Forum Energy Technologies, Inc. and subsidiaries
Notes to condensed consolidated financial statements
(Unaudited)

1. Organization and basis of presentation

Forum Energy Technologies, Inc. (the "Company"), a Delaware corporation, is a global oilfield products company, serving the subsea, drilling, completion, production and infrastructure sectors of the oil and natural gas industry. The Company designs, manufactures and distributes products and engages in aftermarket services, parts supply and related services that complement the Company’s product offering.

Basis of presentation

The accompanying unaudited condensed consolidated financial statements of the Company include the accounts of the Company and its subsidiaries. All significant intercompany transactions have been eliminated in consolidation.

The Company's investment in an operating entity where the Company has the ability to exert significant influence, but does not control operating and financial policies, is accounted for using the equity method. The Company's share of the net income of this entity is recorded as "Earnings from equity investment" in the condensed consolidated statements of operations and comprehensive income. The investment in this entity is included in "Investment in unconsolidated subsidiary" in the condensed consolidated balance sheets. The Company reports its share of equity earnings within operating income as the investee's operations are integral to the operations of the Company.

In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for the fair statement of the Company's financial position, results of operations and cash flows have been included. Operating results for the six months ended June 30, 2014 are not necessarily indicative of the results that may be expected for the year ended December 31, 2014 or any other interim period.

These interim financial statements are unaudited and have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC") regarding interim financial reporting. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States of America ("GAAP") for complete consolidated financial statements and should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2013, which are included in the Company’s 2013 Annual Report on Form 10-K filed with the SEC on February 28, 2014 (the "Annual Report").

2. Recent accounting pronouncements

From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board ("FASB"), which are adopted by the Company as of the specified effective date. Unless otherwise discussed, management believes that the impact of recently issued standards, which are not yet effective, will not have a material impact on the Company’s consolidated financial statements upon adoption.

In May 2014, the FASB issued Accounting Standards Update ("ASU") No. 2014-09, Revenue from Contracts with Customers (Topic 606). The new standard is effective for reporting periods beginning after December 15, 2016 and early adoption is not permitted. The comprehensive new standard will supersede existing revenue recognition guidance and require revenue to be recognized when promised goods or services are transferred to customers in amounts that reflect the consideration to which the company expects to be entitled in exchange for those goods or services. Adoption of the new rules could affect the timing of revenue recognition for certain transactions. The guidance permits two implementation approaches, one requiring retrospective application of the new standard with restatement of prior years and one requiring prospective application of the new standard with disclosure of results under old standards. The new standard will be effective January 1, 2017 and the Company is currently evaluating the impacts of adoption and the implementation approach to be used.

In April 2014, the FASB issued ASU 2014-08 — Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. The ASU raises the threshold for a disposal to qualify as a discontinued operation and requires new disclosures of both discontinued operations and certain other disposals that do not meet the definition of a discontinued operation. The guidance is effective for the Company for the fiscal year beginning January 1, 2015, and is not expected to have a material impact on the consolidated financial statements.

3. Acquisitions and investment in joint venture

2014 Acquisition

Effective May 1, 2014, the Company completed the acquisition of Quality Wireline & Cable, Inc. ("Quality") for consideration of $38.3 million. Quality is a Calgary, Alberta based manufacturer of high-performance cased-hole electro-mechanical wireline cables and specialty cables for the oil and gas industry. Quality is included in the Drilling & Subsea segment. The following table summarizes the preliminary fair values of the assets acquired and liabilities assumed at the date of the acquisition (in thousands):

	2014 Acquisition
Current assets, net of cash acquired	$ 7,463
Property and equipment	3,837
Intangible assets (primarily customer relationships)	13,335
Non-tax-deductible goodwill	19,007
Current liabilities	(1,914)
Deferred tax liabilities	(3,467)
Net assets acquired	$ 38,261

2013 Acquisitions

Effective July 1, 2013, the Company completed the following two acquisitions for aggregate consideration of approximately $180.0 million:

- Blohm + Voss Oil Tools GmbH and related entities ("B+V"), a manufacturer of pipe handling equipment used on offshore and onshore drilling rigs with locations in Hamburg, Germany and Willis, Texas. B+V is included in the Drilling & Subsea segment; and
- Moffat 2000 Ltd. ("Moffat"), a Newcastle, England based manufacturer of subsea pipeline inspection gauge launching and receiving systems, and subsea connectors. Moffat is included in the Drilling & Subsea segment.

The following table summarizes the fair values of the assets acquired and liabilities assumed at the date of the acquisition (in thousands):

	2013 Acquisitions
Current assets, net of cash acquired	$ 60,669
Property and equipment	4,545
Intangible assets (primarily customer relationships)	59,242
Non-tax-deductible goodwill	100,257
Current liabilities	(17,619)
Long-term liabilities	(7,879)
Deferred tax liabilities	(20,108)
Net assets acquired	$ 179,107

Revenues and net income related to the acquisitions were not significant for the year ended December 31, 2013. Pro forma results of operations for the 2014 and 2013 acquisitions have not been presented because the effects were not material to the consolidated financial statements on either an individual or aggregate basis.

