

2015 Annual Report

We protect and beautify the world™

For us, making the world a more beautiful place starts right at home.

Every year, PPG makes the neighborhoods we live and work in brighter through efforts such as our *Colorful Communities* program. This global initiative brings together PPG volunteers and products with local nonprofit groups to protect and beautify spaces that make people feel great about where they live. It's a big job. But we're just the people to get it done.
