

REPORT BY THE BOARD OF DIRECTORS OF INTERNATIONAL CONSOLIDATED AIRLINES GROUP, S.A. IN RELATION TO ITEMS 9, 10 AND 11 ON THE AGENDA FOR THE 2018 ANNUAL SHAREHOLDERS' MEETING

The Board of Directors of International Consolidated Airlines Group, S.A. (the “**Company**”) has issued this report in relation to items 9, 10 and 11 on the agenda for the Shareholders’ Meeting called for 13 June 2018, on first call, and for 14 June 2018, on second call, referring to:

- a) the proposed authorisation to the Board of Directors, pursuant to the provisions of Article 297.1.b) of the Spanish Companies Law (*Ley de Sociedades de Capital*), to resolve to increase the share capital and issue new shares (item 9 on the agenda);
- b) the proposed authorisation to the Board of Directors to issue convertible and/or exchangeable securities, including warrants (item 10 on the agenda); and
- c) the proposed authorisation to the Board of Directors, pursuant to the provisions of Articles 506 and 511 of the Companies Law, to exclude the shareholders’ preemptive subscription right in connection with the capital increases and issuances of convertible and/or exchangeable securities referred to, respectively, under paragraphs a) and b) above (item 11 on the agenda).

Given that the limits to which such authorisations are linked, the Board of Directors has considered it more appropriate to issue a single report covering the three items on the agenda, making it easier to follow the explanations and justifications provided by the directors according to applicable law.

1. PROPOSED AUTHORISATION TO THE BOARD OF DIRECTORS, PURSUANT TO THE PROVISIONS OF ARTICLE 297.1.B) OF THE COMPANIES LAW, OF THE POWER TO RESOLVE TO THE INCREASE SHARE CAPITAL

1.1 Introduction

Under this section and in accordance with the provisions of Articles 285, 296.1, 297.1.b) and 506 of the Companies Law, a detailed explanation and justification is provided, for the purposes required by the legislation in force, the proposed authorisation to the Board of Directors of the Company, in accordance with the provisions of Article 297.1.b) of the Companies Law and with powers of substitution, of the power to resolve, on one or more occasions and for a term ending at next year’s annual Shareholders’ Meeting (or, if earlier, fifteen months from the date of passing the resolution), to increase the share capital.

This proposed authorisation to increase the share capital is for an amount (a) up to one-third of the share capital as at the date of passing the resolution (such amount to be reduced by the amount that the share capital has been increased by and the maximum amount that the share capital may need to be increased on the conversion or exchange of any securities issued under paragraph a) of section 3 of Resolution 10); and (b) up to a further one-sixth of the aggregate nominal amount of the share capital as at the date of passing the resolution in relation to a right issue (such amount to be reduced by the amount that the share capital has been increased by and the maximum amount that the share capital may need to be increased on the conversion or exchange of any securities issued under paragraph b) of section 3 of Resolution 10).

For the purposes of Resolution 9, Resolution 10 and Resolution 11, “rights issue” means an offer to existing ordinary shareholders to subscribe or purchase further securities in proportion to their ordinary shareholdings (as near as may be practicable, but subject to such exclusions or other arrangements as the Board of Directors may deem necessary or expedient in relation to treasury shares, fractional entitlements, record dates or legal, regulatory or practical problems in, or under the laws of, any territory or any other matter) made (i) by means of the issue of pre-emption rights represented by securities decoupled from the ordinary shares to which they relate and which may be separately traded for a period before payment for the subscription or purchase is due, and (ii) in accordance with the Listing Rules made under Part IV of the United Kingdom Financial Services and Markets Act 2000.

Article 297.1.b) of the Companies Law authorises the Shareholders’ Meeting so that, in line with the requirements provided for the amendment of the corporate bylaws, it may delegate to the Board of Directors the power to resolve to increase the share capital on one or more occasions up to a set figure (not higher than 50 per cent. of the share capital at the date of passing the relevant resolution), at such time and in the amount it decides, without consulting the Shareholders’ Meeting beforehand.

