The close of business on February 13, 2015, has been fixed as the record date for determining the holders of Common Stock entitled to notice of, and to vote at, the Annual Meeting.

In connection with the Annual Meeting, we have prepared a meeting notice, a proxy statement, and our annual report to shareholders, all of which provide important information that our shareholders will want to review before the Annual Meeting. On February 27, 2015, we mailed a Notice of Internet Availability of Proxy Materials instructing our shareholders how to access these materials online and how to submit proxies by telephone or the Internet. If you receive the Notice of Internet Availability of Proxy Materials by mail, you will not receive a printed copy of these materials unless you specifically request one. The Notice of Internet Availability of Proxy Materials contains instructions on how to obtain a paper copy of the materials. If you receive paper copies of the materials, a proxy card will also be enclosed.

You may vote using the Internet, telephone or mail, or by attending the meeting and voting in person. If you plan to attend in person, you will need to provide proof of share ownership, such as an account or brokerage statement, and a form of personal identification in order to vote your shares.

✓ Multiple Performance Metrics – Variable compensation is based on more than one measure to encourage balanced incentives.	✗ No Pledging – Directors and NEOs are prohibited from pledging their shares of Company stock.
✓ "Clawback" Provisions – Our CEO/CFO employment agreements provide for the recovery of compensation in the event of a mandatory restatement.	✗ No Excise Tax Gross-ups – The employment and change in control agreements with our NEOs do not include any excise tax gross-up provisions.

PROXY STATEMENT ANNUAL MEETING OF SHAREHOLDERS KAMAN CORPORATION

APRIL 15, 2015

GENERAL INFORMATION

The Board of Directors (the “Board” or “board”) of Kaman Corporation (the “Company” or “company”) is soliciting proxies for use in connection with our annual meeting of shareholders (the “Meeting” or “Annual Meeting”) to be held on Wednesday, April 15, 2015 (or at any adjournments or postponements thereof), at the time, place and for the purposes described in the accompanying Notice of Annual Meeting of Shareholders, dated February 27, 2015. We will conduct business at the Meeting only if shares representing a majority of all outstanding shares of Common Stock entitled to vote are either present in person or represented by proxy at the Meeting. We believe that the only matters to be brought before the Meeting are those referenced in this Proxy Statement. If any other matters are presented, the persons named as proxies may vote your shares in their discretion.

On February 27, 2015, we mailed a Notice of Internet Availability of Proxy Materials instructing our shareholders how to access this Proxy Statement and our Annual Report to Shareholders, and these materials were mailed to all shareholders who had previously requested paper copies. As of this date, all shareholders of record and all beneficial owners of shares of Common Stock had the ability to access the proxy materials relating to the Annual Meeting at a web-site referenced in the Notice of Internet Availability of Proxy Materials (www.envisionreports.com/KAMN). A shareholder will not receive a printed copy of these proxy materials unless the shareholder requests it by following the instructions set forth in the Notice of Internet Availability of Proxy Materials. The Notice of Internet Availability of Proxy Materials explains how a shareholder may access and review the important information contained in the proxy materials. The Notice of Internet Availability of Proxy Materials also explains how a shareholder may submit a proxy via telephone or the Internet. Our proxy materials, whether in paper or electronic form, are available to all shareholders free of charge.

INFORMATION ABOUT VOTING AT THE ANNUAL MEETING

Voting Rights and Outstanding Shares

Only holders of record of the Company’s Common Stock at the close of business on February 13, 2015 (the “record date”), are entitled to notice of and to vote at the Annual Meeting. As of February 13, 2015, the Company had 27,146,556 shares of Common Stock outstanding, each of which is entitled to one vote on each matter properly brought before the Meeting. All votes will be counted by the Company’s transfer agent, Computershare Shareowner Services, LLC, who will be appointed as inspector of election for the Annual Meeting and who will separately tabulate “for”, “against” and “withhold” votes, as well as abstentions and broker non-votes.

Submitting Your Proxy

Before the Annual Meeting, you can appoint a proxy to vote your shares of Common Stock by following the instructions contained in the Notice of Internet Availability of Proxy Materials. You can do this by (i) using the Internet (www.envisionreports.com/KAMN), (ii) calling the toll-free telephone number (1-800-652-VOTE (8683)) or (iii) if you have a printed copy of our proxy materials, by completing, signing and dating the proxy card where indicated and mailing or otherwise returning the card to us prior to the beginning of the Annual Meeting. **Voting using the Internet or telephone will be available until 1:00 a.m., Eastern Time, on Wednesday, April 15, 2015.**

How to Submit Your Proxy if you are a “Beneficial Owner”

If your shares of Common Stock are held in the name of a bank or broker, you should follow the instructions on the form you receive from that firm. The availability of Internet or telephone voting will depend on that firm’s voting processes. If you choose not to vote by Internet or telephone, please return your proxy card, properly signed, and the shares represented will be voted in

accordance with your directions. If you do not provide instructions to the broker, that firm will only be able to vote your shares with respect to “routine” matters. Under current broker voting regulations, the only routine matter to be voted upon at the Annual Meeting and the only matter for which brokers will have the discretion to vote, is Proposal 3 (Ratification of Appointment of PwC). The broker must have proper instructions from you in order to vote with respect to Proposal 1 (Election of Directors) and Proposal 2 (Advisory Vote to Approve Executive Compensation). Without proper instructions from you, the broker will not have the power to vote on those two proposals and this will be considered a “broker non-vote” for each such proposal. We recommend that you contact your broker to assure your shares are properly voted.

How Your Proxy will be Voted

All properly submitted proxies received prior to the Annual Meeting will be voted in accordance with their terms. If a proxy is returned signed, but without instructions for voting, the shares of Common Stock it represents will be voted as recommended by the Board of Directors. If a proxy is returned improperly marked, the Common Stock it represents will be counted as present for purposes of determining a quorum but will be treated as an abstention for voting purposes. Unsigned proxies will not be counted for any purpose.

How to Revoke Your Proxy

Whichever voting method you choose, a properly submitted proxy may be revoked at any time before it is counted at the Annual Meeting. You may revoke your previously submitted proxy by (i) timely casting a new vote using the Internet or by telephone; (ii) giving written notice to the Company’s Corporate Secretary or submitting a written proxy bearing a later date prior to the beginning of the Annual Meeting, or (iii) attending the Annual Meeting and voting in person. If you submit a later dated proxy, it will have the effect of revoking any proxy that you submitted previously and will constitute a revocation of all previously granted authority to vote for every proposal included on any previously submitted proxy. If you plan to revoke a proxy for shares of Common Stock that are held in the name of a bank or broker, please be sure to contact your bank or broker to ensure that your revocation has been properly processed, or if you plan to revoke a proxy for such shares by voting in person at the Annual Meeting, be sure to bring personal identification and a statement from your bank or broker that shows your ownership of such shares.

Attendance at the Annual Meeting will not by itself revoke a proxy. Written revocations or later-dated proxies should be hand-delivered to the Corporate Secretary at the Annual Meeting or sent to Kaman Corporation, Corporate Headquarters, 1332 Blue Hills Avenue, Bloomfield, CT 06002, Attention: Corporate Secretary. In order to be effective, all written revocations or later-dated proxies must be received before the voting is conducted at the Annual Meeting.

Quorum and Voting Requirements

Under Connecticut law, our shareholders may take action on a matter at the Annual Meeting only if a quorum exists with respect to that matter. With respect to each of Proposals 1, 2 and 3, a majority of the votes entitled to be cast on the matter will constitute a quorum for action on that matter. For this purpose, only shares of Common Stock held as of the record date by those present at the Annual Meeting or for which proxies are properly provided by telephone, Internet or in writing and returned to the Company as provided herein will be considered to be represented at the Annual Meeting.

Directors (Proposal 1) are elected by a plurality of the votes cast, but our Board has supplemented the state law voting requirement with a majority voting policy which is described in more detail below. Approval of the Advisory Vote on Executive Compensation (Proposal 2) and ratification of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm (Proposal 3) each requires that there be more votes cast for the Proposal than against the Proposal.

Broker Non-Votes and Abstentions

All shares of Common Stock represented at the Annual Meeting will be counted for quorum purposes without regard to broker non-votes and abstentions. Broker non-votes and proxies marked to abstain or withhold from voting with respect to any item to be voted upon at the Annual Meeting generally are not considered for purposes of determining the tally of votes cast for or against the item and, therefore, will not affect the outcome of the voting with regard to any proposal, except that proxies marked to withhold authority for the election of any Director are included in the tally of votes cast for purposes of our majority voting policy, which is described below. Accordingly, with respect to the election of Directors (Proposal 1), a vote to withhold authority for the election of any Director has the same effect as a negative vote under our majority voting policy.

Board Voting Recommendations

The Board of Directors recommends that shareholders vote “FOR” the election of all Director nominees and “FOR” Proposals 2 and 3. The Board does not know of any matters to be presented for consideration at the Meeting other than the matters described in those Proposals and the Notice of Annual Meeting of Shareholders. However, if other matters are presented, the persons named in the proxy intend to vote on such matters in accordance with their judgment.

Voting Results

We will announce preliminary voting results at the Annual Meeting. We will file a Current Report on Form 8-K containing the final voting results with the Securities and Exchange Commission (the "SEC") within four business days of the Annual Meeting or, if final results are not available at that time, within four business days of the date on which final voting results become available.

Majority Voting Policy

Since 2006, the Board has maintained a policy (set forth in the Company's Corporate Governance Principles which are available at <http://www.kaman.com> by clicking on the "Governance" link) that addresses certain circumstances when a Director nominee has not received a majority of the votes cast with respect to that Director's election or re-election. Briefly, in an uncontested election for Directors (one in which the number of nominees does not exceed the number of Directors to be elected) at a properly called and held meeting of shareholders, any Director nominee who is elected by a plurality vote, but who does not receive a majority of the votes cast, shall promptly tender his or her resignation once the shareholder vote has been certified by the Company's tabulation agent. A "majority of the votes cast" means that the number of shares voted "FOR" a Director's election exceeds fifty percent (50%) of the number of votes cast with respect to that Director's election. For this purpose, "votes cast" include votes to withhold authority and exclude abstentions and broker non-votes with respect to that Director's election.

The Corporate Governance Committee will thereafter recommend to the Board whether to accept or reject that resignation and, depending on the recommendation, whether or not a resulting vacancy should be filled. The Board will then act, taking into account the Committee's recommendation. The Board will publicly disclose its decision and the rationale therefor in a press release to be disseminated in the customary manner, together with the filing of a Current Report on Form 8-K with the SEC. This process shall be completed within ninety (90) days after the shareholder vote certification. A Director who has tendered his or her resignation shall not participate in the Corporate Governance Committee's determination process and/or the Board's action regarding the matter.

In determining whether or not to accept a Director's resignation for failure to secure a majority of the votes cast, the Corporate Governance Committee and the Board will consider the matter in light of the best interests of the Company and its shareholders and may consider any information they believe is relevant and appropriate, including the following:

- the Director's qualifications in light of the overall composition of the Board;
- the Director's past and anticipated future contributions to the Board;
- the stated reasons, if any, for the "withheld" votes and the underlying cause for the "withheld" votes if it otherwise can be discerned; and
- the potential adverse consequences of accepting the resignation, including the failure to comply with any applicable rule or regulation (including applicable stock exchange rules or federal securities laws) or triggering of defaults or other adverse consequences under material contracts or the acceleration of change in control provisions and other rights in employment agreements, if applicable.

If the Board accepts the resignation, it may, in its sole discretion, (a) fill the resulting vacancy with any other qualified person, or (b) reduce the number of Directors constituting the full Board to equal the number of remaining Directors. If the Board elects to fill the resulting vacancy on the Board, the term of the Director so elected shall expire at the next annual meeting of shareholders at which Directors are to be elected.

If the Board does not accept the resignation, the Director will continue to serve until the annual meeting for the year in which such Director's term expires and until such Director's successor shall be duly elected and shall qualify, subject, however, to prior death, resignation, retirement, disqualification or removal from office.

Solicitation Costs

The Company pays the cost of preparing, printing and mailing proxy material, as well as the cost of any required solicitation of proxies. The solicitation will be made by mail and Internet and may also include participation of the Company's officers and employees personally or by telephone, facsimile, or Internet, without additional compensation. The Company has engaged Georgeson Inc. to assist with the solicitation of proxies and expects to pay approximately \$8,000 for these services, plus expenses. The Company may also be required to reimburse brokers, dealers, banks, voting trustees or their nominees for reasonable expenses in sending proxies, proxy material and annual reports to beneficial owners.

Copies

Upon a shareholder's written request, the Company will provide, free of charge, a copy of its Annual Report to Shareholders, which includes the Company's Annual Report on Form 10-K with financial statements and financial statement schedules for the year ended December 31, 2014.

PROPOSAL 1

ELECTION OF THREE CLASS 1 DIRECTORS FOR THREE-YEAR TERMS

In accordance with the Company's Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws (the "Bylaws"), each Director holds office until the annual meeting for the year in which such Director's term expires and until his or her successor shall be elected and shall qualify, unless he or she dies, resigns, retires, or is removed from office. Each Director also holds office subject to the Company's majority voting policy, which is described on page 3. The following three individuals are nominated for election at the Annual Meeting for three-year terms that will expire at the annual meeting to be held in 2018, each of whom is currently a Director: E. Reeves Callaway III, Karen M. Garrison and A. William Higgins.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" ALL NOMINEES

Set forth below is information about each of the three Director nominees, as well as the seven Directors whose terms continue after the Annual Meeting, including the name, age, and professional experience during the last five years of each individual and the qualifications, attributes and skills the Board believes qualify each individual for service on the Board. None of the organizations listed as business affiliates of the Directors is an affiliate of the Company.

Leslie Controls, Inc., a wholly owned subsidiary of CIRCOR and an entity for which Mr. Higgins served as a Director and Vice President, filed for bankruptcy protection in July 2010 in order to eliminate certain asbestos litigation liabilities. The subsidiary successfully emerged from bankruptcy the following year. Mr. Higgins' professional background provides the Board with additional perspective on talent development, international operations and global strategic development, lean manufacturing and continuous improvement processes, the defense industry, acquisitions, and both the distribution and aerospace markets. INFORMATION ABOUT THE BOARD OF DIRECTORS AND CORPORATE GOVERNANCE

The Board is elected by our shareholders to oversee their interests as owners of the Company. The Board is the ultimate decision-making authority for the Company, except for those matters that are reserved for, or shared with, our shareholders. The Board appoints and oversees the Company's senior management, which is responsible for conducting the Company's day-to-day business operations.

Board Leadership Structure

Our Bylaws and Corporate Governance Principles provide the Board with the flexibility to select and revise its leadership structure on the basis of the best interests of the Company and its shareholders at any given point in time. The Board evaluates this structure in connection with the annual appointments to the positions of Chairman of the Board ("Chairman") and Chief Executive Officer ("CEO"). The Board believes that it is currently in the best interests of the Company and its shareholders to combine the Chairman and CEO roles and to appoint a Lead Independent Director annually. In this way, the Company's shareholders have the benefit of Board leadership by Mr. Keating, an executive with extensive day-to-day knowledge of the Company's operations, strategic plan execution and future needs, as well as a Lead Independent Director who provides Board member leadership. In arriving at its determination, the Board has also considered the fact that the Board consists entirely of independent Directors (other than Mr. Keating), all having diverse professional and other Board experience.

The current Lead Independent Director is Eileen S. Kraus. The Lead Independent Director position has existed since 2002 and its responsibilities currently include membership on the Corporate Governance Committee; Chair of the Board's Executive Sessions and of Board meetings at which the Chairman is not in attendance; review and approval of all Board and committee

meeting agendas; liaison between the Chairman and the independent Directors, which includes facilitating communications and assisting in the resolution of conflicts, if any, between the independent Directors and the Company's management; providing counsel to the Chairman and CEO, including provision of appropriate feedback regarding effectiveness of Board meetings, and otherwise as needed or requested; and such other responsibilities as the Board delegates. In performing these responsibilities, the Lead Independent Director is expected to consult with the chairpersons of other Board committees as appropriate and solicit their participation in order to avoid the appearance of diluting the authority or responsibility of the Board committees and their chairpersons.

Board Meetings and Committees

The Board met five times in 2014 and its committees met a total of 20 times. Each Director attended 75% or more of the aggregate of all meetings of the Board and committees on which he or she served during 2014. All of the Directors then in office attended the 2014 Annual Meeting and all Directors are expected to attend the 2015 Annual Meeting.

The Board maintains the following standing committees: Corporate Governance, Audit, Personnel & Compensation, and Finance. Each committee has a charter that has been approved by the Board. The complete text of each committee charter is available on the Company's website located at www.kaman.com by first clicking on the "Investor Relations" tab followed by the "Corporate Governance" link followed by the "Board Committee Charters and Principles" link. Each committee and the Board periodically, but not less than annually, review and revise committee charters, as appropriate.

