(b) Primarily includes non-operating expenses incurred with the refinancing of our debt in May 2011, March 2012, May 2013 and June 2014 as well costs associated with the early termination of our interest rate swaps in March 2012.

(c) Acquisition and integration costs include fees incurred in connection with our acquisitions, including legal, accounting and advisory fees as well as consulting fees for conversion and integration services and charges related to employee termination benefits and other transition activities.

(f) For 2016 and 2015, primarily relates to the change in fair value of a TRA entered into as part of the acquisition of Mercury. The 2014 amount relates to a benefit recorded as a result of a reduction in certain TRA liabilities, partially offset by the change in fair value of a TRA entered into as part of the acquisition of Mercury.

(g) For periods prior to 2012, amounts represent depreciation expense associated with the company's property and equipment, assuming that the company's property and equipment at December 31, 2011 was in place on January 1, 2009. For periods subsequent to 2011, amounts represent the company's depreciation and amortization expense adjusted to exclude amortization of intangible assets acquired through business combinations and customer portfolio and related asset acquisitions. (j) Represents tax benefits due to the amortization of intangible assets and other tax attributes resulting from or acquired with our acquisitions, and to the tax basis step up associated with our separation from Fifth Third Bank and the purchase or exchange of Class B units of Vantiv Holding, net of payment obligations under tax receivable agreements.
