(1) Excludes amortization of intangible assets acquired in business combinations, primarily customer related intangible assets. The twelve months ended December 31, 2014 also includes the write-down of a trade name of \$34.3 million. Income tax expense assumes conversion of the Fifth Third Bank non-controlling interests into shares of Class A common stock.

For comparison purposes, the tax benefits have been presented for periods prior to 2012, reflecting the impact assuming the associated tax attributes were in place on January 1, 2009.

(5) Change in net working capital is calculated as the sum of the change in operating assets and liabilities per the statement of cash flows.

(6) For periods prior to 2012, amounts represent interest expense associated with the Company's level of debt, assuming the level of debt and applicable terms at December 31, 2011 was outstanding on January 1, 2009.