1.2 Justification for the proposal

The Board of Directors considers that the proposed resolution submitted to the Shareholders’ Meeting is justified by the advisability of having a mechanism, provided for in the corporate legislation in force, that allows it to resolve to increase capital on one or more occasions, without having to subsequently call and hold a new shareholders’ meeting, albeit within the limits, terms and conditions decided by the Shareholders’ Meeting.

Companies must be in a position to make use of opportunities afforded to them within current legislation to provide rapid and efficient responses to the needs that arise in the course of the business operations. These needs undoubtedly include the need to provide the Company with fresh funds, which can take the form of new capital contributions.

However, it is often impossible to determine the Company’s capital requirements in advance and to anticipate the delays and increased cost that might naturally lead to the

call of a Shareholders' Meeting in order to increase capital, making it difficult for the Company to provide a quick and efficient response to the needs of the market. This makes it recommendable for the Board to be in a position to use the authorised capital mechanism provided in Spanish legislation.

The use of the delegation provided for in Article 297.1.b) of the Companies Law allows the Company to provide the Board of Directors with a quick and flexible mechanism to better cater to the needs of the Company, according to the circumstances of the market.

Taking into account the above, a proposal is submitted to the Shareholders' Meeting to delegate to the Board of Directors the power to resolve to increase the share capital of the Company, on one or more occasions, up to the maximum aggregate nominal amount indicated previously.

Capital increases performed under the proposed delegation would be carried out by issuing and placing into circulation new shares, the consideration for which shall be cash contributions.

The power thus delegated will also extend to the establishment of the various specific terms and conditions of each capital increase and the conditions of shares to be issued, including the power to resolve that, if the capital increase is not fully subscribed, the share capital will be increased only by the amount of the shares subscribed, in accordance with the provisions of Article 311.1 of the Companies Law, to amend the bylaw article relating to share capital and to apply for the listing of the new shares.

The authorisation proposed to the Shareholders' Meeting will expire once fifteen months have elapsed from the date of the passing of the resolution or of the conclusion of the annual Shareholders' Meeting of the Company held in 2019, whichever is earlier.

2. PROPOSAL TO GRANT AUTHORISATION TO THE BOARD OF DIRECTORS TO ISSUE CONVERTIBLE AND/OR EXCHANGEABLE SECURITIES

2.1 Introduction

Under this section, justification is provided for the proposal to grant authorisation to the Board of Directors, with powers of substitution, to issue securities (including, in particular, warrants, debentures and bonds) exchangeable for or giving the right to acquire shares of the Company and/or convertible into or giving the right to subscribe new shares of the Company, pursuant to the general provisions governing the issuance of debentures and the provisions of Articles 286, 297 and 511 of the Companies Law, and Article 319 of the Mercantile Registry Regulations (*Reglamento del Registro Mercantil*), up to a maximum nominal amount of 1,500,000,000 euros or the equivalent thereof in another currency, provided that the aggregate share capital that may need to be increased on the conversion or exchange of all such securities may not be higher than: (a) one-third of the share capital as at the date of passing the resolution (such amount to be reduced by the

amount that the share capital has been increased under paragraph a) of section 2 of Resolution 9); and (b) a further one-sixth of the share capital as at the date of passing the resolution in relation to a right issue (such amount to be reduced by the amount that the share capital has been increased under paragraph b) of section 2 of Resolution 9), the approval of which is submitted to the Shareholders' Meeting under item nine on the agenda.

2.2 Justification for the proposal

The Board of Directors deems it highly advisable to hold the powers allowed to be delegated under the legislation in force in order to be in a position at all times to raise the necessary funds on primary securities markets to adequately manage the corporate interests.

