Hurricane Impact

In September 2017, Hurricanes Irma and Maria affected several Vistana and HVO resorts and sales centers, as well as nearly 300 properties within the Interval Network or managed by VRI or Aqua-Aston Hospitality. At June 30, 2018 our Westin St. John Resort Villas in the U.S. Virgin Islands and Hyatt Residence Club Dorado, Hacienda del Mar, in Puerto Rico were closed and expected to reopen early in 2019. Approximately 35 Interval Network properties on the hardest-hit islands remained closed at quarter end.

The table below summarizes our results for the second quarter of 2018 and provides the estimated impact of the hurricanes in these periods:

	Three Months Ended June 30, 2018		
	(Dollars in millions, except per share data)		
	Reported	Hurricane impact	Ex Hurricane
Revenues	461	18	479
Net income attributable to common stockholders	27	4	31
Adjusted net income*	39	3	42
Adjusted EBITDA*	90	5	95
Diluted EPS	0.21	0.03	0.24
Adjusted diluted EPS*	0.31	0.03	0.34

Second quarter consolidated operating results

Consolidated revenue was \$461 million, and excluding the estimated hurricane impact, it would have been \$479 million, up 9% over the prior year driven by strong performance in our vacation ownership segment.

Net income attributable to common stockholders was \$27 million. Excluding the estimated impact of the hurricanes it would have been \$31 million, up 19% compared to the prior year. Diluted earnings per share (EPS) was \$0.21, compared to \$0.20 in the prior year.

Adjusted net income was \$39 million, higher by 26%. Excluding the estimated impact from the hurricanes, it would have been \$42 million, up 35% compared to the prior year. Adjusted diluted EPS was \$0.31. Excluding the impact from the hurricane it would have been \$0.34, higher by 36%.

Adjusted EBITDA increased 13% to \$90 million. Excluding the impact from the hurricane, it would have been \$95 million, an increase of 19% compared to 2017.

Business segment results

Vacation Ownership

Excluding cost reimbursements, Vacation Ownership segment revenue increased \$37 million, to \$263 million principally as a result of the following:

- \$28 million increase in management fee and other revenue predominantly attributable to revenue from the consolidation of our HOAs starting in the fourth quarter of 2017. This increase is largely offset by a corresponding decrease in cost reimbursement revenue.
- \$5 million increase in resort operations revenue primarily driven by higher available and occupied room nights and average daily rate resulting from the increase in the number of units which came on-line beginning in the second quarter of 2017.
- \$3 million increase in sales of vacation ownership products principally attributable to higher consolidated contract sales

Vacation Ownership segment operating income more than doubled to \$17 million and adjusted EBITDA was higher by \$10 million to \$41 million. Excluding the impact of the hurricanes, adjusted EBITDA would have increased \$14 million to \$45 million, 45% higher than 2017.

Exchange and Rental

Exchange and Rental segment revenue was \$153 million dollars, relatively consistent with 2017. Excluding cost reimbursements, segment revenue was up 2% to \$133 million dollars related to stronger club rental revenue resulting from the above-mentioned increase in available and occupied room nights and average daily rate.

Total Interval Network active members at quarter-end were 1.8 million, consistent with 2017, and average revenue per member was \$48.14, up 2%.

Operating income for the segment was \$35 million compared to \$37 million in 2017 reflecting the adverse impact from the hurricanes and higher professional fees largely due to costs associated with our expected transaction with Marriott Vacations Worldwide. Adjusted EBITDA for the segment was \$49 million, consistent with 2017. Excluding the estimated hurricane impact, adjusted EBITDA would have increased by 2%.

Capital Resources and Liquidity

As of June 30, 2018, ILG's cash and cash equivalents totaled \$143 million, compared to \$122 million on December 31, 2017, and we had \$242 million of eligible unsecuritized receivables.

The principal amount outstanding of long term corporate debt as of June 30, 2018 was \$555 million consisting of \$350 million 5 5/8% Senior Notes and \$205 million drawn under our revolving credit facility.

ILG had \$382 million available on its revolving credit facility, net of outstanding letters of credit as of June 30, 2018.