The following table describes the current members of each committee and the number of meetings held during 2014:

(1) Not an independent Director.

(2) Lead Independent Director.

Set forth below is a summary of the responsibilities of the various Board committees:

Corporate Governance Committee

Under its charter, the Corporate Governance Committee consists of the chairpersons of the standing committees and the Lead Independent Director, if the Lead Independent Director is not already a committee chairperson. The committee assists the Board in fulfilling its corporate governance responsibilities and serves as the Board's nominating committee. These corporate governance responsibilities include board and committee organization and function, membership, compensation, and annual performance evaluation; annual goals development and evaluation for the CEO with participation by the Personnel & Compensation Committee and the Board in executive session; succession planning; development and periodic review of governance policies and principles; monitoring director compliance with stock ownership guidelines; consideration and recommendation of shareholder proposals; establishment of selection criteria for, and review and recommendation of, new Board members; and administration of the Company's majority voting policy for Director elections.

Audit Committee

The Audit Committee is responsible for assisting the Board in fulfilling its responsibility to oversee the Company's financial reporting and accounting policies and procedures, its system of internal accounting and financial controls, the internal audit function and the annual independent audit of the Company's financial statements. The committee is also responsible for overseeing the performance, qualifications and independence of the Company's independent registered public accounting firm (which reports directly to the committee) as well as the performance of the internal audit department. The committee reviews the Company's business risk assessment framework and identifies principal business risks with management, the independent auditor and the

internal audit director (however, this committee is not the only Board committee that reviews such business risks), and pre-approves all auditing services and permitted non-audit services to be performed by its independent auditor (which approval authority has been delegated to the committee's chairperson for certain immaterial items that may arise between meetings, subject to ratification at the committee's next meeting).

The Audit Committee has also established a policy for the Company's hiring of current or former employees of the independent auditor to ensure that the auditor's independence under applicable SEC rules and accounting standards is not impaired. The committee has also established, and monitors management's operation of, procedures for the receipt, retention, and treatment of complaints received by the Company regarding accounting, internal accounting controls, auditing, or other matters; as well as the confidential, anonymous submission by the Company's employees of concerns regarding questionable accounting, auditing, or other matters. The committee meets regularly in executive session with the Company's Chief Audit Executive and the independent auditor without management present.

The Audit Committee Charter provides that a committee member may not simultaneously serve on the audit committees of more than three companies whose stock is publicly traded (including this committee) unless the Board has provided its consent. No such determination is currently required.

George E. Minnich, Eileen S. Kraus, Scott E. Kuechle and Thomas W. Rabaut each has been determined to be an "audit committee financial expert," within the meaning of Item 407(d)(5) of Regulation S-K.

Personnel & Compensation Committee

The Personnel & Compensation Committee reviews and approves the terms of, as well as oversees, the Company's executive compensation strategies (including the plans and policies to execute those strategies), administers its equity plans (including the review and approval of equity grants to executive officers) and annually reviews and approves compensation decisions relating to executive officers, including those for the CEO and the other executive officers named in the Summary Compensation Table (collectively, the "Named Executive Officers"). The committee considers the CEO's recommendations when determining the compensation of the other executive officers, but the CEO has no role in determining his own compensation (although as part of the annual CEO evaluation process, he prepares a self-assessment for review by the Corporate Governance Committee, which shares that evaluation with this committee). The committee then submits its determinations regarding proposed CEO compensation at an executive session of the Board for consideration and approval.

The Personnel & Compensation Committee also monitors management's compliance with stock ownership guidelines adopted from time to time by the Board; reviews and approves employment, severance, change in control, and termination arrangements for all executive officers and periodically reviews the Company's policies and procedures for management development.

During each of the last eleven years, the committee has directly engaged Geoffrey A. Wiegman, founder and president of Wiegman Associates LLC, an independent compensation consulting firm, to assist the committee in fulfilling its responsibilities (Mr. Wiegman is sometimes referred to in this proxy statement as the "independent compensation consultant"). The independent compensation consultant attends each committee meeting, including executive sessions. He advises the committee on marketplace trends in executive compensation and evaluates proposals for compensation programs and executive officer compensation decisions. He has also provided services to the Corporate Governance Committee in connection with its evaluation of Director compensation. Although he interacts with Company management in his capacity as an advisor to the committee, he is directly accountable to the committee. The committee has assessed the independence of Mr. Wiegman as required under applicable SEC and NYSE rules and has determined that the work of the independent compensation consultant does not raise any conflict of interest. The Committee also has the authority to obtain advice and assistance from external legal, accounting or other advisers.

As noted above, each member of the Personnel & Compensation Committee is "independent," as defined by the NYSE listing standards. In addition, no member of the Personnel & Compensation Committee has served as one of our officers or employees at any time. None of our executive officers serves as a member of the Board of Directors or Compensation Committee of any other company that has one or more executive officers serving as a member of our Board or the Personnel & Compensation Committee. All members of the Personnel & Compensation Committee are "non-employee directors" as defined in SEC Rule 16b-3(b)(3).

Finance Committee

The Finance Committee assists the Board in fulfilling its responsibilities concerning matters of a material financial nature, including the Company's strategies, policies and financial condition, insurance-related risk management programs, financing agreements, dividend policy, significant derivative instrument or foreign currency positions, and administration of tax-qualified defined contribution and defined benefit plans. The committee's responsibilities also include review of the Company's annual business plan and long range planning strategies; all forms of major debt issuances; the financial aspects of proposed acquisitions or divestitures that exceed transaction levels for which the Board has delegated authority to management; material capital expenditures; methods of financing; and the Company's relationship with its lenders. Finally, the committee reviews and approves the Company's policies and procedures on hedging, swaps, security-based swaps, derivatives, foreign currency exchange risk and

debt and interest rate risk and, not less than annually, reviews and approves, on a general or a case-by-case basis, the Company's decision to enter into swaps and other derivative transactions that are exempt from exchange-execution and clearance under the "end-user exception" set forth in the Dodd-Frank Act and any applicable regulations established by the Commodity Futures Trading Commission.

Director Nominees

The Board is responsible for selecting its own members and recommending them for election by the shareholders. The Board delegates the screening process involved to the Corporate Governance Committee, which consults with the Chairman and CEO, after which it provides recommendations to the Board. While the Corporate Governance Committee does not have specific minimum qualifications for potential directors, its policy is that all candidates, including those recommended by shareholders, will be evaluated on the same basis. The committee utilizes a nationally recognized third-party consultant to assist in identifying potential candidates. The consultant is provided with the Committee's assessment of the skill-sets and experience required in the context of current Board composition and identifies potential candidates for introduction to the Committee. Thereafter, consideration of any such individuals is the responsibility of the Committee in consultation with the CEO.

Under our Bylaws, only individuals nominated in accordance with certain procedures are eligible for election as Directors of the Company (except for the rights of preferred shareholders, of which there currently are none). Generally, nominations are made by the Board of Directors or any shareholder (i) who is a shareholder of record on the date of the giving of written notice in respect of the nomination for Director and on the record date for the determination of shareholders entitled to notice of and to vote at a meeting where Directors are to be elected, and (ii) who provides advance written notice, all of the foregoing in accordance with the Bylaws. A shareholder's written notice of a proposed nomination must describe (i) the name, age, business address and residence address of the nominee, (ii) the principal occupation or employment of the nominee, (iii) the class or series and number of shares of capital stock of the Company which are owned beneficially or of record by the person, if any, and (iv) any other information relating to the person that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for election of directors pursuant to Section 14 of the Securities Exchange Act of 1934 (the "Exchange Act"), and its rules and regulations. The shareholder making the proposal must also provide (i) the shareholder's name and record address, (ii) the class or series and number of shares of capital stock of the Company which are owned beneficially or of record by the shareholder, (iii) a description of all arrangements or understandings between the shareholder and each proposed nominee and any other person or persons (including their names) pursuant to which the nomination(s) are to be made by such shareholder, (iv) a representation that the shareholder intends to appear in person or by proxy at the meeting to nominate the persons identified in its notice, and (v) any other information relating to such shareholder that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for election of Directors pursuant to Section 14 of the Exchange Act and its rules and regulations. The written notice must be accompanied by a written consent of each proposed nominee to being named or referred to as a nominee and to serving as a Director if elected. The Board may require any proposed nominee to furnish such other information (which may include meetings to discuss the furnished information) as it may reasonably require to determine the eligibility of such proposed nominee to serve as a Director.

The Board's Role in Oversight of the Company's Risk Management Process

The Board oversees the Company's processes to identify, report and address risks across the full spectrum of the Company's operations. To that end, each of the Board's committees has been delegated responsibility for evaluating specific risk management processes and issues resulting therefrom. The Board receives regular reports from these committees and, where appropriate, directs that action be taken. The Board also conducts direct oversight of certain risk management processes.

The following description of specific Board committee risk management oversight activities is not intended to be exhaustive in nature. The Company's Internal Audit Department reports directly to the Audit Committee and that committee regularly reviews with management the Company's financial reporting and accounting policies, internal controls over financial reporting, internal accounting controls, business risk assessment framework and principal business risks, and Code of Business Conduct compliance. The Finance Committee reviews the Company's short- and long-term business plans, certain proposed acquisitions or divestitures (including consideration of any substantial diversification from current business operations), any significant debt/equity issuances, and risk management programs from an insurance coverage perspective. The Company's Assistant Vice President - Corporate Risk, Safety and Environmental Management also reports directly to the committee on a periodic basis. The Personnel & Compensation Committee reviews and approves the Company's executive compensation strategies and programs related to annual, longer term and equity incentives and the business unit and corporate performance goals associated therewith, monitors management progress in compliance with stock ownership guidelines, considers and approves all employment-related agreements or termination arrangements with the Company's executive officers and periodically reviews policies related to management development. The Corporate Governance Committee reviews the Company's succession plan for the CEO and other top senior management, assures annual evaluation of Board performance, establishes selection criteria for new Directors, and manages the annual CEO evaluation process. The duties and responsibilities of each of the Board's committees are more fully described above.

In addition to its consideration of matters brought to its attention by the Board's committees, the Board conducts direct oversight of various business risk management functions. At each regular meeting, the Board receives senior management reports about current operations as well as the identification of, and progress in addressing, principal business risks. The Board also receives direct reports from management regarding its Enterprise Risk Management program for identification and development of mitigation activities relative to longer-term business risks. In addition to the regular reports provided regarding current principal business risks, the Audit Committee periodically receives summary reports regarding the Enterprise Risk Management program. Annually, the Board reviews and approves the Company's strategic plan objectives with periodic reviews thereafter regarding progress against that plan and any changes that are being considered. The Board's oversight role in this area has not affected its approach to the Board's leadership structure at least in part due to the level of direct communication that the Board and its committees experience with a variety of management employees involved in operations, finance, human resources, risk management and legal roles.

Board and Committee Independence Requirements

Our Corporate Governance Principles provide that, as a matter of policy, a significant majority of the Board should consist of independent Directors. In order to be deemed independent, our Corporate Governance Principles specify that a Director must be free from any relationship which, in the opinion of the Board, would interfere with the exercise of his or her independent judgment in carrying out his or her responsibilities as a director. In addition to establishing its own criteria for independence, the Company complies with the rules promulgated by the NYSE for determining the independence of directors, as well as the Sarbanes-Oxley Act for independence of directors on the Audit Committee and the Internal Revenue Code of 1986 and Dodd-Frank Wall Street Reform and Consumer Protection Act requirements for independence of Directors on the Personnel & Compensation Committee (or any other committee performing an equivalent function).

Based on the review and recommendation of the Corporate Governance Committee, the Board has affirmatively determined that all of the current Directors meet the applicable independence standards referenced in the preceding paragraph, except for Mr. Keating, the Company's Chairman, President and CEO. In evaluating and determining the independence of the Company's Directors, the Corporate Governance Committee and the Board considered that, in the ordinary course of business, transactions may occur between the Company and its subsidiaries and certain entities with which some of the Directors are or have been affiliated.

In affirmatively determining the independence of each Director who serves as a member of the Personnel & Compensation Committee, the Corporate Governance Committee and the Board considered all factors specifically relevant to determining whether such Director has a relationship with the Company or any of its subsidiaries which is material to such Director's ability to be independent from management in connection with the Director's duties as a member of the Personnel & Compensation Committee, including, but not limited to (i) the source of compensation of such Director, including any consulting, advisory or other compensatory fee paid by the Company to such Director; and whether such Director is affiliated with the Company, a subsidiary of the Company or an affiliate of a subsidiary of the Company.

Specific Experience, Qualifications, Attributes and Skills of Current Board Members and Director Nominees

The Corporate Governance Committee is responsible for reviewing with the Board, on a periodic basis, the appropriate characteristics required of Board members in the context of the Board's current composition. This includes review of the suitability for continued service of each Board member when his or her term expires and when he or she has a significant change in status. Overall, the assessment includes areas such as senior leadership positions; professional experience in areas relevant to the Company's businesses, including aerospace, industrial distribution, international, government, regulatory, mergers and acquisitions, financial, accounting, human resources or information technology systems experience; other public company board service; diversity, age and evidence of the intangible characteristics that are vital to the successful operation of any board. Diversity in this context has traditionally referred to encouragement of the identification of minority candidates, including women and individuals of varied national origins. Consideration of diversity has been an element communicated to the third-party search firms in each of the director searches conducted during the past several years.

The Board believes that intangible characteristics include a demonstrated understanding of a Director's policy making role while constructively challenging management to seek and attain competitive targets and increase shareholder value; a demonstrated understanding of the Company's values and strategic plan; capacity for critical thought; maintenance of objectivity in not being unreasonably influenced by personal experience or other Board members in situation analysis; and the independence required for participation on the Board and its committees. In addition, Board members are evaluated with respect to their active contributions, including regular attendance and preparation for/participation at meetings while maintaining an ongoing understanding of the issues and trends affecting the Company.

In addition to these intangible characteristics, we have described specific experience, qualifications, attributes and skills that the Board believes qualify each current director for his or her position on the Board in the summary of biographical information set forth above. Those descriptions are not intended to be comprehensive descriptions of the types of expertise or contributions provided by each Director. At this time, the Board believes that each of these Directors possesses the experience, qualifications,

attributes and skills, as well as the intangible characteristics described above, which, taken together, qualify them for their positions on the Board.

Other Information about the Board's Structure

Board Size

The Company's Board size currently has been fixed at ten, with three Directors to be elected at the Annual Meeting. The Company's Amended and Restated Certificate of Incorporation provides that the Board will consist of at least three and not more than fifteen Directors and, while the Board is permitted to increase its size during the year and elect a Director to fill the vacancy created by the increase, any Director so elected may only serve until the annual meeting immediately following his or her election. Under our Corporate Governance Principles, a Board size of nine to eleven individuals continues to be considered appropriate.

Mandatory Retirement

The Company's Bylaws provide for mandatory Director retirement at age 72 (age 75 for directors serving as of November 14, 2000). The Board's policy in implementing this requirement is that if a Director attains mandatory retirement age during his or her then-current term, the Director may continue to serve the remaining portion of that term. Although the Board is permitted to make exceptions to this requirement, it intends to exercise this right only under extraordinary circumstances. Ms. Kraus, our Lead Director, was re-elected at the 2013 Annual Meeting, and she is expected to continue to serve as a Director until her current three-year term expires at the 2016 Annual Meeting.

Change of Principal Occupation

Our Corporate Governance Principles require Directors who change their principal occupation, position, or responsibility held at the time of election to submit a conditional letter of resignation to the Board, after which a judgment will be made in each case as to the appropriateness of continued membership under the circumstances.

2014 Director Compensation

The following table provides information about the compensation that our Directors earned during 2014. The table does not include Mr. Keating, our Chairman, President and Chief Executive Officer, who received no additional compensation for his service as a Director.

The Corporate Governance Committee reviews our non-employee Director compensation on a biennial basis with the assistance of the independent compensation consultant to the Personnel & Compensation Committee. The most recent review was conducted in November 2014, at which time the Corporate Governance Committee approved certain modifications that became effective as of January 1, 2015. As of such date, the annual cash retainer was increased to \$70,000, the value of the annual equity award was increased to \$100,000 and the Committee membership retainers were increased as follows: Audit Committee – \$12,000; Corporate Governance – \$7,000; Personnel & Compensation – \$8,500; and Finance – \$7,000.

From time to time, special activities may be undertaken by one or more Directors at the direction of the Board and, in such cases, additional fees will ordinarily be paid. There were no such special activities during 2014.

Directors may defer all, or a portion, of their cash compensation. Interest accrues on such deferrals at the Applicable Interest Rate, which is the same rate that applies to our Deferred Compensation Plan for Company executives. When a Director ends his or her service on the Board, distributions are made either in quarterly installments over a maximum period of 10 years or in a lump sum, based on prior elections made in connection with each deferral. Distributions are made beginning either in the next calendar quarter after the date service ends or on the following January 1 at the prior election of the Director.

