This presentation contains “forward-looking statements” within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and involve a high degree of risk and uncertainty. Forward-looking statements include statements regarding the Company's anticipated future financial and operating performance. All statements in this presentation, other than those setting forth strictly historical information, are forward-looking statements. Forward-looking statements are not guarantees of future performance, and actual results might differ materially. In particular, the Company makes no assurances that estimates of revenues, gross margin, SG&A, Adjusted EBITDA, cash flow and other financial metrics will be achieved. Factors that could cause or contribute to such differences include actual demand for our services, our ability to attract, train and retain qualified staffing consultants, our ability to remain competitive in obtaining and retaining staffing clients, the availability of qualified temporary and permanent placement professionals, management of our growth, continued performance of our enterprise-wide information systems, and other risks detailed from time to time in our reports filed with the Securities and Exchange Commission, including our Annual Report on Form 10-K for the year ended December 31, 2016, as filed with the SEC on March 1, 2017 and our Quarterly Report on Form 10-Q for the quarter ended June 30, 2017, as filed with the SEC on August 7, 2017. We specifically disclaim any intention or duty to update any forward-looking statements contained in this presentation.

- Assumes 60 billable days in Q4 2017; 0.2 fewer than Q4 2016; 2.6 fewer days than Q3 2017; each “Billable Day” is approximately \$11.0 million in revenues
- Financial estimates assume a \$5.0 million revenue contribution from Stratacuity
- On a same “Billable Days” basis, our implied year-over-year growth rate ranges from 6.3 to 7.9 percent (5.5 to 7.1 percent excluding the contribution from Stratacuity)
- Effective tax rate of 38.5 percent
- Estimating leverage ratio at 12/31/17 of 1.91x to 1
- Recent amendments to our credit facilities (term loan and revolver) should result in an estimated \$1.6 million in interest expense savings on an annual basis (based on current debt balances)

¹ These estimates do not include any acquisition, integration or strategic planning expenses.

² Adjusted Net Income, a non-GAAP financial measure, is defined as net income adjusted for, (i) acquisition, integration and strategic planning expenses and (ii) amortization of identifiable intangible assets. Does not include the “Cash Tax Savings” on Indefinite-lived Assets.” Does not include excess tax benefits related to stock-based compensation. These savings total \$6.7 million per quarter, or \$0.13 per diluted share and represent the economic value of the tax deduction that we received from the amortization of goodwill and trademarks.

³ Adjusted EBITDA, a non-GAAP financial measure, is defined as EBITDA (earnings before interest, income taxes, depreciation and amortization) adjusted for, among other things, (i) equity-based compensation expense and (ii) acquisition, integration and strategic planning expenses.
