to \$47,889, which represents a 16.7% decrease over net sales of \$57,481 for the prior period, due to a decrease in sales of Rising products of \$6,946 and a decline of \$2,646 in sales of nutritional products. The decrease in Rising sales was primarily driven by increased competition and price erosion on certain products in our generic drugs portfolio. The drop in nutraceutical sales primarily occurred abroad, specifically at our German subsidiary, due to the timing of the orders in the prior period as one customer requested orders be delivered in the first quarter of fiscal 2016.

Pharmaceutical Ingredients

Net sales for the Pharmaceutical Ingredients segment increased \$2,256 or 5.9% to \$40,616 when compared to the prior period net sales of \$38,360. The increase in sales for this segment was due primarily to a rise in sales volume of intermediates sold abroad, particularly at our subsidiary in France.

Performance Chemicals

Net sales for the Performance Chemicals segment was \$39,513 for the three months ended September 30, 2016, representing an increase of \$1,854 or 4.9%, from net sales of \$37,659 for the prior period. The primary reason for the increase in net sales for Performance Chemicals was an increase of \$2,943 in sales of our agricultural protection products, predominantly from sales of a fungicide used to prevent disease on pecan crops. The increase in the Agricultural Protection Products business was partially offset by a decline in domestic sales of products sold by our Specialty Chemicals business, particularly a \$1,203 drop in sales of agricultural intermediates due to a delay in shipments.

Gross Profit

Gross profit decreased \$3,742 to \$30,839 (24.1% of net sales) for the three months ended September 30, 2016, as compared to \$34,581 (25.9% of net sales) for the prior period.

Human Health

Human Health segment's gross profit of \$14,205 for the three months ended September 30, 2016 decreased \$6,104, or 30.1%, over the prior period. The gross margin of 29.7% was lower than the prior period's gross margin of 35.3%. The decrease in gross profit and gross margin in the Human Health segment predominantly relates to the decline in Rising sales, primarily driven by increased competition on certain products. In addition, gross profit and gross margin on Rising sales have experienced an unfavorable product mix due to price erosion on certain products, as well as gross profit pressure, including increased chargebacks, from the consolidation of wholesalers with retail drug chains. We expect the overall trend will persist, but Aceto will continue to seek to defend its price position.

Pharmaceutical Ingredients

Pharmaceutical Ingredients' gross profit of \$6,954 for the three months ended September 30, 2016 increased \$840, or 13.7%, over the prior period. The gross margin of 17.1% was higher than the prior period's gross margin of 15.9%. The increase in gross profit was predominantly the result of the increase in the sales volume of intermediates sold abroad, specifically by our French operations, as well as favorable product mix on sales of APIs sold by our German subsidiaries.

Performance Chemicals

Gross profit for the Performance Chemicals segment increased to \$9,680 for the three months ended September 30, 2016, versus \$8,158 for the prior year, an increase of \$1,522, or 18.7%. The gross margin at 24.5% for the three months ended September 30, 2016 was also higher than the prior year's gross margin of 21.7%. The increase in gross profit was due to a \$1,460 rise in gross profit for the Agricultural Protection Products business, primarily due to increased sales volume of a fungicide used to prevent disease on pecan crops, as well as an herbicide used to control weeds including both broadleaf weeds and nutsedge. In addition, the Agricultural Protection Products business experienced a favorable product mix on the sale of an insecticide used on cotton.

Selling, General and Administrative Expenses

SG&A of \$21,024 for the three months ended September 30, 2016 increased \$3,391 from \$17,633 reported for the prior period. As a percentage of sales, SG&A increased from 13.2% to 16.4% for the three months ended September 30, 2016 versus the prior period. The increase in SG&A is due in part to a \$1,112 rise in payroll, fringe benefits, performance awards and stock-based compensation expense, reflecting the hiring of certain key management personnel as well as annual salary increases. SG&A for the current period also included \$1,809 of transaction costs

related to the product purchase agreement, as discussed in Note 10 of the condensed consolidated financial statements, as well as a \$170 environmental remediation charge related to Arsynco.

