AGNC At a Glance: Founded in 2008, AGNC Investment Corp. (Nasdaq: AGNC) is an internally-managed mortgage real estate investment trust ("REIT") with approximately \$72.8 billion in assets. On average, our senior investment team has 23 years of experience in the mortgage industry and has worked together for 12 years. Headquartered in Bethesda, Maryland, AGNC had 56 employees as of Dec. 31, 2017.

Our Investment Focus: AGNC invests primarily in agency residential mortgage-backed securities ("MBS") for which the principal and interest payments are guaranteed by a U.S. Government-sponsored entity ("GSE"), such as Fannie Mae and Freddie Mac, or a U.S. Government agency, such as Ginnie Mae. We may also invest in other types of mortgage and mortgage-related securities, such as credit risk transfer ("CRT") securities and non-agency residential and commercial MBS.

Our Investment Objective: AGNC's principal objective is to generate attractive risk-adjusted returns for our stockholders through regular monthly dividends and net book value accretion. We utilize an active portfolio management philosophy with the goal of preserving net book value over a wide range of market scenarios.

Our Affiliates include **MTGE Investment Corp.** (Nasdaq: MTGE), a hybrid REIT that is externally-managed by one of our subsidiaries and invests in agency, non-agency and other real estate-related assets, and **Bethesda Securities, LLC**, our wholly-owned broker-dealer subsidiary with direct access to the Fixed Income Clearing Corporation ("FICC").

Investment Portfolio

Total Portfolio: \$72.8 Billion²

1. Dividend yield based on the annualization of the \$0.18 monthly dividend per share and closing price of \$20.19 per share as of December 31, 2017.
2. Total investment portfolio includes net TBA position.
3. Stock return measured from IPO through December 31, 2017. Total stock return over a period includes price appreciation and dividend reinvestment; dividends are assumed to be reinvested at the closing price of the security on the ex-dividend date. Source: SNL Financial.
4. Economic return measured from June 30, 2008 through December 31, 2017. Total economic return represents the change in net book value per common share and dividends declared on common stock during the period over the beginning net book value per common share. Source: Company SEC Filings and SNL Financial.
5. For agency-focused residential mortgage REIT peer comparison purposes, AGNC's peer group is unweighted and includes ANH, ARR, CMO, CYS and NLY.
6. Mortgage REIT cost structures based on operating expenses and average stockholders' equity over the trailing twelve month period ended September 30, 2017 as publicly reported by such REITs. Operating costs include expenses for compensation and benefits, management fees and G&A and may include one-time or nonrecurring expenses. Operating costs exclude direct costs associated with operating activities, such as loan acquisition costs, securitization costs, servicing expenses, etc. to the extent publicly disclosed by such REITs. AGNC's ratio is based on average stockholders' equity from June 30, 2016 through June 30, 2017 and excludes nonrecurring transaction-related charges (including retention or stay bonuses), one-time or transitional expenses, and non-cash expenses, such as non-cash amortization charges, associated with the internalization transaction. AGNC's gross ratio excludes the net economic benefit associated with MTGE management fee income and incremental G&A expenses associated with AGNC's management of MTGE that will be reimbursed by MTGE; AGNC's net ratio includes the net economic benefit associated with MTGE management fee income but excludes incremental G&A expenses associated with AGNC's management of MTGE that are reimbursed by MTGE. Source: Company SEC Filings and SNL Financial.
7. The residential mortgage REIT universe is unweighted and includes AJX, ANH, ARR, CHMI, CIM, CMO, CYS, DX, EARN, IVR, MFA, MITT, MTGE, NLY, NRZ, NYMT, OAKS, ORC, PMT, RWT, TWO and WMC. The large resi mREIT group is unweighted and includes residential mREITs with over \$3 billion in total stockholders' equity as of December 31, 2017.
8. The duration of an asset or liability measures how much its price is expected to change if interest rates move in a parallel manner; it is a model estimate and is measured in years as of a point in time. Duration gap is a measure of the difference in the interest rate exposure, or estimated price sensitivity, of our assets and our liabilities (including hedges). AGNC uses a risk management system and models provided by BlackRock Solutions to generate these calculations and as a tool for helping us to measure other exposures, including exposure to larger interest rate moves and yield curve changes. The inputs and results from these models are not audited by our independent auditors.
