

# 2017 Third Quarter Financial Results

---

October 31, 2017

# Forward-Looking Statements

---

Certain statements contained in this presentation are forward-looking statements. Pursuant to federal securities regulations, we have set forth cautionary statements relating to those forward-looking statements in our Annual Report on Form 10-K for the year ended December 31, 2016, as amended, in our Quarterly Report on Form 10-Q for the quarter ended September 30, 2017, and other filings with the Securities and Exchange Commission. We urge readers to review and carefully consider these cautionary statements and the other disclosures we make in our filings with the SEC.

This presentation contains non-GAAP financial measures that are not determined in accordance with United States GAAP. These non-GAAP financial measures should not be considered in isolation, as an alternative to, or more meaningful than measures of financial performance determined in accordance with United States GAAP. A reconciliation of those financial measures to United States GAAP financial measures is included under “Supplemental Information” in this presentation and is available on the company’s website at [www.tredegar.com](http://www.tredegar.com) under “Investors.”

*The report speaks as of the date thereof. Tredegar is not, and should not be deemed to be, updating or reaffirming any information contained therein. We do not undertake, and expressly disclaim any duty, to update any forward-looking statements made in this presentation to reflect any change in management’s expectations or any change in conditions, assumptions or circumstances on which such statements are based.*

## 2017 Third Quarter and Year-to-Date Financial Results

(in millions, except per share data)

	3Q 2017	3Q 2016	YTD 2017	YTD 2016
Net Sales <sup>1</sup>	\$238.5	\$200.5	\$690.7	\$602.3
Net Income from Ongoing Operations <sup>2</sup>	\$9.4	\$7.4	\$23.6	\$19.3
Diluted EPS from Ongoing Operations <sup>2</sup>	\$.28	\$.22	\$.72	\$.59

<sup>1</sup> See Note 1 in GAAP to Non-GAAP Reconciliations for more information and a reconciliation of this non-GAAP financial measure.

<sup>2</sup> See Note 3 in GAAP to Non-GAAP Reconciliations for more information and a reconciliation of this non-GAAP financial measure.

John Gottwald, Tredegar's president and chief executive officer, said, "Earnings from ongoing operations in the third quarter increased to 28 cents per share versus 22 cents last year due to continued strong performance from the surface protection component of our polyethylene films segment, as well as accretion in earnings from the acquisition of Futura earlier this year. The previously disclosed risk in surface protection of a possible customer product transition to less costly alternative processes or materials has been minimal to date. Profits also improved for the quarter in our personal care films business. We are very focused overall in our polyethylene films segment on investments in R&D and new products to mitigate the impact of expected product transitions, expand our customer base and drive future growth."

Mr. Gottwald further stated, "Our aluminum extrusions business continues to perform well, and booking and backlog trends remain favorable. The unfavorable pricing environment resulting from industry excess capacity, particularly in Latin America, continues to impact Terphane's operating results."

# Tredegar Corporation

## Third Quarter 2017 Net Sales and Net Income

### Financial Highlights

- Combined segment operating profit from ongoing operations<sup>3</sup> of \$22.8M in third quarter of 2017:
  - PE Films operating profit of \$11.3M; up \$2.2M Y-O-Y and up \$0.6M sequentially
  - Flexible Packaging (Terphane) operating loss of \$(1.1)M; an unfavorable change of \$1.2M Y-O-Y and \$0.8M sequentially
  - Bonnell Aluminum operating profit of \$12.6M; up \$3.2M Y-O-Y, including operating profit of \$2.4M contributed by Futura (acquired 2/15/2017), and \$0.8M sequentially
- Pension expense for full-year is projected to be \$10.1M, which is \$0.8M favorable to prior year (minimum cash contribution of \$6M for year expected)

### Net Sales<sup>1</sup> (\$ in millions)

### Net Income from Ongoing Operations<sup>2</sup> (\$ in millions)

<sup>1</sup> See Note 1 in GAAP to Non-GAAP Reconciliations for more information and a reconciliation of this non-GAAP financial measure.

<sup>2</sup> See Note 3 in GAAP to Non-GAAP Reconciliations for more information and a reconciliation of this non-GAAP financial measure.

<sup>3</sup> See Note 5 in GAAP to Non-GAAP Reconciliations for more information and a reconciliation of this non-GAAP financial measure.