Net cash and restricted cash provided by operating activities in the first six months of 2018 was \$184 million compared to \$82 million. The \$102 million increase was principally due to lower inventory spend of \$81 million due to development activities at the Westin Nanea Ocean Villas in the prior year period, to higher net cash receipts partly attributable to property insurance proceeds of \$42 million related primarily to the damage caused by the 2017 hurricanes on our Westin St. John resort and to lower taxes paid of \$4 million. The increases were partly offset by \$4 million of higher interest paid (net amounts capitalized).

Net cash used in investing activities was \$18 million primarily related to capex associated with resort operations and sales and marketing locations, as well as IT initiatives. Capex in the quarter includes an offsetting \$3 million of insurance proceeds for hurricane property damage.

Net cash and restricted cash used in financing activities was \$153 million, reflecting \$86 million repayments on securitized debt, net payments of \$15 million on our revolving credit facility, dividend payments of \$43 million, and \$9 million withholding tax on the vesting of restricted stock units and shares.

Free cash flow for the six months ended June 30, 2018 was \$95 million, compared to \$23 million in 2017. The change is primarily a result of the increase in net cash provided by operating activities, and lower capital expenditures, partially offset by higher net securitization activities, including higher repayments on securitizations.

Dividends

During the first six months of 2018, ILG paid \$43 million, or \$0.35 cents per share in dividends.

Combination with Marriott Vacations

On April 30, 2018, ILG announced it had entered into an agreement whereby Marriott Vacations Worldwide, Inc. (Marriott Vacations) will acquire ILG for a combination of cash and stock consideration which values the company at approximately \$5.1 billion, based on Marriott Vacation's closing price on April 27, 2018.

ILG shareholders will receive \$14.75 per share in cash and the rest in newly issued shares of Marriott Vacations. The combination will result in ILG shareholders owning at closing approximately 43% of the company on a fully-diluted basis, based on a fixed exchange ratio. Two ILG directors will be appointed to the board of the combined company.

The transaction, which is subject to shareholder approval and other customary closing conditions, is expected to close at the end of August. More information on the transaction can be found on the ILG website, ww.ilg.com.

PRESENTATION OF FINANCIAL INFORMATION

ILG management believes that the presentation of non-generally accepted accounting principles (non-GAAP) financial measures, including, among others, EBITDA, adjusted EBITDA, adjusted net income, adjusted basic and diluted EPS, and free cash flow, serves to enhance the understanding of ILG's performance. These non-GAAP financial measures should be considered in addition to and not as substitutes for, or superior to, measures of financial performance and liquidity prepared in accordance with generally accepted accounting principles (GAAP). In addition, adjusted EBITDA (with certain different adjustments) is used to calculate compliance with certain financial covenants in ILG's credit agreement and indenture. Management believes that these non-GAAP measures improve the transparency of our disclosures, provide meaningful presentations of our results from our business operations and liquidity excluding the impact of certain items not related to our core business operations and improve the period to period comparability of results from business operations. These measures may also be useful in comparing our results to those of other companies; however, our calculations may differ from the calculations of these measures used by other companies. More information about the non-GAAP financial measures, including reconciliations of historical GAAP results to the non-GAAP measures, is available in the financial tables that accompany this press release.

GLOSSARY OF TERMS

Acquisition related and restructuring costs - Represents transaction fees, costs incurred in connection with performing due diligence, subsequent adjustments to our initial estimate of contingent consideration obligations associated with business acquisitions, and other direct costs related to acquisition activities. Additionally, this item includes certain restructuring charges primarily related to workforce reductions, costs associated with integrating acquired businesses and estimated costs of exiting contractual commitments.

Adjusted earnings per share (EPS) is defined as adjusted net income divided by the weighted average number of shares of common stock outstanding during the period for basic EPS and, additionally, inclusive of dilutive securities for diluted EPS.

Adjusted EBITDA - EBITDA, excluding, if applicable: (1) non-cash compensation expense, (2) goodwill and asset impairments, (3) acquisition related and restructuring costs, (4) other non-operating income and expense, (5) the impact of the application of purchase accounting, and (6) other special items. The Company's presentation of adjusted EBITDA may not be comparable to similarly-titled measures used by other companies.

Adjusted net income is defined as net income attributable to common stockholders, excluding the impact of (1) acquisition related and restructuring costs, (2) other non-operating foreign currency remeasurements, (3) the impact of the application of purchase accounting, (4) goodwill and asset impairments, and (5) other special items.

Ancillary member revenue - Other Interval Network member related revenue including insurance and travel related services.