The Board has adopted stock ownership guidelines for non-employee Directors, which are discussed in more detail below under the caption, "Stock Ownership Guidelines." The Corporate Governance Committee periodically reviews the progress of each non-employee Director toward the achievement of these guidelines. As of December 31, 2014, all non-employee Directors other than Mr. Kuechle were in compliance with these guidelines. Mr. Kuechle was first elected to the Board during 2013 and he is progressing satisfactorily toward the requisite ownership level.

COMPENSATION DISCUSSION AND ANALYSIS

Introduction

This section explains our executive compensation program as it applies to the senior executive officers whose compensation is summarized in the Summary Compensation Table and the other tables that are presented immediately following this discussion. These senior executive officers are sometimes referred to as our "Named Executive Officers" or our "NEOs." This section also discusses the role, responsibilities and philosophy of the Personnel & Compensation Committee (the "Committee" or the "committee") of our Board of Directors, which oversees the design and operation of the program.

For 2014, our Named Executive Officers were as follows:

Neal J. Keating	Chairman, President and Chief Executive Officer
Robert D. Starr	Senior Vice President and Chief Financial Officer
Gregory L. Steiner	Executive Vice President, Kaman Corporation and President, Kaman Aerospace Group, Inc.
Ronald M. Galla	Senior Vice President and Chief Information Officer
Shawn G. Lisle	Senior Vice President and General Counsel

In addition to the foregoing, we have elected to discuss the compensation of Steven J. Smidler, Executive Vice President of the Company and President of our Distribution segment, even though he is not a Named Executive Officer under applicable SEC disclosure rules. We have done so because he is responsible for the management of our largest operating segment and his compensation has been discussed in our proxy statements for the past several years. We also expect that he will be among our most highly compensated executive officers after payment of the long-term incentive award payouts that are likely to be approved in June 2015 based on the long-term performance periods ended as of December 31, 2014.

In the discussion that follows, we begin with a brief description of some of the most significant actions that were taken by the Committee with respect to the 2014 compensation of our Named Executive Officers. We then discuss some of the most significant policies and practices that have been implemented to assure that the total compensation paid to our NEOs is linked to Company performance and increases in shareholder value. We then present the results of our recent say-on-pay votes and discuss how the Committee has interpreted these results. Next, we discuss our compensation philosophy and describe the various elements of our executive compensation program and the 2014 compensation of our Named Executive Officers, including the annual cash incentive award payouts that were approved in February 2015 for 2014 performance and an estimate of the long-term incentive award payouts that are likely to be approved in June 2015 based on the long-term performance periods ended as of December 31, 2014. Next, we discuss a number of other compensation-related matters, including our use of employment and change in control agreements, our stock ownership guidelines for Directors and executive officers, and the material tax and accounting implications of our compensation program. We conclude by presenting the formal report of the Committee, which is required by applicable SEC rules and regulations.

As used in this section, all references to the "Committee" mean the Personnel & Compensation Committee of our Board of Directors, which oversees the design and operation of our executive compensation program. For more information about the Committee and its role and responsibilities, please see the discussion under the heading "Personnel & Compensation Committee" above.

2014 Compensation Initiatives

Set forth below is a brief description of some of the most significant actions that were taken by the Committee with respect to the determination of the 2014 compensation of our Named Executive Officers and other members of our senior leadership team:

- **We approved an Executive Employment Agreement for our Chief Financial Officer that includes a compensation clawback provision.** In the event that there is a mandatory restatement of the Company's financial statements for fiscal year 2014 or any year thereafter that results directly from the fraudulent or knowing intentional misconduct of our CFO, the Agreement provides that he shall pay the Company an amount, denominated as the "Recapture Amount," equal to the difference between the incentive compensation paid or received pursuant to awards made within the twelve-month period following first issuance of financial statements that subsequently become subject to the mandatory restatement, and the amount that would have been paid or received based on the financial results reported in the mandatory restatement, as determined by the Committee. The Agreement also provides that our CFO shall be bound by any rules or regulations promulgated by the SEC implementing the requirements of Section 954 of the Dodd-Frank Act or any compensation clawback policy subsequently adopted by the Committee.
- **We approved an amendment to the Executive Employment Agreement with our Chief Executive Officer conforming the compensation clawback provisions of his agreement to those set forth in our CFO's agreement.** Our CEO's

employment agreement had already contained compensation clawback provisions that were substantially similar to those set forth in our CFO's employment agreement, except that our CEO's agreement did not contain any provisions relating to the adoption of rules or regulations under Section 954 of the Dodd-Frank Act or the adoption of a clawback policy by the Committee. The amendment added these provisions to our CEO's employment agreement, so that our CEO also shall be bound by any rules or regulations promulgated by the SEC implementing the requirements of Section 954 of the Dodd-Frank Act or any compensation clawback policy subsequently adopted by the Committee.

- **We rebalanced the financial metrics for our long-term incentive program ("LTIP") awards to more closely align our long-term incentives with increases in shareholder value.** Three-year total return to shareholders now accounts for 34% of the performance factors incorporated in LTIP awards granted in 2014, up from 20% in prior periods.
- **We added a retention feature to the 2014 LTIP awards granted to our Chief Executive Officer and the President of our Aerospace Segment.** The Committee increased the 2014 LTIP award targets for these senior executives which, if achieved, will result in awards to be paid in shares of Company stock that vest only if the executives remain in the employ of the Company until attaining age 62. The Committee also approved an additional grant of restricted shares to these executives that also vests upon attaining age 62.
- **We added additional caps to the LTIP awards granted to our NEOs.** The overall payouts in respect of LTIP awards granted to our NEOs were already capped at 200% of target but, during 2014, we amended our LTIP agreements to include an additional sub-limit of 150% on the payouts in respect of any particular performance measure if the Company's adjusted performance for such measure is less than zero.
- **We amended our stock ownership guidelines to require executives to retain a higher percentage of the net shares acquired upon exercise of stock options and restricted stock awards.** Executives must now retain at least one-half of the shares acquired, net of shares surrendered to pay taxes and/or exercise price, until they achieve their applicable stock ownership guideline.
- **We amended the 2013 Management Incentive Plan to require a minimum vesting period for stock options.** With certain limited exceptions, the plan now establishes a minimum 3-year vesting period for all stock options granted under the Plan.
- **We deferred the annual base salary adjustments for our senior executives.** Continuing a practice that commenced in 2013, the Committee, at the request of our Chief Executive Officer, again deferred the 2014 salary adjustments for all of our Named Executive Officers, including our Chief Executive Officer and the other senior executive officers who report directly to him, from January 1 to July 1, 2014. The 2014 salary adjustments for all other officers were deferred until April 1, 2014. Similar deferrals are planned for 2015.

Significant Compensation Policies and Practices

The Company's executive compensation program is designed to link total compensation with both short- and long-term Company performance and increases in shareholder value with minimal excess risk taking. In an effort to assure the accomplishment of these objectives, the following policies and practices have been implemented:

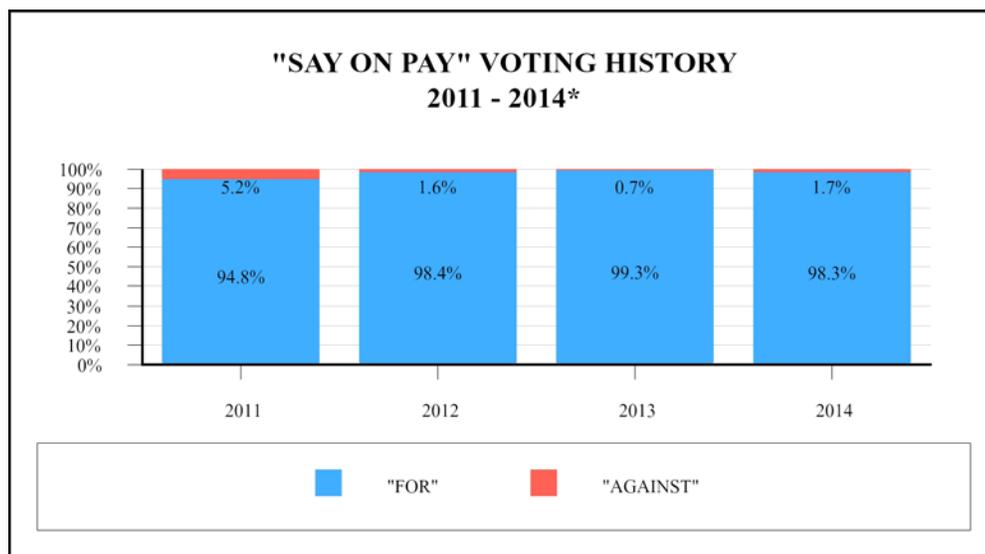

- **Independent Compensation Consultant** – The Committee retains its own compensation consultant who reports directly to the Committee, performs no other work for the Company (other than the biennial Director compensation review performed for the Corporate Governance Committee) and attends all Committee meetings.
- **"Double Trigger" Vesting** – The change in control agreements with our Named Executive Officers include "double trigger" vesting provisions that require both a change in control of the Company and a termination of employment in order to receive severance benefits.
- **No Excise Tax Gross-Ups** – None of our employment or change in control agreements include tax-gross up provisions pursuant to which any of our NEO's would be entitled to reimbursement for any excise taxes resulting from a change in control.
- **No Re-Pricing of Underwater Stock Options** – Our equity incentive plans expressly prohibit the re-pricing of underwater stock options.
- **No Time-Vested Restricted Stock Awards** – Except for two special retention awards that were granted to our CEO and the President of our Aerospace Segment during the spring of 2014, our NEO's generally do not receive time-vested restricted stock awards. Instead, they receive performance-based long-term incentive awards.
- **Total Shareholder Return Performance Metric** – Total shareholder return is a significant component of the performance-based long-term incentive awards that are granted to our Named Executive Officers. Three-year total return to shareholders

now accounts for 34% of the performance factors incorporated in LTIP awards granted in 2014, up from 20% in prior periods.

- **Minimal Perquisites** – The Company provides minimal perquisites to its Named Executive Officers.
- **Claw-Back Provisions** – Both our CEO and our CFO are subject to contractual compensation claw-back provisions in the event that there is a mandatory restatement of the Company’s financial statements. These provisions also provide that our CEO and our CFO shall be bound by any rules or regulations promulgated by the SEC implementing the requirements of Section 954 of the Dodd-Frank Act or any compensation clawback policy subsequently adopted by the Committee. In addition, the 2013 Management Incentive Plan expressly provides that all awards under the Plan shall be subject to any compensation recovery policy that may be adopted by the Company.
- **No Hedging or Pledging of Company Stock** – Our Directors, executive officers and other designated employees are prohibited from engaging in hedging or pledging transactions or short sales of Company stock.
- **Stock Ownership Guidelines** – Our Directors and senior executives are subject to meaningful stock ownership guidelines. Adherence to these guidelines is monitored by the Committee.
- **Balanced Compensation Program** – Our executive compensation program is balanced between annual and long-term financial goals (including total shareholder return), with an emphasis on longer-term strategic objectives.
- **Caps on Incentive Awards** – All annual and long-term incentive awards include caps on the maximum payouts that can be achieved under the awards.

Recent Say-on-Pay Voting Results

For each of the past four years, we have asked our shareholders to cast a non-binding, advisory vote to approve the compensation paid to our named executive officers, and our shareholders have overwhelmingly voted in favor of our compensation program. The following chart shows, for each of the last four years, the percentage of the votes cast "FOR" and "AGAINST" these non-binding proposals, excluding broker non-votes and abstentions:

(*) Represents the percentage of votes cast "FOR" and "AGAINST" the proposals, excluding broker non-votes and abstentions. If abstentions were to be counted, the percentage of votes cast "FOR" the proposals would have been 78.0%, 80.3%, 83.8% and 80.6% for 2011, 2012, 2013 and 2014, respectively.

The Committee has interpreted this strong voting record to mean that our shareholders generally support the current design, purposes and direction of our executive compensation program. As such, the Committee has taken no specific actions to modify our executive compensation program as a direct result of these non-binding, advisory votes but, rather, has continued to oversee the program in accordance with its best judgment and stated governing principles.

WE ENCOURAGE SHAREHOLDERS TO REVIEW THIS COMPENSATION DISCUSSION AND ANALYSIS AND THE ACCOMPANYING COMPENSATION TABLES FOR AN EXPLANATION OF OUR APPROACH TO EXECUTIVE COMPENSATION AND A DISCUSSION OF THE CORRELATION BETWEEN THE COMPENSATION PAID TO OUR NAMED EXECUTIVE OFFICERS AND THE COMPANY'S FINANCIAL PERFORMANCE. AS DISCUSSED HEREIN, WE BELIEVE THAT THE COMPENSATION PAID, AND TO BE PAID, TO OUR NAMED EXECUTIVE OFFICERS FOR 2014 BEARS, AND WILL BEAR, A DIRECT AND CORRESPONDING RELATIONSHIP TO THE COMPANY'S 2014 FINANCIAL PERFORMANCE.

Our Compensation Philosophy and Objectives

The philosophy underlying our executive compensation program is to provide an attractive, flexible, and market-based total compensation program that is tied to the financial performance of the Company and is aligned with the long-term financial interests of our shareholders. We strive to recruit and retain executive officers and other key employees who have the skills and talents that are necessary to deliver sustained financial performance that exceeds the median financial performance of the companies comprising the Russell 2000 index.

Our fundamental compensation objectives include the following:

- **Increase shareholder value by motivating talented individuals to achieve the Company's annual and longer-term financial and strategic operational goals with compensation related to objective benchmarks and Company performance.** To accomplish this objective, we use an appropriate mix of pay elements, including salary, annual and long-term incentive opportunities and benefits. Overall, salary and benefits are determined based upon a comparison to the competitive market for our executives and a group of the Russell 2000 index companies that approximate our revenue size, while the annual and long-term incentive opportunities are directly related to the Company's financial performance compared to the Russell 2000 index companies.
- **Tie a significant percentage of our senior executives' incentive compensation to the successful execution of strategic operational goals.** To accomplish this, we establish objective and measurable goals on an annual and longer-term basis (generally 3 years) and compare the Company's actual performance to objective, measurable benchmarks. As a result, executives, especially our Named Executive Officers, earn above average compensation when the Company achieves above average financial performance as compared to the Russell 2000 index of companies.
- **Require our named executive officers to maintain a significant equity stake in the Company to further align their interests with those of our shareholders.** We maintain meaningful stock ownership guidelines, described in more detail below, that are designed to align the financial interests of our officers, including our Named Executive Officers, with those of our shareholders. To facilitate the accumulation of equity and the satisfaction of these guidelines, the Committee may elect to pay up to one-third (1/3) of a cash-based long-term incentive award payout in shares of Company stock. In the discretion of the Committee, up to the entire amount of such payout may be paid in shares of Company stock to the extent requested by a plan participant.
- **Protect against inappropriate risk taking.** We use caps on potential awards for both annual and long-term incentives. The Committee also introduced a claw-back policy that is reflected in the employment agreements of our Chief Executive Officer and our Chief Financial Officer. The Committee intends to establish a broader claw-back policy covering all executive officers once the SEC issues final rules and the New York Stock Exchange issues listing conditions for the recovery of incentive compensation as required under Section 954 of the Dodd-Frank Act. In addition, the Company's Insider Trading Policy expressly prohibits Directors, executive officers and other designated employees from engaging in short-term or speculative transactions in Company securities, including, among others, (i) short sales of Company securities; (ii) publicly traded options, puts, calls or other similar derivative securities; (iii) hedging or similar monetization transactions, such as zero-cost collars and forward sale contracts; and (iv) holding Company securities in a margin account or pledging Company securities as collateral for a loan.
- **Provide compensation and benefits to our Named Executive Officers consistent with practices of similar companies and also aligned with shareholder interests.** To accomplish this objective, we have made the following changes in recent years:
 - Due to uncertain business conditions, potential adjustments in the base salaries of our CEO and his direct reports have been deferred for a period of six months, from January 1 to July 1. Potential adjustments in the annualized base salaries of other officers have been deferred from January 1 to April 1.
 - The Company closed its supplemental retirement plan to new executive officers in early 2010. Grandfathered participants may continue to earn credited service under this plan until December 31, 2015, but only compensation earned through calendar year 2010 counts toward the final average compensation that is used to calculate supplemental retirement benefits. This treatment is the same as that which applies to participants under our tax-qualified defined benefit pension plan.
 - Certain perquisites that were available to named executive officers and other executive officers were eliminated in early 2010, including medical expense reimbursement and tax and estate planning reimbursement. Further, leased Company vehicles were replaced with vehicle allowances.
 - We no longer provide excise tax gross-ups or "single trigger" change-in-control severance benefits. During 2013, the last of our change in control agreements containing pre-existing excise tax gross-up provisions were amended to eliminate these provisions. Our employment and change in control agreements include only "double

trigger” change in control severance benefits, requiring both a change in control and a termination of employment (or other adverse impact) before any severance payments would be paid in the event of a change in control of the Company.