Effective July 1, 2013, the Company jointly purchased Global Tubing, LLC ("Global Tubing") with an equal partner, with management retaining a small interest. Global Tubing is a Dayton, Texas based provider of coiled tubing strings and related services. The Company's equity investment is reported in the Production & Infrastructure segment and is accounted for using the equity method of accounting. As Global Tubing's products are complementary to the Company’s w ell intervention and stimulation products and the investment's business is integral to the Company's operations, the earnings from the equity investment are included within operating income.

4. Inventories

The Company's significant components of inventory at June 30, 2014 and December 31, 2013 were as follows (in thousands):

	June 30, 2014	December 31, 2013
Raw materials and parts	$ 138,949	$ 139,573
Work in process	53,160	51,819
Finished goods	295,898	276,076
Gross inventories	488,007	467,468
Inventory reserve	(30,003)	(26,419)
Inventories	$ 458,004	$ 441,049

5. Goodwill and intangible assets

Goodwill

The changes in the carrying amount of goodwill from January 1, 2014 to June 30, 2014, were as follows (in thousands):

	Drilling & Subsea	Production & Infrastructure	Total
Goodwill Balance at January 1, 2014 net	$ 723,355	$ 78,963	$ 802,318
Acquisitions and divestitures	15,352	—	15,352
Impact of non-U.S. local currency translation	6,749	(19)	6,730
Goodwill Balance at June 30, 2014 net	$ 745,456	$ 78,944	$ 824,400

Forum Energy Technologies, Inc. and subsidiaries
Notes to condensed consolidated financial statements (continued)
(Unaudited)

Intangible assets

Intangible assets consisted of the following as of June 30, 2014 and December 31, 2013, respectively (in thousands):

	June 30, 2014			
	Gross carrying amount	Accumulated amortization	Net amortizable intangibles	Amortization period (in years)
Customer relationships	$ 295,665	$ (78,429)	$ 217,236	4-15
Patents and technology	32,403	(7,234)	25,169	5-17
Non-compete agreements	7,323	(5,322)	2,001	3-6

Trademark	5,230	—	5,230	Indefinite
Intangible Assets Total	$ 397,635	$ (102,283)	$ 295,352	

6. Debt

Notes payable and lines of credit as of June 30, 2014 and December 31, 2013 consisted of the following (in thousands):

	June 30, 2014	December 31, 2013
6.25% Senior Notes due October 2021	$ 403,005	$ 403,208
Senior secured revolving credit line	33,004	108,000
Other debt	1,555	1,867
Total debt	437,564	513,075
Less: current maturities	(914)	(998)
Long-term debt	$ 436,650	$ 512,077

Senior Notes Due 2021

The Senior Notes bear interest at a rate of 6.250% per annum, payable on April 1 and October 1 of each year, and mature on October 1, 2021. The Senior Notes are senior unsecured obligations, and are guaranteed on a senior unsecured basis by the Company’s subsidiaries that guarantee the Credit Facility and rank junior to, among other indebtedness, the Credit Facility to the extent of the value of the collateral securing the Credit Facility.

Credit Facility

The Company has a Credit Facility with several financial institutions as lenders that provides for a $600.0 million revolving credit facility with up to $75.0 million available for letters of credit and up to $25.0 million in swingline loans. Subject to terms of the Credit Facility, the Company has the ability to increase the revolving Credit Facility by an additional $300.0 million. The Credit Facility matures in November 2018. Weighted average interest rates under the Credit Facility at June 30, 2014 and December 31, 2013 were 2.16% and 2.17%, respectively.

Availability under the Credit Facility was approximately $552.7 million at June 30, 2014. There have been no changes to the financial covenants disclosed in Item 7 of the Annual Report and the Company was in compliance with all financial covenants at June 30, 2014.

7. Income taxes

The Company's effective tax rate was 29.0% for the six months ended June 30, 2014 and 31.5% for the six months ended June 30, 2013. The tax provision is lower than the comparable period in 2013 primarily due to a higher proportion of our earnings being generated outside the United States in jurisdictions subject to lower tax rates and benefits received from certain tax incentives. The effective tax rate can vary from period to period depending on the Company's relative mix of U.S. and non-U.S. earnings. The effective tax rate was 28.0% for the three months ended June 30, 2014 and 30.4% for the three months ended June 30, 2013. The tax provision for the three months ended June 30, 2014 is lower than the comparable period in 2013 primarily due to benefits received from certain tax incentives.

