

FOR IMMEDIATE RELEASE

Tower International Reports Fourth Quarter Results Better Than Guidance and Outlines Anticipated Above-Industry Growth in 2016

LIVONIA, Mich., February 11, 2016 – Tower International, Inc. [NYSE: TOWR], a leading integrated global manufacturer of engineered automotive structural metal components and assemblies, today announced fourth quarter 2015 results, provided a preliminary outlook for 2016, and discussed related business developments.

- Revenue for the fourth quarter was \$494 million. At constant exchange rates, revenue was \$525 million, up 5% from \$502 million in the fourth quarter 2014, more than explained by growth in North America and Europe.
- Adjusted EBITDA for the quarter was \$45.5 million, compared with \$48.8 million a year ago. The year-over-year decline reflected the planned and anticipated up-front expenses associated with the major new business awarded to Tower North America in 2015, in addition to unfavorable currency translation.
- Net income in the fourth quarter was \$145.1 million, compared with a loss of \$20.6 million last year. As detailed below, this year's fourth quarter included certain items which favorably affected results by \$130.7 million, reflecting primarily the release of a U.S. tax valuation allowance. Excluding these items and comparable items in the fourth quarter of 2014, diluted adjusted earnings were \$0.67 per share, compared with \$0.74 a year ago.
- Compared with prior Company guidance, fourth quarter revenue was better by \$6 million, adjusted EBITDA was better by \$0.7 million, and adjusted earnings per share were better by 7 cents.
- Net debt at December 31 was \$306 million, an improvement of \$52 million from September 30 (excluding cash attributable to discontinued operations). This largely reflected the previously disclosed sales of two joint ventures in China and an operation in Brazil.
- Year-end liquidity was a record-high \$372 million. In January, the Company reduced its term debt by \$50 million.
- For 2016, the preliminary outlook includes:
 - 5% growth in revenue, to \$2.05 billion, despite an anticipated currency translation headwind of \$55 million (with an average Euro assumption of \$1.05);
 - Adjusted EBITDA up 7%, to \$205 million;
 - Adjusted EBITDA margin increasing by 20bps, to 10%, despite being negatively impacted by costs associated with new-business ramp-up;
 - Adjusted earnings per share of \$3.00, with the decline from \$3.22 in 2015 more than explained by the previously disclosed resumption of U.S. income tax accruals in 2016. At comparable U.S. tax bookkeeping rates, the outlook for adjusted earnings per share would be

up 21% from 2015. The Company presently does not expect to be a cash tax payer in the U.S. until 2019; and

- Adjusted free cash flow of \$35 million, which includes about \$35 million of above-trend capital spending to support the major new-business awards in 2015 in North America.

- The Company's outlook for first quarter 2016 includes revenue of \$505 million, adjusted EBITDA of \$45 million, and adjusted earnings per share of 55 cents. Costs associated with new-business ramp-up are expected to mainly impact the first two quarters of 2016. Factoring in all calendarization effects, the Company anticipates Adjusted EBITDA to be lower than a year ago in the first half of 2016 and significantly better than a year ago in the second half.

“With our strengths in engineering, program management, operational execution, and financial discipline, we believe Tower’s competitive position is stronger than ever -- and still progressing,” said President and CEO Mark Malcolm. “Whether the U.S. auto industry is at or approaching a cyclical peak is anyone’s guess, but the above-industry profitable growth already booked, plus significant opportunities we continue to be presented by customers, make us confident that Tower’s future is brighter than ever. Our peak results are out in front of us.”

Tower to Host Conference Call Today at 11 a.m. EST

Tower will discuss its fourth quarter 2015 results, the outlook for 2016, and other related matters in a conference call at 11 a.m. EST today. Participants may listen to the audio portion of the conference call either through a live audio webcast on the Company’s website or by telephone. The slide presentation and webcast can be accessed via the investor relations portion of Tower’s website www.towerinternational.com.

To dial into the conference call, domestic callers should dial (866) 393-4576, international callers should dial (706) 679-1462. An audio recording of the call will be available approximately two hours after the completion of the call. To access this recording, please dial (855) 859-2056 (domestic) or (404) 537-3406 (international) and reference Conference I.D. #42275835. A webcast replay will also be available and may be accessed via Tower’s website.

Non-GAAP Financial Measures

This press release includes the following non-GAAP financial measures: “adjusted EBITDA”, “adjusted EBITDA margin”, “adjusted earnings per share”, “adjusted free cash flow”, and “net debt.” We define adjusted EBITDA as net income / (loss) before interest, taxes, depreciation, amortization, restructuring items and other adjustments described in the reconciliations provided in this presentation. Adjusted earnings per share exclude certain income and expense items described in the reconciliation provided in this presentation. Free cash flow is defined as cash provided by operating activities less cash disbursed for purchases of property, plant and equipment. Adjusted free cash flow is free cash flow excluding cash received or disbursed for customer tooling. Net debt represents total debt less cash and cash equivalents. We use adjusted EBITDA, adjusted EBITDA margin, adjusted earnings per share, free cash flow, adjusted free cash flow and net debt as supplements to information provided in accordance with generally accepted accounting principles (“GAAP”) in evaluating our business and they are included in this press release because they are principal factors upon which our management assesses performance. Reconciliations of these non-GAAP financial measures to the most directly comparable financial measures calculated

in accordance with GAAP are set forth below. The non-GAAP measures presented above are not measures of performance under GAAP. These measures should not be considered as alternatives for the most directly comparable financial measures calculated in accordance with GAAP. Other companies in our industry may define these non-GAAP measures differently than we do and, as a result, these non-GAAP measures may not be comparable to similarly titled measures used by other companies in our industry; and certain of our non-GAAP financial measures exclude financial information that some may consider important in evaluating our performance. Given the inherent uncertainty regarding special items and other expense in any future period, a reconciliation of forward-looking financial measures to the most directly comparable financial measures calculated and presented in accordance with GAAP is not feasible. The magnitude of these items, however, may be significant.

Forward-Looking Statements and Risk Factors

This press release contains statements which constitute forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, including but not limited to statements regarding the Company's projected revenue, adjusted EBITDA, diluted adjusted earnings per share, adjusted free cash flow and statements regarding new sources of profitable growth, future financial results and the Company's future business outlook. The forward-looking statements can be identified by words such as "anticipate," "believe," "plan," "estimate," "expect," "intend," "project," "target," and other similar expressions. Forward-looking statements are made as of the date of this press release and are based upon management's current expectations and beliefs concerning future developments and their potential effects on us. Such forward-looking statements are not guarantees of future performance. The following important factors, as well as risk factors described in our reports filed with the SEC, could cause our actual results to differ materially from estimates or expectations reflected in such forward-looking statements:

- global automobile production volumes;
- the financial condition of our customers and suppliers;
- our ability to make scheduled payments of principal or interest on our indebtedness and comply with the covenants and restrictions contained in the instruments governing our indebtedness;
- our ability to refinance our indebtedness;
- risks associated with our non-U.S. operations, including foreign exchange risks and economic uncertainty in some regions;
- any increase in the expense and funding requirements of our pension and other postretirement benefits;
- our customers' ability to obtain equity and debt financing for their businesses;
- our dependence on our largest customers;
- pricing pressure from our customers;
- work stoppages or other labor issues affecting us or our customers or suppliers;
- our ability to integrate acquired businesses;
- risks associated with business divestitures including volatility in the capital markets, the capacity of potential bidders to finance transactions and the difficulty of predicting the outcome of

- negotiations; and
- costs or liabilities relating to environmental and safety regulations.

We do not assume any obligation to update or revise the forward-looking statements contained in this press release.