Our Compensation Program

We have designed our executive compensation program to achieve the goals described above in a variety of ways with the intention of providing market-competitive pay for a company of our size and incentive opportunities that challenge and correspondingly reward our executives when, and to the extent that, the Company succeeds. First, we use a combination of pay elements, each of which over time is intended to approximate the market median compensation for each position. These elements include base salary, annual cash incentives, longer-term cash and equity incentive opportunities, and benefits. The opportunities afforded by each pay element are determined on the basis of comparison to objective criteria to assure consistency with companies of similar revenue size, which include national surveys and a sampling of the Russell 2000 companies recommended by the Committee’s independent compensation consultant which approximate the Company’s revenue size (but none of which specifically reflects our combination of business segments).

Actual annual and longer-term incentive pay is then determined by comparing selected metrics of Company financial and operational performance to the entire Russell 2000 index of companies. The Committee uses the Russell 2000 because it believes this is the most likely group that both current and potential shareholders would use to evaluate the Company in making their investment decisions; this is largely due to the fact that our two business segments (Aerospace and Distribution) are so different from one another that it is not feasible to compare us to a specific peer group of companies. The Committee regularly reviews the continued appropriateness of using the Russell 2000 for comparison and has reconfirmed its use for 2015.

The financial performance metrics upon which annual and longer-term incentive opportunities have been based are those that management has used to evaluate business performance. For corporate participants (those who do not work primarily for one of our two business segments), annual incentive metrics for 2014 included return on invested capital as compared to the return on invested capital achieved by the companies comprising the Russell 2000 index, growth in earnings per share as compared to the growth in earnings per share achieved by the companies comprising the Russell 2000 index, and growth in earnings per share as compared to corresponding amounts established with reference to the Company’s annual profit plan. For business segment participants, annual incentive metrics for 2014 included the accomplishment of predetermined financial goals and other operational performance factors relating to the relevant business segment, as well as the Company as a whole. Longer-term incentive metrics payable in respect of 2014 were the same for corporate and business segment executives and consisted of the Company’s average return on investment, compounded growth in earnings per share and total return to shareholders, generally over a three-year period. All such metrics were approved by the Committee. The weightings of these metrics in the overall determination of award payments for the annual cash incentive and longer-term incentive are discussed in more detail below.

The pay elements of our corporate executive compensation program are designed to work together in a way that results in above average compensation when the Company achieves above average financial performance compared to the Russell 2000 index of companies.

How the Program Works in Practice

The Committee determines the threshold, target and maximum level of base salary, annual cash incentive and long-term incentive targets for our named executive officers using a market report prepared biennially by the Committee’s independent compensation consultant. The independent compensation consultant has advised the Committee that our business segment diversity makes identification of a sensible peer group to benchmark compensation unworkable. Instead, the independent compensation consultant’s market report (the most recent having been prepared in 2013) estimates the 25th percentile, 50th percentile and 75th percentile for base salary, annual cash incentive awards and the annualized cash value of long-term incentives using information for manufacturing companies contained in nationally recognized compensation surveys published by Aon Hewitt and Towers Watson, two large independent consulting firms. *Exhibit 1* to this proxy statement identifies these surveys (which are not prepared at the Company’s request), along with the number, type and size of the covered organizations. The independent compensation consultant then adjusts the compensation level for each position to reflect the revenue level of the organization to provide a more accurate view of the market data. This revenue-size adjustment is made utilizing a regression analysis applied to the scope of each position, generally based on revenue responsibility. In order to test the reliability of this information, the independent compensation consultant then evaluates the compensation levels of a sample of twenty-two (22) Russell 2000 companies having annual revenues similar to ours. The companies evaluated in connection with the 2013 market report are also identified in *Exhibit 1* to this proxy statement. The Committee reviews the list of companies used in each market report and makes changes as appropriate in consultation with the independent compensation consultant.

The Committee's policy is that the base salary, annual cash incentive targets, the annualized value of long-term incentives and other benefits (including perquisites and retirement programs) should each, over time, approximate the market median. As of the 2013 market report prepared by our independent compensation consultant, the base salary and target annual cash incentive award opportunities (as a percentage of base salary) for each of our Named Executive Officers as compared to the median of the competitive market were as follows:

	Base Salary		Target Annual Cash Incentive Award %	
	Kaman ⁽¹⁾	Market Median ⁽¹⁾	Kaman ⁽¹⁾	Market Median ⁽¹⁾
Neal J. Keating ⁽²⁾	\$900,000	\$842,500	105%	100%
Robert D. Starr ⁽²⁾	\$330,000	\$414,708	60%	63%
Gregory L. Steiner ⁽³⁾	\$422,300	\$412,000	65%	64%
Steven J. Smidler ⁽³⁾	\$355,350	\$397,800	65%	60%
Ronald M. Galla ⁽³⁾	\$357,313	\$335,600	55%	46%
Shawn G. Lisle ⁽³⁾	\$315,000	\$366,600	55%	55%

- (1) All information presented was derived from the independent compensation consultant's most recent biennial compensation report, which was presented to the Committee in June of 2013. The base salary information set forth in the table reflects the base salaries then in effect and does not purport to be current.
- (2) The market median figures for Messrs. Keating and Starr are based upon the market surveys and the sample of Russell 2000 companies referenced above.
- (3) The market median figures for Messrs. Steiner, Smidler, Galla and Lisle are based solely upon the market surveys because compensation information for comparable positions generally is not presented in the proxy statements of the sample Russell 2000 companies.

Based on the market data shown in the Table, the independent compensation consultant advised the Committee that the then-current annual base salaries of Messrs. Keating, Steiner and Galla were positioned at or slightly above the market medians for their positions, and the then-current annual base salary of Mr. Smidler was slightly below the market median for his position. The then-current annual base salaries of Messrs. Starr and Lisle were significantly below the market medians for their positions because they were new to their positions. Mr. Starr was appointed Senior Vice President and Chief Financial Officer effective as of July 1, 2013 and Mr. Lisle was appointed Senior Vice President and General Counsel effective as of December 1, 2012. Based on the manner in which the Company manages base salaries, it is expected that actual and market salaries will converge over time. The independent compensation consultant also advised the Committee that the annual cash incentive award targets for each Named Executive Officer approximate market medians. Since annual cash incentive targets, the annualized value of long-term incentive targets and retirement income formulas generally are applied to actual annual base salaries, the independent compensation consultant also advised the Committee that total compensation levels would likely bear a similar relationship to market median total compensation levels.

Our compensation policy also results in a significant percentage of total compensation (excluding benefits) being based on performance. Set forth below is the allocation of total direct compensation (excluding benefits) for target performance for each of our named executive officers for 2014.

Name	Fixed	Performance-Based ⁽¹⁾		
	Salary (% of Total)	Annual Cash Incentive (% of Total)	Long-Term Incentive ⁽²⁾ (% of Total)	Total Performance Related (% of Total)
Neal J. Keating	20%	21%	59%	80%
Robert D. Starr	33%	20%	47%	67%
Gregory L. Steiner	31%	20%	49%	69%
Steven J. Smidler	32%	20%	48%	68%
Ronald M. Galla	41%	22%	37%	59%
Shawn G. Lisle	41%	22%	37%	59%

- (1) Percentages are based on target performance for the annual cash incentive and the long-term incentive elements of compensation.
- (2) Long-term incentive compensation consists of LTIP awards and, in the cases of Messrs. Keating and Steiner, additional restricted stock awards that are designed to create a financial incentive for such officers to remain in the employ of the Company until they reach normal retirement age.

2014 Compensation Paid to our NEOs

The total compensation program for our named executive officers during 2014 was comprised of the following elements:

- Base Salaries;
- Annual Cash Incentive Awards;
- Long-Term Incentive Awards; and
- Retirement and Other Benefits.

While base salaries, long-term incentives, and retirement and other benefits generally are determined in similar ways for each of our Named Executive Officers, different annual cash incentive awards apply to those Named Executive Officers employed at our Corporate Headquarters (Messrs. Keating, Starr, Galla and Lisle), our Aerospace Segment (Mr. Steiner) and our Distribution Segment (Mr. Smidler).

Base Salaries

Base salaries are established with reference to the biennial market report prepared by the independent compensation consultant, generally targeting base salaries at the market median with appropriate modifications to reflect the individual's professional experience and knowledge of his or her area of management responsibility. The Committee's determination regarding the CEO is subject to the Board's ratification and approval. Adjustments to base salary are determined as follows: An overall salary increase budget guideline is developed, based on market data and the use of nationally recognized surveys of anticipated salary increases published by Meridian, AonHewitt, Towers Watson and World at Work. Within the overall budget guideline, a narrow range of salary adjustment percentages is then established for each salary grade, with slightly higher percentages for individuals who are below the grade midpoint and slightly lower percentages for individuals who are above the grade midpoint. Salary adjustments, if any, are then determined within this narrow range based upon an annual performance rating given to the Named Executive Officer by Mr. Keating and recommended to the Committee. The performance rating determination is primarily based upon the officer's level of substantive performance in executing the responsibilities listed in his or her position description.

The Committee's recommendation to the Board regarding the CEO's base salary adjustment is made after consultation with the Corporate Governance Committee to obtain that Committee's assessment of the CEO's performance for the year. The Corporate Governance Committee solicits input from all independent Directors in connection with its annual CEO performance assessment.

Amounts paid to the Named Executive Officers in respect of their 2014 base salaries are shown in the Summary Compensation Table that follows this Compensation Discussion and Analysis. As was done during 2013 and 2014, the Committee, at the request of the CEO, has elected to defer any 2015 salary increases for the named executive officers until at least July 1 due to uncertain business conditions.

Annual Cash Incentive Awards

Our annual cash incentive award plans are designed to reward employees for financial and operational performance that drives shareholder value and to focus our organization on meeting or exceeding designated performance goals. The plans provide employees, including our Named Executive Officers, with the opportunity to earn cash awards based on the degree to which the Company achieves pre-determined performance measures for the year. Amounts paid to our Named Executive Officers under our annual cash incentive plans are intended to qualify as "performance-based compensation" under Section 162(m) of the Code. The Committee retains the ability to utilize negative discretion to eliminate or decrease the amount payable to a participant with respect to any award.

The elements used to determine awards include:

- an award opportunity (expressed as a percentage of base salary);
- performance measures (such as growth in earnings per share);
- a weighting for each performance measure toward the executive's total award; and
- a performance goal for each performance measure (such as a particular earnings per share target).

The Committee establishes the target annual cash incentive award opportunity for each Named Executive Officer using the independent compensation consultant's market report and advice. Positioning award targets at the market median reinforces the Committee's strategy that annual cash incentive payments should exceed target levels only when financial performance exceeds the Company's targeted objectives.

The 2014 target performance award opportunity for each Named Executive Officer was as follows:

Named Executive Officer	2014 Target Award Opportunity Expressed as % of Actual Base Salary
Neal J. Keating	105%
Robert D. Starr.....	60%
Gregory L. Steiner.....	65%
Steven J. Smidler.....	65%
Ronald M. Galla	55%
Shawn G. Lisle	55%

For 2014, the Committee adopted different performance measures, performance measure weightings and performance goals for corporate participants (*i.e.*, those officers who did not work primarily for one of our two business segments) and business segment participants (*i.e.*, those officers who did work primarily for one of our two business segments). Messrs. Keating, Starr, Galla and Lisle were corporate participants and Messrs. Steiner and Smidler were business segment participants. The performance measures, performance measure weightings and performance goals for each are discussed in more detail below, together with the level of achievement or satisfaction of each performance goal and the resulting annual incentive award payout for each of our Named Executive Officers.

For purposes of determining the achievement or satisfaction of the performance measures for the Company and each of its business segments, the Committee approved certain specified modifications to the calculation of each performance measure that were applicable to all participants. Such modifications included the exclusion or inclusion of the following, whichever produces the higher award: changes to generally accepted accounting principles; unusual or non-recurring gain or loss, restructuring or other nonrecurring charges; the cumulative effects of accounting and tax law changes; the dilutive effect on earnings per share that results from any outstanding convertible debt securities and any related bond hedge and warrant transactions; any change in outstanding shares of Company stock by reason of any stock dividend or split, stock repurchase, reorganization, recapitalization, merger, consolidation, spin-off, combination, or exchange of shares or other similar corporate change; investments, charges or costs associated with acquisitions, divestitures or restructurings of the Company or any joint ventures, including but not limited to Kinenco Kaman Composites - India Pvt. Ltd.; capital expenditures, depreciation expense and project expenses related to developing and implementing ERP systems; and charges or costs associated with legacy environmental activities. The Committee, however, retained the ability to eliminate or reduce the amount of any award that would otherwise be payable as a result of the foregoing adjustments or to further adjust any award due to special circumstances as permitted under the 2013 Management Incentive Plan, under which the annual incentive awards were granted.

Corporate Named Executive Officers. The 2014 annual cash incentive awards for Messrs. Keating, Starr, Galla and Lisle were determined by comparing the Company’s degree of achievement with respect to the following performance factors, as compared against the benchmark indicated:

Performance Measure	Benchmark	Weighting
Actual return on investment	Russell 2000 index for 2009 - 2013	33%
Growth in earnings per share (fully diluted)	Russell 2000 index for 2009 - 2013	33%
Actual earnings per share (fully diluted)	2014 business plan performance goal	34%

We use a five-year period for the Russell 2000 index benchmarks primarily because many of the Company’s military and commercial aerospace programs are longer-term in nature, the time period between sales efforts and actual revenues can be very long, and revenues are often not evenly spread from year to year. Further, because the Russell 2000 index includes companies in a variety of industries that may experience different business cycles, the Committee determined that averaging the performance of these companies over a period of time provides a better comparison than just one year. We cannot include the last completed fiscal year in the analysis because sufficient data for the companies comprising the Russell 2000 index generally is not available until the April time-frame of the following year and the Committee determines annual incentive compensation award payouts during the month of February. We use these performance measures because they are the metrics used by management and the Board to evaluate the Company’s performance.

Company performance in the bottom quartile of the Russell 2000 earns no cash incentive award payment for the performance goal; performance at the median results in a cash incentive award at 100% of target for the performance goal; and performance in the top quartile, or above, results in a maximum cash incentive award payment at 200% of the target for the performance goal. Interpolation is used to determine payments for financial performance between the 25th percentile up to the median, and above

the median up to the 75th percentile. This performance measurement methodology remains constant through the years although the performance of the Russell 2000 changes annually, thus increasing or decreasing the targets annually.

The Company's annual business plan is developed jointly by business segment and corporate senior management, incorporating revenue, earnings and cash flow generation goals that take into account global economic circumstances, market conditions, and existing or targeted business opportunities. The business plan is reviewed and approved by both the Finance Committee and the Board. If the Company's modified earnings per share meets at least 70% of the business plan projection, a threshold award for this factor is earned. To the extent that actual earnings per share exceed the business plan projection, a greater award is earned, up to a maximum of 200% of target.

The following table shows the relationship between the Company's 2014 modified financial performance and each performance factor described above, the degree to which each performance factor was attained, and the resulting corporate performance factor. As set forth below, the Company's 2014 modified return on investment and growth in adjusted earnings per share results compared favorably to the Russell 2000, and the Company's modified earnings per share was 106.8% of the business plan projection, resulting in an overall corporate performance factor of 171.5%. After considering all factors deemed relevant, the Committee, upon the recommendation of the Chief Executive Officer, elected to exercise negative discretion with respect to the annual incentive awards payable to all Corporate Named Executive Officers to eliminate the adjustments relating to the settlement of the Wichita Subpoena Matter and the loss on the divestiture of the Distribution segment's Mexican operation and in so doing reduce the Corporate performance factor from 171.5% to 135.6%. The Committee determined that such a reduction was appropriate to reflect the performance of the Distribution segment's former Mexican operation and a portion of the additional expense incurred by the Company in connection with the settlement of the Wichita Subpoena Matter. For more information about the settlement of the Wichita Subpoena Matter, please see Note 16 in our Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2014.

Aerospace Segment Named Executive Officer. The 2014 annual cash incentive award for Mr. Steiner, President of our Aerospace segment, was calculated based 25% on corporate performance and 75% on predetermined financial goals for the Aerospace segment that were recommended by our CEO and approved by the Committee. The financial performance goals and their weightings for the Aerospace segment were as follows:

Financial Performance Goal	Weighting
Actual average return on investment vs. target	20%
Growth in segment sales from prior year	30%
Growth in segment operating profit from prior year	40%
Segment free cash flow vs. Plan	10%

Target return on investment performance is the average return on investment for the three previous calendar years (i.e., the average of 2011, 2012, and 2013 for the 2014 performance year). Growth in segment sales and growth in operating profit both are measured against the prior year. Segment free cash flow represents the net cash provided by (used in) operating activities less expenditures for property, plant & equipment.