8. Fair value measurements

At June 30, 2014, the carrying value of the Credit Facility was $33.0 million. Substantially all of the debt incurs interest at a variable interest rate and, therefore, the carrying amount approximates fair value. The fair value of the debt is classified as a Level 2 measurement because interest rates charged are similar to other financial instruments with similar terms and maturities.

The fair value of the Company’s Senior Notes is estimated using Level 2 inputs in the fair value hierarchy and is based on quoted prices for those or similar instruments. At June 30, 2014, the fair value and the carrying value of the Company’s Senior Notes approximated $430.2 million and $403.0 million, respectively. At December 31, 2013, the fair value and the carrying value of the Company’s Senior Notes approximated $419.3 million and $403.2 million, respectively.

There were no outstanding financial assets as of June 30, 2014 and December 31, 2013 that required measuring the amounts at fair value. The Company did not change its valuation techniques associated with recurring fair value measurements from prior periods and there were no transfers between levels of the fair value hierarchy during the six months ended June 30, 2014.

9. Business segments

The Company's operations are divided into the following two operating segments, which are our reportable segments: Drilling & Subsea ("D&S") and Production & Infrastructure ("P&I"). The amounts indicated below as "Corporate" relate to costs and assets not allocated to the reportable segments. Summary financial data by segment follows (in thousands):

	Three months ended June 30,		Six months ended June 30,	
	2014	2013	2014	2013
Revenue:				
Drilling & Subsea	$ 279,251	$ 209,198	$ 541,020	$ 431,137
Production & Infrastructure	149,369	158,905	291,944	310,115
Intersegment eliminations	(341)	(216)	(747)	(366)
Total Revenue	$ 428,279	$ 367,887	$ 832,217	$ 740,886
Operating income:				
Drilling & Subsea	$ 50,336	$ 32,906	$ 97,401	$ 68,062
Production & Infrastructure	26,562	22,824	50,444	44,198
Corporate	(10,696)	(6,901)	(19,437)	(14,074)
Total segment operating income	66,202	48,829	128,408	98,186
Transaction expenses	682	1,806	810	1,815
Loss (gain) on sale of assets and other	(284)	(115)	405	20
Income from operations	$ 65,804	$ 47,138	$ 127,193	$ 96,351

A summary of consolidated assets by reportable segment is as follows (in thousands):

	June 30, 2014	December 31, 2013
Assets		
Drilling & Subsea	$ 1,693,929	$ 1,655,355
Production & Infrastructure	482,245	468,520
Corporate	59,170	44,994
Total assets	$ 2,235,344	$ 2,168,869

10. Earnings per share

The calculation of basic and diluted earnings per share for each period presented was as follows (dollars and shares in thousands, except per share amounts):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Net Income attributable to common stockholders	$ 39,522	$ 29,919	$ 76,052	$ 61,859
Average shares outstanding (basic)	92,649	91,032	92,391	89,790
Common stock equivalents	3,046	3,574	2,972	4,711
Diluted shares	95,695	94,606	95,363	94,501
Earnings per share				
Basic earnings per share	$ 0.43	$ 0.33	$ 0.82	$ 0.69
Diluted earnings per share	$ 0.41	$ 0.32	$ 0.80	$ 0.65

The diluted earnings per share calculation excludes approximately 0.4 million and 0.3 million stock options for the three months ended June 30, 2014 and 2013 respectively, and 0.5 million and 0.2 million stock options for the six months ended June 30, 2014 and 2013, respectively, because they were anti-dilutive as the option exercise price was greater than the average market price of the common stock.

11. Commitments and contingencies

In the ordinary course of business, the Company is, and in the future could be, involved in various pending or threatened legal actions, that may or may not be covered by insurance. Management has reviewed such pending judicial and legal proceedings, the reasonably anticipated costs and expenses in connection with such proceedings, and the availability and limits of insurance coverage, and has established reserves that are believed to be appropriate in light of those outcomes that are considered to be probable and can be reasonably estimated. The reserves accrued at June 30, 2014 and December 31, 2013, respectively, are immaterial. It is management's opinion that the Company's ultimate liability, if any, with respect to these actions is not expected to have a material adverse effect on the Company's financial position, results of operations or cash flows.

12. Stockholders' equity

Share-based compensation

During the six months ended June 30, 2014, the Company granted 368,054 options and 733,777 shares of restricted stock or restricted stock units, which includes 115,610 performance share awards with a market condition. The stock options were granted on February 21, 2014 with an exercise price of $26.96. Of the restricted stock or restricted stock units granted, 576,434 vest ratably over four years on each anniversary of the grant date. 41,733 shares of restricted stock or restricted stock units were granted to the non-employee members of the Board of Directors, which have a twelve month vesting period from the date of grant. The performance share awards granted may settle for between zero and two shares of the Company's common stock. The number of shares issued pursuant to the performance share awards will be determined based on the total shareholder return of the Company's common stock as compared to a group of peer companies, measured annually over a three-year performance period.