Research and Development Expenses

Research and development expenses (“R&D”) decreased to \$1,050 for the three months ended September 30, 2016 compared to \$1,430 for the prior period. R&D expenses represent investment in our generic finished dosage form product pipeline, which includes both Rising and PACK products. The majority of the R&D expenses are milestone based, which was the primary cause for such decrease and will likely cause fluctuation from quarter to quarter.

Operating Income

For the three months ended September 30, 2016 operating income was \$8,765 compared to \$15,518 in the prior period, a decrease of \$6,753 or 43.5%.

Interest Expense

Interest expense was \$2,233 for the three months ended September 30, 2016, an increase of \$1,479 or 196.2% from the prior period. The increase was primarily due to \$1,223 amortization of the debt discount and \$209 amortization of debt issuance costs associated with the offering of Convertible Senior Notes during fiscal 2016.

Provision for Income Taxes

The effective tax rate for the three months ended September 30, 2016 decreased to 35.3% compared to 37.9% for the prior period. The decrease in the effective tax rate was due to the mix of profits from the lower tax rate jurisdictions of Europe and Asia compared to the Federal tax rate in the United States.

Liquidity and Capital Resources

Cash Flows

At September 30, 2016, we had \$73,142 in cash, of which \$39,056 was outside the United States, \$1,910 in short-term investments, all of which is held outside the United States, and \$120,172 in long-term debt (including the current portion), all of which is an obligation in the United States. Working capital was \$262,860 at September 30, 2016 compared to \$253,755 at June 30, 2016. The \$39,056 of cash held outside of the United States is fully accessible to meet any liquidity needs of our business located in any of the countries in which we operate. The majority of the cash located outside of the United States is held by our European operations and can be transferred into the United States. Although these amounts are fully accessible, transferring these amounts into the United States or any other countries could have certain tax consequences. We intend to indefinitely reinvest these undistributed earnings and have no plan for further repatriation. A deferred tax liability will be recognized when we expect that we will recover undistributed earnings of our foreign subsidiaries in a taxable manner, such as through receipt of dividends or sale of the investments. A portion of our cash is held in operating accounts that are with third party financial institutions. While we monitor daily the cash balances in our operating accounts and adjust the cash balances as appropriate, these cash balances could be impacted if the underlying financial institutions fail or are subject to other adverse conditions in the financial markets. To date, we have experienced no loss or lack of access to cash in our operating accounts.

Our cash position at September 30, 2016 increased \$6,314 from the amount at June 30, 2016.

Operating activities for the three months ended September 30, 2016 provided cash of \$10,650 for this period, as compared to cash provided of \$2,974 for the comparable period. The \$10,650 resulted from \$4,385 in net income and \$7,456 derived from net adjustments for non-cash items less a net \$1,191 decrease from changes in operating assets and liabilities. The non-cash items included \$3,168 in depreciation and amortization expense, \$1,405 for deferred income taxes, \$1,432 for amortization of debt issuance costs and debt discount and \$1,664 in non-cash stock compensation expense, offset in part by \$325 of earnings on an equity investment in a joint venture. Trade

accounts receivable decreased \$9,141 during the three months ended September 30, 2016, due predominantly to a decrease in sales of Rising products from the fourth quarter of 2016, as well as a slight decline in days sales outstanding. Inventories increased by \$6,105 and accounts payable increased by \$3,135 due primarily to increased inventories held in stock by our Agricultural Protection Products subsidiary for the anticipated sale of two herbicides used to control sedge on rice, vegetables and turf and ornamental grasses expected to be shipped in the third quarter of fiscal 2017. Inventories and accounts payable also increased as a result of a build-up of consignment inventory at our subsidiary in France for intermediates, the majority of which are expected to be consumed in the second quarter of fiscal 2017. Accrued expenses and other liabilities decreased \$6,543 due primarily to a decrease in accrued compensation as fiscal 2016 performance award payments were made in September 2016, as well as the timing of income tax payments. Our cash position at September 30, 2015 decreased \$3,190 from the amount at June 30, 2015. Operating activities for the three months ended September 30, 2015 provided cash of \$2,974 for this period. The \$2,974 resulted from \$9,298 in net income and \$4,949 derived from net adjustments for non-cash items less a net \$11,273 decrease from changes in operating assets and liabilities.