# PE Films *(includes Personal Care, Surface Protection & Films for Other Markets)*

## 2017 Third Quarter and Year-to-Date Results

### Third Quarter Performance

(in millions)	3Q 17	3Q 16	▲
Volume (lbs.)	34.7	33.8	3%
Net Sales <sup>1</sup>	\$89.7	\$82.2	9%
Operating Profit <sup>2</sup>	\$11.3	\$9.0	25%
Adj. EBITDA <sup>3</sup>	\$15.0	\$12.3	22%

### Year-to-Date Performance

(in millions)	2017	2016	▲
Volume (lbs.)	103.9	106.2	(2)%
Net Sales <sup>1</sup>	\$265.8	\$251.5	6%
Operating Profit <sup>2</sup>	\$31.0	\$23.6	31%
Adj. EBITDA <sup>3</sup>	\$41.4	\$33.3	24%

### Financial Highlights: 3Q17 vs 3Q16

- Higher operating profit for third quarter versus last year primarily as a result of:
  - Higher contribution from surface protection films (\$2.0M) due to higher volume and production efficiencies
  - Higher contribution from personal care films (\$1.8M), primarily due to higher volume and favorable product mix
  - Higher selling and general expenses (\$1.8M), primarily associated with hiring and employee incentive costs
  - Realized savings from North American facility consolidation completed in 3Q17 (\$0.8M)

### Other Highlights

- North American facility consolidation completed in the third quarter of 2017 (see *Management Discussion in Form 10-Q, starting on pg. 25, for additional information*)
- A significant product transition in personal care with annual revenue impact of \$70M is anticipated some time between 2019 and 2021; in addition to increased R&D spending, Company is accelerating sales and marketing efforts to capture growth and diversify its customer base and product offerings in personal care
- Possible future customer product transitions to less costly alternative processes or materials in surface protection could result in annual adverse profit impact of up to \$5 - \$10M; timing and ultimate amount of transitions is unclear
- R&D spending in PE Films has increased significantly in recent years; R&D spending in 2017 is projected to be comparable to 2016 spending of ~\$19 million
- Capital expenditures of \$18M are projected for 2017, including capacity expansion for elastics and acquisition distribution layer materials, in addition to other growth and strategic projects, and \$10M to support operations

# Flexible Packaging Films (Terphane)

## 2017 Third Quarter and Year-to-Date Results

### Third Quarter Performance

(in millions)	3Q 17	3Q 16	▲
Volume (lbs.)	21.6	23.2	(7)%
Net Sales <sup>1</sup>	\$26.6	\$27.3	(3)%
Operating Profit <sup>2</sup>	\$(1.1)	\$0.1	NA
Adj. EBITDA <sup>3</sup>	\$1.5	\$2.6	(42)%

### Financial Highlights: 3Q17 vs. 3Q16

- Net sales in 3Q 2017 decreased vs. 3Q 2016 due to lower production volume associated with numerous intermittent power outages
- Operating results declined vs. 3Q 2016 as a result:
  - Inefficiencies from lower-than-planned production, partially offset by favorable mix (\$0.7M)
  - Foreign currency transaction losses of \$0.3M in 2Q17 versus gains of \$0.1M in 3Q16

### Year-to-Date Performance

(in millions)	2017	2016	▲
Volume (lbs.)	65.7	66.2	(1)%
Net Sales <sup>1</sup>	\$79.9	\$80.9	(1)%
Operating Profit <sup>2</sup>	\$(3.4)	\$1.2	NA
Adj. EBITDA <sup>3</sup>	\$4.4	\$8.2	(46)%

### Other Highlights

- Excess global capacity and competitive dynamics in Latin America expected to continue
- Future operating results expected to be volatile until business environment improves
- Additional capacity from a competitor in Latin America came on-line in the third quarter of 2017. Depending on expectations of future prospects of this business, a non-cash impairment charge associated with trade name intangibles (balance of \$6.5M at 9/30/2017) and depreciable and amortizable assets, could be triggered.
- Capital expenditures of \$4M are projected for 2017

<sup>1</sup> See Note 1 in GAAP to Non-GAAP Reconciliations for more information and a reconciliation of this non-GAAP financial measure.

<sup>2</sup> See Note 5 in GAAP to Non-GAAP Reconciliations for more information and a reconciliation of this non-GAAP financial measure.

<sup>3</sup> See Note 2 in GAAP to Non-GAAP Reconciliations for more information and a reconciliation of this non-GAAP financial measure.