13. Related party transactions

The Company entered into lease agreements for office and warehouse space with former owners of acquired companies or affiliates of a director. The Company has sold and purchased inventory, services and fixed assets to and from various affiliates of certain directors. The dollar amounts related to these related party activities are not significant to the Company's condensed consolidated financial statements.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Item 2. Management’s discussion and analysis of financial condition and results of operations

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). These forward-looking statements are subject to a number of risks and uncertainties, many of which are beyond the Company's control. All statements, other than statements of historical fact, included in this Quarterly Report on Form 10-Q regarding our strategy, future operations, financial position, estimated revenues and losses, projected costs, prospects, plans and objectives of management are forward-looking statements. When used in this Quarterly Report on Form 10-Q, the words “could,” “believe,” “anticipate,” “intend,” “estimate,” “expect,” “may,” “continue,” “predict,” “potential,” “project” and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain such identifying words.

Forward-looking statements may include statements about:

- *business strategy;*
- *cash flows and liquidity;*
- *the volatility of oil and natural gas prices;*
- *our ability to successfully manage our growth, including risks and uncertainties associated with integrating and retaining key employees of the businesses we acquire;*
- *the availability of raw materials and specialized equipment;*
- *availability of skilled and qualified labor;*
- *our ability to accurately predict customer demand;*
- *competition in the oil and gas industry;*
- *governmental regulation and taxation of the oil and natural gas industry;*
- *environmental liabilities;*
- *political, social and economic issues affecting the countries in which we do business;*
- *our ability to deliver our backlog in a timely fashion;*
- *our ability to implement new technologies and services;*
- *availability and terms of capital;*
- *general economic conditions;*
- *benefits of our acquisitions;*
- *availability of key management personnel;*
- *operating hazards inherent in our industry;*
- *the continued influence of our largest shareholder;*
- *the ability to establish and maintain effective internal control over financial reporting;*
- *the ability to operate effectively as a publicly traded company;*
- *financial strategy, budget, projections and operating results;*
- *uncertainty regarding our future operating results; and*
- *plans, objectives, expectations and intentions contained in this report that are not historical.*

All forward-looking statements speak only as of the date of this Quarterly Report on Form 10-Q. We disclaim any obligation to update or revise these statements unless required by law, and you should not place undue reliance on these forward-looking statements. Although we believe that our plans, intentions and expectations reflected in or suggested by the forward-looking statements we make in this Quarterly Report on Form 10-Q are reasonable, we can *give no assurance that these plans, intentions or expectations will be achieved. We disclose important factors that could cause our actual results to differ materially from our expectations in "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K filed with the Securities and Exchange Commission (the "SEC") on February 28, 2014 and elsewhere in this Quarterly Report on Form 10-Q. These cautionary statements qualify all forward-looking statements attributable to us or persons acting on our behalf.*

Overview

We are a global oilfield products company, serving the subsea, drilling, completion, production and infrastructure sectors of the oil and natural gas industry. We design, manufacture and distribute products, and engage in aftermarket services, parts supply and related services that complement our product offering. Our product offering includes a mix of highly engineered capital products and frequently replaced items that are used in the exploration, development, production and transportation of oil and natural gas. Our capital products are directed at: drilling rig equipment for new rigs, upgrades and refurbishment projects; subsea construction and development projects; the placement of production equipment on new producing wells; and downstream capital projects. Our engineered systems are critical components used on drilling rigs or in the course of subsea operations, while our consumable products are used to maintain efficient and safe operations at well sites in the well construction process, within the supporting infrastructure, and at processing centers and refineries. Historically, just over half of our revenue is derived from activity-based consumable products, while the balance is derived from capital products and a small amount from rental and other services.

We seek to design, manufacture and supply reliable products that create value for our diverse customer base, which includes, among others, oil and gas operators, land and offshore drilling contractors, well stimulation and intervention service providers, subsea construction and service companies, and pipeline and refinery operators.

We operate two business segments:

- *Drilling & Subsea segment*. We design and manufacture products and provide related services to the subsea, drilling, well construction, completion and intervention markets. Through this segment, we offer subsea technologies, including robotic vehicles and other capital equipment, specialty components and tooling, a broad suite of complementary subsea technical services and rental items, and applied products for subsea pipelines; drilling technologies, including capital equipment and a broad line of products consumed in the drilling and well intervention process; and downhole technologies, including cementing and casing tools, completion products, and a range of downhole protection solutions.
- *Production & Infrastructure segment*. We design and manufacture products and provide related equipment and services to the well stimulation, completion, production and infrastructure markets. Through this segment, we supply flow equipment, including well stimulation consumable products and related recertification and refurbishment services; production equipment, including well site production equipment and process equipment; and valves, which includes a broad range of industrial and process valves.

