SAFE HARBOR STATEMENT

Forward Looking Statements

In addition to historical information, this earnings presentation contains "forward-looking" statements that reflect management's expectations for the future. A variety of important factors could cause results to differ materially from such statements. These factors are noted throughout GAIN Capital's annual report on Form 10-K/A for the year ended December 31, 2015, as filed with the Securities and Exchange Commission on May 2, 2016, and include, but are not limited to, the actions of both current and potential new competitors, fluctuations in market trading volumes, financial market volatility, evolving industry regulations, errors or malfunctions in GAIN Capital's systems or technology, rapid changes in technology, effects of inflation, customer trading patterns, the success of our products and service offerings, our ability to continue to innovate and meet the demands of our customers for new or enhanced products, our ability to successfully integrate assets and companies we have acquired, our ability to effectively compete, changes in tax policy or accounting rules, fluctuations in foreign exchange rates and commodity prices, adverse changes or volatility in interest rates, as well as general economic, business, credit and financial market conditions, internationally or nationally, and our ability to continue paying a quarterly dividend in light of future financial performance and financing needs. The forward-looking statements included herein represent GAIN Capital's views as of the date of this release. GAIN Capital undertakes no obligation to revise or update publicly any forward-looking statement for any reason unless required by law.

Non-GAAP Financial Measures

This presentation contains various non-GAAP financial measures, including adjusted EBITDA, adjusted net income, adjusted EPS and various "pro forma" non-GAAP measures. These non-GAAP financial measures have certain limitations, including that they do not have a standardized meaning and, therefore, our definitions may be different from similar non-GAAP financial measures used by other companies and/or analysts. Thus, it may be more difficult to compare our financial performance to that of other companies. We believe our reporting of these non-GAAP financial measures assists investors in evaluating our historical and expected operating performance. However, because these are not measures of financial performance calculated in accordance with GAAP, such measures should be considered in addition to, but not as a substitute for, other measures of our financial performance reported in accordance with GAAP, such as net income.

FOURTH QUARTER AND FULL YEAR REVIEW

- Quarterly GAAP net income of \$20.8 million increased 91% year-over-year, while full year 2016 GAAP net income of \$35.3 million increased 243% from \$10.3 million in 2015
- Achieved approximately \$100 million in adjusted EBITDA for the full year, driven by a strong fourth quarter performance, with quarterly adjusted EBITDA of \$36.9 million
- Reported GAAP diluted EPS of \$0.42 for Q4 2016 and \$0.67 for full year 2016
 - Adjusted diluted EPS of \$0.43 for Q4 2016 and \$0.92 for full year 2016
- Completed realization of over \$45 million of run-rate synergies from City Index acquisition
- Continued to focus on return of capital to shareholders, with \$20 million in buybacks and dividends for full year 2016
 - Approximately 45% of adjusted net income returned to shareholders
 - Increased quarterly dividend to \$0.06 in December, a 20% increase from 2015
- Maintain strong balance sheet, which positions us well for future strategic opportunities

2017/2018 STRATEGIC PLAN: ORGANIC GROWTH, COMPLEMENTED BY M&A

- Acquisitions have provided GAIN with scale, a wider product offering, increased diversity of revenue streams and a broader geographic footprint
 - As a result, GAIN is well-positioned to now invest in organic growth
- Our organic plan is focused on growth, diversification and margin enhancement:
 - Grow share in markets where we already operate
 - Introduce new products and services to diversify into new markets and new client bases
 - Improve our operating leverage by driving process efficiency
- In parallel, regulatory change & market dislocation continue to produce corporate development opportunities
- Our strong financial position and experience as an industry consolidator positions us well to take advantage of opportunistic M&A

ORGANIC GROWTH INITIATIVES UNDERWAY

GAIN is working on several key initiatives that we expect will drive long-term organic growth:

1. Redesigned trading experience - upgraded mobile apps, enhanced tools & trade ideas
2. Easier account opening and more funding options for clients
3. Introduction of a global, cross brand affiliate marketing program
4. Expansion into Digital Advisory - relaunch of existing advisory business & developing new products for clients seeking personalized trading advice

STRENGTHENING ROLE AS INDUSTRY LEADING CONSOLIDATOR

- On February 6, GAIN announced the acquisition of U.S. client assets from FXCM
 - Transferred 47,000 accounts with total assets of approximately \$142 million as of February 25
 - Expect \$15-\$20 million of incremental revenue in FY 2017 with minimal costs
- Acquisition marks a continuation of GAIN's role as a leading consolidator
 - Successfully integrated 10 acquisitions over the last 5 years
- FOREX.com is now #1 provider of Retail FX in the U.S., with over 70,000 accounts

CONSOLIDATED OPERATING EXPENSES

Q4 operating expenses reflect GAIN’s successful execution of several cost reduction initiatives

- Over \$45 million of run-rate savings from City Index synergies reduced fixed costs
- Lower referral fees as a result of partnership optimization resulted in lower variable costs
- 10% year-over-year decline in annual fixed operating expenses

Note: Dollars in millions. Q1 2015 operating expenses shown on a pro forma basis based on the simple addition of GAIN Capital and City Index.
 (1) Excludes bad debt & other variable expenses, referral fees and marketing expense. Details available in appendix to this presentation.

ACTIVELY RETURNING CAPITAL TO SHAREHOLDERS

Returned over \$20 million to investors via buybacks and dividends in 2016

~\$21 million remains authorized for future opportunistic share repurchases

1. Liquidity table available in appendix to this presentation.

CLOSING REMARKS

Strong Market Position

- Global leader and #1 provider in the US of retail FX
- Institutional FX market share increasing with focus on expansion of ECN
- Top 10 non-bank FCM in Futures

Highly Scalable Business Model

- Efficiently managing customer acquisition costs / referral fees
- Focus on strong execution and risk management
- Diverse mix of products and platforms offers stability and multiple opportunities for growth

Superior Risk Management and Liquidity

- GAIN has weathered all major market disruptions
- Uncertainty around Fed rates hike and disparity in monetary policy across leading economies create environment for further volatility, benefiting risk aware players
- Regulatory pressure and increasing capital requirements underline the importance of scale

Attractive Financial Profile

- Strong balance sheet positions us well for future strategic opportunities
- Continue to deliver on both organic and acquired growth
- Margin expansion from continued cost management efforts