# Aluminum Extrusions (Bonnell Aluminum)

## 2017 Third Quarter and Year-to-Date Results

### Third Quarter Performance

(in millions)	3Q 17	3Q 16	▲
Volume (lbs, excl.Futura)	45.2	43.5	4%
Net Sales <sup>1</sup>	\$122.1	\$91.1	34%
Operating Profit <sup>2</sup>	\$12.6	\$9.4	34%
Adj. EBITDA <sup>3</sup>	\$17.0	\$11.7	45%

### Year-to-Date Performance

(in millions)	2017	2016	▲
Volume (lbs, excl.Futura)	132.6	129.9	2%
Net Sales <sup>1</sup>	\$345.0	\$270.0	28%
Operating Profit <sup>2</sup>	34.2	\$27.8	23%
Adj. EBITDA <sup>3</sup>	\$45.2	\$34.6	31%

### Financial Highlights: 3Q17 vs. 3Q16

- Higher operating profit in 3Q 2017 versus last year due to:
  - Futura, which was acquired on 2/15/2017, had sales of \$20.3M and contributed \$2.4M to operating profit
  - Excluding Futura, higher volume (\$2.2M) partially offset by increased operating costs, including utilities and employee-related costs and higher depreciation (\$0.7M)
  - Inefficiencies associated with transition to new extrusion line at Niles and resulting disruptions to normal production (\$0.7M)

### Other Highlights

- Higher volume in building & construction and specialty markets for 3Q 2017 vs. 3Q 2016
- Cast house in Newnan plant resumed production in 3Q 2017 (see *Management Discussion in Form 10-K, beginning on pg. 28, for additional information*)
- Capital expenditures of \$23M are projected in 2017 (net of \$5M of expected insurance recoveries), including:
  - \$9M for new capacity project in Niles that started up in 2Q 2017 (expected to add ~15 million pounds of capacity on annualized basis)
  - \$2M for Newnan cast house not covered by insurance reimbursement, \$5M to support operations, and \$2M for Futura

# Tredegar at a Glance

## *Business Strengths*

---

### **PE Films**

- Broad capabilities in high-performance plastic films, elastics, and laminate material technologies
- Global footprint, producing to the highest quality standards, with local supply and service capabilities
- Positive market dynamics and growth trends in multiple end-use markets

### **Flexible Packaging Films**

- Industry-leading position in Brazilian flexible packaging market with strong long-term relationships with diverse customer base
- Market-focused manufacturing operations in Brazil and U.S. with short lead times and strong customer service; in Brazil, sole domestic supplier of innovative value-added products

### **Aluminum Extrusions**

- Industry-leading position in nonresidential building and construction and value-added OEM components in North American extrusions market
- Market-focused manufacturing operations and world-class capabilities in extrusion and finishing services (fabrication, painting and anodizing) in five U.S. facilities
- Positive dynamics and growth trends in key markets of building and construction, automotive and specialty are driving demand; Futura acquisition builds presence in OEM, solar, and branded extrusion products

# PE Films

## Business Profile

(\$345 million LTM Net Sales<sup>1</sup>)

### Key Growth Drivers

- Electronics and display market expanding
- Aging baby boomers in developed markets
- Growth of middle class in emerging markets
- Strong growth in LED lighting market

### Customers

- Global and regional consumer care producers
- Major manufacturers of flat panel display components
- Global and regional leaders in LED lighting

### Primary End Use Markets

- Personal care products – feminine hygiene, baby diapers and adult incontinence products
- High-value components of flat panel displays, including LCD televisions, monitors, notebooks, smartphones, tablets and digital signage
- LED and fluorescent lighting

<sup>1</sup> Net sales represent sales less freight. See Note 1 in GAAP to Non-GAAP Reconciliations for more information on this non-GAAP financial measure.

# PE Films

## Key Market Drivers

---

### Key Drivers for Surface Protection Films

- Flat panel display area growth of 5% CAGR through 2022 <sup>1</sup>:
  - TVs represent highest % of total display area (70%) and are growing at 5% CAGR as consumer shift to larger screen models.<sup>1</sup>
    - Panel size growing at 1"-2" per year <sup>1</sup>
- Expanded use of touch screen technology, automotive, flexible and OLED displays, and wearables
- As devices become thinner with higher resolution, quality demands are increasing to meet high-performance specifications – Surface Protection high quality masking films improve customer process yields and minimize quality rejects during in-process and shipment applications

### Key Drivers for Personal Care Films

- Positive global market growth trends for absorbent products expected through 2022, driven by gains in adult incontinence products around the world and emerging markets growth in baby diapers:
  - Global market growth of ~ 3.8% per year, driven by emerging market growth<sup>2</sup>
  - Baby diapers expected to grow ~ 4.2%<sup>2</sup>
  - Feminine hygiene expected to grow ~ 2.7%<sup>2</sup>
  - Adult incontinence products expected to grow ~ 9.0%<sup>2</sup>
- Rapid growth in adult incontinence driven by aging populations and product improvements

<sup>2</sup> See Note 2 in GAAP to Non-GAAP Reconciliations for more information on this non-GAAP financial measure.