The purpose of the delegation is to provide the Company's managing body with the room for manoeuvre and capacity to respond required by the competitive environment in which the Company operates, in which the success of a strategic initiative or financial transaction or the ability to raise funds often depends on the capacity to act quickly, without the inevitable delays and costs entailed in calling and holding a shareholders' meeting. Thus the Board of Directors of the Company will be authorised, where necessary, to raise a significant volume of funds in a short period of time.

The issuance of securities convertible into and/or exchangeable for shares is a means of raising corporate finance from outside funds. These securities, on the one hand, have the advantage of offering investors the opportunity to convert the debt owed to them by the Company into Company shares, obtaining a potentially higher return than that offered by other debt instruments and, on the other hand, enable the Company to increase its equity. These characteristics mean that the coupon of convertible and/or exchangeable debentures is usually lower than the cost of simple debt securities and of bank debt, since the debenture interest rates reflect the value of the option conferred on investors to convert the debentures into Company shares.

With this in mind, in accordance with the provisions of the legislation in force, this proposed resolution is submitted to the Shareholders' Meeting for consideration. In the case of warrants, it is specifically provided that the legal and contractual rules governing convertible and/or exchangeable debentures will apply, to the extent that they are compatible with their specific nature.

The proposal specifically confers on the Board of Directors the power to issue, on one or more occasions, convertible and/or exchangeable securities (including debentures and bonds) and warrants granting options to subscribe for new shares of the Company or to acquire existing shares of the Company and to resolve, where appropriate, on the capital increase necessary to carry out the conversion or to exercise the right to subscribe for shares, provided that this capital increase does not exceed the unused limit authorised from time to time by the Shareholders' Meeting in accordance with the provisions of Article 297.1.b) of the Companies Law.

In this respect, Article 510 of the Companies Law provides that the limit on the issuance of debentures established in Article 405 of the Companies Law does not apply to listed companies. For this reason, the proposed resolution establishes the maximum nominal amounts for which authorisation is requested at 1,500,000,000 euros (or the equivalent thereof in another currency), on the understanding that the aggregate figure by which the share capital may need to be increased on the conversion or exchange of all such securities may not be higher than the limit stated above.

The proposed resolution to be submitted to the Shareholders' Meeting for approval also establishes the criteria for determining the basis for and terms and conditions applicable to the conversion and/or exchange, although it entrusts the Board of Directors, in the event the Board resolves to make use of the authorisation granted, with the establishment of some of the basis for and terms and conditions of each issuance, within the limits and in accordance with the criteria established by the Shareholders' Meeting.

Therefore the Board of Directors will be responsible for determining the specific conversion ratio and for such purpose it will issue, on approving an issue of convertible and/or exchangeable securities delegated under the authorisation conferred by the Shareholders' Meeting, a report detailing the specific basis for and terms and conditions of the conversion applicable to such issue, which will also be the subject of the correlative report by the auditors referred to in Articles 414 and 511 of the Companies Law.

Specifically, the proposed resolution submitted for approval to the Shareholders' Meeting by the Board of Directors provides that, for the purposes of the conversion or exchange, the securities issued under this authorisation will be valued at their nominal amount and the shares at the fixed exchange ratio (determined or to be determined) or at a variable ratio to be determined in the relevant Board resolution.

Accordingly, the Board of Directors deems that it is given a sufficient margin of flexibility in order to set the value of the shares for the purposes of the conversion according to market terms and other applicable considerations.

In the case of warrants to subscribe new shares, the rules governing convertible debentures contained in the proposal will apply, to the extent that they are compatible with their specific nature.

Furthermore, pursuant to Article 415.2 of the Companies Law, the resolution to delegate to the Board of Directors the power to issue convertible securities provides that, for the purposes of their conversion, the nominal value of the debentures may not be lower than the par value of the shares, neither may convertible debentures be issued for an amount less than their nominal value.

It is also provided that the securities issued under this delegation may be listed on the appropriate secondary markets, whether Spanish or foreign, official or unofficial, organised or otherwise.

