NEWS RELEASE

**LOEWS CORPORATION REPORTS NET INCOME OF
 \$278 MILLION FOR THE THIRD QUARTER OF 2018**

NEW YORK, November 5, 2018—Loews Corporation (NYSE:L) today reported net income for the three months ended September 30, 2018 of \$278 million, or \$0.88 per share, compared to \$157 million, or \$0.46 per share, in the prior year period. Net income for the nine months ended September 30, 2018 was \$801 million, or \$2.49 per share, compared to \$683 million, or \$2.02 per share, in the prior year period.

Net income for the three and nine months ended September 30, 2018 increased as compared to the prior year period, due to higher earnings at CNA Financial Corporation, Boardwalk Pipeline Partners, LP and Loews Hotels & Co. Lower results at Diamond Offshore Drilling, Inc. and the parent company investment portfolio partially offset the year-over-year improvement.

Book value per share increased to \$60.18 at September 30, 2018 from \$57.83 at December 31, 2017. Book value per share excluding accumulated other comprehensive income (AOCI) increased to \$62.58 at September 30, 2018 from \$57.91 at December 31, 2017.

Three Months Ended September 30, 2018 Compared to 2017

CNA's earnings increased due to improved underwriting income driven by lower net catastrophe losses for the core property & casualty business as compared to the prior year and a lower corporate tax rate from the Tax Cuts and Jobs Act of 2017 (the "Tax Act"). These increases were partially offset by lower favorable net prior year reserve development and lower net investment income driven by decreased limited partnership returns. Earnings in 2017 were impacted by a loss of \$42 million (\$24 million after tax and noncontrolling interests) on the early redemption of debt.

Diamond Offshore's results declined due to lower revenue reflecting the ongoing depressed market conditions, which impacted both rig utilization and average daily revenue. Results were also negatively impacted by a legal settlement. Earnings in 2017 were reduced by a loss of \$35 million (\$11 million after tax and noncontrolling interests) on the early redemption of debt.

Boardwalk Pipeline's earnings increased as a result of the Company now owning 100% of the business as compared to 51% in the prior year period. Net income in 2018 benefited from a lower corporate tax rate booked at the Loews level due to the Tax Act. However, on a pretax basis, earnings declined because of lower net transportation revenues, resulting primarily from a contract restructuring and reduced rates on renewing contracts and higher operating expenses primarily due to an increased asset base.

Loews Hotels & Co's earnings increased because of improved results at several owned hotels including the Loews Miami Beach Hotel, greater contributions from its joint venture properties in the Universal Orlando Resort and the lower corporate tax rate.

Income generated by the parent company investment portfolio decreased primarily due to weaker returns on equity securities and alternatives and a lower overall investment balance caused primarily by the purchase of the Boardwalk units in July 2018, partially offset by a lower corporate tax rate.

Corporate and other results were consistent with the prior year period on a pretax basis. Net income for Corporate and other in 2018 was negatively impacted by the lower corporate tax rate, which resulted in a reduced tax benefit as compared to the prior year period.

Nine Months Ended September 30, 2018 Compared to 2017

CNA's earnings increased primarily due to the reasons discussed above partially offset by lower realized investment gains in 2018 as compared with the 2017 period.

Diamond Offshore's earnings decreased primarily due to the reasons discussed above partially offset by a favorable adjustment in 2018 to an uncertain tax position recorded at year-end 2017 related to the Tax Act and lower drilling rig impairment charges in 2018. Earnings in 2017 were impacted by a loss of \$35 million (\$11 million after tax and noncontrolling interests) on the early redemption of debt.

Boardwalk Pipeline's earnings increased primarily due to the reasons discussed above. Earnings in 2017 were impacted by a loss of \$47 million (\$15 million after tax and noncontrolling interests) related to the sale of a processing facility.

Loews Hotels & Co's earnings increased primarily due to improved operating performance of Orlando joint venture properties and improved results at several owned hotels, primarily the Loews Miami Beach Hotel. The lower corporate tax rate also contributed to the year-over-year improvement.

Income generated by the parent company investment portfolio decreased due to lower performance of equity securities partially offset by improved returns on short-term investments and a lower corporate tax rate.

Corporate and other results improved before income tax due to the absence of costs related to the acquisition of Consolidated Container Company LLC in 2017. The lowering of the corporate tax rate resulted in a deterioration in Corporate and other after-tax results in 2018.

SHARE REPURCHASES

At September 30, 2018, there were 314.9 million shares of Loews common stock outstanding. For the three and nine months ended September 30, 2018, the Company repurchased 1.8 million and 17.4 million shares of its common stock at an aggregate cost of \$88 million and \$876 million. From October 1, 2018 to November 2, 2018, the Company repurchased an additional 1.0 million shares of its common stock at an aggregate cost of \$47 million. Depending on market conditions, the Company may from time to time purchase shares of its and its subsidiaries' outstanding common stock in the open market or otherwise.