<sup>3</sup> Includes sales associated with lost business and product transitions for certain personal care materials. Excluding these sales, pro forma estimates for sales, adjusted EBITDA and volume are net sales of \$347M, adjusted EBITDA of \$53M and volume of 150M lbs. in 2015 and net sales of \$322M, adjusted EBITDA of \$40M and volume of 137M lbs. in 2016.

# Flexible Packaging Films

## Business Profile

---

(\$107 million LTM Net Sales<sup>1</sup>)

### Key Growth Drivers

- Growing end-user demand for convenience foods, lighter packaging and branded consumer products
- Packaging innovation driving demand for flexible packaging

### Customers

- Global and regional food packaging producers and converters

### Primary End Use Markets

- Perishable and non-perishable food packaging
- Non-food packaging and industrial applications

<sup>1</sup> Net sales represent sales less freight. See Note 1 in GAAP to Non-GAAP Reconciliations for more information on this non-GAAP financial measure.

# Flexible Packaging Films

## Annual Historical Financials

### Net Sales<sup>1</sup> (\$ in millions)

### Adjusted EBITDA<sup>2</sup> (\$ in millions)

### Volume (lbs. in millions)

### Capital Expenditures (\$ in millions)

<sup>1</sup> Net sales represent sales less freight. See Note 1 in GAAP to Non-GAAP Reconciliations for more information on this non-GAAP financial measure.

<sup>2</sup> See Note 2 in GAAP to Non-GAAP Reconciliations for more information on this non-GAAP financial measure.

# Aluminum Extrusions

## Business Profile

### Key Market Drivers

- Nonresidential building and construction recovery with industry growth projected through 2019
- Strong demand for finished products, including anodized and painted products and fabricated components
- Growing aluminum content in vehicles, driven by CAFE (corporate average fuel economy) standards

### Customers

- Glazing contractors and fabricators
- Tier I and II suppliers to automotive OEMs
- Consumer durables, machinery and equipment, and electrical OEMs; distributors and metal service centers

### Primary End Use Markets

- Curtain wall, store fronts and entrances, doors, windows, wall panels, flooring trims (Edgetek™) and other building components
- Automobile and light truck structural components and crash management systems; truck grills
- Furniture and appliances, pleasure craft, modular framing (TSLOTS™), material handling equipment, solar panels, LED lighting, electrical conduit

(\$435 million LTM Net Sales<sup>1</sup>)

<sup>1</sup> Net sales represent sales less freight. See Note 1 in GAAP to Non-GAAP Reconciliations for more information on this non-GAAP financial measure. Reflects inclusion of Futura as of acquisition date of 2/15/2017.

# Bonnell Aluminum

## *Futura Acquisition*

---

### *Background on Acquisition*

- On February 15, 2017, Bonnell Aluminum acquired 100% of the stock of Futura Industries Corporation (Futura) for \$92 million
  - Initial funding amount of \$87 million which was funded using Tredegar's existing credit facility, (additional \$5 million in earnout escrow)
  - Futura had 2016 EBITDA of approximately \$13.6 million
  - Futura is operating as a division of Bonnell Aluminum

### *Overview on Futura*

- Headquartered in Clearfield, Utah, Futura has a national sales presence with particular strength in western U.S.
  - Focused on manufacturing finished components for commercial, transportation, solar, OEM, and structural aluminum framing systems (T SLOT™) markets; finished products include branded flooring trim (Edgetek™)
  - Reputation for reliability, quick turnaround, product quality and lean manufacturing
- Strong management team and operating philosophy guiding Futura's 350 employees

# Bonnell Aluminum

## Key Markets

Note: Index computations based on Aluminum Association data (2016) and CRU Extruded Shapes Market Update, August 2017. Specialty includes aluminum extrusions sold to consumer durables, electrical and machinery markets. Actual results could be materially different from forecasted results shown.

