AMETEK Overview

AMETEK is a global leader in electronic instruments and electromechanical devices, with more than 15,000 colleagues at nearly 150 operating locations and a global network of sales, service and support locations across the United States and in 30 other countries around the world. Founded in 1930 and headquartered in Berwyn, PA, AMETEK trades on the New York Stock Exchange (NYSE).

AMETEK consists of two business groups: Electronic Instruments Group and Electromechanical Group. Electronic Instruments is a leader in the design and manufacture of advanced instruments for the aerospace, power, process and industrial markets. Electromechanical is a differentiated supplier of electrical interconnects, precision motion control solutions, specialty metals, thermal management systems, and floor care and specialty motors.

Historical Financial Summary

Four Growth Strategies

AMETEK's Corporate Growth Plan is built around four Strategies: Operational Excellence, Strategic Acquisitions, New Products, and Global & Market Expansion. The solid execution of those strategies is the principal reason for the plan's success. Each strategy plays an important role in the achievement of AMETEK's vision at

AMETEK

Q3 Update 2016 Newsletter

AMETEK, Inc. is a leading global manufacturer of electronic instruments and electromechanical devices with 2015 sales of \$4.0 billion.

The Company has more than 15,000 colleagues at nearly 150 operating locations and a global network of sales, service and support locations across the United States and in 30 other countries around the world.

AMETEK consists of two operating groups: Electronic Instruments and Electromechanical.

At a Glance

Electronic Instruments Group (EIG)

- Global leader in process and analytical instrumentation for the chemical/petrochemical, oil, gas, pharmaceutical, semiconductor, and factory automation markets.
- Provides a growing range of analytical instruments for the research and laboratory equipment, ultraprecision manufacturing, medical, and test and measurement markets.
- Supplies the aerospace industry with engine sensors, aircraft sensors, monitoring systems, power supplies, data acquisition units, fuel and fluid measurement systems, and cable assemblies.

⁽¹⁾ Excludes Zygo integration costs of \$18.9 million.
⁽²⁾ Excludes realignment costs of \$18.5 million.

- Leader in power quality monitoring and metering, uninterruptible power supplies, industrial battery chargers, programmable power equipment, electromagnetic compatibility test equipment and sensors for gas turbine generators.
- Leader in dashboard instruments for heavy trucks, military vehicles and construction equipment as well as timing controls and cooking computers for the food service industry.

Electromechanical Group (EMG)

- Leader in precision motion control products used in data storage, medical devices, business equipment, factory automation and other applications.
- Leader in highly engineered electrical connectors and packaging used to protect sensitive devices in aerospace, defense, medical and industrial applications.
- Provides high-purity powdered metals, metal strip and foils, specialty clad metals, shaped wire, and advanced metal matrix composites for a wide range of industrial and medical applications.

⁽¹⁾ Excludes realignment costs of \$17.3 million.

- Fans blowers and heat exchangers provide electronic cooling and environmental control for the aerospace and defense industries.
- Operates a global network of aviation maintenance, repair and overhaul facilities.
- Manufactures motors used in commercial appliances, fitness equipment, food and beverage machines, hydraulic pumps, industrial blowers and vacuum cleaners.

Recent Announcements

AMETEK Increases Share Repurchase Authorization

November 3, 2016 – AMETEK, Inc. (NYSE: AME) announced that its Board of Directors has increased the authorized level for repurchases of its common stock by \$400 million. This increased authorization will be added to the approximately \$75 million that currently remains available from an existing authorization approved by the Board of Directors in November 2015.

“While strategic acquisitions remain the primary use for our strong free cash flow, this increased share repurchase authorization provides us the flexibility to continue to opportunistically repurchase our common stock,” notes David A. Zapico, AMETEK’s Chief Executive Officer.

AMETEK Announces Third Quarter 2016 Results

November 1, 2016 – AMETEK, Inc. (NYSE: AME) announced its financial results for the three month period ended September 30, 2016.

AMETEK reported third quarter 2016 sales of \$945.0 million, down 5% from last year’s third quarter. Operating income was \$201.1 million and operating margins were 21.3% in the quarter. Diluted earnings per share of \$0.56 were down 14% from last year’s third quarter.

