Non-GAAP Financial Terms

These slides contain certain “non-GAAP financial terms” which are defined on our website www.fmc.com. In addition, we have also provided on our website at www.fmc.com reconciliations of non-GAAP terms to the most directly comparable GAAP term. Amounts in this presentation focus on Adjusted Earnings for all EBIT, EBITDA and EPS references.

Although we provide forecasts for adjusted EPS and adjusted cash from operations (both of which are non-GAAP financial measures), we are not able to forecast the most directly comparable measures calculated and presented in accordance with GAAP. Certain elements of the composition of the GAAP amounts are not predictable, making it impractical for us to forecast. Such elements include, but are not limited to restructuring, acquisition charges, and discontinued operations and related cash activity. As a result, no GAAP outlook is provided.