Investing activities for the three months ended September 30, 2016 used cash of \$3,152. This use of cash reflects purchases of intangible assets and property and equipment of \$2,135 and purchases of investments in time deposits of \$1,017. Investing activities for the three months ended September 30, 2015 used cash of \$5,772 for purchases of property and equipment and intangible assets of \$6,762, partially offset by sales of investments in time deposits of \$1,006.

Financing activities for the three months ended September 30, 2016 used cash of \$1,381. Financing activities included \$1,954 payment of cash dividends offset in part by \$437 of excess income tax benefits on stock option exercises. Financing activities for the three months ended September 30, 2015 used cash of \$614 primarily from \$10,549 of repayment of bank borrowings and \$1,500 payment of contingent consideration to the former owners of Rising. This use of cash was offset primarily by bank borrowings of \$10,500 and \$820 of excess income tax benefit on stock option exercises and restricted stock.

Credit Facilities

We have available credit facilities with certain foreign financial institutions. At September 30, 2016, the Company had available lines of credit with foreign financial institutions totaling \$7,469, all of which are available for borrowing by the respective foreign territories. We are not subject to any financial covenants under these arrangements.

On October 28, 2015, the Company entered into an Amended and Restated Credit Agreement (the "A&R Credit Agreement"), which amended and restated in its entirety the Credit Agreement, dated as of April 30, 2014 with three domestic financial institutions, as amended on June 25, 2015 by Amendment No. 1 to the Credit Agreement (together, the "First Amended Credit Agreement"). The A&R Credit Agreement increases the aggregate available revolving commitment under the First Amended Credit Agreement from \$75,000 to an initial aggregate available revolving commitment of \$150,000 (the "Initial Revolving Commitment"), which may be increased in accordance with the terms and conditions of the A&R Credit Agreement by an aggregate amount not to exceed \$100,000 (the "Expansion Commitment" and, together with the Initial Revolving Commitment, the "Revolving Commitment"). Under the A&R Credit Agreement, the Company may borrow, repay and reborrow loans up to the Revolving Commitment from and as of October 28, 2015, to but excluding the earlier of October 28, 2020 and the termination of the Revolving Commitment, in amounts up to, but not exceeding at any one time, the Revolving Commitment. The A&R Credit Agreement does not provide for any term loan commitment. The proceeds from initial borrowings under the A&R Credit Agreement have been used to repay all amounts outstanding pursuant to the term loan commitment and revolving loan commitment under Aceto's First Amended Credit Agreement. The proceeds from the issuance of the Notes were used to pay initial borrowings under the A&R Credit Agreement. As of September 30, 2016, there were no amounts outstanding under the A&R Credit Agreement.

The A&R Credit Agreement provides for (i) Eurodollar Loans (as such term is defined in the A&R Credit Agreement), (ii) ABR Loans (as such term is defined in the A&R Credit Agreement) or (iii) a combination thereof. Borrowings under the A&R Credit Agreement will bear interest per annum at a base rate or, at the Company's option, LIBOR, plus an applicable margin ranging from 0.00% to 0.75% in the case of ABR Loans, and 1.00% to

1.75% in the case of Eurodollar Loans. The applicable interest rate margin percentage will be determined by the Company's senior secured net leverage ratio.