It may be advisable on occasion to issue the securities under this authorisation through a subsidiary with the guarantee of the Company. As a result, it is deemed to be of interest that the Shareholders' Meeting authorise the Board of Directors to guarantee, on behalf of the Company and within the limits set forth above, issues of convertible and/or exchangeable securities and/or warrants by subsidiaries during the effective period of the resolution, in order to grant maximum flexibility to the Board of Directors to structure security issues in the manner most appropriate, according to the circumstances.

All powers conferred on the Board of Directors if the resolution is adopted shall be conferred with the express power of substitution, in order to further contribute to the pursued aim of expediting transactions as much as possible.

3. PROPOSED AUTHORISATION TO THE BOARD OF DIRECTORS TO EXCLUDE PRE-EMPTIVE RIGHTS IN CONNECTION WITH THE CAPITAL INCREASES AND THE ISSUANCES OF CONVERTIBLE OR EXCHANGEABLE SECURITIES

3.1 Introduction

Under this section and in accordance with the provisions of Articles 506 and 511 of the Companies Law, a detailed explanation and justification is provided, for the purposes required by the legislation in force, the proposed authorisation to the Board of Directors of the Company, with the express power of substitution, to totally or partially exclude the shareholders' pre-emptive subscription right in connection with the capital increases and the issuances of convertible or exchangeable securities that the Board of Directors may approve under the authorisations given under Resolutions 9 and 10 (if passed), in connection with a rights issue or in any other circumstances subject to an aggregate maximum nominal amount of the ordinary shares so allotted and that may be allotted on conversion or exchange of such securities of five per cent. of the aggregate nominal amount of the Company's issued ordinary share capital as at the date of passing the resolution.

In any case, in accordance with the provisions of Articles 506 and 511 of the Companies Law, should the Board of Directors decide to exclude the shareholders' pre-emptive subscription right in any or all issues of shares or convertible and/or exchangeable securities it decides to make under the delegations, it must prepare, on adopting the relevant issuance resolution, a report detailing the specific reasons in the corporate interests that justify such measure and such other content as required by Articles 308 (for the issuance of shares) and 417 (for issuance of convertible and/or exchangeable securities) of the Companies Law, which will also be the subject of the correlative report by an auditor appointed by the Mercantile Registry other than the Company's auditor, as referred to the Companies Law. These reports must be made available to shareholders and communicated to the first Shareholders' Meeting held following the issuance resolution.

In addition, in the case of issues of shares excluding the pre-emption subscription right of the shareholders, the issue price of the new shares (nominal value of the shares to be issued plus any share premium) must match the fair value resulting from the auditors' report.

3.2 Justification for the proposal

The Board of Directors considers that this power to exclude pre-emptive rights, supplemental to the power to issue shares and convertible and/or exchangeable securities, is justified for various reasons.

First of all, the elimination of the pre-emptive rights usually allows for a relative reduction in the costs associated with the transaction (including, in particular, the fees of the financial institutions participating in the issue) compared to an issue including the pre-emptive rights.

Secondly, by having the authority to eliminate the pre-emptive rights, the Board of Directors is able to significantly shorten the response time often required by the current financial markets, enabling the Company to take advantage of periods in which the market conditions are most favourable.

Furthermore, the elimination of the pre-emptive rights has a less distortive effect on the trading of the Company's shares during the issue period, which tends to be shorter than an issue with rights.

In conclusion, the globalization of financial markets and the speed and flexibility with which operations take place on those markets make it necessary for the Board of Directors to have flexible and suitable instruments in order to provide an appropriate response to the needs, from time to time, of the corporate interest, and the above-mentioned delegation to the Board of Directors of the power to exclude, as the case may be, the pre-emptive right should form an integral part of this strategy.

4. PROPOSED RESOLUTIONS

1.- Securities to be issued.- The securities contemplated in this authorisation may be debentures, bonds and other debt securities that are exchangeable for shares of the Company and/or convertible into shares of the Company, as well as warrants (options to subscribe for new shares of the Company or to acquire existing shares of the Company).