Average revenue per member - Membership fee revenue, transaction revenue and ancillary member revenue for the Interval Network, Vistana Signature Network and Hyatt Residence Club for the applicable period, divided by the monthly weighted average number of Interval Network active members during the applicable period.

Club rental revenue – Represents rentals generated by the Vistana Signature Network and Hyatt Residence Club mainly to monetize inventory to provide exchanges through hotel loyalty programs.

Consolidated timeshare contract sales – Total timeshare interests sold at consolidated projects pursuant to purchase agreements, gross of incentives and net of actual cancellations and rescissions, where we have met a minimum threshold amounting to a 10% down payment of the contract purchase price during the period. For upgrade sales, we include only the incremental value purchased.

Consumer financing revenue – Includes interest income on vacation ownership mortgages receivable, as well as loan servicing fees from unconsolidated entities.

Cost reimbursements - Represents the compensation and other employee-related costs directly associated with managing properties that are included in both revenue and cost of sales and that are passed on to the property owners or homeowner associations without mark-up. Cost reimbursement revenue of the Vacation Ownership segment also includes reimbursement, without mark-up, of sales and marketing expenses, and in some cases certain other expenses pursuant to contractual arrangements. Management believes presenting gross margin without these expenses provides management and investors a relevant period-over-period comparison.

EBITDA - Net income attributable to common stockholders excluding, if applicable: (1) non-operating interest income and interest expense, (2) income taxes, (3) depreciation expense, and (4) amortization expense of intangibles.

Free cash flow – is defined as cash and restricted cash provided by operating activities less capital expenditures, plus net changes in financing-related restricted cash and net borrowing and repayment activity pertaining to securitizations, and excluding changes in operating-related restricted cash and certain payments unrelated to our ongoing core business, such as acquisition-related and restructuring costs.

Impact of the application of purchase accounting – represents the difference between amounts derived from the fair value remeasurement of assets and liabilities acquired in a business combination versus the historical basis. We believe generally this is most meaningful in the first year subsequent to an acquisition.

Management fee revenue – Represents vacation ownership property management revenue earned by our Vacation Ownership segment exclusive of cost reimbursements.

Membership fee revenue – Represents fees paid for membership in the Interval Network, Vistana Signature Network and Hyatt Residence Club.

Net leverage – Long term debt (excluding issuance costs) minus cash and cash equivalents divided by Adjusted EBITDA.

Other special items – consist of other items that we believe are not related to our core business operations. For the three and six months ended June 30, 2018 and 2017, such items include (as applicable to the respective period): (i) costs related to non-ordinary course litigation matters described in the notes to our financial statements, (ii) impact to our financial statements related to natural disasters, including Hurricane Irma and other named storms, and (iii) costs related to our Board of Director’s strategic review.

Other revenue – includes revenue related primarily to exchange and rental transaction activity and membership programs outside of the Interval Network, Vistana Signature Network and Hyatt Residence Club, sales of marketing materials primarily for point-of-sale developer use, and certain financial services-related fee income.

Rental and ancillary services revenue – Includes our rental activities such as Getaways, club rentals and owned hotel revenues, as well as associated resort ancillary revenues.

Rental management revenue – Represents rental management revenue earned by our vacation rental businesses within our Exchange and Rental segment, exclusive of cost reimbursement revenue.

Resort operations revenue – Pertains to our revenue generating activities from rentals of owned vacation ownership inventory (exclusive of lead-generation) along with ancillary resort services, in addition to rental and ancillary revenue generated by owned hotels.

Sales of vacation ownership products, net – Includes sales of vacation ownership products, net, for HVO and Vistana.

Service and membership revenue – Revenue associated with providing services including membership-related activities and exchange transactions, as well vacation ownership and vacation rental management businesses.

Total active members - Active members of the Interval Network in good standing as of the end of the period. All Vistana Signature Network and Hyatt Residence Club members are also members of the Interval Network.

Tour flow – Represents the number of sales presentations given at sales centers (other than at unconsolidated properties) during the period.

Transaction revenue – Interval Network, Vistana Signature Network and Hyatt Residence Club transactional and service fees paid primarily for exchanges, Getaways, reservation servicing and related transactions.

Volume per guest – Consolidated timeshare contract sales excluding telesales, divided by tour flow during the period.