The A&R Credit Agreement, similar to Aceto's First Amended Credit Agreement, provides that commercial letters of credit shall be issued to provide the primary payment mechanism in connection with the purchase of any materials, goods or services in the ordinary course of business. The Company had no open letters of credit at September 30, 2016 and June 30, 2016.

The A&R Credit Agreement, like Aceto's First Amended Credit Agreement, provides for a security interest in substantially all of the personal property of the Company and certain of its subsidiaries. The A&R Credit Agreement contains several financial covenants including, among other things, maintaining a minimum level of debt service. Under the A&R Credit Agreement, the Company and its subsidiaries are also subject to certain restrictive covenants, including, among other things, covenants governing liens, limitations on indebtedness, limitations on guarantees, limitations on sales of assets and sales of receivables, and limitations on loans and investments. The Company was in compliance with all covenants at September 30, 2016.

Working Capital Outlook

Working capital was \$262,860 at September 30, 2016 versus \$253,755 at June 30, 2016. As we have done in connection with the pending acquisition described below, we continually evaluate possible acquisitions of, or investments in, businesses that are complementary to our own, and such transactions may require the use of cash, as is the case with our pending acquisition.

In October 2015, we filed a universal shelf registration statement with the SEC to allow us to potentially offer an indeterminate principal amount and number of securities in the future with a proposed maximum aggregate offering price of up to \$200,000. Under the shelf registration statement, we have the flexibility to publicly offer and sell from time to time common stock, debt securities, preferred stock, warrants and units or any combination of such securities.

In November 2015, we offered \$125,000 aggregate principal amount of 2% Convertible Senior Notes due 2020 in a private offering to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended. In addition, we granted the initial purchasers for the offering an option to purchase up to an additional \$18,750 aggregate principal amount pursuant to the initial purchasers' option to purchase additional notes, which was exercised in November 2015. Therefore the total offering was \$143,750 aggregate principal amount. The remaining net proceeds received from the offering, after paying down our credit facilities and costs associated with the offering and a related hedge transaction, have been or will be used for general corporate purposes, which may include funding research, development and product manufacturing, acquisitions or investments in businesses, products or technologies that are complementary to Aceto's own, increasing working capital and funding capital expenditures.

The Company has entered into an agreement to acquire certain launched and unlaunched products and related assets, and assume certain liabilities, of the generic pharmaceutical businesses of two New Jersey based companies, of which \$270,000 is payable in cash at the closing (see Note 10 of the condensed consolidated financial statements). The Company plans to finance the acquisition in part from cash on hand, in part from a \$150,000 term loan and in part through an increase in the Company's existing revolving credit facility in an amount to be determined based on market conditions and demand.

In connection with our agricultural protection business, we plan to continue to acquire product registrations and related data filed with the United States Environmental Protection Agency as well as payments to various task force groups, which could approximate \$1,826 through fiscal 2017.

In connection with our environmental remediation obligation for Arsynco, we anticipate paying \$3,663 towards remediation of the property in the next twelve months.

We believe that our cash, other liquid assets, operating cash flows, borrowing capacity and access to the equity capital markets, taken together, provide adequate resources to fund ongoing operating expenditures, the repayment of our bank loans and the anticipated continuation of cash dividends for the next twelve months.

Impact of Recent Accounting Pronouncements

In August 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*, which addresses eight specific cash flow issues with the objective of reducing diversity in how certain cash receipts and cash payments are presented and classified in the statement of cash flows. ASU 2016-15 is effective for public business entities for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. The Company is currently evaluating the impact of the provisions of ASU 2016-15.

In March 2016, the FASB issued ASU 2016-09, *Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*, which will change certain aspects of accounting for share-based payments to employees. ASU 2016-09 is effective for fiscal years (and interim reporting periods within those years) beginning after December 15, 2016. The Company is currently evaluating the impact of the provisions of ASU 2016-09.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)* that replaces existing lease guidance. The new standard is intended to provide enhanced transparency and comparability by requiring lessees to record right-of-use assets and corresponding lease liabilities on the balance sheet. The new guidance will continue to classify leases as either finance or operating, with classification affecting the pattern of expense recognition in the statement of income. ASU 2016-02 is effective for fiscal years (and interim reporting periods within those years) beginning after December 15, 2018. The Company is currently evaluating the impact of the provisions of ASU 2016-02.

