Unless you indicate otherwise, any instructions provided will NOT change your address for other mailings that could occur in the future.

12. What is a Medallion Guarantee? Is it the same as a Notary Certification?

In the United States, a Medallion Guarantee is a special signature guarantee for the transfer of securities. It is a guarantee by the financial institution that the signature is genuine and the financial institution accepts liability for forgery. Medallion guarantees protect shareholders by preventing unauthorized transfers and possible investor losses. A Notary Public certification is not the same and is not acceptable for this purpose.
This guarantee is normally obtained from selected banks or other financial institutions such as a broker, dealer, credit union, savings association or other entity which is a member in good standing of the Securities Transfer Agents’ Medallion Program (“STAMP”). Different institutions have different policies as to what type of identification they require to provide the guarantee and whether they charge a fee for such service. Most institutions would not guarantee a signature of someone who has not already been their customer.

Once Computershare receives your Varian, Inc. stock certificates along with a properly completed and executed Exchange Form and any other required materials, it will mail you the cash payment, less any applicable withholding taxes, within approximately 7-10 business days.

14. Is the exchange of Varian, Inc. shares a taxable event for U.S. shareholders?

In general, the merger will be a taxable transaction to you if you are a U.S. shareholder. Your receipt of cash in exchange for your shares of common stock generally will cause you to recognize a gain or loss for U.S. Federal income tax purposes equal to the difference, if any, between the cash you receive in the merger and your adjusted tax basis in your shares of common stock.

Because individual circumstances may differ, you are urged to consult your own tax advisor regarding the particular consequences to you of the merger and related transactions, including the U.S. Federal, state, local, foreign and other tax consequences of the ownership and disposition of your shares.

15. What should I do with the Form W-9 included with my Exchange Form?

If your account did not have an accurate or updated taxpayer identification number (TIN), we enclosed a Form W-9 with the Exchange Form. If we did not include a Form W-9 and your cash payment is to be issued in the same name, you need take no further action to certify the TIN for the registered account. Under U.S. Federal income tax law, any person submitting the Exchange Form who has not previously certified the TIN relating to the registered account must provide to Computershare, the paying agent his, her or its correct TIN, and certify that such TIN is correct on the enclosed Form W-9. If such TIN is not provided, a penalty of $50.00 may be imposed by the Internal Revenue Service and payment of the merger consideration may be subject to backup withholding. The TIN to be provided is that of the person submitting the Exchange Form. The TIN for an individual is generally his or her social security number. Exempt persons (including, among others, all corporations and certain foreign individuals) are not subject to backup withholding and reporting requirements. A foreign individual may qualify as an exempt person by submitting a Form W-8, signed under penalties of perjury, certifying such individual’s foreign status. That form can be obtained from Computershare. See the Guidelines for Certification of Taxpayer Identification Number on Form W-9 for additional instructions.