Market Conditions

Management believes that the long-term fundamentals underlying the global demand for energy, such as long-term economic and demographic trends, remain strong. The level of demand for our products and services is directly related to activity levels and the capital and operating budgets of our customers, which in turn are influenced heavily by the outlook for energy prices.

The table below shows average crude oil and natural gas prices for West Texas Intermediate crude oil (WTI), United Kingdom Brent crude oil (Brent), and Henry Hub natural gas:

	Three months ended		
	June 30, 2014	March 31, 2014	June 30, 2013
Average global oil, $/bbl			
West Texas Intermediate	$ 103.06	$ 98.65	$ 94.14
United Kingdom Brent	$ 109.06	$ 107.19	$ 103.43
Average North American Natural Gas, $/Mcf			
Henry Hub	$ 4.59	$ 5.15	$ 4.02

Current and forecasted oil and natural gas prices appear adequate to maintain the current level of exploration and production activity, including the continued development of offshore projects, which stimulates demand for our subsea products. The capital expenditure plans of exploration and production companies have been reported to have increased, especially in North America, from earlier levels for 2014 and are anticipated to rise again in 2015. These increases, if realized, should lead to greater activity and an increase in demand for our products.

In addition to the commodity price levels, the average active rig count data below, based on the weekly Baker Hughes Incorporated rig count, reflect a broad measure of industry activity and resultant demand for our drilling and production related products and services.

	Three months ended		
	June 30, 2014	March 31, 2014	June 30, 2013
Active Rigs by Location			
United States	1,852	1,779	1,761
Canada	199	525	152
International	1,348	1,337	1,306
Global Active Rigs	**3,399**	**3,641**	**3,219**
Land vs. Offshore Rigs			
Land	3,016	3,267	2,834
Offshore	383	374	385
Global Active Rigs	**3,399**	**3,641**	**3,219**
U.S. Commodity Target			
Oil/Gas	1,529	1,429	1,396
Gas	319	347	359
Unclassified	4	3	6
Total U.S. Rigs	**1,852**	**1,779**	**1,761**
U.S. Well Path			
Horizontal	1,242	1,183	1,098
Vertical	395	387	450
Directional	215	209	213
Total U.S. Active Rigs	**1,852**	**1,779**	**1,761**

Generally, our sales are impacted by changes in rig activity and wells completed. The average U.S. rig count increased 4% from the first quarter of 2014 and 5% from the second quarter of 2013. The international rig count remained stable, while the Canadian rig count experienced its seasonally low quarter resulting from spring breakup, but was up over 30% from the second quarter of 2013. In addition, due to greater application of improved drilling and completion technologies, the current rig fleet is becoming more efficient allowing more wells to be drilled per rig. The trends in the capabilities of the rig fleet are reflected in the table above through the increases in horizontal and directional drilling rigs as a portion of the total rig count. If this trend continues, well completions could grow at a faster pace than the drilling rig count in the future. Higher drilling and completions activities should result in increased demand for our products.

Results of operations

We made two acquisitions and an investment in a joint venture in the third quarter 2013 and one acquisition in the second quarter 2014. For additional information about these acquisitions, see Note 3 to the condensed consolidated financial statements in Item 1 of Part I of this quarterly report. For this reason, our results of operations for the 2014 periods presented may not be comparable to historical results of operations for the 2013 periods.

Revenue

Our revenue for the three months ended June 30, 2014 increased $60.4 million, or 16.4%, to $428.3 million compared to the three months ended June 30, 2013. For the three months ended June 30, 2014, our Drilling & Subsea segment and our Production & Infrastructure segment comprised 65.2% and 34.8% of our total revenue, respectively, which compared to 56.9% and 43.1% of total revenue, respectively, for the three months ended June 30, 2013. The changes in revenue by operating segment consisted of the following:

Drilling & Subsea segment — Revenue increased $70.1 million, or 33.5%, to $279.3 million during the three months ended June 30, 2014 compared to the three months ended June 30, 2013 attributable to acquisitions and higher market activity in all three product lines.

Production & Infrastructure segment — Revenue decreased $9.5 million, or 6.0%, to $149.4 million during the three months ended June 30, 2014 compared to the three months ended June 30, 2013 primarily due to lower sales of production equipment and valve products, partially offset by increased revenue from our flow equipment products.

Segment operating income and segment operating margin percentage

Segment operating income for the three months ended June 30, 2014, increased $17.4 million, or 35.6%, to $66.2 million compared to the three months ended June 30, 2013. The segment operating margin percentage is calculated by dividing segment operating income by revenue for the period. For the three months ended June 30, 2014, the segment operating margin percentage of 15.5% represents an increase of 220 basis points from the 13.3% operating margin percentage for three months ended June 30, 2013. The change in operating margin percentage for each segment is explained as follows:

Drilling & Subsea segment — The operating margin percentage increased 230 basis points to 18.0% for the three months ended June 30, 2014, from 15.7% for the three months ended June 30, 2013. The improvement in operating margin percentage is primarily attributable to higher volumes in drilling products and the continuing benefits from the cost saving measures implemented in the third quarter 2013.

Production & Infrastructure segment — The operating margin percentage improved 340 basis points to 17.8% for the three months ended June 30, 2014, from 14.4% for the three months ended June 30, 2013. The improvement in operating margin percentage was primarily attributable to the investment in Global Tubing, LLC joint venture interest and higher margins on improved activity levels for flow equipment, partially offset by the lower operating margin percentage in production equipment on reduced activity levels.

Corporate — Selling, general and administrative expenses for Corporate increased by $3.8 million, or 55.0%, for the three months ended June 30, 2014 compared to the three months ended June 30, 2013, due to higher personnel costs and higher professional fees. Corporate costs include, among other items, payroll related costs for general management and management of finance and administration, legal, human resources and information technology; professional fees for legal, accounting and related services; and marketing costs.

Other items not included in segment operating income

Several items are not included in segment operating income, but are included in total operating income. These items include: transaction expenses and gains/losses from the sale of assets. Transaction expenses relate to legal and other advisory costs incurred in acquiring businesses and are not considered to be part of segment operating income. These costs were $0.7 million and $1.8 million for the three months ended June 30, 2014 and 2013, respectively.

Other income and expense

Other income and expense includes interest expense and foreign exchange gains and losses. We incurred $7.7 million of interest expense during the three months ended June 30, 2014, an increase of $4.6 million from the three months ended June 30, 2013. The increase in interest expense was attributable to additional debt incurred on acquisitions and the higher interest rate on our Senior Notes issued in the fourth quarter 2013 compared to the variable interest rate under our Credit Facility.

Taxes

Tax expense includes current income taxes expected to be due based on taxable income to be reported during the periods in the various jurisdictions in which we conduct business, and deferred income taxes based on changes in the tax effect of temporary differences between the bases of assets and liabilities for financial reporting and tax purposes at the beginning and end of the respective periods. The effective tax rate, calculated by dividing total tax expense by income before income taxes, was 28.0% for the three months ended June 30, 2014 and 30.4% for the three months ended June 30, 2013. The tax provision for the three months ended June 30, 2014 is lower than the comparable period in 2013 primarily due to benefits received from certain tax incentives.

Revenue

Our revenue for the six months ended June 30, 2014 increased $91.3 million, or 12.3%, to $832.2 million compared to the six months ended June 30, 2013. For the six months ended June 30, 2014, our Drilling & Subsea segment and our Production & Infrastructure segment comprised 65.0% and 35.0% of our total revenue, respectively, which compared to 58.2% and 41.8% of total revenue, respectively, for the six months ended June 30, 2013. The changes in revenue by operating segment consisted of the following:

Drilling & Subsea segment — Revenue increased $109.9 million, or 25.5%, to $541.0 million during the six months ended June 30, 2014 compared to the six months ended June 30, 2013 primarily attributable to acquisitions and to higher sales of drilling products and downhole products.

Production & Infrastructure segment — Revenue decreased $18.2 million, or 5.9%, to $291.9 million during the six months ended June 30, 2014 compared to the six months ended June 30, 2013 due to a decrease in shipments of product equipment products and slower project activity for valve products offset by a recovery in the market for flow equipment products.

Segment operating income and segment operating margin percentage

Segment operating income for the six months ended June 30, 2014, increased $30.2 million, or 30.8%, to $128.4 million compared to the six months ended June 30, 2013. The segment operating margin percentage is calculated by dividing segment operating income by revenue for the period. For the six months ended June 30, 2014, the segment operating margin percentage of 15.4% represents an increase of 210 basis points from the 13.3% operating margin percentage for six months ended June 30, 2013. The change in operating margin percentage for each segment is explained as follows:

Drilling & Subsea segment — The operating margin percentage increased 220 basis points to 18.0% for the six months ended June 30, 2014, from 15.8% for the six months ended June 30, 2013. The improvement in operating margin percentage is due to higher volumes in drilling products and continuing benefits from the cost saving measures implemented in the third quarter 2013, slightly offset by lower gross margin in downhole products from higher international orders at lower margins.

Production & Infrastructure segment — Operating margin percentage improved 300 basis points to 17.3% for the six months ended June 30, 2014, from 14.3% for the six months ended June 30, 2013. The improvement in operating margin percentage was due to the investment in the Global Tubing, LLC joint venture interest and higher margins on improved activity levels for flow equipment products, partially offset by the lower operating margin percentage in production equipment on reduced activity levels.

Corporate — Selling, general and administrative expenses for Corporate increased by $5.4 million, or 38.1%, for the six months ended June 30, 2014 compared to the six months ended June 30, 2013, due to higher personnel costs and higher professional fees.

Other items not included in segment operating income

Several items are not included in segment operating income, but are included in total operating income. These items include: transaction expenses and gains/losses from the sale of assets. Transaction expenses relate to legal and other advisory costs incurred in acquiring businesses and are not considered to be part of segment operating income. These costs were $0.8 million for the six months ended June 30, 2014 and $1.8 million for the six months ended June 30, 2013, primarily attributable to three acquisitions closed effective July 2, 2013. In the six months ended June 30, 2014, we incurred a loss of $0.4 million in sales of assets, primarily due to a loss of $0.8 million on the sale of our subsea pipe joint protective coatings business.

Other income and expense

Other income and expense includes interest expense and foreign exchange gains and losses. We incurred $15.5 million of interest expense during the six months ended June 30, 2014, an increase of $9.0 million from the six months ended June 30, 2013. The increase in interest expense was attributable to the higher interest rate on our Senior Notes issued in the fourth quarter 2013 compared to the variable interest rate under our Credit Facility.

Taxes

Tax expense includes current income taxes expected to be due based on taxable income to be reported during the periods in the various jurisdictions in which we conduct business, and deferred income taxes based on changes in the tax effect of temporary differences between the bases of assets and liabilities for financial reporting and tax purposes at the beginning and end of the respective periods. The effective tax rate, calculated by dividing total tax expense by income before income taxes, was 29.0% for the six months ended June 30, 2014 and 31.5% for the six months ended June 30, 2013. The tax provision is lower than the comparable period in 2013 primarily due to a higher proportion of our earnings being generated outside the United States in jurisdictions subject to lower tax rates and benefits received from certain tax incentives. The effective tax rate can vary from period to period depending on our relative mix of U.S. and non-U.S. earnings.

Liquidity and capital resources

Sources and uses of liquidity

At June 30, 2014, we had cash and cash equivalents of $32.6 million and total debt of $437.6 million. We believe that cash on hand, cash generated from operations and amounts available under the Credit Facility will be sufficient to fund operations, working capital needs, capital expenditure requirements and financing obligations for the foreseeable future.

Our total 2014 capital expenditure budget is approximately $60.0 million, which consists of, among other items, investments in constructing or expanding certain manufacturing facilities, purchases of machinery and equipment, expansion of our subsea rental fleet equipment, and general maintenance capital expenditures of approximately $25.0 million. This budget does not include possible expenditures for future business acquisitions.

Although we do not budget for acquisitions, pursuing growth through acquisitions is a significant part of our business strategy. We expanded and diversified our product portfolio with the acquisition of one business in the second quarter 2014 for total consideration of $38.3 million, and two businesses and an investment in a joint venture in 2013 for total consideration (net of cash acquired) of $230.0 million. We used cash on hand and borrowings under the Credit Facility to finance these acquisitions. We continue to actively review acquisition opportunities on an ongoing basis. Our ability to make significant additional acquisitions for cash may require us to obtain additional equity or debt financing, which we may not be able to obtain on terms acceptable to us or at all.

Our cash flows for the six months ended June 30, 2014 and 2013 are presented below (in millions):

	Six Months Ended June 30,	
	2014	**2013**
Net cash provided by operating activities	$ 113.1	$ 89.5
Net cash used in investing activities	(57.8)	(32.3)
Net cash provided by (used in) financing activities	(64.5)	104.0
Net increase (decrease) in cash and cash equivalents	$ (6.9)	$ 158.4

Cash flows provided by operating activities

Net cash provided by operating activities was $113.1 million and $89.5 million for the six months ended June 30, 2014 and 2013, respectively. Cash provided by operations increased primarily as a result of higher earnings and lower incremental investments in working capital as compared to the prior year.

Cash flows used in investing activities

Net cash used in investing activities was $57.8 million and $32.3 million for the six months ended June 30, 2014 and 2013, respectively, a $25.5 million increase. The increase was primarily due to the cash used for an acquisition.

Cash flows provided by (used in) financing activities

Net cash used in financing activities was $64.5 million for the six months ended June 30, 2014, compared to cash provided by financing activities of $104.0 million for the six months ended June 30, 2013. The cash used in financing activities for the six months ended June 30, 2014 was primarily due to a pay down of long-term debt during the period. The cash provided by financing activities for the six months ended June 30, 2013 consisted primarily for net borrowings of long-term debt in anticipation of acquisitions occurring early in third quarter 2013.

Senior Notes Due 2021

The Senior Notes bear interest at a rate of 6.250% per annum, payable on April 1 and October 1 of each year, and mature on October 1, 2021. The Senior Notes are senior unsecured obligations, are guaranteed on a senior unsecured basis by our subsidiaries that guarantee the Credit Facility and rank junior to, among other indebtedness, the Credit Facility to the extent of the value of the collateral securing the Credit Facility.

