

Unaudited Consolidated Financial Statements  
June 30, 2011

August 4, 2011

## Management's Report

The accompanying unaudited consolidated financial statements of **Chorus Aviation Inc.** are the responsibility of management and have been approved by the Board of Directors. The unaudited consolidated financial statements have been prepared by management in accordance with International Financial Reporting Standards ("IFRS"). The unaudited consolidated financial statements include certain amounts and assumptions that are based on management's best estimates and have been derived with careful judgement.

In fulfilling its responsibilities, management has developed and maintains a system of internal accounting controls. These controls are designed to provide reasonable assurance that the financial records are reliable for preparation of the financial statements. The Audit, Finance and Risk Committee of the Board of Directors reviewed and approved the corporation's unaudited consolidated financial statements, and recommended their approval by the Board of Directors.

**Notes to the Unaudited Consolidated Financial Statements  
For the period ended June 30, 2011**

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

**1 General information**

Chorus Aviation Inc. (“Chorus” or the “Company”) was incorporated on September 27, 2010 under the laws of Canada. The Company entered into an arrangement agreement dated October 4, 2010 with, among other parties, Jazz Air Income Fund (the “Fund”), pursuant to which the parties agreed to implement an arrangement (the “Arrangement”) under the Canada Business Corporations Act. The Arrangement, which was effective December 31, 2010, involved the exchange, on a one-for-one basis, of units of the Fund for shares of Chorus. As a result of the Arrangement, the Unitholders of the Fund became the shareholders of Chorus. The Fund was subsequently wound up into Chorus. The Arrangement has been accounted for as a capital reorganization with Chorus, a newly created entity, acquiring all of the net assets and business of the Fund. Chorus has the same ownership before and after the Arrangement, respectively. No adjustments were made to the assets and liabilities as a result of the Arrangement except certain liabilities related to the Fund’s convertible debentures and long-term incentive plan were reclassified to equity and certain items were reclassified to adopt the presentation for a corporation. In addition, as part of the Arrangement, the equity contributed by owners for units in the amount of \$1,042,441 was reclassified from share capital to contributed surplus of the Company. As a result of becoming a corporation, Chorus is subject to Canadian federal and provincial corporate income tax on its taxable income for the period beginning on the effective date of the Arrangement. On November 18, 2010 Chorus incorporated Aviation General Partner Inc. to act as general partner for a newly formed partnership, Jazz Aviation LP (the “Partnership”). On January 5, 2011, substantially all of the assets of Jazz Air LP were transferred to the Partnership. The airline business previously carried on by Jazz Air LP is now carried on by the Partnership. On February 28, 2011, Chorus incorporated three wholly-owned subsidiaries under the Canada Business Corporations Act, as amended (“CBCA”), Chorus Leasing I Inc., Chorus Leasing II Inc., and Chorus Leasing III Inc. (collectively, the “LeaseCos”). The entities were established for the sole purpose of acquiring 15 Q400 NextGen turboprop aircraft (“Q400 aircraft”).

Reference to Chorus or the Company in the following notes to the consolidated financial statements refers to, as the context may require, Chorus, and its predecessor, the Fund and their current and former subsidiaries (Jazz Air LP, the Partnership, Jazz Air Holding GP Inc. (“Jazz GP”), Aviation General Partner Inc., 7503695 Canada Inc. (“7503695”), Jazz Air Trust and the LeaseCos) collectively, Chorus and one or more of its current or former subsidiaries, one or more of Chorus’ current or former subsidiaries, or Chorus itself. Prior to the Arrangement, the business of Chorus was conducted through the Fund, which was an unincorporated entity. As at January 1, 2010, and for the period ended March 31, 2010 and the period ended December 30, 2010, the financial statements are those of the Fund. Reference to Chorus in the following notes to the consolidated financial statements for periods and dates prior to December 30, 2010 refers to, as the context may require, the Fund and its subsidiaries Jazz Air Trust, Jazz Air LP, Jazz GP and 7503695 Canada Inc., collectively, the Fund and one or more of its current or former subsidiaries, one or more of the Fund’s current or former subsidiaries, or the Fund itself.

The registered office of Chorus is located at 100 King Street West, 1 First Canadian Place, Suite 6100, P.O. Box 50, Toronto, Ontario, M5X 1B8. Chorus has been established to acquire and hold, directly or indirectly, investments in the Partnership and its general partner Aviation General Partner Inc., 7503695, the LeaseCos and such other investments as the Board of Directors (the “Directors”) may determine.

Chorus forms an integral part of Air Canada’s domestic and transborder market presence. Chorus and Air Canada are parties to an amended and restated capacity purchase agreement, effective January 1, 2006, as amended by a letter agreement (the “Rate Amending Agreement”) dated July 28, 2009 and an amending agreement (the “CPA Amending Agreement”) dated September 22, 2009 (as amended, the “CPA”), under which Air Canada currently purchases the greater part of Chorus’ fleet capacity on aircraft operated by Chorus (the “Covered Aircraft”) at predetermined rates (the “Rates”). On March 8, 2011, Chorus and Air Canada agreed to a second amendment to the CPA (the “Second Amending Agreement”) to facilitate acquisition and leasing of the Q400 aircraft. Chorus is economically and commercially dependent upon Air Canada and certain of its subsidiaries, as, in addition to being Chorus’ primary source of revenue, these entities currently provide significant services to Chorus.

## Notes to the Unaudited Consolidated Financial Statements For the period ended June 30, 2011

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

### 1 General information (continued)

Chorus also operates Boeing 757-200 aircraft on behalf of Thomas Cook Canada Inc. ("Thomas Cook") to various sun destinations from Canadian gateways during the winter season (November through April), pursuant to a Flight Services Agreement. 2010 - 2011 represented the inaugural season of flying under the Flight Services Agreement, which will remain in place for four additional winter seasons (subject to any future extension).

Chorus has historically experienced greater demand for its services in the second and third quarters of the calendar year and lower demand in the first and fourth quarters of the calendar year. However, with the addition of flights operated on behalf of Thomas Cook, the demand in the first and third quarters of the calendar year are now expected to exceed demand in the second and fourth quarters. This new demand pattern is principally a result of the high number of leisure travelers and their preference for travel during the summer months under the CPA and the high number of leisure travelers that prefer to travel to southern destinations during the winter months under the Thomas Cook Flight Services Agreement. Chorus has substantial fixed costs that do not meaningfully fluctuate with passenger demand in the short-term. Chorus' revenues do not fluctuate significantly with Passenger Load Factors.

### 2 Basis of presentation and adoption of IFRS

Chorus prepares its financial statements in accordance with generally accepted accounting principles in Canada ("GAAP") as set out in the Handbook of the Canadian Institute of Chartered Accountants ("CICA Handbook"). In 2010, the CICA Handbook was revised to incorporate International Financial Reporting Standards ("IFRS"), and require publicly accountable enterprises to apply such standards effective for years beginning on or after January 1, 2011. Accordingly, Chorus has commenced reporting on this basis in these interim consolidated financial statements. In these financial statements, the term "Canadian GAAP" refers to Canadian GAAP before the adoption of IFRS and the term "GAAP" or "IFRS" refers to generally accepted accounting principles in Canada after the adoption of IFRS.

These interim consolidated financial statements have been prepared in accordance with IFRS applicable to the preparation of interim financial statements, including International Accounting Standards ("IAS") 34 and IFRS 1. Subject to certain transition elections disclosed in note 4, Chorus has consistently applied the same accounting policies in its opening IFRS statement of financial position at January 1, 2010 and throughout all periods presented, as if these policies had been in effect for all such periods. Note 4 discloses the impact of the transition to IFRS on Chorus' reported financial position, financial performance and cash flows, including the nature and effect of significant changes in accounting policies from those used in Chorus' consolidated financial statements for the year ended December 31, 2010.

The policies applied in these interim consolidated financial statements are based on IFRS, effective as of August 4, 2011, the date the Board of Directors approved the statements. Any subsequent changes to IFRS that are given effect in Chorus' annual consolidated financial statements for the year ending December 31, 2011 could result in restatement of these interim consolidated financial statements, including the transition adjustments recognized on change-over to IFRS.

In accordance with GAAP, these financial statements do not include all of the financial statement disclosures required for annual financial statements and should be read in conjunction with Chorus' Canadian GAAP annual consolidated financial statements for the year ended December 31, 2010, and Chorus' unaudited consolidated financial statements for the three months ended March 31, 2011. In management's opinion, the financial statements reflect all adjustments that are necessary for a fair presentation of the results for the interim period presented. Note 5 provides certain disclosures required in annual financial statements prepared in accordance with IFRS which are material to an understanding of these financial statements.

## Notes to the Unaudited Consolidated Financial Statements For the period ended June 30, 2011

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

### 3 Significant accounting policies, judgments and estimation uncertainty

#### a) Basis of measurement

These consolidated financial statements have been prepared under a historical cost basis, except for certain financial assets and financial liabilities, including derivative instruments that are measured at fair value.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Significant estimates made in the preparation of these financial statements include, but are not limited to, the following areas, with further information contained in the applicable accounting policy or note:

#### *Employee benefits*

- The cost and related liabilities of Chorus' post-employment benefit programs are determined using actuarial valuations. The actuarial valuations involve assumptions including in relation to discount rates, expected rates of return on assets, future salary increases, mortality rates and future benefit increases. Also, due to the long-term nature of these programs, such estimates are subject to significant uncertainty. See note 3(f) for further details.

#### *Income taxes*

- Management uses judgment and estimates in determining the appropriate rates and amounts in recording deferred income taxes, giving consideration to timing and probability of realization. Actual taxes could significantly vary from these estimates as a result of a variety of factors including future events, changes in income tax law or the outcome of reviews by tax authorities and related appeals. The resolution of these uncertainties and the associated final taxes may result in adjustments to Chorus' deferred and current tax assets and liabilities.

#### *Amortization period for long-lived assets*

- Chorus makes estimates about the expected useful lives of long-lived assets and the expected residual values of the assets based on the estimated current fair value of the assets, Chorus' fleet plans and the cash flows they generate. Changes to these estimates, which can be significant, could be caused by a variety of factors, including changes to maintenance programs, changes in utilization of the aircraft, and changing market prices for new and used aircraft of the same or similar types. Estimates and assumptions are evaluated at least annually. Generally, these adjustments are accounted for on a prospective basis, through depreciation and amortization expense.

#### *Impairment considerations on long-lived assets*

- An impairment test is performed by comparing the carrying amount of the asset or cash generating unit to their recoverable amount, which is calculated as the higher of an asset's or cash-generating unit's fair value less costs to sell and its value in use. Value in use is calculated based upon a discounted cash flow analysis, which requires management to make a number of significant assumptions including assumptions relating to future operating plans, discount rates and future growth rates.

Notes to the Unaudited Consolidated Financial Statements  
For the period ended June 30, 2011

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

**3 Significant accounting policies, judgments and estimation uncertainty (continued)**

*Fair value of long-term investment (LARAH)*

- Management uses judgement to value the fair value of the long-term investment in Latin American Regional Aviation Holding Corp. ("LARAH").

b) Principles of consolidation

These consolidated financial statements include the accounts of Chorus and its subsidiaries, 7503695, the LeaseCos, Jazz Air LP, Jazz GP, Aviation General Partner Inc., the special purpose entity ("SPE") which holds the Jazz long-term incentive plan ("LTIP") and the consolidated accounts of the Partnership. All inter-company and inter-entity balances and transactions are eliminated.

c) Cash and cash equivalents

Cash and cash equivalents consist of current operating bank accounts, term deposits and fixed income securities with an original term to maturity of 90 days or less.

d) Restricted cash

Chorus has recorded restricted cash under current assets relating to funds on deposit with a financial institution as collateral for letters of credit.

e) Operating revenue

Under the CPA, Chorus is paid to provide services to Air Canada, as explained in note 1. The related fees payable by Air Canada are recognized in revenue as the capacity is provided and incentive payments and margin adjustments are recognized, respectively, as increases in and reductions of, passenger revenue based on management estimates during the year when the amount of revenue can be measured reliably and it is probable that the economic benefit will flow to Chorus.

Revenue earned by Chorus under its flight services agreement with Thomas Cook and operation of charter flights is also included in passenger revenue and recognized when the service is provided. Maintenance, repair and overhaul ("MRO") operations and other sources of revenue such as third party ground handling services, are included in other revenue and are recognized when the service is provided.

The CPA with Air Canada provides for a monthly payment for an amount per aircraft designed to reimburse Chorus for certain aircraft ownership costs. In accordance with International Financial Reporting Interpretations Committee ("IFRIC") interpretation 4, *Determining Whether an Arrangement Contains a Lease*, Chorus has concluded that a component of its revenue under the CPA is rental income since the CPA identifies the "right of use" of a specific type and number of aircraft over a stated period of time otherwise known as the Covered Aircraft. The amount deemed to be rental income is \$33,814 for the three months ended June 30, 2011 (\$36,249 for the three months ended June 30, 2010) and \$67,931 for the six months ended June 30, 2011 (\$73,803 for the six months ended June 30, 2010).

**3 Significant accounting policies, judgments and estimation uncertainty (continued)**

f) Employee benefits

The significant policies related to employee benefits, consistent with IAS 19, "*Employee Benefits*" of the CICA Handbook relating to Chorus' defined benefit pension plan for its pilots, the supplemental executive retirement plan for Chorus executives, which is also a defined benefit pension plan (collectively referred to as "Pension Benefits"), and the Other Employee Benefits are as follows:

- The cost of pension benefits earned by employees is actuarially determined using the projected benefit method prorated on service, market interest rates, and management's best estimate of expected plan investment performance, salary escalation and retirement ages of employees. Obligations are attributed to the period beginning on the date the employee joins the plan and ending on the earlier of the date of termination, death or retirement. Actuarial gains and losses on the pension benefits are recognized in full in the period in which they occur in other comprehensive income and retained earnings without recycling to the statement of income in subsequent periods. Current service cost, the recognized element of any past service cost, the expected return on plan assets and the interest arising on the pension liability are included in the same line items in the statement of income as the related compensation cost.
- Other employee benefits consist of two categories of benefits:
  - Medical and dental benefits provided to employees while on long-term disability, and Worker's Compensation and Workers Safety Insurance Board benefits in respect of Ontario employees, are collectively referred to as other long-term benefits. The actuarial gains and losses for this component of other employee benefits are charged to operating expense in the year they occur.
  - Sick leave benefits are paid to certain employees upon or just prior to retirement. The actuarial gains and losses on this component of other employee benefits are charged to other comprehensive income in the year they occur.
- The cost of the other employee benefits is actuarially determined using the projected benefit method prorated on service (where applicable), market interest rates, and management's best estimate of retirement ages of employees, health care cost inflation, salary escalation and general inflation, as applicable to each of the categories of benefits.
- The expected return on plan assets is based on the long-term expected rate of return on plan assets and the fair value of the plan assets. It is reasonably possible that management's estimate of the long-term rate of return may change as management continues to assess future investments and strategies and as a result of changes in financial markets.
- Past service costs arising from plan amendments of the defined benefit pension plan and the supplemental executive retirement plan are recognized immediately in income unless the changes to the plan are conditional on the employee remaining in service for a specified period of time (the vesting period). In this case, the past service costs are recognized over the vesting period.
- The registered pension plan is subject to certain minimum funding requirements. The liability in respect of the minimum funding requirement is determined using the projected minimum funding requirements based on actuarial forecasts. The liability in respect of the minimum funding requirement and any subsequent re-measurement of that liability is recognized in other comprehensive income without subsequent reclassification to income.

Notes to the Unaudited Consolidated Financial Statements  
For the period ended June 30, 2011

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

**3 Significant accounting policies, judgments and estimation uncertainty (continued)**

- The measurement date of each of the plans' assets and obligations is December 31. Pension obligations are attributed to the period beginning on the employee's date of joining the plan and ending on the earlier of the date of termination, death or retirement. The obligations relating to other employee benefits plans are attributed to the period beginning on the employee's date of joining the plan or disablement (whichever applicable) and ending on the earlier of retirement or end of disablement or age 65 (whichever applicable).
- Chorus also maintains several defined contribution pension plans. The cost of defined contribution pension plans is charged to expense as the contributions become payable.

g) Stock based compensation

*Long-term incentive plan*

Chorus has two share-based long-term incentive plans: the Chorus Aviation Inc. long-term incentive plan (the "Chorus LTIP") and a legacy long-term incentive plan (the "Jazz LTIP").

The Chorus LTIP is a "restricted share unit" plan under which participants receive an annual grant of restricted share units that vest at the end of a three year period, if certain performance goals established at the time of grant by the board of directors are achieved. A "Performance Cycle" commences January 1 of the year in respect of which the restricted share units are granted. Restricted share units entitle the participant to receive common shares of Chorus on a one-for-one basis. Additional restricted share units representing the value of monthly dividends paid on corresponding common shares of Chorus accrue for the benefit of participants. Unvested restricted share units held by participants are forfeited if performance goals or service conditions are not met. On vesting, Chorus has the option to issue the shares from treasury or purchase them on the secondary market.

The Jazz LTIP is also a "restricted share unit" plan similar to the Chorus LTIP and applies to awards granted prior to the Arrangement. Prior to the Arrangement, participants in the Jazz LTIP were granted restricted units that vested for units of the Fund over time, if certain performance goals were met. Restricted units entitled the participant to receive units of the Fund on a one-for-one basis. Additional restricted units representing the value of monthly distributions paid on the corresponding units of the Fund accrued for the benefit of the participants. Unvested restricted units held by participants were forfeited if performance goals or service conditions were not met. On vesting, Chorus has the option to issue the shares from treasury or purchase them on the secondary market. In conjunction with the Arrangement, the terms of the restricted units of the Jazz LTIP were modified to entitle participants to receive common shares of Chorus on a one-for-one basis rather than units of the Fund. Subsequent to December 31, 2010, no further grants will be made under the Jazz LTIP.

Prior to January 1, 2010, units of the Fund used to settle the restricted units of the Jazz LTIP were purchased in the secondary market and held in a trust for the benefit of the participants until vesting occurred. In connection with the Arrangement, the trust exchanged the units of the Fund for common shares of Chorus. Distributions paid by the Fund on units held by the trust were invested in additional units, which vest concurrently and proportionately with the restricted units. Dividends paid by Chorus on common shares held by the trust are also used to invest in additional common shares and vest concurrently and proportionately with the restricted units. On forfeiture of any restricted units, the units, common shares and related distributions or dividends accrue to Chorus. The trust is a SPE which is consolidated by Chorus. The units of the Fund and the shares of Chorus held by the trust were presented as a reduction of equity.

Notes to the Unaudited Consolidated Financial Statements  
For the period ended June 30, 2011

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

**3 Significant accounting policies, judgments and estimation uncertainty (continued)**

For the Chorus LTIP, the cost of the restricted share units is measured at the fair value of the common shares of Chorus at the grant date and the number of restricted share units expected to vest. The cost is recognized as compensation cost in the statement of income from the date of grant on a straight line basis over the vesting period with a corresponding increase in equity. Chorus revises the estimate of the number of restricted stock units expected to vest when necessary, if subsequent information indicates that the number of restricted share units expected to vest differs from previous estimates.

Prior to the Arrangement, the restricted units of the Jazz LTIP were settled in units of the Fund. The units of the Fund were puttable instruments which permitted the holder to redeem the units of the Fund. This was accounted for as an other long-term employee benefit with an embedded derivative liability for the right to settle the award in units of the Fund. On the grant date, Chorus recognized the embedded derivative liability at fair value using the share price at grant date and considering the number of restricted units expected to vest. Subsequent to the grant date, the embedded derivative liability was accounted for as described in note 3(h). The employee benefit liability was accounted for at present value of the obligation at the end of the period with the obligation based on the grant date fair value of the corresponding units of the Fund, with the benefit attributed to each period for which service was provided and considering after factors such as forfeitures. Changes in the present value of the obligation were recognized in salaries, wages and benefits in the statement of income.

Upon modification of the Jazz LTIP in connection with the Arrangement, the employee benefit liability, the embedded derivative liability, and the unamortized asset related to future services were reclassified to equity. Subsequent to the modification, the costs related to future services are accounted for in the same manner as the costs under the Chorus LTIP. The vesting period over which the cost of the restricted units with performance conditions only is revised, if necessary, if the estimates of the period change.

*Deferred share units*

Non-executive directors receive a portion of their remuneration in deferred share units ("DSUs") under a DSU Plan designed to promote the alignment of interests between individual non-executive directors and the Shareholders of Chorus. DSUs have a value equivalent to the value of the Chorus shares. DSUs may only be redeemed for cash and will be paid out only subsequent to the time the director ceases to be a director, or in the case of a U.S. taxpayer, subsequent to the date such person incurs a "separation from service" under applicable U.S. law. Participating directors will receive, in respect of their DSUs, an amount equivalent to the amount of any dividends paid on the shares in the form of additional DSUs. Under the DSU Plan, participants may receive an annual grant of DSU. In addition, a participating director may elect to have his or her annual retainer and/or any additional retainer payable in the form of DSUs or a combination of DSUs and cash. DSUs are cash-settled share-based payments that are measured at fair value and recognized as a liability. The liability is remeasured at fair value each period and at the settlement date with changes in fair value recognized in the statement of income.

*Employee share ownership program*

Chorus' former employee unit purchase plan ("EUPP") was amended and restated and is now referred to as the Employee Share Ownership Plan (the "ESOP"). The ESOP permits employees to buy common shares of Chorus through payroll deduction. Under this plan, contributions made by employees are matched to a specific percentage by Chorus. These contributions are expensed to salaries, wages and benefits expense over the one year vesting period.

Notes to the Unaudited Consolidated Financial Statements  
For the period ended June 30, 2011

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

**3 Significant accounting policies, judgments and estimation uncertainty (continued)**

h) Financial instruments

Financial instruments are classified as follows:

- Asset backed commercial paper is classified as “Financial Assets at Fair Value through Profit and Loss.” These financial assets are measured at fair value, with changes in fair value recognized in the statement of income each reporting period.
- Cash and cash equivalents, restricted cash and accounts receivable are classified as “Loans and Receivables”. After their initial fair value measurement, they are measured at amortized cost using the effective interest method, less a provision for impairment, established on an account-by-account basis, based on, among other factors, prior experience and knowledge of the specific debtor and its assessment of the current economic environment.
- Chorus’ investment in LARAH, has been classified as “Available-for-Sale”. Available-for-Sale assets are non-derivative financial assets that are either designated in this category or not classified in any of the other categories. Financial assets classified as Available-for-Sale are recognized initially at fair value plus transaction costs and are subsequently carried at fair value with the changes in fair value recorded in other comprehensive income. Available-for-Sale investments are classified as non-current, unless the investment matures or management expects to dispose of them within twelve months.
- Accounts payable, distributions payable, credit facilities, long-term debt and the debt component of convertible debentures are classified as “Other Financial Liabilities”. Other Financial Liabilities are initially recognized at fair value less transaction costs, except for the debt component of the convertible debentures. Subsequent to initial recognition, Other Financial Liabilities are measured at amortized cost using the effective interest method. Prior to the Arrangement, the debt component of the convertible debentures was measured at initial recognition as the difference between the proceeds less transactions costs less the fair value assigned to the embedded conversion derivative.
- Embedded derivatives are classified as “Financial Assets or Financial Liabilities at Fair Value through Profit or Loss”. Prior to the Arrangement, the units of the Fund were puttable instruments as the units were redeemable for cash by the holder. As a result, the conversion feature was considered to be an embedded derivative liability. After initial recognition at fair value, the embedded derivatives were remeasured each period at fair value with changes in fair value recognized in non-operating income in the statement of income.
- After the Arrangement, the embedded derivative was reclassified from financial liabilities to equity at the carrying amount of \$13,026, less the related deferred tax asset of \$3,529.

*Impairment of financial assets*

At each reporting date, Chorus assesses whether there is objective evidence that a financial asset is impaired. If such evidence exists, Chorus recognizes an impairment loss, as follows:

- (i) Financial assets carried at amortized cost: The loss is the difference between the amortized cost of the loan or receivable and the present value of the estimated future cash flows, discounted using the instrument’s original effective interest rate. The carrying amount of the asset is reduced by this amount either directly or indirectly through the use of an allowance account.
- (ii) Available-for-Sale financial assets: The impairment loss is the difference between the original cost of the asset and its fair value at the measurement date, less any impairment losses previously recognized in the statement of income. This amount represents the cumulative loss in accumulated other comprehensive income that is reclassified to net income.

Notes to the Unaudited Consolidated Financial Statements  
For the period ended June 30, 2011

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

**3 Significant accounting policies, judgments and estimation uncertainty (continued)**

Impairment losses on financial assets carried at amortized cost are reversed in subsequent periods if the amount of the loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized. Impairment losses on Available-for-Sale equity instruments are not reversed.

i) Property and equipment

Property and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset. Property and equipment are depreciated to estimated residual values based on the straight-line method over their useful lives. Aircraft and flight equipment are depreciated over 20 to 30 years, with 5 - 20% estimated average residual values.

Major maintenance overhaul expenditures (“heavy checks”), including labour, are capitalized and depreciated over the expected life of the maintenance cycle. Any remaining carrying value is derecognized when the major maintenance overhaul commences. Replacement parts are recognized when the parts are replaced and depreciated over the useful life. All other costs associated with maintenance of fleet assets (including engine maintenance provided under “power-by-the-hour” arrangements) are charged to the statement of income as incurred.

Buildings are depreciated over their useful lives not exceeding 40 years on a straight-line basis. An exception to this is where the useful life of the building is greater than the term of the land lease. In these circumstances, the building is depreciated over the life of the lease.

Depreciation on other property and equipment is provided on a straight-line basis from the date assets are placed in service, to their estimated residual values, over the following estimated useful lives:

Leaseholds	Over the term of the related lease
Ground and other equipment	5 years

Property under finance leases and the related obligation for future lease payments are initially recorded at an amount equal to the lesser of fair value of the property or equipment and the present value of those lease payments. Property and equipment under finance leases are depreciated to estimated residual value over the useful life, unless there is no reasonable certainty that Chorus will obtain ownership at the end of the lease term, in which case the asset is depreciated over the shorter of the lease term and its useful life.

Residual values and useful lives of the assets are reviewed at least annually and adjusted if appropriate.

j) Transaction costs

Transaction costs that are incremental and directly attributable to the acquisition or issue of a financial asset or financial liability are recorded as follows:

- Financial assets or financial liabilities at fair value through profit and loss - expensed to net income as incurred;
- Loans and receivables, and other liabilities - included in the carrying value of the financial asset or financial liability and amortized over the expected life of the financial instrument using the effective interest method; and
- Available-for Sale Assets - included in the balance of the underlying asset.

Transaction costs for operating and finance leases are capitalized and amortized over the life of the lease on a straight-line basis.

Notes to the Unaudited Consolidated Financial Statements  
For the period ended June 30, 2011

---

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

**3 Significant accounting policies, judgments and estimation uncertainty (continued)**

k) Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of Chorus' share of the net identifiable assets of the acquired business at the date of acquisition. Goodwill is tested annually for impairment, or at any time if an indication of impairment exists, and carried at cost less accumulated impairment losses. Impairment losses on goodwill are not reversed. For the purpose of impairment testing, goodwill is tested for impairment at the operating segment level.

l) Impairment of non-financial assets

Property and equipment are tested for impairment when events or changes in circumstances indicate that the carrying amount may not be recoverable. Long-lived assets that are not amortized are subject to an annual impairment test. For the purpose of measuring recoverable amounts, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units or CGUs). The recoverable amount is the higher of an asset's fair value less costs to sell and value in use (being the present value of the expected future cash flows of the relevant asset or CGU). An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount.

Chorus evaluates impairment losses for potential reversals when events or circumstances warrant such consideration.

m) Foreign currency translation

Monetary assets and liabilities denominated in foreign currencies are translated into Canadian dollars at rates of exchange in effect at the date of the statement of financial position. Non-monetary assets, liabilities and other items recorded in income are translated at rates of exchange in effect at the date of the transaction.

n) Provisions

Provisions are recognized in other liabilities when Chorus has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and the amount can be reliably estimated. Provisions are measured at management's best estimate of the expenditure required to settle the obligation at the end of the reporting period, and are discounted to present value where the effect is material. Chorus performs evaluations to identify onerous contracts and, where applicable, records provisions for such contracts.

o) Aircraft lease payments

Total aircraft rentals under operating leases and the related lease inducements received and fees paid over the lease term are amortized to operating expense on a straight-line basis. Prepaid aircraft rentals and related fees are the difference between the straight-line aircraft rent and the payments stipulated under the lease agreements and legal and related transaction fees associated with the leases. Current and non-current unamortized lease inducements are included in accounts payable and accrued liabilities and other long-term liabilities, respectively.

p) Spare parts, materials and supplies

Spare parts, materials and supplies are valued at the lower of cost, determined on a first in, first out basis, and net realizable value.

Notes to the Unaudited Consolidated Financial Statements  
For the period ended June 30, 2011

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

**3 Significant accounting policies, judgments and estimation uncertainty (continued)**

q) Income taxes

Chorus uses the asset and liability method for accounting for income taxes.

Current tax assets and liabilities for the current and prior periods are measured at the amounts expected to be paid or recovered, using tax rates and tax laws that have been enacted or substantively enacted by the end of the period.

Deferred tax assets and liabilities are recognized for all future tax consequences attributable to the differences between the financial statement carrying amounts of assets and liabilities and their respective tax bases, except for the initial recognition of goodwill and the initial recognition of an asset or liability, which at the time of the transaction, affects neither accounting profit nor taxable profit or loss. Deferred tax assets are also recognized for unused tax losses and unused tax credits. Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilized. Deferred tax assets and liabilities are measured using enacted or substantively enacted tax rates and tax laws expected to apply when the carrying amount of the assets or liabilities are recovered or settled or the unused losses are expected to be utilized.

Current and deferred income tax expense is recognized in the statement of income for the period, except to the extent that the income taxes related to a transaction or event which is recognized, in the same or different period, either in other comprehensive income or directly in equity.

r) Earnings per share (unit)

Earnings per share are calculated on a weighted average number of shares or units outstanding basis. Shares or units held under the stock based compensation plans reduce the weighted average number of outstanding shares or units from the date they are contributed to the plan.

Diluted earnings per share are presented for the effects of all dilutive potential common shares by adjusting the net income attributable to Chorus shareholders and the weighted average number of shares outstanding, as follows:

- (i) for convertible debentures, by adding back to net income the after-tax effect of any interest expense or other changes recognized in the statement of income, and by adding to the weighted average number of common shares outstanding, the weighted average number of common shares that would be issued on the conversion of the convertible debentures at the later of the beginning of the period, or the date the convertible debentures were issued.
- (ii) for the restricted share units under the Chorus and Jazz LTIPs, by adding to the weighted average number of common shares outstanding, the number of potential common shares that would be issued if the end of the period were the end of the performance period based on the grants as of the beginning of the period or the grant date, if later.

Prior to the Arrangement, the units of the Fund were puttable instruments. For purposes of calculating the net earnings per unit, the units have been considered to be equivalent to ordinary shares as defined in IAS 33, earnings per share. The calculation of diluted earnings per unit was accounted for on a similar basis as diluted earnings per share with the fair value gain or loss on the revaluation of the embedded derivative liability being reversed for the purpose of calculating diluted earnings per unit.

Notes to the Unaudited Consolidated Financial Statements  
For the period ended June 30, 2011

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

**3 Significant accounting policies, judgments and estimation uncertainty (continued)**

s) Dividends

Dividends payable by Chorus to its shareholders, which are determined at the discretion of the Directors, are recorded when declared. Distributions payable by the Fund were recorded when declared.

t) Assets held for resale

Long-term assets held for sale are classified as current assets if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition. It is anticipated that the sale will be completed within one year from the date of classification.

**Accounting standards issued but not yet applied**

*IFRS 9, Financial Instruments*

The International Accounting Standards Board ("IASB") has issued IFRS 9, "Financial Instruments" ("IFRS 9"), effective for annual periods beginning on or after January 1, 2013, with early adoption permitted. IFRS 9 introduces new classification and measurement requirements for financial instruments. Chorus continues to assess the impact of IFRS 9 on its consolidated statement of income and financial position.

*IFRS 10, Consolidated Financial Statements*

The IASB issued IFRS 10, "Consolidated Financial Statements" ("IFRS 10"), effective for annual periods beginning on or after January 1, 2013. IFRS 10 replaces portions of IAS 27, "Consolidated and Separate Financial Statements" ("IAS 27") that addresses consolidation, and supersedes Standing Interpretations Committee ("SIC") SIC-12 in its entirety. The objective of IFRS 10 is to define the principles of control and establish the basis of determining when and how an entity should be included within a set of consolidated financial statements. IAS 27 has been amended to reflect the issuance of IFRS 10 and retains guidance only for separate financial statements. Chorus continues to assess the impact of IFRS 10 on its consolidated statement of income and financial position.

*IFRS 11, Joint Ventures*

The IASB issued IFRS 11, "Joint Ventures" ("IFRS 11"), effective for annual periods beginning on or after January 1, 2013. IFRS 11 supersedes IAS 31, "Interest in Joint Ventures" and SIC-13, "Jointly Controlled Entities - Non Monetary Contributions by Venturers". Through an assessment of the rights and obligations in an arrangement, IFRS 11 establishes principles to determine the type of joint arrangement and guidance for financial reporting activities required by the entities that have an interest in arrangements which are controlled jointly. As a result of the issuance of IFRS 10 and IFRS 11, IAS 28, "Investments in Associates and Joint Ventures" ("IAS 28") was amended to reflect the guidance provided in IFRS 10 and IFRS 11. Currently, this standard has no impact on the consolidated financial statements of Chorus.

*IFRS 12, Disclosure of Interests in Other Entities*

The IASB issued IFRS 12, "Disclosure of Interests in Other Entities" ("IFRS 12") effective for annual periods beginning on or after January 1, 2013. IFRS 12 requires extensive disclosures relating to a company's interests in subsidiaries, joint arrangements, associates, and unconsolidated structured entities. IFRS 12 enables users of the financial statements to evaluate the nature and risks associated with its interests in other entities and the effects of those interests on its financial position and performance. Chorus continues to assess the impact of IFRS 12 on its consolidated statement of income and financial position.

Notes to the Unaudited Consolidated Financial Statements  
For the period ended June 30, 2011

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

**3 Significant accounting policies, judgments and estimation uncertainty (continued)**

*IFRS 13, Fair Value measurement*

The IASB issued IFRS 13, "Fair Value Measurement" ("IFRS 13") effective for annual periods beginning on or after January 1, 2013. IFRS 13 defines fair value, provides guidance in a single framework for measuring fair value and identifies the required disclosures pertaining to fair value measurement. Chorus continues to assess the impact of IFRS 13 on its consolidated statement of income and financial position.

**4 Transition to IFRS**

Chorus adopted IFRS effective January 1, 2011. Prior to the adoption of IFRS, Chorus prepared its financial statements in accordance with Canadian GAAP. Chorus' transition date was January 1, 2010 and Chorus has prepared its opening IFRS statement of financial position at that date. These financial statements have been prepared in accordance with the policies referenced in note 3. Chorus will ultimately prepare its opening statement of financial position and financial statements for 2010 and 2011 by applying existing IFRS with an effective date of December 31, 2011, or prior. Accordingly, the opening statement of financial position and financial statements for 2010 and 2011 may differ from these financial statements.

**Transition elections**

In preparing these statements in accordance with IFRS 1, *First time adoption of International Financial Reporting Standards* ("IFRS 1"), Chorus has applied the following optional exemptions from full retrospective application of IFRS:

- Employee benefits - As at January 1, 2010, Chorus has elected to recognize all unamortized actuarial gains and losses through retained earnings.
- Business combinations - Chorus has elected to retrospectively apply the guidance under IFRS to the business combination with Jazz Air LP, which occurred in 2007. All prior business combinations will not be revisited by applying the IFRS 1 election.
- Fair value on revaluation as deemed cost - Under Canadian GAAP, Chorus applied fresh start reporting on September 30, 2004. As a result, all consolidated assets and liabilities of Chorus were reported at fair values, except for deferred income taxes. As permitted under IFRS 1, Chorus has elected to apply those fair values as deemed cost for IFRS as at the date of the revaluation, with the exception of intangible assets and goodwill, which is measured at historical cost without the application of the fresh start fair values.

In addition to the optional exemptions noted above, IFRS 1 specifies that estimates made in accordance with IFRS at the date of transition to IFRS shall be consistent with estimates made for the same date in accordance with Canadian GAAP. Chorus' estimates at the date of transition to IFRS are consistent with estimates made in accordance with Canadian GAAP or based on information that reflects conditions that existed at the date of transition to IFRS.

#### 4 Transition to IFRS (continued)

##### Explanation of adjustments restating equity from Canadian GAAP to IFRS as at January 1, 2010

###### a) Business combinations

Under Canadian GAAP, Chorus accounted for its acquisition of Jazz Air LP at fair value. Under IFRS, Chorus has determined that the transaction can be accounted for as a common control transaction and recorded using predecessor carrying values of Jazz Air LP.

###### *Impact:*

###### Consolidated Statement of Financial Position

- There has been no accounting recognition of the CPA asset of \$676,046, and \$136 of the Jazz tradename as at January 1, 2010. These adjustments are made through retained earnings.

###### Consolidated Income Statement

- No recognition of amortization expense related to the CPA asset recorded in the statement of income (under Canadian GAAP this was \$8,048 for the three months ended June 30, 2010 and \$16,096 for the six months ended June 30, 2010).

###### b) Property and equipment

Under Canadian GAAP, the cost of major maintenance overhaul expenditures are charged to the income statement as incurred. Under IFRS, major maintenance overhaul expenditures on owned and finance leased aircraft will be treated as a separate asset component with the cost capitalized and depreciated over the expected period to the next major maintenance overhaul.

###### *Impact:*

###### Consolidated Statement of Financial Position

- At January 1, 2010, property and equipment increased by \$13,829 with an offsetting increase to retained earnings.

###### Consolidated Income Statement

- Maintenance and labour expense recorded under Canadian GAAP for the three and six months ended June 30, 2010 decreased by \$2,112 and \$3,898, respectively.
- Depreciation and amortization for the three and six months ended June 30, 2010 increased by \$3,052 and \$6,155, respectively.

Notes to the Unaudited Consolidated Financial Statements  
For the period ended June 30, 2011

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

**4 Transition to IFRS (continued)**

c) Employee benefits

- Actuarial gains and losses

Under Canadian GAAP, Chorus applied the corridor method of accounting for all actuarial gains and losses. Under this method, gains and losses are recognized only if they exceed 10% of the greater of the projected benefit obligation or market related value of plan assets at the beginning of the year. If gains or losses exceeded the threshold, they were amortized into income over the expected remaining service life of active employees.

Under IFRS, Chorus has chosen to recognize actuarial gains and losses arising from the re-measurement of pension benefits and sick leave benefits in other comprehensive income as they arise. Actuarial gains and losses from non-pension employee benefits are recognized in net income as they arise.

- Minimum funding requirements

On January 1, 2010, an additional liability was recognized under the provisions of IFRIC 14 related to minimum funding requirements for the defined benefit pension plan under pension funding regulations to reflect contributions payable that will not be available after being paid into the plan for a refund or reduction of future contributions.

*Impact:*

Consolidated Statement of Financial Position

- The following table highlights the changes to Pension Benefits and Other Employee Future Benefits at January 1, 2010.

	Defined Benefit Pension Plan ("RPP") \$	Supplemental Executive Retirement Plan ("SERP") \$	Other Employee Future Benefits \$	Total \$
Net benefit asset (obligation) - Canadian GAAP	7,061	4,255	(8,062)	3,254
Recognize all cumulative actuarial gains and losses on transition	(8,604)	(1,446)	(1,577)	(11,627)
Additional minimum funding liability under IFRIC 14	(22,186)	-	-	(22,186)
Pension and other benefit liabilities	(23,729)	2,809	(9,639)	(30,559)

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

#### 4 Transition to IFRS (continued)

##### Consolidated Income Statement

- Wages, salaries and benefits increased by \$377 for the three and six months ended June 30, 2010.

##### Consolidated Statement of Comprehensive Income

- Under IFRS, a charge of \$2,093 was recorded to other comprehensive income for the year ended December 31, 2010 (three and six months ended June 30, 2010 - \$2,807).

##### d) Derivative liabilities

Prior to the Arrangement, the units of the Fund were considered to be puttable instruments as the units were redeemable. As a result, any rights to convert the convertible debentures or receive units of the Fund under the Jazz LTIP were rights to receive puttable interests. IFRS does not permit such rights to be classified as equity.

On January 1, 2010, under GAAP, the debt component of convertible debentures was classified as an Other Financial Liability and the conversion feature as an embedded derivative liability as explained in note 3. On initial recognition, the embedded derivative was recognized at fair value with the difference between the proceeds received, net of transaction costs, and the embedded derivative assigned to the debt component. Under Canadian GAAP, the debt component was accounted for at amortized cost and was initially measured at fair value and the conversion feature was accounted for as equity and initially measured as the difference between the proceeds received, net of transaction costs, and the debt component assigned to the equity component.

On January 1, 2010, under GAAP, the restricted units granted under the Jazz LTIP were classified as financial liabilities at fair value through profit or loss and accounted for as explained in note 3. Under Canadian GAAP, the restricted units were accounted for as equity settled stock based compensation with the accrued costs recognized in equity.

##### *Impact.*

##### Consolidated Statement of Financial Position

- On transition, these equity components for the conversion feature and the restricted units with a carrying amount of \$6,765 were eliminated, and liabilities of \$6,868 were recognized for the conversion feature embedded in the convertible debenture and the restricted units of the Jazz LTIP with the difference reflected in retained earnings.

##### Consolidated Income Statement

- Changes in fair value of the derivatives throughout 2010 resulted in a \$7,333 loss for the three months ended June 30, 2010 and a \$4,026 loss for the six months ended June 30, 2010, recognized in non-operating expense.
- The adjustment to the debt component of the convertible debenture resulted in an increase to interest expense of \$45 and \$59 for the three and six months ended June 30, 2010, respectively.
- As the compensation cost was based on the initial fair value of the derivative on the grant date, the compensation cost included in salaries, wages and benefits decreased by \$340 and \$672 for the three and six months ended June 30, 2010, respectively.

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

#### 4 Transition to IFRS (continued)

e) Fresh start accounting

*Accounting policy differences*

Under IFRS, there are no explicit standards related to fresh start reporting or when an entity undertakes a financial reorganization.

Under Canadian GAAP, Chorus applied fresh start reporting on September 30, 2004. As a result, all consolidated assets and liabilities of Chorus were reported at fair values. Goodwill is not recognized upon adoption of fresh start reporting. Under fresh start reporting, retained earnings and contributed surplus were reset to zero.