# Bonnell Aluminum

## *Automotive Aluminum Extrusion Applications*

- Crash management system – beams and mounting plates, crush cans
- Suspension – cut-to-length lineal profile supporting customer forging operation for finished part
- Body and engine mounts – precision cut-to-length
- Roof rails
- Structural body profiles
- Machined parts for structural body applications
- Battery structures

# Aluminum Extrusions

## Annual Historical Financials

**Net Sales<sup>1</sup> (\$ in millions)**

**Adjusted EBITDA<sup>2</sup> (\$ in millions)**

**Volume (lbs. in millions)**

**Capital Expenditures (\$ in millions)**

Reflects inclusion of Bonnell's operating divisions subsequent to their acquisition dates: AACOA (10/1/2012) and Futura (2/15/2017), except for volume.

<sup>1</sup> Net sales represent sales less freight. See Note 1 in GAAP to Non-GAAP Reconciliations for more information on this non-GAAP financial measure.

# GAAP to Non-GAAP Reconciliations

PE Films includes personal care materials, surface protection films, polyethylene over wrap films and films for other markets. Flexible Packaging Films is comprised of our polyester films business, Terphane Holdings LLC. Aluminum Extrusions results include the acquisitions of AACOA, Inc. on October 1, 2012 and Futura Industries Corporation on February 15, 2017. Due to rounding, numbers presented throughout this presentation may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

## Notes:

- Net sales represent sales less freight. Net sales is a financial measure that is not calculated in accordance with U.S. generally accepted accounting principles (U.S. GAAP), and it is not intended to represent sales as defined by U.S. GAAP. Net sales is a key measure used by the chief operating decision maker of each segment for purposes of assessing performance. A reconciliation of net sales to sales is shown below:

(In millions)	QTD Q2 2016	QTD Q3 2016	QTD Q4 2016	QTD Q1 2017	QTD Q2 2017	QTD Q3 2017

- Adjusted EBITDA represents net income (loss) from continuing operations before interest, taxes, depreciation, amortization, unusual items, goodwill impairments, gains or losses associated with plant shutdowns, asset impairments and restructurings, gains or losses from the sale of assets, investment write-downs or write-ups, charges related to stock option awards accounted for under the fair value-based method, goodwill impairment charges and other items. Adjusted EBITDA is a non-GAAP financial measure that is not intended to represent net income (loss) or cash flow from operations as defined by U.S. GAAP and should not be considered as either an alternative to net income (loss) (as an indicator of operating performance) or to cash flow (as a measure of liquidity). Tredegar uses Adjusted EBITDA as a measure of unlevered (debt-free) operating cash flow.

Tredegar also uses it when comparing relative enterprise values of manufacturing companies and when measuring debt capacity. When comparing the valuations of a peer group of manufacturing companies, Tredegar expresses enterprise value as a multiple of Adjusted EBITDA. They believe Adjusted EBITDA is preferable to operating profit and other GAAP measures when applying a comparable multiple approach to enterprise valuation because it excludes the items noted above, measures of which may vary among peer companies.

A reconciliation of ongoing operating profit (loss) from continuing operations to Adjusted EBITDA is shown on the next page. Amounts relating to corporate overhead for the prior years have been reclassified to conform with the current year's presentation. Adjusted EBITDA in the first and second quarters of 2017 and the full years of 2016 and 2015 include adjustments of \$0.2 million, \$0.1 million, \$0.6 million and \$0.4 million, respectively, for accelerated depreciation associated with the consolidation of PE Films manufacturing facilities in North America. Adjusted EBITDA for Aluminum Extrusions in 2012 includes an adjustment of \$2.4 million for accelerated depreciation associated with the shutdown of its manufacturing facility in Kentland, IN. Accelerated depreciation associated with the shutdown of the Kentland manufacturing facility was excluded from operating profit from ongoing operations. This amount has therefore been subtracted from the amount of depreciation expense added back in calculating Adjusted EBITDA.

# GAAP to Non-GAAP Reconciliations

## Notes (continued):

3. The after-tax effects of losses associated with plant shutdowns, asset impairments and restructurings and gains or losses from the sale of assets and other items (which includes unrealized gains and losses for an investment accounted for under the fair value method) have been presented separately and removed from income (loss) and earnings (loss) per share from continuing operations as reported under U.S. GAAP to determine Tredegar's presentation of net income and earnings per share from ongoing operations. Net income and earnings per share from ongoing operations are key financial and analytical measures used by Tredegar to gauge the operating performance of its ongoing operations. They are not intended to represent the stand-alone results for Tredegar's ongoing operations under GAAP and should not be considered as an alternative to net income or earnings per share from continuing operations as defined by U.S. GAAP. They exclude items that we believe do not relate to Tredegar's ongoing operations. A reconciliation is shown below:
