AMETEK Overview

AMETEK is a global leader in electronic instruments and electromechanical devices, with more than 15,000 colleagues at nearly 150 operating locations and a global network of sales, service and support locations across the United States and in 30 other countries around the world. Founded in 1930 and headquartered in Berwyn, PA, AMETEK trades on the New York Stock Exchange (NYSE).

AMETEK consists of two business groups: Electronic Instruments Group and Electromechanical Group. Electronic Instruments is a leader in the design and manufacture of advanced instruments for the aerospace, power, process and industrial markets. Electromechanical is a differentiated supplier of electrical interconnects, precision motion control solutions, specialty metals, thermal management systems, and floor care and specialty motors.

Historical Financial Summary

Four Growth Strategies

AMETEK's Corporate Growth Plan is built around the framework of its Four Growth Strategies: Operational Excellence, Strategic Acquisitions, Global & Market Expansion and New Products. The solid execution of those strategies by AMETEK colleagues worldwide is the principal reason for the plan's success. Each strategy supports and enhances the others, while playing an important role in the achievement of AMETEK's vision and goals.

Q1 Update 2016 Newsletter

AMETEK, Inc. is a leading global manufacturer of electronic instruments and electromechanical devices with 2015 sales of \$4.0 billion.

The Company has more than 15,000 colleagues at nearly 150 operating locations and a global network of sales, service and support locations across the United States and in 30 other countries around the world.

AMETEK consists of two operating groups: Electronic Instruments and Electromechanical.

At a Glance

Electronic Instruments Group (EIG)

- Global leader in process and analytical instrumentation for the chemical/petrochemical, oil, gas, pharmaceutical, semiconductor, and factory automation markets.
- Provides a growing range of analytical instruments for the research and laboratory equipment, ultraprecision manufacturing, medical, and test and measurement markets.
- Supplies the aerospace industry with engine sensors, aircraft sensors, monitoring systems, power supplies, data acquisition units, fuel and fluid measurement systems, and cable assemblies.

⁽¹⁾ Excludes Zygo integration costs of \$18.9 million.
⁽²⁾ Excludes realignment costs of \$18.5 million.

- Leader in power quality monitoring and metering, uninterruptible power supplies, industrial battery chargers, programmable power equipment, electromagnetic compatibility test equipment and sensors for gas turbine generators.
- Leader in dashboard instruments for heavy trucks, military vehicles and construction equipment as well as timing controls and cooking computers for the food service industry.

Electromechanical Group (EMG)

- Leader in precision motion control products used in data storage, medical devices, business equipment, factory automation and other applications.
- Leader in highly engineered electrical connectors and packaging used to protect sensitive devices in aerospace, defense, medical and industrial applications.
- Provides high-purity powdered metals, metal strip and foils, specialty clad metals, shaped wire, and advanced metal matrix composites for a wide range of industrial and medical applications.

⁽¹⁾ Excludes realignment costs of \$17.3 million.

- Fans blowers and heat exchangers provide electronic cooling and environmental control for the aerospace and defense industries.
- Operates a global network of aviation maintenance, repair and overhaul facilities.
- Manufactures motors used in commercial appliances, fitness equipment, food and beverage machines, hydraulic pumps, industrial blowers and vacuum cleaners.

Recent Announcements

AMETEK Announces Executive Leadership Transition

May 4, 2016 – AMETEK, Inc. (NYSE: AME) announced that as part of its planned succession of senior leadership, Frank S. Hermance has transitioned to the role of Executive Chairman of the Board of Directors and David A. Zapico has been elected Chief Executive Officer and member of AMETEK’s Board of Directors, with both changes effective as of May 5th.

Mr. Hermance has been with AMETEK for over 25 years and was most recently Chairman and Chief Executive Officer. Mr. Zapico has been with AMETEK for 26 years and was most recently Executive Vice President and Chief Operating Officer.

“It has been a tremendous honor to lead this great company as Chief Executive Officer,” said Mr. Hermance. “I am very proud of the outstanding growth and many successes we have enjoyed over the last 16 years. We have transformed AMETEK into a world-class company with exceptional businesses led by talented management teams and employees who are immensely prepared to drive our next phase of growth.”

“I expect the transition of Dave to CEO to be seamless as we have been preparing for this transition for many years,” added Mr. Hermance. “Dave has been with AMETEK for 26 years during which time we have worked very closely together to help shape the culture and strategies which have formed the foundation for our success. His decisive leadership skills, deep experiences across our businesses and markets, and success leading our growth strategies make him uniquely qualified to take on this role. I look forward to working very closely with him and the rest of our talented management team as Executive Chairman.”

Mr. Hermance began his career at AMETEK in 1990 as Group Vice President. From 1994 to 1996, Mr. Hermance served as President of AMETEK’s Precision Instruments Group. He was promoted to Chief Operating Officer in 1996, a role he held until 1999 when he was named Chief Executive Officer. He was elected Chairman of the Board in 2001. During his tenure as Chief Executive Officer, AMETEK’s sales increased from \$925 million to \$4 billion, diluted earnings per share grew at a 15% cumulative annual growth rate, and AMETEK’s market capitalization increased over 1,500% from approximately \$700 million to over \$11 billion.

“Frank Hermance has been an exceptional leader during his distinguished 16 year tenure as CEO,” said James R. Malone, AMETEK Board Member and Chairperson of the Corporate Governance and Nominating Committee. “While AMETEK’s growth and shareholder returns during Frank’s tenure are truly outstanding, we are most grateful for the enduring culture and strategic foundation Frank helped build which will serve AMETEK well in the future. Strong leaders require strong successors, and the Board is pleased to appoint Dave as Chief Executive Officer and very confident in his ability to lead this great company.”