Chorus' intangible assets under Canadian GAAP as of September 30, 2004, arose on the basis of valuations performed on September 30, 2004, following the application of fresh start reporting. In accordance with IFRS 1, the Company has elected to reverse the intangible assets that were established in accordance with Section 1625 of the CICA Handbook, *Comprehensive Revaluation of Assets and Liabilities*.

*Impact.*

The impact arising from the change is summarized as follows:

Consolidated Statement of Financial Position

- At January 1, 2010, goodwill, which was reported by Chorus prior to the application of fresh start reporting under Canadian GAAP of \$6,693, was reinstated with a corresponding increase to retained earnings.
- At January 1, 2010, intangible assets decreased by \$6,300, representing the derecognition of Canadian GAAP intangible assets that were established in accordance with fresh start reporting with a corresponding decrease to retained earnings.

f) Deferred tax

Changes to deferred income tax assets and liabilities and the related deferred tax expense or recovery are the result of the following factors:

- Changes to the accounting values from Canadian GAAP to IFRS.
- Chorus' tax rate under an income trust structure in IFRS assumes the highest marginal personal tax rate in the province of operation, Nova Scotia, to calculate the deferred tax balance. On conversion to a corporation in the fourth quarter of 2010 Chorus calculated deferred tax using substantively enacted corporate tax rates as prescribed in the income tax act.
- Under IFRS, deferred tax assets or liabilities are not recognized if they arise from the initial recognition of goodwill; or if they arise from the initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss.

Notes to the Unaudited Consolidated Financial Statements  
For the period ended June 30, 2011

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

**4 Transition to IFRS (continued)**

*Impact:*

Consolidated Statement of Financial Position

The following table highlights the changes to deferred income tax assets and liabilities:

	December 31, 2010 \$	January 1, 2010 \$
Deferred income tax asset / (liability) - Canadian GAAP	61,976	(13,294)
Changes to accounting values	5,782	2,958
Tax rate changes	-	23,564
Initial recognition exemption	(40,536)	31,887
Deferred income tax asset	27,222	45,115

**Impact on statement of cash flows**

The accounting policy under IFRS for major maintenance overhaul expenditures as explained in note 3(i) differs from Canadian GAAP. As a result, the expenditures that are capitalized under IFRS which were previously expensed under Canadian GAAP, have been reclassified from operating activities to investing activities. On the consolidated statement of cash flows \$2,112 and \$3,898 has been reclassified (as additions to property, plant and equipment) from operating activities to investing activities for the three and six months ended June 30, 2010, respectively.

**5 Additional IFRS information for the year ended December 31, 2010**

The following provides certain disclosures required in annual financial statements prepared in accordance with IFRS, which are material to an understanding of the December 31, 2010 annual financial statements.

**Commitments**

On April 30, 2010, Chorus signed a purchase agreement with Bombardier Inc. regarding a firm order for 15 Q400 aircraft and options for 15 additional aircraft. Chorus took delivery of the first Q400 aircraft on May 26, 2011 and the second Q400 aircraft on June 27, 2011.

The purchase agreement with Bombardier required on-going monthly predelivery payments in the aggregate amount of \$33,762. As at June 30, 2011, Chorus has made all of the required predelivery payments.

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

**5 Additional IFRS information for the year ended December 31, 2010 (continued)**

**Pension and other future employee benefits**

Information about Chorus' defined benefit plans and other future employee benefits in aggregate, is as follows:

	For the year ended December 31, 2010	
	Pension Benefits \$	Other Future Employee Benefits \$
<b>Change in benefit obligation</b>		
Benefit obligation, beginning of year	126,456	9,639
Current service cost	8,238	1,739
Interest cost	9,202	592
Plan participants' contributions	6,432	-
Benefits paid	(4,253)	(1,237)
Actuarial loss	25,313	2,497
<b>Benefit obligation, end of year</b>	<b>171,388</b>	<b>13,230</b>
<b>Change in plan assets</b>		
Fair value of plan assets, beginning of year	127,721	-
Expected return on plan assets	8,787	-
Employer contribution	21,684	1,237
Plan participants' contributions	6,432	-
Benefits paid	(4,252)	(1,237)
Actuarial gain	3,351	-
<b>Fair value of plan assets, end of year</b>	<b>163,723</b>	<b>-</b>
<b>Funded status, end of year</b>	<b>(7,665)</b>	<b>(13,230)</b>
<b>Accrued contributions</b>	<b>1,035</b>	<b>-</b>
<b>Additional liability under IFRIC 14</b>	<b>(2,071)</b>	<b>-</b>
<b>Accrued benefit asset (liability)</b>	<b>(8,701)</b>	<b>(13,230)</b>

The expected return on assets assumption was determined in consultation with Chorus' actuary, based on the target allocations of the pension plans and median returns at the end of 2010. Expected returns for the categories of plan assets are as follows:

- Equities - 7.7%
- Fixed Income - 3.6%

**Reconciliation of total tax expense**

The effective rate on the Company's earnings before income tax differs from the expected amount that would arise using the combined Canadian Federal and Provincial statutory income tax rates. A reconciliation of the difference is as follows:

	2011 %	Three months ended June 30, 2011 \$	2010 %	2010 \$
Income tax expense at the Canadian statutory tax rate	28.3	6,518	50.0	7,642
Deductible trust distributions	-	-	(60.3)	(9,215)
Recognition of previously unrecognized tax deductible amounts	(7.4)	(1,705)	(21.9)	(3,348)
Non-deductible expenses	7.4	1,698	5.9	900
Tax effect of temporary differences reversing after period end	(1.6)	(371)	(12.5)	(1,903)
<b>Income tax expense (recovery)</b>	<b>26.7</b>	<b>6,140</b>	<b>(38.8)</b>	<b>(5,924)</b>

	2011 %	Six months ended June 30, 2011 \$	2010 %	2010 \$
Income tax expense at the Canadian statutory tax rate	28.3	12,002	49.1	15,475
Deductible trust distributions	-	-	(50.8)	(16,008)
Recognition of previously unrecognized tax deductible amounts	(7.5)	(3,186)	(18.7)	(5,895)

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

**5 Additional IFRS information for the year ended December 31, 2010 (continued)**

**Deferred tax**

Components of the net deferred income tax asset are as follows:

	June 30, 2011 \$	December 31, 2010 \$	January 1, 2010 \$
Deferred income tax liability			
- Deferred Partnership income	(4,035)	-	-
- Convertible debentures	(932)	(1,048)	(54)
Deferred income tax asset			
- Property and equipment	4,632	9,709	16,220
- Deferred lease inducement	11,138	10,246	18,357
- Other long-term liabilities	6,627	8,315	10,592
<b>Net deferred income tax asset</b>	<b>17,430</b>	<b>27,222</b>	<b>45,115</b>

In addition to the tax assets recognized in the financial statements that give rise to the above temporary timing differences in the deferred tax account, Chorus has other tax deductible amounts of approximately \$623,789 as at June 30, 2011 (December 31, 2010 - \$639,337 and January 1, 2010 - \$394,879) related to cumulative eligible capital. In accordance with the initial recognition exemption, as outlined in IAS 12, the benefit of these deductible expenditures will not be recognized in the financial statements until such time that those benefits can be applied to reduce current tax expense.

Notes to the Unaudited Consolidated Financial Statements

**7 Long-term debt**

On March 10, 2011, Chorus signed loan agreements with Export Development Canada (“EDC”), which in total provided committed financing for the majority of the purchase price of each of the 15 firm Q400 aircraft orders, with a maturity of 12 years. The remaining amount will be funded by applying aircraft deposits previously made by Chorus to the manufacturer and from working capital.

Long-term debt consists of the following:

	June 30, 2011 \$
\$36,449 owing under two separate term loans, repayable in semi-annual installments ranging from \$969 to \$979, including fixed interest at a weighted average rate of 4.195%, maturing between May 2023 and June 2023, each secured by one Q400 aircraft and two PWA 150A engines.	36,449
Less: Current portion	2,393
	<u>34,056</u>

Future principal repayments on long-term debt are as follows:

	\$
2011	1,184
2012	2,443
2013	2,547
2014	2,655
2015	2,767
Thereafter	24,853

Under its financing agreement with EDC, beginning in the second quarter of 2011, the “Jazz Group” (currently comprised of Jazz and the LeaseCos) is required to maintain a maximum adjusted leverage ratio of 2.25:1 and a minimum adjusted interest coverage ratio of 1.66:1. As at June 30, 2011, the “Jazz Group” is in compliance with these covenants. Failure by the Jazz Group to satisfy either such ratio at an applicable time would constitute an event of default under the financing agreement, which could have an adverse material impact on Chorus.

At June 30, 2011, the fair value of the fixed rate term loan approximates carrying value. These fair values have been calculated by discounting the future cash flow of the respective long-term debt at the estimated yield to maturity of similar debt instruments.

