

*TerraForm Power owns and operates a best-in-class renewable power portfolio of solar and wind assets located primarily in the United States, totaling more than 2,600 megawatts of installed capacity. TerraForm Power's goal is to acquire operating solar and wind assets in North America and Western Europe. TerraForm Power is listed on the Nasdaq stock exchange (Nasdaq:TERP). It is sponsored by Brookfield Asset Management, a leading global alternative asset manager with more than US\$285 billion of assets under management.*

## **Senior Analyst, Technical Accounting**

**Location:** New York, NY

### **Summary:**

Reporting to the Director of Technical Accounting and M&A, the Senior Analyst, Technical Accounting will be responsible for the preparation and execution of key aspects around Technical Accounting and M&A activities.

### **Responsibilities:**

- Development and execution of key accounting models requiring strong technical expertise, including but not limited to impairment modeling
- Prepare technical accounting memos following industry best practices
- Support key activities for M&A due diligence processes for new acquisitions
- Preparation of SOX documentation of the Company's acquisitions
- Ownership over the Company's lease accounting disclosure tool, including end to end process management
- Assist with the application of new accounting standards and update of accounting policies as applicable
- Review and improve existing models for purchase accounting, impairments, and valuations
- Form a close working relationship with the organization's business leaders, including operational and functional leaders
- Execute and support the development of strategies to solve complex technical challenges
- Support the relationship with external auditors on technical accounting topics, new accounting pronouncements, and their respective impact and application

### **Requirements:**

- Expert experience in the application of GAAP accounting standards (exposure to complex accounting matters such as acquisition accounting, derivatives and HLBV concepts is a plus)
- Strong technical writing acumen
- Experience in financial modeling
- Understanding for application of new rules for lease accounting
- Acquired technical accounting knowledge obtained through related work experience
- Familiarity with and ability to adapt to a fluid environment

### **Qualifications:**

- Bachelor's degree in Accounting or related field, CPA Certification or meet minimum requirements for the CPA.
- 5+ years combined experience in a Big 4 public accounting and/or large public company, preferably with experience in a subject matter expert capacity
- Experience in the Energy sector a plus.