In November 2015, the FASB issued ASU 2015-17, *Income Taxes (Topic 740) Balance Sheet Classification of Deferred Assets*. This ASU is intended to simplify the presentation of deferred taxes on the balance sheet and will require an entity to present all deferred tax assets and deferred tax liabilities as non-current on the balance sheet. Under the current guidance, entities are required to separately present deferred taxes as current or non-current. Netting deferred tax assets and deferred tax liabilities by tax jurisdiction will still be required under the new guidance. This guidance will be effective for Aceto beginning in the first quarter of fiscal 2018, with early adoption permitted. The Company does not believe this new accounting standard update will have a material impact on its consolidated financial statements.

In July 2015, the FASB issued ASU 2015-11, *Inventory (Topic 330) – Simplifying the Measurement of Inventory*. This ASU requires that an entity measure inventory at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. This guidance is effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. The Company is currently evaluating the impact of adopting this guidance.

In August 2014, the FASB issued ASU 2014-15, *Presentation of Financial Statements-Going Concern (Subtopic 205-40)*. This ASU provides guidance to determine when and how to disclose going-concern uncertainties in the financial statements. The new standard requires management to assess an entity’s ability to continue as a going concern, and to provide related footnote disclosure in certain circumstances. ASU 2014-15 will be effective for all entities in the first annual period ending after December 15, 2016. Earlier adoption is permitted. ASU 2014-15 will be effective for the Company beginning June 30, 2017. The Company does not believe that this pronouncement will have an impact on its consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which is the new comprehensive revenue recognition standard that will supersede all existing revenue recognition guidance under U.S. GAAP. The standard's core principle is that a company will recognize revenue when it transfers promised goods or services to a customer in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. In August 2015, the FASB subsequently issued ASU 2015-14, *Revenue from Contracts with Customers - Deferral of the Effective Date*, which approved a one year deferral of ASU 2014-09 for annual reporting periods beginning after December 15, 2017, including interim periods within that

reporting period. In March 2016 and April 2016, the FASB issued ASU 2016-08, *Revenue from Contracts with Customers - Principal versus Agent Considerations (Reporting Revenue Gross versus Net)*, and ASU 2016-10, *Revenue from Contracts with Customers - Identifying Performance Obligations and Licensing*, respectively, which further clarify the guidance related to those specific topics within ASU 2014-09. Additionally, in May 2016, the FASB issued ASU 2016-12, *Revenue from Contracts with Customers - Narrow Scope Improvements and Practical Expedients*, to reduce the risk of diversity in practice for certain aspects in ASU 2014-09, including collectibility, noncash consideration, presentation of sales tax and transition. The Company is currently evaluating the impact of adoption on its consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market Risk Sensitive Instruments

The market risk inherent in our market-risk-sensitive instruments and positions is the potential loss arising from adverse changes in investment market prices, foreign currency exchange-rates and interest rates.

Investment Market Price Risk

We had short-term investments of \$1,910 at September 30, 2016 and \$881 at June 30, 2016. Those short-term investments consisted of time deposits. Time deposits are short-term in nature and are accordingly valued at cost plus accrued interest, which approximates fair value.

Foreign Currency Exchange Risk

In order to reduce the risk of foreign currency exchange rate fluctuations, we hedge some of our transactions denominated in a currency other than the functional currencies applicable to each of our various entities. The instruments used for hedging are short-term foreign currency contracts (futures). The changes in market value of such contracts have a high correlation to price changes in the currency of the related hedged transactions. At September 30, 2016, we had foreign currency contracts outstanding that had a notional amount of \$55,921. At June 30, 2016 our outstanding foreign currency contracts had a notional amount of \$58,087. The difference between the fair market value of the foreign currency contracts and the related commitments at inception and the fair market value of the contracts and the related commitments at September 30, 2016 was not material.