2.- Term of the authorisation.- The securities subject to this authorisation may be issued on one or more occasions and when required, within the term ending at next year’s annual Shareholders’ Meeting (or, if earlier, fifteen months from the date of passing of this resolution).

3.- Maximum amount authorised.- The maximum aggregate nominal amount of the issuance or issuances of securities approved under this delegation shall be 1,500,000,000 euros or the equivalent thereof in another currency, provided that the aggregate share capital that may need to be increased on the conversion or exchange of all such securities may not be higher than:

- a) one-third of the share capital as at the date of passing this resolution (such amount to be reduced by the amount that the share capital has been increased under paragraph a) of section 2 of Resolution 9); and*
- b) a further one-sixth of the share capital as at the date of passing this resolution in connection with an offer by way of a rights issue (such amount to be reduced by the amount that the share capital has been increased under paragraph b) of section 2 of Resolution 9).*

For the purposes of this resolution, a “rights issue” means an offer to existing ordinary shareholders to subscribe or purchase further securities in proportion to their ordinary shareholdings (as near as may be practicable, but subject to such exclusions or other arrangements as the Board of Directors may deem necessary or expedient in relation to treasury shares, fractional entitlements, record dates or legal, regulatory or practical problems in, or under the laws of, any territory or any other matter) made (i) by means of the issue of pre-emption rights represented by securities decoupled from the ordinary shares to which they relate and which may be separately traded for a period before payment for the subscription or purchase is due, and (ii) in accordance with the Listing Rules made under Part IV of the United Kingdom Financial Services and Markets Act

2000.

4.- Scope of authorisation.- This authorisation extends as broadly as is required under law, to the establishment of the various terms and conditions of each issuance. By way of example and not of limitation, the Board of Directors shall be authorised to do the following with respect to each issuance: determine the amount thereof, always within the aforementioned overall quantitative limit; the place of issuance (in Spain or abroad); the domestic or foreign currency, and in the case of a foreign currency, its equivalence in euros; the name or form of the securities, whether they be bonds or debentures, including subordinated debentures, warrants (which may in turn be settled by means of the physical delivery of the shares or, if applicable, through the payment of differences in price), or any other name or form permitted by law; the date or dates of issuance; the number of securities and the par value thereof, which, in the case of convertible and/or exchangeable bonds or debentures, shall not be less than the par value of the shares; in the case of warrants and similar securities, the issue price and/or premium, the exercise price (which may be fixed or variable) and the procedure, period and other terms and conditions applicable to the exercise of the right to subscribe for the underlying shares or, if applicable, the exclusion of such right; the interest rate (whether fixed or variable), and the dates and procedures for payment of the coupon; whether the issuance is perpetual or subject to repayment and, in the latter case, the repayment period and the maturity date or dates; guarantees, reimbursement rate, premiums and lots; the form of representation, as securities or book entries; anti-dilution provisions; the rules applicable to subscription; the rank of the securities and the subordination clauses, if any; the law applicable to the issuance; the power to make application, where appropriate, for the listing of the securities to be issued on Spanish or foreign, official or unofficial, organised or other secondary markets, subject to the requirements established by applicable regulations in each case; and, in general, any other terms of the issuance as well as, if applicable, the appointment of the security-holders' syndicate representative (comisario) and the approval of the basic rules that are to govern the legal relationships between the Company and the syndicate of holders of the securities to be issued, in the event that such syndicate must or is decided to be created.

5.- Basis for and terms and conditions applicable to the conversion and/or exchange.- In the case of issuance of convertible and/or exchangeable debentures or bonds, and for purposes of determining the basis for and terms and conditions applicable to the conversion and/or exchange, it is resolved to establish the following criteria:

- a) The securities issued pursuant to this resolution shall be convertible into shares of the Company and/or exchangeable into shares of the Company, in accordance with a fixed or variable conversion and/or exchange ratio determined or to be determined, with the Board of Directors being authorised to decide whether they are convertible and/or exchangeable, as well as to determine whether they are mandatorily or voluntarily convertible and/or exchangeable, and if voluntarily, at the option of the holder thereof and/or of the Company, at the intervals and during the period established in the resolution providing for the issuance.