The term loans bear fixed interest rates. Therefore, this debt is not subject to interest rate volatility. Chorus accounts for its long-term debt at amortized cost, and therefore, a change in interest rates at June 30, 2011 would not impact earnings.

## 9 Economic dependence (continued)

### Capacity Purchase Agreement

Chorus is party to the CPA with Air Canada, under which Air Canada purchases the capacity of certain specified aircraft operated by Chorus under the tradename of “Air Canada Express”, formerly “Air Canada Jazz” on routes specified by Air Canada. Under this agreement, Chorus is required to provide Air Canada with the capacity of the specified aircraft, all crews and applicable personnel, aircraft maintenance, and airport operations for such flights. Air Canada determines routes and controls scheduling, sets ticket prices, determines seat inventories, and performs marketing and advertising for these flights. Air Canada retains all revenue derived from the sale of seats to passengers and cargo services and pays Chorus for the capacity provided.

Chorus is paid fees, on a monthly basis, for the capacity provided. These fees consist of a number of variable components based on different metrics, including block hours flown, flight hours, cycles (number of take-offs and landings), number of passengers and number of aircraft covered by the CPA. The Rates for these metrics are fixed for annual periods and vary by aircraft type with current Rates in effect until December 31, 2011. In addition, Air Canada is required to reimburse Chorus for certain pass-through costs, including fuel, de-icing, navigation, landing and terminal fees, station provisioning costs, station termination costs, passenger liability insurance and certain employee relocation costs. As these costs are required to operate the aircraft provided under the CPA, the reimbursement of these costs are included in revenue.

The fees which are related to controllable costs are paid on the first day of each month based on estimates for that month. Such estimates are reconciled at the end of the month for actual amounts and true-up payments are made no later than the 30<sup>th</sup> day of the following month. Pass-through costs are reimbursed by Air Canada 30 days following the month in which they were incurred.

Pursuant to the terms of the CPA, Chorus and Air Canada agreed to re-set detailed Rates (subject to the terms of the contract) applicable to the period commencing on January 1, 2009 and ending on December 31, 2011. During the first quarter of 2009, Chorus reached an agreement with Air Canada regarding the establishment of new Rates for controllable costs that are payable by Air Canada under the CPA for the three-year period ending December 31, 2011. The new Rates were retroactive to January 1, 2009.

Chorus is also paid certain performance incentive payments on a quarterly basis related to on-time performance, controllable flight completion, baggage handling performance and other customer satisfaction criteria. Rates negotiated under the CPA were initially established to provide a mark-up of 16.72% on Chorus' controllable costs.

### Amendments to the CPA

On September 22, 2009, Chorus and Air Canada executed the CPA Amending Agreement to document certain amendments to the CPA, including those amendments described below.

The CPA Amending Agreement extends the initial term of the CPA from December 31, 2015 to December 31, 2020 and provides greater certainty regarding the number of annual Block Hours to be scheduled for flying by Chorus. Block Hours are calculated by adding the number of minutes elapsing from the time the chocks are removed from the wheels of an aircraft until the chocks are next again returned to the wheels of the aircraft, divided by 60 (“Block Hours”). Under the CPA Amending Agreement, Air Canada agreed to use reasonable commercial efforts to provide a minimum of 375,000 total annual Block Hours to Chorus, as measured by the sum of the twelve monthly schedules delivered by Air Canada to Chorus for a calendar year (the “Annual Delivered Block Hours”). In addition, Air Canada and Chorus agreed that the minimum average daily utilization per aircraft, measured in Block Hours, will not result in less than 339,000 annual Block Hours (the minimum average daily utilization guarantee or “MADUG”), notwithstanding the temporary reduction in the number of Covered Aircraft to 123 aircraft and the subsequent permanent reduction in the number of Covered Aircraft to 125, subject to Air Canada's one-time right to revise the MADUG in the circumstances described below.

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

## 9 Economic dependence (continued)

In addition to establishing the annual minimum number of Block Hours on which the MADUG is based, the CPA Amending Agreement provides Air Canada with the right to revise the MADUG effective in January 2016 in the event Air Canada's domestic market share for the twelve month period from October 1, 2014 to September 30, 2015 has decreased by a fixed percentage compared to its domestic market share for the twelve month period from August 1, 2008 to July 31, 2009. In the event of such a decrease, the CPA Amending Agreement requires that Air Canada and Chorus agree to a revised MADUG by November 17, 2015, failing which Air Canada shall have the right to unilaterally set a revised MADUG by sending Chorus notice by November 20, 2015. The CPA Amending Agreement provides Chorus with the right to send Air Canada notice by December 18, 2015 of its intention to either accept the revised MADUG or exercise its right to terminate the CPA as of December 31, 2016.

The CPA Amending Agreement also amended the Rates established for the rate period commencing January 1, 2009 and ending on December 31, 2011 (the "2009-2011 Rate Period"). The Rates previously negotiated provided a mark-up of 16.72% on Chorus' Controllable Costs. However, pursuant to the terms of the CPA Amending Agreement, Air Canada and Chorus agreed that the Controllable Mark-Up of 16.72% shall only apply as of and from January 1, 2009 through to July 31, 2009. Effective August 1, 2009, an agreed set of revised Rates became effective, under which Chorus applies a Controllable Mark-Up of 12.50% on Chorus' Controllable Costs.

The CPA Amending Agreement also provides for adjustments to the Controllable Mark-Up in certain circumstances. Commencing January 1, 2010, if the Annual Delivered Block Hours are less than 375,000 Block Hours, the Controllable Mark-Up will be increased, to a maximum of 16.72%, to compensate Chorus for increased unit costs and lost margin due to the reduction in flying. If, on the other hand, the Annual Delivered Block Hours are greater than 375,000 Block Hours, the Controllable Mark-Up of 12.50% shall only apply to Chorus' fixed controllable charges and the Controllable Mark-Up of 12.50% shall be reduced to 5% on Chorus' variable controllable charges for Block Hours in excess of 375,000.

The Controllable Mark-Up may be reduced as a result of benchmarking Chorus' Controllable Costs to those of a group of comparable operators (the "Comparable Operators"). Under the First Amending Agreement, this benchmarking was to be effected in 2010 (based on information from Chorus' 2009 calendar year - the "2009 Benchmark") and again in 2016 (using information from Chorus' 2015 calendar year - the "2015 Benchmark"). If the 2009 Benchmark reveals that the percentage difference between Chorus' Unit Costs and the median controllable unit costs, stage length adjusted, of the Comparable Operators has increased compared to the percentage difference of these costs for the twelve month period beginning July 1, 2006 and ending June 30, 2007, the Controllable Mark-Up shall be reduced accordingly with effect as of January 1, 2010 until December 31, 2020 (unless as a result of the 2015 Benchmark it is further reduced) to the lower of 12.50% or the percentage that is equal to 16.72% minus the change in Controllable Mark-up resulting from the 2009 Benchmark. If the 2015 Benchmark indicates that percentage difference between Chorus' Controllable Costs and the median controllable unit costs, stage length adjusted, of the Comparable Operators has increased compared to the percentage difference determined during the 2009 Benchmark, the Controllable Mark-Up then in effect shall be reduced based on the results of the 2015 Benchmark, with effect as of January 1, 2016 until December 31, 2020. The comparison of Chorus' Unit Costs to the median controllable unit costs, stage length adjusted, shall be subject to adjustments required to reflect the differences between Chorus and each Comparable Operator in fleet type and size, aircraft utilization, currency, geographical deployment and growth relative to Chorus.

Chorus and Air Canada were unable to reach agreement in 2010 on the results of the 2009 Benchmark. On February 3, 2011, Chorus and Air Canada agreed to proceed to binding arbitration in respect of the 2009 Benchmark. It is anticipated that the arbitration will cover the methodology of approach for comparing Chorus' Unit Costs to the adjusted median controllable unit costs of the Comparable Operators in respect of which Chorus and Air Canada have not been able to agree. Although Chorus believes that the methodology it has proposed is both fair and reasonable and consistent with the relevant provisions of the First Amending Agreement, there can be no assurances that the methodology Chorus has proposed will ultimately be the basis of conducting the benchmarking exercise as a result of the arbitration process. If Chorus' methodology is not consistent with any arbitration decision, operating results and financial condition may be negatively impacted by any resulting reduction in the Controllable Mark-Up.

Notes to the Unaudited Consolidated Financial Statements  
For the period ended June 30, 2011

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

**9 Economic dependence (continued)**

The CPA Amending Agreement provides for amendments to the long range fleet plan, reflecting the agreement of Air Canada and Chorus to renew the fleet of Covered Aircraft. Air Canada and Chorus agreed that the fleet of Covered Aircraft shall be reduced from 133 aircraft to a guaranteed minimum number of 125 aircraft (the "Guaranteed Minimum Number of Covered Aircraft"). The reduction in Covered Aircraft to the Guaranteed Minimum Number of Covered Aircraft was completed in April 2010. The return of the ten aircraft temporarily reduced the fleet of Covered Aircraft to 123 aircraft.