Mr. Zapico added, “I am honored and thankful to the Board for the opportunity to lead AMETEK. I look forward to building on the success we have had under Frank’s leadership and I am confident in our ability to capitalize on the tremendous growth potential ahead.”

Recent Announcements

(continued from previous page)

Mr. Zapico has held a variety of engineering and general management positions since joining AMETEK's Process & Analytical Instruments Division in 1990 as a Product Engineer. He was promoted to Division Vice President of the Process Instruments Business Unit in 1996, and then promoted to Vice President and General Manager of AMETEK's Aerospace and Power Instrument Division in 1999. In 2003, Mr. Zapico was elected Group President, Electronic Instruments Group, a role he held until being named Executive Vice President and Chief Operating Officer in 2013.

Mr. Zapico holds a Bachelor of Science degree in Electrical Engineering from Case Western Reserve University and a Master of Business Administration degree from Carnegie Mellon University.

Ronald J. Oscher Named Chief Administrative Officer

May 4, 2016 – AMETEK, Inc. (NYSE: AME) announced that Ronald J. Oscher has been named Chief Administrative Officer, effective May 5th. In this newly created role, Ron will oversee human resources, information technology, legal, strategic procurement and operational excellence. He will report to AMETEK's Chief Executive Officer, David A. Zapico. Ron previously served as President, Electronic Instruments Group.

"As part of our executive leadership transition and to help ensure we have the appropriate management structure in place to support our growth initiatives, we have asked Ron to take on this important new role," commented Mr. Zapico. "Ron has done an exceptional job managing many of our key Process businesses since joining AMETEK. This success, combined with his knowledge of AMETEK and his more than 20 years of senior leadership experience in management, strategy, business development and sales make him well suited for this role."

Mr. Oscher joined AMETEK in 2010 as Vice President and General Manager of our Materials Analysis Division and was promoted to Senior Vice President and General Manager, Electronic Instruments Group in 2013. In 2014, Ron was promoted to his current role as President, Electronic Instruments Group.

Prior to joining AMETEK, Mr. Oscher held several positions with Emerson Electric Corporation including President – Analyzers & Solutions, Analytical Group. Previously, he served in a number of increasingly responsible roles in sales and marketing, planning, and general management within Emerson Process Management and its Power & Water Solutions Division. Prior to Emerson Electric, Mr. Oscher held engineering, and sales and marketing roles with Westinghouse and McDonnell Douglas.

Mr. Oscher holds a Bachelor of Science degree in Fluid and Thermal Science Engineering from Case Western Reserve University and a Master of Business Administration degree from Baker College.

AMETEK Announces First Quarter 2016 Results

April 28, 2016 – AMETEK, Inc. (NYSE: AME) announced its financial results for the three month period ended March 31, 2016.

AMETEK's first quarter 2016 sales of \$944.4 million were down 4% over the same period of 2015. Operating income was down 12% to \$208.5 million and diluted earnings per share of \$0.57 were down 10% from the first quarter 2015 adjusted results. Operating margins were 22.1% in the quarter.

(continued)

Recent Announcements

(continued from previous page)

“As expected, demand remained weak in the quarter,” said Chairman and Chief Executive Officer Frank S. Hermance. “On-going softness in oil & gas, metals and global industrial markets continues to drive meaningful headwinds. Despite these challenges, we were able to deliver solid first quarter earnings in-line with our expectations.”

First quarter 2015 results exclude realignment costs of \$15.9 million, or approximately \$0.04 per diluted share. A comparison of first quarter 2016 results to last year’s reported GAAP and adjusted results is included with the financial tables accompanying the release. All further references to 2015 results are on an adjusted basis.

Electronic Instruments Group (EIG)

For the first quarter of 2016, EIG sales decreased 4% to \$569.0 million. Operating income was \$141.8 million, down 12% versus the first quarter 2015, and operating margins were 24.9% in the quarter.

“Overall sales in our Power & Industrial businesses were up approximately 10% driven by the contributions from the acquisitions of Brookfield Engineering and ESP / Surge X during the quarter. However, this strong growth was more than offset by lower sales in our Process business driven by weakness in our oil & gas businesses,” adds Mr. Hermance.

Electromechanical Group (EMG)

In the first quarter, EMG sales decreased 4% to \$375.4 million. Operating income in the quarter was \$79.4 million, down 10% from last year’s first quarter, and operating margins were 21.2% in the quarter.

“The lower sales versus last year were largely driven by the impacts from commodity price deflation across our Engineered Materials, Interconnects and Packaging business. We expect these end market conditions to sequentially improve during 2016 with a stronger second half than first half,” notes Mr. Hermance.

2016 Outlook

“We have an excellent portfolio of differentiated businesses. We are confident in our ability to successfully execute on our growth strategies in order to capitalize on the tremendous opportunity we have to grow and expand these businesses. However, we are faced with the reality of a number of challenging end markets which will continue to impact us in 2016,” notes Mr. Hermance.

“We expect 2016 sales to be roughly flat versus last year with earnings expected to be in the range of \$2.42 to \$2.52 per diluted share, down 1% to 5% versus 2015 adjusted results,” adds Mr. Hermance.

“Second quarter 2016 sales are expected to be down low single digits compared to last year’s second quarter. We estimate our earnings in the second quarter to be approximately \$0.58 to \$0.59 per diluted share, down 8% to 9% over last year’s second quarter,” concludes Mr. Hermance.