"Points" are earned based on the extent to which each performance goal is achieved, with a minimum level of achievement being required to earn any points. The points are then converted into an aggregate payout percentage, which is used to determine the amount of the actual cash incentive award payout. A minimum of 50 points must be accumulated in order to earn any cash incentive award payout and, the more points that are earned, the greater the cash incentive award payout, subject to a maximum cap of 200 points.

Set forth below is a conversion chart illustrating how the total number of points is converted into a percentage of the target award:

ANNUAL INCENTIVE AWARD "POINTS" CONVERSION CHART

Total Points Earned	Percent of Target Award Earned
Below 50	0%
50	20%
60	30%
70	45%
80	60%
90	80%
100	100%
116	120%
132	140%
148	160%
164	180%
180 & Above	200%

Interpolation is used to determine payments if the number of points falls between two stated levels of total points set forth in the table.

The following table illustrates the calculation of the Aerospace segment portion of Mr. Steiner's 2014 annual cash incentive award payout. As shown in the table, Mr. Steiner earned 84.7 points based on actual 2014 business segment results as measured against the specified financial goals. Using the performance factor weightings and point conversion methodology described above,

this resulted in a corresponding segment performance award factor of 69.4%. As discussed above, the Committee retained the ability to exercise negative discretion to eliminate or reduce the amount of any award that would otherwise be payable as a result of the modifications to Company and business segment performance approved by the Committee or to further adjust any award due to special circumstances as permitted under the 2013 Management Incentive Plan, the plan under which the annual incentive awards were granted. After considering all factors deemed relevant, the Committee, upon the recommendation of the Chief Executive Officer, did not elect to exercise any negative discretion with respect to the annual incentive award payable to Mr. Steiner.

- (1) 2014 actual average ROI was calculated based on operating income and average investment, modified to exclude certain long-term investments made in 2014. Actual unadjusted ROI for 2014 was 21.3%.
- (2) Segment operating income increased from \$102.6 million in 2013 to an adjusted \$109.8 million in 2014, an increase of 7.0%. Segment operating income was adjusted by \$1.1 million relating to ERP depreciation and the settlement of the Wichita Subpoena Matter. Actual unadjusted operating income was \$108.7 million.
- (3) Segment sales increased from \$614.0 million in 2013 to \$633.1 million in 2014, an increase of 3.1%.
- (4) Segment free cash flow expressed in millions. Represents the net cash provided by (used in) operating activities less expenditures for property, plant & equipment.
- (5) Determined utilizing Annual Incentive Award "Points" Conversion Chart.

Since 75% of Mr. Steiner's annual cash incentive award was based on Segment performance and 25% was based on corporate performance, Mr. Steiner's aggregate annual cash incentive award factor was 86.0% (.75 x 69.4% + .25 x 135.6%). The following table shows the calculation of the 2014 annual cash incentive award earned by Mr. Steiner, together with the resulting percentage of base salary such award represents:

Named Executive Officer	2014 Year-End Base Salary	Target Award %	Annual Incentive Award Perf. Factor	2014 Cash Incentive Award	Incentive Award Expressed as a Percentage of Base Salary
Gregory L. Steiner	\$437,000	65%	86%	\$244,283	55.9%

Distribution Segment Named Executive Officer. The 2014 annual cash incentive award for Mr. Smidler, President of our Distribution segment, was calculated based 25% on corporate performance and 75% on predetermined financial goals for the Distribution segment that were recommended by our CEO and approved by the Committee. The financial performance goals and their weightings for the Distribution segment were as follows:

Financial Performance Goal	Weighting
Actual average return on investment vs. target	30%
Growth in segment sales from prior year	20%
Growth in segment operating profit from prior year	40%
Segment free cash flow vs. Plan	10%

Target return on investment performance is the average return on investment for the three previous calendar years (i.e., the average of 2011, 2012, and 2013 for the 2014 performance year). Growth in segment sales and growth in operating profit both are measured against the prior year. Segment free cash flow represents the net cash provided by (used in) operating activities less expenditures for property, plant & equipment.

"Points" are earned based on the extent to which each performance goal is achieved, with a minimum level of achievement being required to earn any points. The points are then converted into an aggregate payout percentage using the points conversion chart set forth above, which is used to determine the amount of the actual cash incentive award payout. A minimum of 50 points must be accumulated in order to earn any cash incentive award payout and, the more points that are earned, the greater the cash incentive award payout, subject to a maximum cap of 200 points.

The following table illustrates the calculation of the Distribution segment portion of Mr. Smidler's 2014 annual cash incentive award payout. As shown in the table, Mr. Smidler earned 107.9 points based on actual 2014 business segment results as measured against the specified financial goals. Given the performance factor weightings and point conversion methodology described above, the 2014 financial performance by the Distribution segment resulted in a corresponding performance award factor of 109.9% out of a maximum of 200%. After considering all factors deemed relevant, the Committee, upon the recommendation of the Chief Executive Officer, elected to exercise negative discretion with respect to the annual incentive award payable to Mr. Smidler and, in so doing, reduced Mr. Smidler's performance award factor from 109.9% to 21.5%. The Committee determined that such a reduction was appropriate in light of the performance of the Distribution segment's former operation in Mexico.

Long-Term Incentive Awards

The Committee uses cash- and equity-based awards under the long-term incentive features of the Company's stock incentive plans ("LTIP awards") in order to focus executive officers on long-term performance. LTIP awards generally are based on the Company's actual performance during a three-year performance period, as compared to performance measures established at the beginning of the performance period. The award payout for a completed performance period is determined by comparing the Company's actual financial performance for the three-year period with the performance of the Russell 2000 Index for the same period. Award payouts for completed performance periods generally are made in cash unless a participant has not yet achieved his or her required stock ownership level under the Company's stock ownership guidelines, in which case, the Committee may elect to pay up to one-third of the amount earned in shares of Company stock. In the discretion of the Committee, up to the entire amount of the amount earned may be paid in shares of Company stock to the extent requested by a Participant. These awards are intended to qualify as performance-based compensation in accordance with the requirements of Internal Revenue Code Section 162(m). The Committee retains the ability to utilize negative discretion to eliminate or decrease the amount payable to a participant with respect to any award.

Prior to 2011, the Company's practice had been to include new executive officer participants in the three-year LTIP award performance cycle that followed their hire date. This practice was followed with respect to Messrs. Keating and Steiner, and resulted in no LTIP award payout for at least three years after first becoming a participant. In the interim, new executives received stock options and restricted stock grants instead of LTIP awards. In February 2011, the Committee determined that, as a better means of relating a new executive's incentive compensation to the Company's performance against the Russell 2000 companies, it would utilize LTIP awards with one- and two-year performance cycles in addition to the traditional three-year performance cycle. These LTIP awards would correspondingly use one, two and three-year Russell 2000 index performance periods to determine the LTIP payout, and would be of similar value to the stock options and restricted stock awards previously granted to new executive officers.

In 2014, the Committee also granted special retention awards to Messrs. Keating and Steiner, which are intended to create an additional financial incentive for these officers to remain in the employ of the Company until they reach normal retirement age. Mr. Keating currently is 59 years of age, and Mr. Steiner currently is 57 years of age. Normal retirement age is 62. These special retention awards took the form of an additional LTIP award, which if earned, would be payable in shares of Company Stock and an additional grant of time-based restricted stock. Both awards vest in full only upon attaining age 62 and are described in more detail below.

2014 LTIP Awards. In 2014, the Committee granted LTIP awards for the 2014-2016 performance period to Messrs. Keating, Starr, Steiner, Smidler, Galla and Lisle. Because Mr. Starr first became eligible to receive LTIP awards during 2014 (after having been appointed Chief Financial Officer as of July 1, 2013), the Committee also granted him a one-year LTIP award for the 2014 performance period and a two-year LTIP award for the 2014-2015 performance period.

As discussed above, the Committee also granted special retention LTIP awards to Messrs. Keating and Steiner, which are intended to create an additional financial incentive for these officers to remain in the employ of the Company until they reach age 62. If earned, these special retention awards would be payable in shares of Company stock, rather than cash.

The target award opportunities for the named executive officers for the 2014-2016 LTIP performance period are as follows:

TARGET LTIP AWARDS FOR THE 2014-2016 PERFORMANCE CYCLE

Named Executive Officer	2014 Base Salary ⁽¹⁾	Annual LTIP Awards		Special Retention LTIP Awards	
		Cash Award Opportunity as a % of Base Salary	Award Value at Target ⁽²⁾	Stock Award Opportunity as a % of Base Salary	Award Value at Target ⁽²⁾
Neal J. Keating	\$900,000	275%	\$2,475,000	25%	\$225,000
Robert D. Starr ⁽³⁾	\$375,000	140%	\$525,000	N/A	N/A
Gregory L. Steiner	\$422,300	150%	\$633,450	10%	\$42,230
Steven J. Smidler	\$355,350	150%	\$533,025	N/A	N/A
Ronald M. Galla	\$357,313	90%	\$321,582	N/A	N/A
Shawn G. Lisle	\$330,000	90%	\$297,000	N/A	N/A

(1) Reflects base salary as of the date of grant.

(2) Reflects estimated value of LTIP awards at 100% of target.

(3) Reflects the target award opportunities for each of Mr. Starr's one-year LTIP award for the 2014 performance cycle, two-year LTIP award for the 2014-2015 performance cycle and three-year (2014 - 2016) performance cycle, all valued at 140% of his base salary.

The Committee used the following performance measures and weightings for the LTIP awards set forth above, as compared against the benchmarks indicated, based on its determination of their importance as indicators of the Company's long-term success:

Performance Factor	Benchmark	Weighting
Three-year average return on investment	Three-year average return on investment for the Russell 2000 index companies	33%
Average annual compound growth in earnings per share	Three-year average annual compound growth in earnings per share for the Russell 2000 index companies	33%
Three-year average total return to shareholders	Three-year average total return to shareholders for the Russell 2000 index companies	34%

This weighting reflects a change from prior years. In prior years, the weighting was 40% for both three-year average return on investment and average compounded growth in earnings per share and 20% for three-year average total return to shareholders. In 2014, the Committee amended the weightings to increase the emphasis on total return to shareholders.

We use the Russell 2000 Index companies for our long-term financial performance benchmarks for much the same reason that we use it for our annual cash incentive awards – the Committee believes that these are the kinds of companies against which an investor would likely compare the Company's performance when considering investment alternatives.

Company performance in the bottom quartile of the Russell 2000 earns no long-term incentive award payout for any particular performance goal; performance at the median results in a long-term incentive payout at 100% of target for any particular performance goal; and performance in the top quartile, or above, results in a maximum long-term incentive award payout at 200% of target for any particular performance goal. Interpolation is used to determine payments for financial performance between the 25th percentile up to the median, and above the median up to the 75th percentile. This performance measurement methodology remains constant through the years although the performance of the Russell 2000 changes annually, thus increasing or decreasing the targets annually.

For purposes of determining the achievement or satisfaction of the performance measures discussed above, the Committee approved the same modifications to the calculation of Company performance that were approved in connection with the grant of the 2014 annual incentive awards. See "Annual Cash Incentive Awards" above. The Committee, however, retained the ability to eliminate or reduce the amount of any award that would otherwise be payable as a result of these adjustments or to further adjust any award due to special circumstances as permitted under the 2013 Management Incentive Plan, under which the LTIP awards were granted.

2014 Restricted Stock Awards. As discussed above, the Committee granted special retention awards to Messrs. Keating and Steiner that are intended to create an additional financial incentive for these officers to remain in the employ of the Company until they reach normal retirement age. A portion of the overall awards was in the form of time-based restricted stock which vests in

full upon attaining age 62. Mr. Keating received an award of 15,000 shares and Mr. Steiner received an award of 3,000 shares. Additional information about these awards can be found in the "Grants of Plan-based Awards Table."

Estimated 2014 LTIP Payouts. The Committee previously granted three-year LTIP awards to Messrs. Keating, Steiner, Smidler and Galla covering the 2012-2014 performance cycle, a separate two-year LTIP award to Mr. Lisle covering the 2013-2014 performance cycle and a separate one-year LTIP award to Mr. Starr covering the 2014 performance cycle, all of which are scheduled to be settled during 2015 after a sufficient number of Russell 2000 companies report their earnings for the year ended December 31, 2014. This will not occur until after the date of this proxy statement, so the exact amount of the payouts that will be made in respect of these awards is not currently calculable and is not shown in the Summary Compensation Table. As noted in footnote 3 to the Summary Compensation Table, the Company will prepare and file a Current Report on Form 8-K disclosing the actual payouts in respect of these awards promptly after they are determined and approved by the Committee.

As of January 31, 2015, approximately 18.3% of the Russell 2000 Index companies had reported earnings for the year ended December 31, 2014, based upon which the following estimated 2014 LTIP payout information has been compiled by management in order to provide shareholders with a sense of the likely payouts. **SHAREHOLDERS ARE CAUTIONED, HOWEVER, THAT ALL SUCH INFORMATION IS PRELIMINARY IN NATURE, IS SUBJECT TO CHANGE BASED ON THE ACTUAL REPORTED RESULTS OF THE RUSSELL 2000 INDEX COMPANIES, AND HAS NOT BEEN APPROVED BY THE COMMITTEE, WHICH RETAINS THE ABILITY TO UTILIZE NEGATIVE DISCRETION TO DECREASE OR ELIMINATE THE AMOUNT PAYABLE IN RESPECT OF ANY AWARD.**

The target award opportunities for our Named Executive Officers for the 2012-2014 LTIP performance cycle are as follows:

TARGET AWARDS FOR 2012-2014 LTIP PERFORMANCE CYCLE

Named Executive Officer	2012 Base Salary	Target Award Opportunity as a % of Base Salary	Target Award ⁽¹⁾
Neal J. Keating	\$850,000	275%	\$2,337,500
Robert D. Starr ⁽²⁾	N/A	N/A	N/A
Gregory L. Steiner	\$410,000	150%	\$615,000
Steven J. Smidler	\$345,000	150%	\$517,500
Ronald M. Galla	\$348,598	90%	\$313,738
Shawn G. Lisle ⁽³⁾	N/A	N/A	N/A

(1) Reflects estimated value of LTIP awards at 100% of target.

(2) Mr. Starr did not receive an LTIP award for the 2012-2014 performance cycle. He began receiving LTIP awards in 2014, when he received a one-year LTIP award for the 2014 performance cycle, a two-year LTIP award for the 2014-2015 performance cycle and a three-year LTIP award for the 2014-2016 performance cycle. Mr. Starr's one-year LTIP award for the 2014 performance cycle is scheduled to be settled during 2015 together with the other LTIP awards with performance cycles ending December 31, 2014. Mr. Starr's 2014 base salary as of the date of grant of this award was \$375,000, the target award opportunity as a percentage of such base salary was 140%, and the value of the award at target was \$525,000.

(3) Mr. Lisle did not receive an LTIP award for the 2012-2014 performance cycle. He began receiving LTIP awards in 2013, when he received a one-year LTIP award for the 2013 performance cycle, a two-year LTIP award for the 2013-2014 performance cycle and a three-year LTIP award for the 2013-2015 performance cycle. Mr. Lisle's two-year LTIP award for the 2013-2014 performance cycle is scheduled to be settled during 2015 together with the other LTIP awards with performance cycles ending December 31, 2014. Mr. Lisle's 2013 base salary as of the date of grant of this award was \$285,000, the target award opportunity as a percentage of such base salary was 90%, and the value of the award at target was \$256,500.

The performance measures and weightings for the LTIP awards covering the 2012-2014 performance cycle and the applicable benchmarks against which Company performance is measured are as follows:

Performance Factor	Benchmark	Weighting
Three-year average return on investment	Three-year average return on investment for the Russell 2000 index companies	40%
Average annual compound growth in earnings per share	Three-year average annual compound growth in earnings per share for the Russell 2000 index companies	40%
Three-year average total return to shareholders	Three-year average total return to shareholders for the Russell 2000 index companies	20%

The financial measures and target performance factors used in the estimated calculation for the 2012-2014 performance cycle are described in more detail below:

Three-year average return on investment. Our three-year average return on total investment was 7.5%, which represents the average for the three-year performance period, from January 1, 2012 to December 31, 2014. The Company defines total investment (capitalization) as total shareholders' equity plus total long-term bank debt (including current portion). Return on investment is net earnings divided by total investment as follows:

	(In Millions)		
	2012	2013	2014
Net Earnings	\$55.0	\$57.1	\$57.9
Total Equity	\$420.2	\$511.3	\$517.6
Total Debt	\$259.6	\$275.2	\$282.7
Total Capitalization	\$679.8	\$786.5	\$800.3
Return on investment	8.1%	7.3%	7.2%

Average Annual Compounded Growth in Earnings per Share. Our average annual compounded growth in diluted earnings per share represents the average diluted earnings per share growth rate over the three-year performance period, which is calculated as follows:

	2009	2010	2011	3 Year Average	2012	2013	2014	3 Year Average
EPS	\$0.97	\$1.36	\$1.93	\$1.42	\$2.07	\$2.10	\$2.08	\$2.08

Average Compounded Annual Growth = $(\$2.08 \div \$1.42)^{1/3} - 1 = 13.6\%$.