“I am pleased with our team’s performance having delivered results that met our expectations in a challenging macro environment,” said David A. Zapico, AMETEK Chief Executive Officer. “Although prior year comparisons were impacted by weakness in oil and gas and metals markets, we are encouraged to see these markets begin to stabilize.”

Electronic Instruments Group (EIG)

In the third quarter of 2016, EIG sales were \$579.3 million, down 3% from last year’s third quarter. Operating income was \$142.7 million and operating margins were 24.6% in the quarter.

“Sales in EIG benefited from the recent acquisitions of Brookfield, ESP/SurgeX, Nu Instruments and HS Foils. This growth was offset in large part by weakness across our oil and gas businesses. We are continuing to see solid growth across our Ultra Precision Technologies business,” added Mr. Zapico.

Electromechanical Group (EMG)

For the third quarter of 2016, EMG sales decreased 9% to \$365.7 million. Operating income was \$71.4 million and operating margins were 19.5% in the quarter.

“Sales continue to be impacted by weakness across our Engineered Materials, Interconnects and Packaging businesses,” noted Mr. Zapico.

2016 Outlook

“We continue to expect 2016 sales to be down low-single digits with organic sales down mid-single digits on a percentage basis versus 2015. We have tightened our earnings guidance range for 2016 to \$2.29 to \$2.31 per diluted share, leaving the mid-point of our previous guidance unchanged,” adds Mr. Zapico.

“Fourth quarter 2016 sales are expected to be down low-single digits on a percentage basis compared to last year’s fourth quarter. We estimate our earnings in the fourth quarter to be approximately \$0.57 to \$0.59 per diluted share,” notes Mr. Zapico.

Recent Announcements

“I am confident in our team’s ability to manage through these market headwinds and am very excited about the long-term opportunity for AMETEK. We remain focused on investing in our businesses for the long-term, deploying our strong cash flow on strategic acquisitions, and driving commercial and operational synergies across our businesses,” concludes Mr. Zapico.

AMETEK Completes Private Placement Offering

November 1, 2016 – AMETEK, Inc. (NYSE: AME) announced that it has entered into an agreement to sell the equivalent of approximately \$825 million in Senior Notes in a private placement with institutional investors at a weighted average interest rate of 1.82% and a weighted average maturity of 11.5 years. Proceeds from the offering will be used to repay existing debt and to provide capital to support our growth strategies.

There are two funding dates for the Senior Notes. The first funding occurred on October 31, 2016 for €500 million, consisting of €300 million in aggregate principal amount of 1.34% Senior Notes due October 2026 and €200 million in aggregate principal amount of 1.53% Senior Notes due October 2028. The second funding date will be November 23, 2016 for £225 million, consisting of £150 million in aggregate principal amount of 2.59% Senior Notes due November 2028 and £75 million in aggregate principal amount of 2.70% Senior Notes due November 2031.

The Senior Notes have not been registered, and will not be registered, under the Securities Act of 1933 and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements of the Securities Act of 1933.

AMETEK Acquires Laserage Technology Corporation

Leader in Laser Fabrication for Medical Device Market

November 1, 2016 – AMETEK, Inc. (NYSE: AME) announced that it has completed the acquisition of Laserage Technology Corporation, a leading provider of laser fabrication services for the medical device market. Laserage is a privately held company with headquarters and manufacturing operations in Waukegan, IL, and a manufacturing facility in Milpitas, CA. Laserage has estimated annual sales of \$22 million.

“Laserage is an excellent addition to our growing presence in the medical industry. Its fabrication and manufacturing capabilities are an excellent fit with our engineered medical components business providing strong market and technology synergies,” comments David A. Zapico, AMETEK Chief Executive Officer.

Laserage offers precision tube fabrication of minimally invasive surgical devices, stents and catheter-based delivery systems. Its expertise includes laser fabrication of flat stock and tube for medical devices and specialty catheters.

Laserage joins AMETEK as part of its Electromechanical Group (EMG) -- a differentiated supplier of electrical interconnects, precision motion control solutions, medical components, specialty metals, thermal management systems, and floor care and specialty motors.