We are subject to risk from changes in foreign exchange rates for our subsidiaries that use a foreign currency as their functional currency and are translated into U.S. dollars. These changes result in cumulative translation adjustments, which are included in accumulated other comprehensive income (loss). On September 30, 2016, we had translation exposure to various foreign currencies, with the most significant being the Euro. The potential loss as of September 30, 2016, resulting from a hypothetical 10% adverse change in quoted foreign currency exchange rates amounted to \$8,369. On June 30, 2016 such potential loss amounted to \$8,143. Actual results may differ.

Interest rate risk

Due to our financing, investing and cash-management activities, we are subject to market risk from exposure to changes in interest rates. We utilize a balanced mix of debt maturities along with both fixed-rate and variable-rate debt to manage our exposure to changes in interest rates. Our financial instrument holdings were analyzed to determine their sensitivity to interest rate changes. In this sensitivity analysis, we used the same change in interest rate for all maturities. All other factors were held constant. If there were an adverse change in interest rates of 10%, the expected effect on net income related to our financial instruments would be immaterial. However, there can be no assurances that interest rates will not significantly affect our results of operations.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) are designed to provide reasonable assurance that information

required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. Our disclosure controls and procedures are also designed to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officer, to allow timely decisions regarding required disclosure. Our chief executive officer and chief financial officer, with assistance from other members of our management, have reviewed the effectiveness of our disclosure controls and procedures as of September 30, 2016 and, based on their evaluation, have concluded that the disclosure controls and procedures were effective as of such date.

Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) that occurred during our fiscal quarter ended September 30, 2016 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

As previously described in our Form 10-K for the year ended June 30, 2016, we are subject to various environmental proceedings for which there were no material changes during the three months ended September 30, 2016.

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the risk factors disclosed under Part I - "Item 1A. Risk Factors" in our Form 10-K for the year ended June 30, 2016 which could materially adversely affect our business, financial condition, operating results and cash flows. The risks and uncertainties described in our Form 10-K for the year ended June 30, 2016 are not the only ones we face. Additionally, risks and uncertainties not currently known to us or that we currently deem immaterial also may materially adversely affect our business, financial condition, operating results or cash flows.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Not applicable.

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Mine Safety Disclosures

Not Applicable.

Item 5. Other Information

Not applicable.

Aceto Corporation
Port Washington, New York

We are aware that Aceto Corporation and subsidiaries has incorporated by reference in its Registration Statements on Form S-3 (No. 333-207394) and Form S-8 (No. 333-209693, No. 333-187353, No. 333-174834, No. 333-149586, No. 33-38679, No. 333-90929, and No. 333-110653) our report dated November 3, 2016, relating to the Company's unaudited interim consolidated financial statements appearing in its quarterly report on Form 10-Q for the quarter ended September 30, 2016. Pursuant to Regulation C under the Securities Act of 1933, that report is not considered a part of the registration statement prepared or certified by our firm or a report prepared or certified by our firm within the meaning of Sections 7 and 11 of the Act. It should be noted that we have not performed any procedures subsequent to November 3, 2016.

/s/ BDO USA, LLP

Melville, New York

CERTIFICATION

I, Salvatore Guccione, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Aceto Corporation (the “Registrant”);
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this report;
4. The Registrant’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the Registrant’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the Registrant’s internal control over financial reporting that occurred during the Registrant’s most recent fiscal quarter (the Registrant’s fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Registrant’s internal control over financial reporting; and
5. The Registrant’s other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant’s auditors and the audit committee of the Registrant’s board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant’s ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant’s internal control over financial reporting.