Three-Year Average Total Return to Shareholders. Return to shareholders combines share price appreciation and dividends reinvested. The total return to shareholders is based on a computation that is obtained from Standard & Poor's Compustat, an independent research service. The Company's average total return to shareholders for the performance period from 2012-2014 was 54.5%.

Financial performance below the 1st quartile results in no award payment; performance at the median results in an award payment at 100% of target; and performance at the top of, or above, the 3rd quartile results in a maximum award payment at 200% of the target. Interpolation is used to determine payments for financial performance within these quartiles.

The financial measures and target performance factors used to calculate Mr. Starr's one-year 2014 LTIP award are the same performance measures and weightings used for the three-year 2012-2014 awards discussed above, except that, in granting the one-year 2014 LTIP award, the Committee utilized the performance factor weightings used for the 2014-2016 performance cycle. For this award, therefore, the growth in earnings per share was 10.0% based on modified earnings per share of \$2.30, with a return on investment of 7.8% and a total shareholder return of 2.5%. The modified earnings per share and total capitalization calculations were adjusted in the same manner as the 2014 Annual Cash Incentive Awards for the Corporate Named Executive Officers, which are discussed above.

Award payouts, if any, are generally made in June of the year following the end of the performance period. This payment date gives the Committee time to collect and analyze the complete performance results of the Russell 2000 companies for the performance period. As explained above, amounts earned for the performance period January 1, 2012 - December 31, 2014 are not yet determinable and are not reflected in the Summary Compensation Table. The Company will disclose actual payments for the performance period when they are made by filing a Current Report on Form 8-K.

The following chart compares the Company's three-year (2012 - 2014) performance against the Russell 2000 Index companies for the same three-year period based on data available as of January 31, 2015.

KAMAN (2012-2014) VS. 3-YEAR RUSSELL 2000 (2012-2014)

	EPS Growth ⁽¹⁾	ROI ⁽²⁾	TSR ⁽³⁾
25th Percentile	(3.6)%	(2.6)%	23.6%
50th Percentile	8.1 %	4.3 %	64.6%
75th Percentile	19.9 %	9.0 %	125.6%
Kaman	13.6 %	7.5 %	54.5%
Russell Percentile	61.7 %	67.0 %	43.8%

(1) Average annual compounded growth in earnings per share.

(2) Three-year average return on investment.

(3) Three-year average total return to shareholders.

Based on the data currently available and as illustrated above, our performance was at the 67th percentile for average return on investment and at the 62nd percentile for compounded EPS growth. Total return to shareholders for this period was slightly below the 44th percentile.

As noted above, Mr. Starr first became eligible to receive LTIP awards during 2014, at which time the Committee granted him a one-year LTIP award for the 2014 performance cycle, a two-year LTIP award for the 2014-2015 performance cycle, and the regular three-year LTIP award for the 2014-2016 performance cycle granted to the other Named Executive Officers which is described in more detail above. See "Target Awards for 2014-2016 LTIP Performance Cycle." Similarly, Mr. Lisle first became eligible to receive LTIP awards during 2013, at which time the Committee granted him a one-year LTIP award for the 2013 performance cycle, a two-year LTIP award for the 2013-2014 performance cycle, and the regular three-year LTIP award for the 2013-2015 performance cycle granted to the other executive officers then in the employ of the Company. Mr. Starr's one-year LTIP award for the 2014 performance cycle and Mr. Lisle's two-year LTIP award for the 2013-2014 performance cycle are scheduled to be settled during 2015 together with the other LTIP awards with performance cycles ending as of December 31, 2014. The target award opportunity for Mr. Starr's one-year LTIP award for the 2014 performance cycle is 140% of his base salary as of January 1, 2014, which was \$375,000, and the target award opportunity for Mr. Lisle's two-year LTIP award for the 2013-2014 performance cycle is 90% of his base salary as of January 1, 2013, which was \$285,000.

The performance measures for the one-year and two-year LTIP awards described above are consistent with the performance measures for the three-year LTIP awards covering the 2012-2014 performance cycle and are based on average EPS growth, return on investment and total shareholder return. The payouts, if any, for these awards will be based on the Company's actual financial performance for each performance period, as modified in substantially the same manner as the 2014 Annual Cash Incentive Awards discussed above.

The following chart compares the Company's financial performance against the Russell 2000 companies for the one-year period ended December 31, 2014, based on data available as of January 31, 2015. Since only 18.3% of the Russell 2000 companies had reported through this date, these figures are subject to change prior to the final determination of Mr. Starr's 2014 LTIP award payout, which is scheduled to occur in June 2015.

As discussed above, the Summary Compensation Table does not include any amounts that have been accrued as expenses in relation to any of the foregoing LTIP awards. We will report the actual amounts earned and paid to our Named Executive Officers in respect of these awards in a Current Report on Form 8-K, which will be filed with the SEC later this year after the Committee has received sufficient 2014 operating results for Russell 2000 companies and certified the extent to which the Company achieved the performance goals established for the awards. Based on the preliminary data available as of January 31, 2015 discussed above, we have accrued the following amounts in respect of these awards: Mr. Keating - \$3,321,588, Mr. Starr - \$628,346, Mr. Steiner - \$873,915, Mr. Smidler - \$735,368, Mr. Galla - \$445,822, and Mr. Lisle - \$277,277. **SINCE ONLY 18.3% OF THE RUSSELL 2000 COMPANIES HAD REPORTED THEIR RESULTS AS OF JANUARY 31, 2015, THE ACTUAL PAYOUTS, AS FINALLY DETERMINED BY THE COMMITTEE, MAY BE MORE OR LESS THAN THESE AMOUNTS. MOREOVER, THE COMMITTEE RETAINS THE ABILITY TO UTILIZE NEGATIVE DISCRETION TO DECREASE OR ELIMINATE THE AMOUNT PAYABLE IN RESPECT OF ANY AWARD.**

Retirement Benefits

The Company sponsors a tax-qualified defined contribution plan (the "401(k) plan"), in which our Named Executive Officers are eligible to participate. Participants generally may elect to contribute from 1% to 50% of their eligible compensation to the 401(k) plan in the form of pre-tax, after-tax or Roth contributions subject to certain limitations imposed by federal law. The Company generally makes employer-matching contributions on a participant's pre-tax and Roth contributions in the amount of \$1.00 for each \$1.00 that a participant contributes, up to 5% of compensation subject to applicable limits imposed by federal tax law. Participants in the 401(k) plan are always vested in their own contributions. Employer-matching contributions vest when a participant acquires three years of service with the Company.

Our Named Executive Officers are also eligible to participate in our non-qualified Deferred Compensation Plan, which permits pre-tax deferrals of up to 50% of a participant's base salary and up to 100% of his or her annual cash incentive award. Until December 31, 2014, the Company made matching contributions on deferrals in the amount of 25% of a participant's deferrals for the plan year, up to a maximum of 2.5% of base salary plus the annual cash incentive award less the maximum allowable match under the 401(k) plan, but this feature of the plan was eliminated as of January 1, 2015. In addition, the Company makes supplemental deferred compensation contributions to eligible participants equal to 10% of the amount by which a participant's compensation exceeds the maximum allowable compensation limit for purposes of a tax-qualified plan, which for 2014 was \$260,000. The supplemental deferred compensation earned by our named executive officers in 2014 is included in the "All Other Compensation" section of the Summary Compensation Table. Participant accounts under the Deferred Compensation Plan are credited with interest at a rate equal to 120% of the applicable federal long-term rate in effect for the month of October prior to the beginning of the applicable plan year. A participant must be actively employed on the crediting date (i.e., January 1 following the applicable plan year) to receive matching and supplemental deferred compensation contributions. Deferrals and all Company contributions and earnings are 100% vested. For more information about the Deferred Compensation Plan, please refer to "Non-Qualified Deferred Compensation Plan" following the Non-Qualified Deferred Compensation Plan Table.

Finally, some of our Named Executive Officers have accrued benefits under a tax-qualified defined benefit pension plan and a supplemental employee's retirement plan (SERP), both of which are now closed to new participants. The SERP generally provides benefits that the Company was unable to provide under the tax-qualified defined benefit pension plan due to federal tax law limits. See the discussion under the heading "Pension Benefits" for more information about the defined benefit pension plan and the SERP.

Other Benefits

The Company provides relatively few perquisites for our Named Executive Officers, consisting primarily of a vehicle allowance, an annual physical examination and executive life insurance. The Summary Compensation Table provides information regarding the incremental cost of perquisites for the named executive officers for 2014.

Employment and Change in Control Arrangements

The Company currently has employment and change in control agreements with each of our Named Executive Officers, except for Mr. Lisle. The terms and conditions of the agreements are described in more detail below. Please see "Post-Termination Payments and Benefits."

The Committee approved the employment agreements in order to encourage the executives to remain with the Company, discourage competitors from attempting to hire those executives, and protect the Company in the event that an executive departs by strictly prohibiting the disclosure of confidential information, limiting the executive's ability to compete with the Company after employment termination, requiring the signing of a release agreement before the payment of severance benefits and imposing reasonable post-employment cooperation obligations. The Committee believes that the change in control agreements serve the interests of our Company and its shareholders by ensuring that, if a hostile or friendly change of control is ever under consideration, our executives will be able to advise our Board of Directors about the potential transaction in the best interests of shareholders, without being unduly influenced by personal considerations.

The employment agreements and change in control agreements with Mr. Keating and with Mr. Starr provide the Company with a right to "claw back" compensation paid or received, or to be paid or received, by these officers relating to Incentive Compensation (as defined in the agreements) paid or awarded to the executives where there is a Mandatory Restatement (as defined in the agreements) of the Company's financial statements that arises directly from the fraudulent or knowing, intentional misconduct of the officer. The Committee intends to establish a claw-back policy for all executive officers after the SEC issues final rules and the New York Stock Exchange issues listing conditions for the recovery of incentive compensation as required under the Dodd-Frank Act.

Stock Ownership Guidelines

Since 2006, the Board has maintained stock ownership guidelines for both non-employee Directors and corporate management. The Board believes that Directors and senior management should have a significant equity position in the Company and that these guidelines further the Board's interest in encouraging a longer-term focus in managing the Company.

Under the guidelines, non-employee Directors are required to have an ownership multiple of three times their current annual cash retainer. For 2014, the stock ownership requirement was \$180,000, based on an annual cash retainer of \$60,000. Directors who do not meet the ownership guidelines must hold shares received pursuant to their annual equity grants (net of any shares used to satisfy income tax withholding requirements) for a period of three years or until the guidelines are met, whichever is earlier.

The stock ownership guidelines for senior management require all covered executives to retain shares having a value equal to one-half of the net after-tax value of any equity award granted under the Company's equity-based compensation plans, until they achieve and continue to maintain the following stock ownership levels:

Position with the Company	Salary Multiple
President and CEO	3X
Participants in the LTIP	2X
All Other Corporate Vice Presidents and Designated Senior Executives	1X

The Committee reviews the stock ownership levels of executives subject to these guidelines on a quarterly basis, and the Corporate Governance Committee reviews the stock ownership levels of all non-employee Directors.

When considering whether the guidelines have been achieved at any particular point in time, the value of a share of Company stock is the highest of (i) the closing price of a share of Company stock on the New York Stock Exchange (the "NYSE") on the most recent trading day preceding the date of determination; (ii) the highest closing price of a share of Company stock on the NYSE on the last trading day during each of the last five years; or (iii) \$39.54, which was the closing price of a share of Company stock on the NYSE on February 13, 2015, the trading day immediately preceding the date on which the Board amended and restated the guidelines.

For purposes of determining compliance with the guidelines, shares owned directly by a covered person or by his or her spouse or minor children, shares held in trust for the benefit of the covered person or for the benefit of his or her spouse or minor children,

and unvested time-based restricted share awards and restricted stock units are included in the calculation of shares owned, but unvested performance share awards and unexercised stock options are excluded.

Each person subject to the guidelines is expected to use good faith efforts to attain the applicable stock ownership amount within a reasonable period of time after becoming subject to the guidelines or becoming subject to a higher ownership multiple, and is expected to continuously own a sufficient number of shares to meet the applicable stock ownership amount once it has been attained. Until the applicable stock ownership amount has been achieved, and thereafter whenever the applicable stock ownership amount has not been met, each person subject to the guidelines is expected to retain at least 50% of the shares of Company stock acquired upon grant, exercise or vesting of equity awards (including long-term performance awards payable in shares) granted under any equity compensation plan or program maintained by the Company, net of any shares surrendered to pay taxes and/or exercise prices. All shares of Company stock acquired upon the vesting of any long-term performance awards payable in cash will be expected to be retained until the applicable stock ownership amount has been attained.

As of December 31, 2014, each Named Executive Officer other than Messrs. Starr and Lisle, and each non-employee Director other than Mr. Kuechle, had achieved their targeted stock ownership amounts. Messrs. Starr and Lisle are new to their positions, and the Committee has determined that they are progressing satisfactorily toward their guidelines. Mr. Kuechle was first elected to the Board during 2013, and he too is progressing satisfactorily toward his applicable ownership guideline. Risk Assessment of Compensation Practices

During 2014, management, including the Company's Internal Audit Department, reviewed existing incentive compensation programs in which executives who are not named executive officers participate in order to confirm that such programs do not create risks that are reasonably likely to have a material adverse effect on the Company. Incentive compensation programs exist at our corporate headquarters and at both the Aerospace and Distribution segments and no particular business carries a significant portion of the Company's overall risk profile. Stock incentive awards are also available under the Company's incentive compensation plans for executives recommended by senior management at each business segment and at our corporate headquarters. These awards are determined based upon parameters developed by the Personnel & Compensation Committee's independent compensation consultant and all awards are reviewed and approved by the Personnel & Compensation Committee. The cash incentive compensation program for corporate executives is subject to performance parameters and dollar limitations with supervisor recommendations reviewed and approved by the Senior Vice President - Human Resources and Chief Human Resources Officer and the Chief Executive Officer. Cash incentive programs at the Aerospace segment tend to be discretionary in nature with review and approval of all recommendations by the division senior management as well as the Aerospace segment President. Cash incentive programs at the Distribution segment tend to be based upon degree of attainment of specific financial performance goals which, overall, are developed on a basis consistent with the segment's longer-term financial goals. These programs are subject to review by the Company's Chief Human Resources Officer and the applicable segment's Vice President of Human Resources and segment President. On the basis of this review, management has concluded that the Company's existing incentive programs applicable to non-named executive officers do not create risks that are reasonably likely to have a material adverse effect on the Company.

Short Sales, Hedging and Pledging

The Company's Insider Trading Policy expressly prohibits Directors, executive officers and other designated employees from engaging in short-term or speculative transactions in Company securities, including, among others, (i) short sales of Company securities; (ii) publicly traded options, puts, calls or other similar derivative securities; (iii) hedging or similar monetization transactions, such as zero-cost collars and forward sale contracts; and (iv) holding Company securities in a margin account or pledging Company securities as collateral for a loan.

Material Tax and Accounting Implications

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public companies for compensation paid in excess of \$1 million for any fiscal year to the Company's CEO and the three other most highly compensated executive officers (excluding the Chief Financial Officer). However, "performance-based compensation" that meets certain requirements under Section 162(m) is exempt from this deduction limitation. The Committee generally intends, but cannot assure, that short and long-term cash incentive awards qualify for this exemption, but, in particular instances, the Committee may authorize compensation that may not be deductible due to this limitation, such as time-based restricted stock awards and bonuses for individual performance based on subjective determination of performance. Shareholders approved the 2013 Management Incentive Plan on April 17, 2013, thereby allowing the Committee to continue to provide incentive compensation that will qualify for favorable tax treatment.

(1) These amounts differ from those shown in the Summary Compensation Table. The amounts shown in the Summary Compensation Table for stock options represent the aggregate grant date fair value of awards made during 2014 in accordance with FASB ASC Topic 718. The amounts identified above represent the value actually received for all options (including previously vested but unexercised options) exercised in 2014 measured as the difference between the fair market value of a share of our Common Stock on the day the option was exercised and the exercise price of the option.

(2) These amounts differ from those shown in the Summary Compensation Table. The value of restricted stock awards included in the Summary Compensation Table represents the aggregate grant date fair value of awards made during 2014 valued in accordance with FASB ASC Topic 718. The amount shown above for restricted stock awards represents the actual value of the restricted stock awards on the date restrictions lapsed, determined based on the fair market value of a share of our Common Stock on that date.

