

AECOM

August 2017

AECOM

WORLD TRADE CENTER TRANSPORTATION HUB
United States

Selected by the Port Authority of New York and New Jersey, AECOM teams, in association with its joint venture partners, designed and constructed the new PATH terminal at the WTC site in Lower Manhattan.

Disclosures

Safe Harbor

Except for historical information contained herein, this presentation contains "forward-looking statements." All statements other than statements of historical fact are "forward-looking statements" for purposes of federal and state securities laws, financial and business projections, including but not limited to revenue, earnings, operating and free cash flows, and business pursuits; any statements of the plans, strategies and objectives for future operations; any statements regarding future economic conditions or performance; any statements of belief; and any statements of assumptions underlying any of the foregoing. Forward-looking statements may include the words "may," "will," "estimate," "intend," "continue," "believe," "expect" or "anticipate" and other similar words.

Although we believe that the expectations reflected in any of our forward-looking statements are reasonable, actual results could differ materially from those projected or assumed in any of our forward-looking statements. Our future financial condition and results of operations, as well as any forward-looking statements, are subject to change and to inherent risks and uncertainties, such as those disclosed in this presentation. Important factors that could cause our actual results, performance and achievements, or industry results to differ materially from estimates or projections contained in forward-looking statements include, among others, the following:

- our business is cyclical and vulnerable to economic downturns and client spending reductions;
- dependence on long-term government contracts and uncertainties related to government contract appropriations;
- governmental agencies may modify, curtail or terminate our contracts;
- government contracts are subject to audits and adjustments of contractual terms;
- losses under fixed-price contracts;
- limited control over operations run through our joint venture entities;
- misconduct by our employees or consultants or our failure to comply with laws or regulations applicable to our business;
- maintain adequate surety and financial capacity;
- our leveraged position and ability to service our debt and guarantees;
- exposure to legal, political and economic risks in different countries as well as currency exchange rate fluctuations;
- retaining and recruit key technical and management personnel;
- legal and claims and inadequate insurance coverage;
- environmental law compliance and adequate nuclear indemnification;
- unexpected adjustments and cancellations related to our backlog;
- dependence on partners and third parties who fail to satisfy their obligations;
- managing pension costs;
- cybersecurity and data loss; and
- changing client demands, fiscal positions and payments.

Additional factors that could cause actual results to differ materially from our forward-looking statements are set forth in our most recent periodic report (Form 10-K or Form 10-Q) filed and our other filings with the Securities and Exchange Commission. We do not intend, and undertake no obligation, to update any forward-looking statement.

Non-GAAP Measures

This presentation contains financial information calculated other than in accordance with U.S. generally accepted accounting principles ("GAAP"). In particular, the company believes that non-GAAP financial measures such as adjusted EPS, adjusted operating income, organic revenue, and free cash flow provide a meaningful perspective on its business results as the company utilizes this information to evaluate and manage the business. We use adjusted net and operating income to exclude the impact of prior acquisitions and dispositions. We use free cash flow to represent the cash generated after capital expenditures to maintain our business. Our non-GAAP disclosure has limitations as an analytical tool, should not be viewed as a substitute for financial information determined in accordance with GAAP, and should not be considered in isolation or as a substitute for analysis of our results as reported under GAAP, nor is it necessarily comparable to non-GAAP performance measures that may be presented by other companies. A reconciliation of these non-GAAP measures to the most directly comparable GAAP financial measures is found in the attached appendix and in our earnings release on the Investors section of our Web site at: <http://investors.aecom.com>.

When we provide our long term projections for adjusted EPS growth, organic revenue growth and free cash flow on a forward-looking basis, the closest corresponding GAAP measure and a reconciliation of the differences between the non-GAAP expectation and the corresponding GAAP measure generally is not available without unreasonable effort due to potentially high variability, complexity and low visibility as to items that would be excluded from the GAAP measure in the relevant future period.

|  | \$629M MTA East Side Light Rail |

- Established a premier vertical construction business, ranked number one in the New York market
- Have grown revenues 22% annually, expanded into new markets (e.g., LA and London), and executed substantial volume on AECOM Capital projects

- Expanded construction capability into attractive sports and aviation / airports markets, complementing existing design capabilities
- Tripled sports and aviation backlog year-over-year in FY'16, including premier projects (e.g., LA NFL stadium)

Provides an important construction complement to our leading design practice to fully capitalize on positive civil infrastructure market dynamics

Established track record of expanding scale and client bases through our global platform and integrated offering

Strongly Positioned For Multi-Year Trends

- Record nearly \$48 billion backlog provides several years of visibility
- Long-term funding as a result of substantial federal and state-level measures
- Favorable legislative backdrop created by strong support for infrastructure and defense
- Significant exposure to attractive end markets, where we generate nearly 70% of our profits

- Capitalizing on our leading exposure to strengthening infrastructure and federal markets
- Delivering on our unprecedented MS pipeline
- Benefiting from improving energy and industrial cycles
- Scale and relentless focus on project delivery to drive margin expansion
- Integrated delivery creates substantial bidding and execution efficiencies
- Debt reduction drives lower interest expense
- Continued industry-leading free cash flow performance
- Capital allocation priorities consistent with our DBFO vision and ensuring long-term returns for shareholders

Key Messages from Today

Poised to Capitalize on Robust Market Opportunities

- 1 We have substantial momentum as a result of our Design, Build, Finance and Operate vision, with nearly \$25 billion of wins in the past year and record nearly \$48 billion backlog*
- 2 We are positioning for tremendous growth opportunities in our key infrastructure and defense markets where we generate nearly 70% of our profits*
- 3 We have established the foundation to deliver industry-leading growth and cash flow, including a 10%+ adjusted EPS⁴ CAGR and \$3.5+ billion of cumulative free cash flow² (FY'17 – FY'21)*
- 4 We are unlocking stockholder value by executing on our vision and through continued debt reduction*

2016 RIO OLYMPIC AND PARALYMPIC GAMES
Brazil

The global stage for the Games, the masterplan design makes virtue of dramatic, 120 hectare setting. Unprecedented role given scale, complexity and continuity of work.

Footnotes

¹ Excluding intangible amortization and financial impacts associated with expected and actual dispositions of non-core businesses and assets.

² Free cash flow is defined as cash flow from operations less capital expenditures net of proceeds from disposals.

³ At constant currency and excludes revenue associated with actual and planned non-core asset and business dispositions from all periods.

⁴ Defined as attributable to AECOM, excluding acquisition and integration related expenses, financing charges in interest expense, the amortization of intangible assets, and financial impacts associated with expected and actual dispositions of non-core businesses and assets.

[‡] During the first quarter of fiscal year 2017, a maintenance related operation previously reported within our CS segment was realigned within our MS segment to reflect present management oversight. Accordingly, to conform to the current period presentation, approximately \$33 million of revenue and \$32 million of cost of revenue was reclassified for the quarter ended June 30, 2016. For the nine months ended, \$99 million of revenue and \$95 million of cost of revenue was reclassified.