- b) *In the event that the issuance is convertible and exchangeable, the Board may also provide that the issuer reserves the right at any time to elect between conversion into new shares or the exchange thereof for outstanding shares of the Company, with the nature of the shares to be delivered being determined at the time of conversion or exchange, and may also elect to deliver a combination of newly-issued shares and existing shares of the Company and even to settle the difference in cash.*
- c) *For purposes of the conversion and/or exchange, the securities shall be valued at the nominal amount thereof (including, should it be the case, accrued and not paid interests), and the shares at the fixed exchange ratio established in the resolution of the Board of Directors whereby this authorisation is exercised, or at a variable ratio to be determined on the date or dates specified in such resolution of the Board, based on the listing price of the Company's shares on the date(s) or during the period(s) used as a reference in such resolution, at a premium or at a discount, provided, however, that if a discount is established on the price per share, it shall not be greater than twenty five per cent. of the value of the shares used as a reference value as set forth above.*
- d) *In no event may the value of the share for purposes of the ratio for conversion of debentures into shares be less than the par value thereof. In addition, pursuant to the provisions of Article 415 of the Companies Law, debentures may not be converted into shares when the nominal value of the former is less than the par value of the latter.*

6.- *Basis and terms and conditions for the exercise of warrants.*- *In the case of issuances of warrants, to which the provisions of the Companies Law on convertible debentures shall apply by analogy, the Board of Directors is authorised to determine, in the broadest terms, in connection with the basis for and terms and conditions applicable to the exercise of such warrants, the criteria applicable to the exercise of rights to subscribe for or of rights to acquire shares of the Company arising from the securities of this kind issued under the delegation granted hereby. The criteria set forth in section 5 above shall apply to such issuances, with such adjustments as may be necessary in order to bring them into compliance with the legal and financial rules governing these kinds of securities.*

7.- *Other powers delegated.*- *This authorisation to the Board of Directors also includes, without limitation, the delegation thereto of the following powers:*

- a) *The power to increase the share capital to the extent required to attend requests for conversion and/or for exercise of the right to subscribe for new shares. These power may only be exercised so long as the capital increase the Board of Directors approves for the issue of convertible securities or warrants does not exceed the unused limit authorised in each moment by the Shareholders' Meeting in accordance with Article 297.1.b) of the Companies Law. This authorisation to increase the share capital includes the authorisation to issue and float, on one or more occasions, the shares representing such capital that are necessary to carry out the conversion and/or to exercise the right to subscribe for new shares, as well as the power to*

amend the article of the bylaws relating to the amount of the share capital and the number of shares and, if appropriate, to cancel the portion of such capital increase that was not required for the conversion of shares and/or the exercise of the right to subscribe for new shares.

- b) The power to elaborate on and specify the basis for and terms and conditions applicable to the conversion, exchange and/or exercise of the rights to subscribe for and/or acquire shares arising from the securities to be issued, taking into account the criteria set out in sections 5 and 6 above.*
- c) The delegation to the Board of Directors includes the broadest powers that may be required by law in order to interpret, apply, implement and develop the resolutions providing for the issuance of securities that are convertible into or exchangeable for shares of the Company, on one or more occasions, and to carry out the corresponding capital increase, as well as the power to correct and supplement such resolutions as to all matters that may be necessary and to comply with all legal requirements for the successful implementation thereof. To such end, the Board of Directors may correct any omissions or defects in the aforementioned resolutions that may be identified by any Spanish or foreign authorities, officers or bodies, and may also adopt all such resolutions and execute all such public or private documents as it may deem necessary or appropriate in order to adjust the preceding resolutions for the issuance of convertible or exchangeable securities and the corresponding capital increase to the oral or written assessment of the commercial registrar or, in general, of any other Spanish or foreign competent authorities, officers or entities.*

8.- Admission to trading.- The Company shall, where appropriate, apply for listing on regulated markets, multilateral trading systems or other secondary markets, organised or otherwise, official or unofficial, Spanish or foreign of the securities issued by the Company under this delegation, and the Board of Directors is authorised, as fully as is required by law, to conduct all acts and formalities that may be necessary for admission to listing before the appropriate authorities of the various Spanish or foreign securities markets.