Pension Benefits

The table below shows the present value of accumulated benefits payable to each of our named executive officers at age 65 and the number of years of service credited to each of them under the Kaman Corporation Employees' Pension Plan, which we call the "pension plan," and the SERP as of December 31, 2014.

Name	Plan Name	Number of Years of Service (#)	Present Value of Accumulated Benefit ⁽¹⁾ (\$)	Payments During Last Fiscal Year (\$)

Shawn G. Lisle ⁽³⁾	Kaman Corporation Employees' Pension Plan	—	—	—
	SERP	—	—	—

- (1) Represents the present value of accrued benefits under our pension plan and SERP based upon the following assumptions: (a) for the pension plan, that each executive is employed until retirement, that his or her benefits commence at the earlier of normal retirement age (generally, age 65), and that the earliest age at which an unreduced pension could be received (e.g., age 63 with 30 years of service) and (b) for the SERP, the change to interest rate methodology required under the Pension Protection Act of 2006 and elimination of pre-retirement mortality assumptions because SERP benefits are payable as a lump sum. Please see Note 14 in our Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2014, for a description of material assumptions.
- (2) Mr. Starr is not a participant in the SERP because the pension plan was frozen prior to Mr. Starr being appointed an executive officer.
- (3) Messrs. Smidler and Lisle are not participants in the pension plan or the SERP because the pension plans were closed to new hires before Messrs. Smidler and Lisle joined the Company.

The pension plan is a tax-qualified plan that provides benefits for full-time U.S. employees hired prior to June 1, 2009, at Kaman Industrial Technologies and prior to March 1, 2010, at Kaman Corporation and other participating subsidiaries (with the exception of certain acquired companies that have not adopted the pension plan). Employees became participants upon their completion of certain hours of service requirements and become vested in their pension benefits generally upon attaining five years of continuous service, as defined by the pension plan. Normal retirement, as defined by the pension plan, is generally age 65, however employees that work beyond age 65 may continue to accrue benefits. Employees may retire as early as age 55 with 5 years of service in accordance with pension plan provisions. The annual benefit under the pension plan is generally 60 percent of the average of the highest five years of “Covered Compensation” out of the final ten years of employment less 50 percent of the primary social security benefit, reduced proportionately for years of service less than 30 years. At Kaman Corporation, the parent company, participants who joined the company prior to 2004, have 30 years of service, and have attained age 63, are permitted to retire with a pension benefit unreduced for early retirement. None of the Named Executive Officers, except for Mr. Galla, is eligible for the unreduced pension. The pension plan limits the amount of pension benefits that may be provided to participants under this formula in accordance with certain limits under federal tax laws. To the extent these limits apply to certain executive officers, the Company provides an additional benefit under the SERP program. Except as provided below, our SERP program generally makes each participant whole for the benefits under the retirement formula described above that could not be provided under the pension plan due to these limits. Only salary and annual bonus amounts are treated as pensionable earnings on and after January 1, 2006. Benefits under the SERP are based on the highest five years of pensionable earnings over the last ten years whether or not consecutive. The SERP has been amended to comply with the requirements of Internal Revenue Code Section 409A.

The pension plan was amended by the Board in early 2010 to close the plan to new hires on or after March 1, 2010. Existing employees at that time continue to participate in the pension plan subject to the following changes when calculating pension benefits: (i) changes in pay after 2010 are disregarded; (ii) compensation in the highest five years out of the last ten years of service prior to 2011 will be taken into account, whether or not consecutive; and (iii) a participant’s years of service as defined by the pension plan will continue to count for accruing benefits under the pension plan through December 31, 2015. Corresponding changes were made to the SERP at the same time to assure consistency with the pension plan changes. These changes did not affect individuals who were already retired or had terminated employment and were vested in their pension benefit.

Non-Qualified Deferred Compensation Plan

The following table presents contribution, earnings and balance information under the Company’s Deferred Compensation Plan for our Named Executive Officers for 2014:

Name	Executive Contributions in Last FY (\$)	Registrant Contributions in Last FY (\$)	Aggregate Earnings in Last FY ⁽¹⁾ (\$)	Aggregate Withdrawals/ Distributions (\$)	Aggregate Balance at Last FYE (\$)
Neal J. Keating	—	200,040	17,228	—	428,107

Shawn G. Lisle	—	17,313	2,028	—	50,375

(1) Interest is credited at 120% of Applicable Federal Long-Term Rate.

Our Deferred Compensation Plan affords participants the opportunity to defer up to 50% of base salary and 100% of annual bonus for each calendar year. The deferred amount grows at a crediting rate based on 120% of the Applicable Federal Long-Term Rate published by the Internal Revenue Service (the “Applicable Interest Rate”) until a predetermined distribution date. The plan also provides for certain employer contributions. Specifically, the Company makes an additional contribution to the participant’s deferred compensation plan account in the amount of 25% of the participant’s deferrals, subject to a limitation of 2.5% of the

participant's salary and annual cash incentive, and reduced by the amount of the Company match under the 401(k) plan. The Company also makes a supplemental deferred compensation contribution to the participant's account equal to 10% of their earnings that exceed the compensation limit established annually by the Internal Revenue Service.

In February 2008, the Board amended the Deferred Compensation Plan to comply with the requirements of Section 409A of the Code with respect to deferred amounts (and related earnings) that become vested after December 31, 2004. The provisions of the Deferred Compensation Plan in effect prior to February 2008 continue to apply with respect to deferred amounts that vested before January 1, 2005 (and any related earnings). Under the plan in effect before February 2008, which applies to virtually all of the aggregate balance for Mr. Galla, a Named Executive Officer may elect to take a distribution in the form of a lump-sum payment or installments if he separates from service with the Company after attaining early retirement age under the pension plan. In the event that separation from service occurs prior to attaining early retirement age or if benefits do not exceed \$25,000 in the aggregate, benefits are paid in a lump sum. Participants may also elect to receive payments while employed after a stated number of years as part of their initial deferral election or for account balances prior to January 1, 2005, at any time by having that account balance reduced by 10%. Distributions are also available due to financial hardship.

POST-TERMINATION PAYMENTS AND BENEFITS

The Company has committed to provide additional compensation to certain of our Named Executive Officers in the event of a termination of employment under specified circumstances, including in connection with a change in control of the Company. These commitments and an estimate of the additional compensation that each of our Named Executive Officers would have received if a qualifying termination of employment had occurred on December 31, 2014, are set forth below.

Employment Agreements

We currently have employment agreements with Messrs. Keating, Starr, Steiner, Smidler and Galla. Other than as noted below, the terms and conditions triggering payments under the employment agreements are substantially similar and entitle the executives to receive the compensation and benefits described below under the circumstances indicated. Mr. Lisle currently does not have an employment agreement.

Payment of Accrued Amounts. Regardless of the manner in which the employment of any executive (including a Named Executive Officer not party to an employment agreement) terminates, he is entitled to receive amounts previously earned during the term of his employment (which amounts are referred to in this discussion as "Accrued Amounts"). Such Accrued Amounts include, but are not limited to, (i) unpaid base salary through the date of termination and any accrued vacation in accordance with Company policy; (ii) any unpaid bonus or other short-term and long-term incentive compensation (cash or equity) earned with respect to any completed fiscal year; (iii) reimbursement for any unreimbursed expenses incurred through the date of termination; and (iv) all other payments and benefits to which the executive may be entitled under the terms of any applicable compensation arrangement or benefit program of the Company, including any applicable pension, retirement and insurance benefits. For more information about the retirement and other benefits to which the Named Executive Officers are entitled, please refer to the discussion set forth under the captions, "Outstanding Equity Awards at 2014 Fiscal Year-End" and "Retirement Benefits" within the Summary Compensation Table section of this Proxy Statement. See also, "Pension Benefits" and "Non-Qualified Deferred Compensation Plan" within the Compensation Discussion and Analysis section.

Termination by the Company for Cause or by the Executive without Good Reason. In the event that an executive's employment is terminated by the Company for "Cause" (other than a termination due to death or disability) or by the executive without "Good Reason," the employment agreements generally provide that the executive will be entitled to receive only the Accrued Amounts identified above.

For purposes of the employment agreements, the term "Cause" is defined to mean and include (i) the conviction of, or a plea of guilty or nolo contendere to, a felony or any crime involving moral turpitude, dishonesty, fraud, theft or financial impropriety; or (ii) a determination by a majority of the Board, acting in good faith, that the executive has (A) willfully and continuously failed to substantially perform his duties; (B) engaged in illegal conduct, an act of dishonesty or gross misconduct, in each case which is in the course of the executive's employment and materially injurious to the Company; (C) willfully violated a material requirement of the Company's Code of Conduct or the executive's fiduciary duty to the Company; or (D) in the case of the Chief Executive Officer, violated his covenant to the Company that he is not bound to any agreement that would, among other things, limit his performance with the Company.

For purposes of the employment agreements, the term "Good Reason" is defined to mean any one of the following events, if it occurs without the executive's consent after providing the Company notice and an opportunity to cure: (i) the removal of the executive from his position with the Company (other than for Cause); (ii) a reduction in the base salary or annual target bonus opportunity of the executive; (iii) a failure to pay the executive's compensation or benefits in accordance with the terms of the employment agreement; (iv) the relocation of the executive's principal place of employment by more than 50 miles; (v) the

assignment of duties that are materially inconsistent with the executive's position; or (vi) no longer being a direct report to the Chief Executive Officer of the Company (for executives other than the Chief Executive Officer).

Termination by the Company without Cause or by the Executive for Good Reason. In the event that an executive's employment is terminated by the Company without Cause (as defined above) or by the executive for Good Reason (as defined above), the employment agreements generally provide that the executive will be entitled to receive the following benefits (in addition to the Accrued Amounts):

- a pro-rata portion of the executive's annual bonus for the performance year in which the termination occurs, based upon actual financial performance and payable at the time that annual bonuses are paid to other senior executives of the Company;
- an immediate lump-sum payment equal to two times the sum of the executive's then-current base salary (three times in the case of Mr. Keating) and most recent annual bonus paid to, or earned by, the executive, subject to a reduction as set forth in the employment agreements if termination of employment occurs within two years of the executive's retirement eligibility date;
- a pro-rata payment in cash for each outstanding LTIP award for which the performance period has not been completed, based upon actual financial performance and payable as and when paid to other participants;
- continued participation in all medical, dental and vision plans which cover the executive and the executive's eligible dependents for up to 24 months with the executive continuing to make his share of premium payments, subject to offset due to future employment;
- full vesting of all outstanding equity awards; and
- for Messrs. Starr, Smidler and Galla, continued payment of life insurance premiums until the earlier of 24 months following employment termination or attainment of age 65 (but in no event later than the executive's retirement eligibility date) and for Messrs. Keating and Steiner, continued payment of life insurance premiums for the remainder of their lives.

Termination Due to Retirement. In the event that an executive retires from the employ of the Company on or after his retirement eligibility date, the employment agreements generally provide that the executive will be entitled to receive the following benefits (in addition to the Accrued Amounts):

- a pro-rata portion of the executive's annual bonus for the performance year in which the executive's retirement occurs, based upon actual financial performance and payable at the time that annual bonuses are paid to other senior executives of the Company;
- a pro-rata payment in cash of each outstanding LTIP award for which the performance period has not been completed, based upon actual financial performance and payable as and when paid to other participants;
- full vesting of all outstanding equity awards; and
- for Messrs. Keating and Steiner, continued payment of life insurance premiums for the remainder of their lives provided that they retire at or after age 62.

An executive's retirement eligibility date generally is the date on which an executive attains age 65 or such other age at or after age 62 as shall be approved by the Committee.

Termination Due to Disability or Death. In the event of the disability or death of an executive, the employment agreements generally provide that the executive (or his estate) will be entitled to receive the following benefits (in addition to the Accrued Amounts):

- a pro-rata portion of the executive's annual bonus for the performance year in which the termination occurs based upon target performance, payable at the time that annual bonuses are paid to other senior executives;
- a pro-rata portion of payment in cash of each outstanding LTIP award for which the performance period has not been completed, based upon actual financial performance and payable as and when paid to other participants;
- full vesting of all outstanding equity awards; and
- benefits under the Company's disability plan or payments under the Company's life insurance plan, as appropriate.

For purposes of the employment agreements, a "disability" is considered to exist if the executive has been absent from fully performing his responsibilities due to physical or mental illness for a period of six consecutive months.

Change in Control Agreements

We currently have change in control agreements with each of our Named Executive Officers. Other than as noted below, the terms and conditions triggering payments under these agreements upon the termination of employment of each of our Named Executive Officers in connection with a change in control are substantially similar.

The change in control agreements generally provide that, if an executive's employment is terminated by the Company without "Cause" (other than due to death or disability) or by the executive for "Good Reason" within 90 days prior to the execution of a

purchase and sale agreement resulting in a change in control or anytime thereafter until the second anniversary of a change in control, the executive will be entitled to receive the following severance benefits:

- an immediate lump-sum cash payment equal to three times the executive's base salary, in the case of Mr. Keating, and two times, in the case of the other named executive officers, plus three times, in the case of Mr. Keating, and two times, in the case of the other named executive officers, the last annual bonus paid or awarded to the executive in the three years preceding the date of termination, which shall be payable, with interest, on the date that is six months and one business day after the executive's termination of employment;
- a pro-rata portion of the named executive officer's annual bonus for the performance year in which the termination occurs (based on actual Company performance through the date of termination) payable on the later of the date that annual bonuses are generally paid to other senior executives and the date that is six months and a day after the executive's termination of employment (if such bonus payment is not paid until the date that is six months and a day after the executive's employment termination, the amount shall be credited with interest from March 15th until the date that it is paid);
- continued participation at the Company's expense for 24 months in all medical, dental and accidental death and disability plans which cover the executive and the executive's eligible dependents, subject to offset due to future employment;
- full vesting of outstanding equity awards;
- a pro-rata payment in cash of each outstanding LTIP award for which the performance period has not been completed, based upon actual financial performance and payable as and when paid to other participants;
- benefits under any post-retirement health care plans if the executive would have otherwise become eligible for those benefits by remaining employed through the second anniversary of the employment termination date, commencing on the later of the date that such coverage would have become first available and the date on which the executive's post-employment participation in our benefit plans, as described above, terminates;
- prepayment of premiums under any life insurance policy insuring the life of the executive in the case of Messrs. Keating and Steiner, which shall be payable, with interest, on the date that is six months and one business day after the executive's termination of employment and, in the case of the other named executive officers, continued payment of remaining life insurance premium payments for which the Company shall establish an irrevocable grantor trust holding assets sufficient to pay such premiums; and
- reimbursement for up to \$30,000 (in the aggregate) for outplacement services until the earlier of the first anniversary of the date of termination or the first day of the executive's employment with a new employer.

For purposes of the change in control agreements, a "change in control" is deemed to have occurred if: (i) a person unaffiliated with the Company acquires control of more than thirty-five percent of our voting securities; (ii) there is a change in more than fifty percent of our Directors over two consecutive years which is not Board-approved; (iii) a merger is effectuated with an unrelated entity that results in our shareholders owning fifty percent or less of the voting securities of the merged entity (or its parent company); or (iv) there is a sale of substantially all of the Company's assets to an unrelated third party or shareholder approval of a plan of complete liquidation or dissolution of the Company. A change in control does not include any related party and management buyout transactions.

For purposes of the change in control agreements, "Cause" means that the Named Executive Officer's employment is terminated due to any one of the following events: (i) the willful and continued failure to substantially perform his duties with the Company after notice from the Company; (ii) willful engaging by the named executive officer in conduct which is demonstrably and materially injurious to the Company or its subsidiaries, monetarily or otherwise; or (iii) in the case of Mr. Keating, violating his covenant to the Company that he is not bound to any agreement that would, among other things, limit his performance with the Company.

For purposes of the change in control agreements, "Good Reason" means the occurrence (without the executive's express written consent) after any change in control of any one of the following acts or failures to act by the Company: (i) the assignment to the executive of any duties that are inconsistent with the executive's status as an officer of the Company or a substantial diminution in the nature or status of the executive's responsibilities from those in effect immediately prior to the change in control; (ii) a reduction in the executive's then-current annual base salary; (iii) the relocation of the executive's principal place of employment by more than 50 miles; (iv) the failure to pay to the executive any portion of his current or deferred compensation, within 30 days of the date such compensation is due; (v) the failure to continue in effect any compensation plan in which the executive participates immediately prior to the change in control which is material to his total compensation without an equitable substitute; (vi) the failure to provide life insurance, health and accident, or disability benefits that are substantially similar to those in which the executive was participating immediately prior to the change in control; (vii) the failure to provide the executive with the number of paid vacation days to which he was entitled immediately prior to the change in control; (viii) any purported termination of the executive's employment which is not effectuated in accordance with the employment termination procedures for cause set forth in the change in control agreement, or (ix) the failure of any successor to the Company to expressly assume and agree to perform the agreement in accordance with its terms prior to the effectiveness of any such succession. In no event will the executive have

Good Reason to terminate employment under the change in control agreement due to a diminution of the business of the Company or any of its subsidiaries or a reduction in the applicable business segment's head count or budget, or a suspension of the executive's position, job functions, authorities, duties and responsibilities while on paid administrative leave.