Pursuant to the terms of the CPA Amending Agreement, Air Canada and Chorus also agreed, effective as of August 1, 2009, to treat the rent charged to Chorus for four of the CRJ-100 aircraft as a pass-through cost.

On March 8, 2011, Chorus and Air Canada agreed to an amendment to the CPA (the "Second Amending Agreement") to facilitate acquisition and leasing of the Q400 aircraft. Under the Second Amending Agreement, Air Canada agreed that the Q400 aircraft may be acquired by one or more of Chorus' subsidiary leasing companies, which will then lease such aircraft to Jazz Aviation LP, as Covered Aircraft. The parties also agreed to the timing of scheduling of the Q400 aircraft into commercial service, based upon the anticipated delivery date of such aircraft.

The initial Q400 aircraft was delivered on May 26, 2011, and entered into service on June 7, 2011. Effective July 1, 2011, following the entry of the second Q400 aircraft into service, the number of aircraft comprising the Covered Aircraft returned to 125, being the Guaranteed Minimum Number of Covered Aircraft. Upon the delivery of each remaining Q400 aircraft, one CRJ-100 will be removed from the fleet of Covered Aircraft, such that the number of aircraft shall remain at the Guaranteed Minimum Number of Covered Aircraft.

**Margin adjustment**

As a result of the CPA Amending Agreement, the controllable target margin has been reduced from 14.32% to 11.11% effective August 1, 2009. With respect to each calendar year after 2009, during the remaining term of the CPA, if the annual margin for flights provided under the CPA is greater than 11.11%, Chorus will pay Air Canada an amount equal to 50% of the dollar value of the margin exceeding 11.11%. Margin represents the total operating revenue from scheduled flights under the CPA less expenses incurred related to such flights, including employee profit sharing expenses; however, it excludes incentive and pass-through revenue. This margin adjustment for the three months ended June 30, 2011 of \$nil (2010 - \$nil) is accounted for as a reduction of revenue.

**Master Services Agreement**

Under a master services agreement dated September 24, 2004, between Chorus and Air Canada, Air Canada provides certain services to Chorus for a fee. These services include insurance and corporate real estate services, environmental affairs services and legal services.

The master services agreement will continue in effect until the termination or expiration of the CPA, but individual services can be amended or terminated earlier in accordance with the terms of the master services agreement.

**Other**

Air Canada provides certain supplies from third parties, primarily fuel, to Chorus and subsequently collects payment from Chorus. As these transactions and balances merely represent a method of settlement for transactions in the normal course of business, they have not been separately disclosed. Air Canada ground handling services (formerly ACGHS Limited Partnership) a division of Air Canada provides ground handling services.

Substantially all of the trade receivable from Air Canada relates to outstanding balances under the CPA.

The balances in accounts payable and accrued liabilities are payable on normal trade terms and have arisen from the services provided by the applicable party.

## Notes to the Unaudited Consolidated Financial Statements For the period ended June 30, 2011

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

### 10 Dividends

A quarterly dividend of \$0.15 per share, declared in June 2011 was paid in July 2011 (2010 - \$0.05 monthly distribution per unit, for a total of \$0.15 per unit for the three months ended June 30, 2010, was declared). This dividend was recorded in the financial statements for the period ended June 30, 2011.

### 11 Contingencies

The CBCA provides that the Directors will act honestly and in good faith with a view to the best interest of Chorus and in connection with that duty, will exercise the degree of care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. The CBCA and bylaws of Chorus provide that each Director will be entitled to indemnification from Chorus in respect of the exercise of the Director's power and the discharge of the Director's duties, provided that the Director acted honestly and in good faith with a view to the best interests of all shareholders, or in the case of a criminal or administrative action proceeding that is enforced by a monetary penalty, where the Director had reasonable grounds for believing that his/her conduct was lawful. Chorus has agreed to indemnify its directors and officers against certain costs and damages incurred by the directors and officers as a result of lawsuits or any other judicial, administrative or investigative proceeding in which the directors and officers are sued as a result of their service. The directors and officers are covered by directors' and officers' liability insurance. No claims with respect to such occurrences have been made and, as such, no amount has been recorded in these financial statements with respect to these indemnifications.

In February 2006, Chorus commenced proceedings before the Ontario Superior Court of Justice ("Ontario Court") against the Toronto Port Authority ("TPA"), Porter Airlines Inc. ("Porter") and other defendants (collectively with Porter, the "Porter Defendants") after Chorus became aware that it would be excluded from operating flights from Toronto City Centre (Island) Airport (the "TCCA"). On October 26, 2007, Porter counterclaimed against Chorus and Air Canada alleging various tort claims, including conspiracy, and violations of competition law, including that Chorus and Air Canada's commercial relationship contravenes Canadian competition laws, and claiming \$850,000 in damages. Concurrently with the Ontario Court proceedings, Chorus commenced judicial review proceedings against the TPA before the Federal Court of Canada ("Federal Court") relating to Chorus' access to the TCCA. The Porter Defendants were granted intervener and party status in these proceedings. In January of 2008, in the Federal Court proceedings, Porter filed a defence and counterclaim against Chorus and Air Canada making allegations and seeking damages similar to those in the Ontario Court counterclaim. On October 16, 2009, Chorus discontinued its action in the Ontario Court against the Porter Defendants and the TPA. On the same date, the counterclaim filed by Porter in the Ontario Court against Chorus and Air Canada was stayed pending the outcome of the proceeding in Federal Court. On March 29, 2010, Chorus discontinued its action in the Federal Court against the TPA, in which the Porter Defendants intervened and were made parties. On May 14, 2010 Porter discontinued its counterclaim in the Federal Court. The counterclaim against Chorus and Air Canada brought by Porter in the Ontario Court was reinstated on February 22, 2011. Chorus maintains that Porter's counterclaim is without merit. The counterclaim, will be vigorously contested by Chorus in court. If Chorus is not successful in defending the counterclaim, it could be subject to a material damages award. It is not practicable to determine an estimate of the possible financial effect, uncertainties related to the amount or timing of any outflows or the possibility of any reimbursement.

Various other lawsuits and claims that have arisen in the normal course of business are pending by and against Chorus and provisions have been recorded where appropriate. It is the opinion of management that final determination of these claims will not have a material adverse effect on the financial position or the results of Chorus.

(expressed in thousands of Canadian dollars, except shares (units) and per share (unit) amount)

## 11 Contingencies (continued)

Chorus enters into real estate leases or operating agreements, which grant a license to Chorus to use certain premises and/or operate at certain airports, in substantially all of the cities that it serves. It is common in such commercial lease transactions for Chorus as the lessee to agree to indemnify the lessor and other related third parties for tort liabilities that arise out of or relate to Chorus' use or occupancy of the leased or licensed premises. In certain cases, this indemnity extends to related liabilities arising from the negligence of the indemnified parties, but generally excludes any liabilities caused by their gross negligence or willful misconduct. In addition, Chorus typically indemnifies such parties for any environmental liability that arises out of or relates to its use or occupancy of the leased or licensed premises.

In aircraft and engine financing or leasing agreements, Chorus typically indemnifies the financing parties, Directors acting on their behalf and other related parties and/or lessors against liabilities that arise from the manufacture, design, ownership, financing, use, operation and maintenance of the aircraft and engines and for tort liability, whether or not these liabilities arise out of or relate to the negligence of these indemnified parties, but generally excludes any liabilities caused by their gross negligence or willful misconduct. In addition, in aircraft and engine financing or leasing transactions, including those structured as leveraged leases, Chorus typically provides indemnities in respect of certain tax consequences.

When Chorus, as a customer, enters into technical service agreements with service providers, primarily service providers who operate an airline as their main business, Chorus has from time to time agreed to indemnify the service provider against liabilities that arise from third party claims, whether or not these liabilities arise out of or relate to the negligence of the service provider, but generally excluding liabilities that arise from the service provider's gross negligence or willful misconduct.

## 12 Subsequent event

On July 21, 2011, Chorus took delivery of the third Q400 aircraft. It entered into service on August 1, 2011. Chorus has secured EDC financing for the majority of the purchase price of each of the 15 firm Q400 aircraft orders. This term loan is repayable by Chorus to EDC in semi-annual instalments of US\$1,008, matures in July 2023 and is secured by one Q400 aircraft and two PWA 150A engines. This financing arrangement is consistent with financing obtained by Chorus from EDC for each of the 15 firm Q400 aircraft to be delivered by the manufacturer.