Credit Facility

We have a Credit Facility with Wells Fargo Bank, National Association, as administrative agent, and several financial institutions as lenders, which provides for a $600.0 million revolving credit line, with up to $75.0 million available for letters of credit and up to $25.0 million in swingline loans. Subject to terms of the Credit Facility, we have the ability to increase the revolving Credit Facility by an additional $300.0 million. Our revolving Credit Facility matures in November 2018. Weighted average interest rates under the Credit Facility at June 30, 2014 and December 31, 2013 were 2.16% and 2.17%, respectively.

Future borrowings under the Credit Facility will be available for working capital and other general corporate purposes, including permitted acquisitions. It is anticipated that the Credit Facility will be available to be drawn on and repaid during the term thereof as long as we are in compliance with the terms of the credit agreement, including certain financial covenants. As of June 30, 2014, we had $33.0 million of borrowings outstanding under our Credit Facility and $14.3 million of outstanding letters of credit and the capacity to borrow an additional $552.7 million under our Credit Facility.

There have been no changes to the Credit Facility financial covenants disclosed in Item 7 of our 2013 Annual Report on Form 10-K and we were in compliance with all financial covenants at June 30, 2014 and December 31, 2013.

Off-balance sheet arrangements

As of June 30, 2014, we had no off-balance sheet instruments or financial arrangements, other than operating leases entered into in the ordinary course of business.

Contractual obligations

Except for net repayments under the Credit Facility, as of June 30, 2014, there have been no material changes in our contractual obligations and commitments disclosed in the Annual Report.

Critical accounting policies and estimates

There have been no material changes in our critical accounting policies and procedures during the six months ended June 30, 2014. For a detailed discussion of our critical accounting policies and estimates, refer to our 2013 Annual Report on Form 10-K.

Recent accounting pronouncements

In May 2014, the FASB issued Accounting Standards Update ("ASU") No. 2014-09, Revenue from Contracts with Customers (Topic 606). The new standard is effective for reporting periods beginning after December 15, 2016 and early adoption is not permitted. The comprehensive new standard will supersede existing revenue recognition guidance and require revenue to be recognized when promised goods or services are transferred to customers in amounts that reflect the consideration to which the company expects to be entitled in exchange for those goods or services. Adoption of the new rules could affect the timing of revenue recognition for certain transactions. The guidance permits two implementation approaches, one requiring retrospective application of the new standard with restatement of prior years and one requiring prospective application of the new standard with disclosure of results under old standards. We are currently evaluating the impacts of adoption and the implementation approach to be used.

In April 2014, the FASB issued ASU 2014-08 — Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. The ASU raises the threshold for a disposal to qualify as a discontinued operation and requires new disclosures of both discontinued operations and certain other disposals that do not meet the definition of a discontinued operation. The guidance is effective for us for the fiscal year beginning January 1, 2015, and is not expected to have a material impact on our consolidated financial statements.

Item 3. Quantitative and qualitative disclosures about market risk

We are currently exposed to market risk from changes in foreign currency and changes in interest rates. From time to time, we may enter into derivative financial instrument transactions to manage or reduce our market risk, but we do not enter into derivative transactions for speculative purposes.

There have been no significant changes to our market risk since December 31, 2013. For a discussion of our exposure to market risk, refer to Part II, Item 7(a), "Quantitative and Qualitative Disclosures About Market Risk," in our 2013 Annual Report on Form 10-K.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined under Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Our management, under the supervision and with the participation of our Chief Executive Officer and our Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(b) as of June 30, 2014. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of June 30, 2014 to provide reasonable assurance that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms. Our disclosure controls and procedures include controls and procedures designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended June 30, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

Refer to Note 11, Commitments and Contingencies, in Part I, Item 1, *Financial Statements*, for a discussion of our legal proceedings, which is incorporated into this Item 1 of Part II by reference.

Item 1A. Risk Factors

For additional information about our risk factors, see "Risk Factors" in Item 1A of our Annual Report.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Shares of common stock purchased and placed in treasury during the three months ended June 30, 2014 were as follows:

Period	Total number of shares purchased (a)	Average price paid per share	Total number of shares purchased as part of publicly announced plan or programs	Maximum number of shares that may yet be purchased under the plan or program (b)
April 1, 2014 - April 30, 2014	22,403	$ 29.53	—	—
May 1, 2014 - May 31, 2014	—	$ —	—	—
June 1, 2014 - June 30, 2014	—	$ —	—	—
Total	22,403	$ 29.53	—	

(a) All of the 22,403 shares purchased during the three months ended June 30, 2014 were acquired from employees in connection with the settlement of income tax and related benefit withholding obligations arising from the vesting of restricted stock grants. None of these shares were part of a publicly announced program to purchase common shares.

(b) Forum does not have any publicly announced equity securities repurchase plans or programs.

Exhibit 31.1

Forum Energy Technologies, Inc.
Certification

I, C. Christopher Gaut, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Forum Energy Technologies, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:

   a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

   b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

   c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

   d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

   a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

   b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