Equity Incentive Plans

The Company maintains equity incentive plans providing for the grant of nonqualified stock options, incentive stock options, stock appreciation rights, restricted shares, restricted stock units, performance share awards, other stock-based awards and cash-based awards to employees, non-employee Directors, and consultants in order to promote the long-term success of the Company. These were generally made under the 2003 Stock Incentive Plan (the "2003 Plan") prior to April 18, 2013, and thereafter under the 2013 Management Incentive Plan (the "2013 Plan").

The 2013 Plan provides that, in the event of a "change in control" of the Company (as defined in the 2013 Plan), unless otherwise set forth in an award agreement, the Committee may, but shall not be obligated to, do any one or more of the following, in each case without participant consent: (a) accelerate, vest or cause the restrictions to lapse with respect to, all or any portion of an award, (b) cancel awards for a cash payment equal to their fair value (as determined in the sole discretion of the Committee) which, in the case of options, shall be deemed to be equal to the excess, if any, of the consideration to be paid in connection with the change in control to holders of the same number of shares subject to such options (or, if no consideration is paid in any such transaction, the fair market value of the shares subject to such options) over the aggregate exercise price, (c) provide for the issuance of replacement awards that will substantially preserve the otherwise applicable terms of any affected awards previously granted under the 2013 Plan as determined by the Committee in its sole discretion, (d) terminate options without providing accelerated vesting, or (e) take any other action with respect to the awards the Committee deems appropriate.

The 2003 Plan provides that, unless otherwise set forth in an award agreement, upon the occurrence of a "change in control" (as defined in the 2003 Plan), all long-term performance awards shall be deemed fully vested and fully earned to the extent of 100% of the target value of each such award and shall be paid out in accordance with the terms and provisions of the Plan. The 2003 Plan also provides that, if a participant's employment is terminated during the 36-month period following a change in control (other than by the Company for cause, by reason of death or disability or by the participant without good reason), then, and only then (i) the vesting periods of any and all incentive stock options, non-statutory stock options and stock appreciation rights granted and outstanding under the Plan shall immediately be accelerated; and (ii) the restrictions and/or conditions applicable to any and all restricted stock awards granted and outstanding under the Plan shall immediately lapse and be of no further force and effect.

Annual Cash Incentive Plans

The 2014 annual cash incentive award opportunities for all Named Executive Officers were made under the 2013 Plan, the change in control provisions of which are discussed above.

Annual cash incentive award opportunities for other officers and senior executives are made under the Company's Cash Bonus Plan (the "Cash Bonus Plan"), which generally requires a participant to be employed for the full award year in order to be eligible to receive an award under the Plan. However, the Cash Bonus Plan expressly authorizes the Committee, in its sole and absolute discretion, to authorize the payment of a cash bonus award to any individual who has been employed for less than a full award year or to any individual who shall cease to be in the employ of the Company for any reason prior to the end of a particular award year, to the extent that the Committee determines the payment of such an award to be fair and equitable.

Coordination of Benefits; Conditions Precedent to the Receipt of Severance Benefits

Executives shall not be entitled to receive duplicative severance benefits under the plans and agreements described above. If an executive's employment with the Company is terminated under circumstances that would result in the payment of severance benefits under the executive's change in control agreement, the severance benefits payable under the change in control agreement will be paid in lieu of any severance benefits that otherwise would be payable under the executive's employment agreement. Moreover, the severance benefits specified in the employment and change in control agreements shall be paid in lieu of any similar benefits provided under the 2003 Plan, the 2013 Plan and the Cash Bonus Plan. Finally, an executive is entitled to severance benefits under his employment agreement or change in control agreement only if (i) the executive signs a release agreement, and (ii) the executive does not compete with the Company and its subsidiaries and does not solicit our employees during the 2-year period following termination of employment.

Assumptions Relating to Post-Termination Benefit Table

The Post-Termination Benefit Table set forth below summarizes, in tabular format, the estimated compensation that each of our current Named Executive Officers would have received if a qualifying termination of employment were to have occurred on December 31, 2014, under the circumstances indicated.

The following assumptions, which are believed to be reasonable in the aggregate, were used to generate the estimates set forth below. There can be no assurance, however, that an actual termination of employment would produce the same or similar results.

- All named executive officers are deemed to have terminated their employment with the Company effective as of December 31, 2014, under the circumstances indicated.
- All Accrued Amounts are omitted from the table because they were earned by the Named Executive Officers without regard to the specified triggering events. Accrued Amounts include, among others, (i) amounts earned in respect of annual cash incentive and LTIP awards for the period ended December 31, 2014, (ii) the value of all stock options and restricted stock awards that were fully vested as of December 31, 2014, and (iii) amounts payable in respect of pension and other retirement benefits, including the SERP and the Deferred Compensation Plan, which were vested as of December 31, 2014. See “Coordination with other Tables,” below.
- All amounts calculated with reference to the value of our Common Stock were calculated using the closing price of our stock on the New York Stock Exchange on December 31, 2014, which was \$40.09.
- All unvested stock options and restricted stock awards are assumed to have vested in full as of December 31, 2014, with respect to a change in control, termination of employment without Cause by us or by the Named Executive Officer for Good Reason or due to retirement, death or disability. All unvested stock options that are assumed to have vested due to a change in control are valued based upon the difference between the closing price of our Common Stock on December 31, 2014, and the exercise price of the underlying stock option. All unvested restricted stock awards that are assumed to have vested due to a change in control are valued based upon the closing price of our Common Stock on December 31, 2014.

Coordination with Other Tables

The Post-Termination Benefit Table does not duplicate amounts disclosed elsewhere in this proxy statement, with respect to which the Named Executive Officers were vested on or before December 31, 2014, without regard to the triggering events specified in the table. These amounts include, among others, the following:

- Stock options and restricted stock awards that vested on or before December 31, 2014, which are summarized in the Outstanding Equity Awards at 2014 Fiscal Year-End table;
- Pension and SERP benefits, which are summarized in the Pension Benefits table;
- Vested amounts payable under the Deferred Compensation Plan, which are summarized in the Non-Qualified Deferred Compensation Plan table; and
- Unreimbursed business expenses.

- (1) Reflects amounts due to each executive under his employment agreement, assuming the executive's employment is terminated by the Company without "Cause" or by the executive for "Good Reason," as such terms are defined in the employment agreements. All Named Executive Officers have employment agreements, except for Mr. Lisle.
- (2) Reflects amounts due to each executive under his change in control agreement, assuming the executive's employment is terminated during the "change in control" protection period other than (i) by the Company for "Cause," (ii) by reason of death or disability, or (iii) by the executive without "Good Reason," as such terms are defined in the change in control agreements. All Named Executive Officers have change in control agreements.
- (3) Reflects two times (or, for Mr. Keating, three times in the event of a change in control) 2014 base salary and last bonus paid. There are no severance payments due upon retirement, death or disability. However, the Company will pay a pro-rata amount of any annual cash incentive award in the event of retirement, death or disability, to be paid when such awards are normally paid to other executives.
- (4) Reflects the value of unvested stock options that become fully vested upon a qualifying termination, calculated as the difference between the exercise price and \$40.09, the closing price of the Company's Common Stock on the New York Stock Exchange on December 31, 2014. Amounts shown for Mr. Lisle vest immediately only upon a change in control.
- (5) Reflects the value of unvested restricted stock awards that become fully vested upon a qualifying termination, calculated as \$40.09 per share, the closing price of the Company's Common Stock on the New York Stock Exchange on December 31, 2014.
- (6) Reflects a pro-rata payment in respect of outstanding LTIP awards with performance periods ending after December 31, 2014. The actual amount of the payment generally will be determined by multiplying the amount the participant would have received based upon actual performance for the entire performance period by a fraction, the numerator of which is the number of days the participant remained employed with the corporation during such performance period and the denominator of which is the total number of days during the performance period. However, because it is not possible to estimate the actual performance of the Company or the Russell 2000 index, the amounts included in the table have been pro-rated assuming a payment equal to 100% of the targeted amount. Pro rata payments in respect of the LTIP awards held by Mr. Lisle vest immediately at target in the event of death or disability and payment is due within 90 days following the date of termination.
- (7) Reflects the value of the Company's share of premium payments to be made for medical and dental for 24 months, based on 2014 premiums for active employees with one dependent.
- (8) Reflects the value of regular annual premiums based on the 2014 rate, which will be paid for 24 months, except in the cases of Messrs. Keating and Steiner who are entitled to have their premiums paid for their lifetimes. The premium payment obligation accelerates upon a change in control; the estimated prepayment for life insurance premium payments as of December 31, 2014, is illustrated in this chart assuming mortality based on blended RP2000 (as required by the Pension Protection Act of 2006), and interest at 3.15%.

PROPOSAL 2

ADVISORY VOTE TO APPROVE NAMED EXECUTIVE OFFICER COMPENSATION

As required by the applicable rules and regulations of the SEC promulgated under the Exchange Act and in accordance with the results of our 2011 shareholder advisory vote relating to the frequency of advisory votes on the compensation of our named executive officers, we are asking shareholders to vote on an advisory (non-binding) basis on the following resolution at the annual meeting:

RESOLVED: That the compensation paid to the Company's named executive officers, as described in the Compensation Discussion and Analysis, the Summary Compensation Table and the other executive compensation tables and related narratives and descriptions included in the Proxy Statement relating to the Company's 2015 Annual Meeting of Shareholders be, and hereby is, APPROVED.

This advisory vote, commonly known as a "Say on Pay" vote, gives shareholders the opportunity to express their views about the compensation we pay to our named executive officers, as described in this Proxy Statement. Shareholders may vote "FOR" or "AGAINST" the resolution or abstain from voting. Before voting, all shareholders are urged to review the Compensation Discussion and Analysis, as well as the tabular and narrative disclosures that follow it. These sections describe the Company's compensation programs relating to our named executive officers and the rationale behind the decisions made by the Personnel & Compensation Committee.

The Board believes that the Company's executive compensation program effectively reflects the objectives described in the Compensation Discussion and Analysis and, therefore, recommends that shareholders vote "FOR" the resolution set forth above.

Because this vote is advisory (non-binding), neither the Company nor the Board is required to take action in response to the outcome of the vote on this Proposal. Shareholders can be assured, however, that the shareholder sentiment expressed by the vote will be considered by the Personnel & Compensation Committee and the Board in crafting their approach to executive compensation matters.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "FOR" THE APPROVAL OF THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS, AS DISCLOSED IN THIS PROXY STATEMENT.

PROPOSAL 3

RATIFICATION OF APPOINTMENT OF PRICEWATERHOUSECOOPERS LLP AS INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE COMPANY

On February 17, 2015, the Audit Committee approved the engagement of PricewaterhouseCoopers LLP (“PwC”) as our independent registered public accounting firm for the year ending December 31, 2015. Although not legally required to do so, the Board historically has chosen to ask the Company’s shareholders to ratify the selection of the Company’s independent registered public accounting firm. In the event shareholders do not ratify the appointment, the Audit Committee may reconsider it. Even if the selection is ratified, the Audit Committee may, in its discretion, select a different registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and our shareholders.

KPMG LLP (“KPMG”) was engaged to audit our consolidated financial statements for the year ended December 31, 2012, and was dismissed as our independent registered public accounting firm, effective as of the date KPMG completed its audit of our consolidated financial statements as of and for the year ended December 31, 2012, and the related financial statement schedule (the “2012 Financial Statements and related schedule”) and the effectiveness of our internal control over financial reporting as of December 31, 2012, the issuance of their reports thereon, and the filing of our Annual Report on Form 10-K for the year ended December 31, 2012. During the year ended December 31, 2012, and through the date we filed our Annual Report on Form 10-K for the year ended December 31, 2012, we had no disagreements with KPMG on any matter of accounting principle or practice, financial statement disclosure, or auditing scope or procedure which, if not resolved to KPMG's satisfaction, would have caused it to make reference to the matter in conjunction with its report on our consolidated financial statements for the relevant year; and there were no “reportable events” as defined in Item 304(a)(1)(v) of SEC Regulation S-K.

KPMG's audit reports on our consolidated financial statements for the year ended December 31, 2012, and the related financial statement schedule, and on the effectiveness of our internal control over financial reporting as of December 31, 2012, did not contain an adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles, except that KPMG's report on our consolidated financial statements for the year ended December 31, 2012, and on the effectiveness of internal control over financial reporting as of December 31, 2012, contained a paragraph stating that “Kaman Corporation and subsidiaries acquired Zeller Corporation and Florida Bearings, Inc. (collectively “the acquired companies”) during 2012, and management excluded from its assessment of the effectiveness of Kaman Corporation and subsidiaries' internal control over financial reporting as of December 31, 2012, the acquired companies' internal control over financial reporting associated with total assets of 7% and total revenues of 1% in the consolidated financial statements of Kaman Corporation and subsidiaries as of and for the year ended December 31, 2012. Our audit of internal control over financial reporting of Kaman Corporation and subsidiaries also excluded an evaluation of the internal control over financial reporting of the acquired companies.”

During the year ended December 31, 2012, and through the date we filed our Annual Report on Form 10-K for the year ended December 31, 2012, neither we, nor anyone on our behalf, consulted with PwC with respect to either (i) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on our consolidated financial statements, and no written report or oral advice was provided by PwC to us that PwC concluded was an important factor considered by us in reaching a decision as to any accounting, auditing, or financial reporting issue or (ii) any matter that was the subject of either a disagreement (as defined in Item 304(a)(1)(iv) of SEC Regulation S-K) or a reportable event (as described in Item 304(a)(1)(v) of SEC Regulation S-K).

We expect that a representative of PwC will attend the annual meeting, and that such representative will have an opportunity to make a statement if he or she so desires. The representative will also be available to respond to appropriate questions from shareholders. See “INFORMATION ABOUT THE BOARD OF DIRECTORS AND CORPORATE GOVERNANCE—Board Meetings and Committees—Audit Committee” for additional information pertaining to the Audit Committee, its activity during 2014, and related matters.

The Chairman of the Committee has been authorized by the Committee to pre-approve proposals up to \$100,000 per service item, subject to the full Committee's ratification at a subsequent meeting. Pre-approvals are specific as to the particular service that is proposed and each service is generally subject to a budget.

Audit Committee Report

The Directors named below constituted the Audit Committee (the "Committee") of the Board during 2014 and through February 16, 2015, the date on which the actions referenced in this report were taken. We each serve for a term of one year and until our successors are elected and qualify. The Board has made an affirmative determination that each of us is independent, as defined by the applicable exchange rules and the SEC and otherwise in accordance with the Committee's charter and our Corporate Governance Principles. Further, the Board has made an affirmative determination that in light of our respective backgrounds and experiences, we each meet the financial literacy requirements for service to the Committee, and that each of us possess the qualifications necessary for service as an "audit committee financial expert," as that term is defined by applicable SEC regulations.

We oversee the Company's financial reporting process on behalf of the Board of Directors. Management is responsible for the Company's financial statements and the financial reporting process, including implementing and maintaining effective internal control over financial reporting and for the assessment of, and reporting on, the effectiveness of internal control over financial reporting. The independent auditor is responsible for expressing an opinion on the conformity of those audited financial statements with U.S. generally accepted accounting principles and for expressing an opinion on the effectiveness of the Company's internal control over financial reporting.

We reviewed and discussed with management and PwC the Company's audited consolidated financial statements for the year ended December 31, 2014, the representations of management and PwC's opinion regarding such statements, and the Company's system of internal control over financial reporting as required by Section 404 of the Sarbanes Oxley Act. We discussed with the Company's Chief Audit Executive and with PwC the overall scope and plan of their individual audits and reviewed the results of their examinations and the overall quality of the Company's financial reporting. We also received from PwC a written report relative to matters required by Statement on Auditing Standards No. 61 and discussed the report with PwC and management. Based upon these reviews and discussions and in reliance upon them, we recommended to the Board of Directors that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

During 2014, we monitored the qualifications, performance, effectiveness and independence of PwC, the Company's independent registered public accounting firm for such year. In that regard, we received from PwC, and discussed with it, a written report required by applicable requirements of the Public Company Accounting Oversight Board regarding PwC's communications with us concerning PwC's independence.

We also approved PwC as the Company's independent registered public accounting firm for 2015, which approval has been ratified by the Board and is being recommended for ratification by shareholders at the 2015 Annual Meeting of Shareholders.
