## **Tower International Reports Third Quarter Results and Increases Outlook for Revenue and Adjusted Earnings Per Share**

LIVONIA, Mich., October 30, 2017 – Tower International, Inc. [NYSE: TOWR], a leading global manufacturer of engineered automotive structural metal components and assemblies, today announced third quarter 2017 results and updated its business outlook through 2017.

- Revenue for the third quarter was \$462 million compared with \$457 million in the third quarter of 2016.
- Net income was \$14.9 million or 72 cents per diluted share, compared with \$18.2 million or 86 cents per share in the third quarter last year. As detailed below, this year’s third quarter included certain items that adversely impacted results by \$2.8 million. Excluding these items and comparable items in the third quarter of 2016, adjusted earnings per share of 85 cents, compared with 90 cents a year ago.
- Adjusted EBITDA for the quarter was \$49.2 million slightly ahead of the Company’s outlook but down from \$50.1 million a year ago.
- For the quarter, net cash provided by continuing operating activities amounted to \$46.1 million. Cash disbursed for purchases of equipment totaled \$32.5 million resulting in Free Cash Flow of \$13.6 million.
- Present outlook for full year revenue of \$1.98 billion is expected to be \$10 million higher than previous outlook, as favorable foreign exchange is expected to more than offset modest production decreases on Tower contented vehicles in Europe. The Company is raising its outlook for adjusted earnings per share by 10 cents to \$3.70 per share and re-affirming its outlook for Adjusted EBITDA of \$210 million and positive free cash flow of \$55 million.
- Tower remains committed to having a growing and sustainable dividend and increased the quarterly dividend by 9 percent to 12 cents per share.

“Tower delivered solid financial results in the quarter as revenue and earnings were ahead of our previous outlook,” said CEO Jim Gouin. “We continue to invest in the growth of Tower and continue to benefit from emerging industry trends. With our existing net new business wins and exposure to trucks and SUVs in the North American market we are well positioned to grow our business at a faster pace than the industry over the coming years.”

## **Non-GAAP Financial Measures**

This press release includes the following non-GAAP financial measures: "adjusted EBITDA", "adjusted earnings per share", and "free cash flow". We define adjusted EBITDA as net income/(loss) before interest, taxes, depreciation, amortization, restructuring items and other adjustments described in the reconciliations provided in this press release. Adjusted earnings per share exclude certain income and expense items described in the reconciliation provided in this press release. Free cash flow is defined as cash provided by continuing operating activities less cash disbursed for purchases of property, plant and equipment. We use adjusted EBITDA, adjusted earnings per share, and free cash flow as supplements to information provided in accordance with generally accepted accounting principles ("GAAP") in evaluating our business and they are included in this press release because they are principal factors upon which our management assesses performance and in certain instances in measuring performance for compensation purposes. Reconciliations of these non-GAAP financial measures to the most directly comparable financial measures calculated in accordance with GAAP are set forth below. The non-GAAP measures presented above are not measures of performance under GAAP. These measures should not be considered as alternatives for the most directly comparable financial measures calculated in accordance with GAAP. Other companies in our industry may define these non-GAAP measures differently than we do and, as a result, these non-GAAP measures may not be comparable to similarly titled measures used by other companies in our industry; and certain of our non-GAAP financial measures exclude financial information that some may consider important in evaluating our performance. Given the inherent uncertainty regarding market adjustments of financial instruments, potential gain or loss on our Discontinued Operations, potential restructuring expenses, and expenses related to our long-term incentive compensation programs in any future period, a reconciliation of forward-looking financial measures to the most directly comparable financial measures calculated and presented in accordance with GAAP is not feasible. Consequently, any attempt to disclose such reconciliations would imply a degree of precision that could be confusing or misleading to investors. The magnitude of these items, however, may be significant.

## **Forward-Looking Statements and Risk Factors**

This press release contains statements which constitute forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, including but not limited to statements regarding the Company's projected full year earnings, cash flow and revenues,

business growth, Adjusted EBITDA and free cash flow. The forward-looking statements can be identified by words such as “anticipate,” “believe,” “plan,” “estimate,” “expect,” “intend,” “project,” “target,” and other similar expressions. Forward-looking statements are made as of the date of this press release and are based upon management’s current expectations and beliefs concerning future developments and their potential effects on us. Such forward-looking statements are not guarantees of future performance. The following important factors, as well as risk factors described in our reports filed with the SEC, could cause our actual results to differ materially from estimates or expectations reflected in such forward-looking statements:

- global automobile production volumes;
- the financial condition of our customers and suppliers;
- our ability to make scheduled payments of principal or interest on our indebtedness and comply with the covenants and restrictions contained in the instruments governing our indebtedness;
- our ability to refinance our indebtedness;
- risks associated with our non-U.S. operations, including foreign exchange risks and economic uncertainty in some regions;
- any increase in the expense and funding requirements of our pension and other postretirement benefits;
- our customers’ ability to obtain equity and debt financing for their businesses;
- our dependence on our largest customers;
- pricing pressure from our customers;
- work stoppages or other labor issues affecting us or our customers or suppliers;
- our ability to integrate acquired businesses;
- our ability to take advantage of emerging secular trends;
- risks associated with business divestitures; and
- costs or liabilities relating to environmental and safety regulations.

We do not assume any obligation to update or revise the forward-looking statements contained in this press release.