9.- Guarantee of issues of convertible and/or exchangeable securities or warrants by subsidiaries.- The Board of Directors is also authorised to guarantee on behalf of the Company, within the limits set forth above, new issuances of convertible and/or exchangeable securities or warrants by subsidiaries during the effective period of this resolution.

10.- Power to delegate.- The Board of Directors is expressly authorised to delegate the powers delegated thereto under this resolution, as permitted by Article 249bis 1) of the Companies Law.”

11.- AUTHORISATION TO THE BOARD OF DIRECTORS, WITH THE EXPRESS POWER OF SUBSTITUTION, TO EXCLUDE PRE-EMPTIVE RIGHTS IN CONNECTION WITH THE CAPITAL INCREASES AND THE ISSUANCES OF CONVERTIBLE OR EXCHANGEABLE

SECURITIES THAT THE BOARD OF DIRECTORS MAY APPROVE UNDER THE AUTHORITY GIVEN UNDER RESOLUTIONS 9 AND 10 FOR THE PURPOSES OF ALLOTING SHARES OR CONVERTIBLE OR EXCHANGEABLE SECURITIES IN CONNECTION WITH A RIGHTS ISSUE IN ACCORDANCE WITH THE LISTING RULES MADE UNDER PART IV OF THE UNITED KINGDOM FINANCIAL SERVICES AND MARKETS ACT 2000 OR IN ANY OTHER CIRCUMSTANCES SUBJECT TO AN AGGREGATE MAXIMUM NOMINAL AMOUNT OF THE SHARES SO ALLOTTED AND THAT MAY BE ALLOTTED ON CONVERSION OR EXCHANGE OF SUCH SECURITIES OF FIVE PER CENT. OF THE SHARE CAPITAL AS AT THE DATE OF PASSING THIS RESOLUTION.

RESOLUTION 11

“To authorise the Board of Directors, with the express power of substitution, to totally or partially exclude the pre-emptive right, as permitted by Article 506 and Article 511 of the Companies Law (Ley de Sociedades de Capital) in connection with issuances of shares or convertible or exchangeable securities that the Board of Directors may approve under the authority given under Resolutions 9 and 10 above provided that the such capital increases and issuances of convertible or exchangeable securities are:

- a) for the purposes of allotting shares or convertible or exchangeable securities in connection with a rights issue; or*
- b) in any other circumstances, subject to an aggregate maximum nominal amount of the shares so allotted and that may be allotted on conversion or exchange of such securities of five per cent. of the share capital as at the date of passing this Resolution.*

For the purposes of this resolution, “rights issue” means an offer to existing ordinary shareholders to subscribe or purchase further securities in proportion to their ordinary shareholdings (as near as may be practicable, but subject to such exclusions or other arrangements as the Board of Directors may deem necessary or expedient in relation to treasury shares, fractional entitlements, record dates or legal, regulatory or practical problems in, or under the laws of, any territory or any other matter) made (i) by means of the issue of pre-emption rights represented by securities decoupled from the ordinary shares to which they relate and which may be separately traded for a period before payment for the subscription or purchase is due, and (ii) in accordance with the Listing Rules made under Part IV of the United Kingdom Financial Services and Markets Act 2000.

The Board of Directors is expressly authorised to delegate the powers delegated thereto under this resolution, as permitted by Article 249bis l) of the Companies Law.”
