Forward-looking statements are inherently subject to risks, uncertainties and assumptions including, without limitation, the factors described under “Risk Factors” from time to time in our filings with the Securities and Exchange Commission (“the SEC”). Many of the forward-looking statements contained in this quarterly presentation may be identified by the use of forward-looking words such as “believe,” “expect,” “anticipate,” “should,” “planned,” “will,” “may,” “intend,” “estimated,” “aim,” “on track,” “target,” “opportunity,” “tentative,” “positioning,” “designed,” “create,” “predict,” “project,” “initiatives,” “seek,” “would,” “could,” “continue,” “ongoing,” “upside,” “increases” and “potential,” among others. - our ability to promptly, efficiently and effectively integrate acquired operations;
- our ability to sustain and grow revenues and cash flow from operations by offering video, Internet, voice, advertising and other services to residential and commercial customers, to adequately meet the customer experience demands in our markets and to maintain and grow our customer base, particularly in the face of increasingly aggressive competition, the need for innovation and the related capital expenditures;
- the impact of competition from other market participants, including but not limited to incumbent telephone companies, direct broadcast satellite operators, wireless broadband and telephone providers, digital subscriber line (“DSL”) providers, fiber to the home providers, video provided over the Internet by (i) market participants that have not historically competed in the multichannel video business, (ii) traditional multichannel video distributors, and (iii) content providers that have historically licensed cable networks to multichannel video distributors, and providers of advertising over the Internet;
- general business conditions, economic uncertainty or downturn, unemployment levels and the level of activity in the housing sector;

Transaction and Bright House Networks, LLC Transaction collectively (“the Transactions”);
- any events that disrupt our networks, information systems or properties and impair our operating activities or our reputation;
- the ability to retain and hire key personnel;
- the availability and access, in general, of funds to meet our debt obligations prior to or when they become due and to fund our operations and necessary capital expenditures, either through (i) cash on hand, (ii) free cash flow, or (iii) access to the capital or credit markets; and
- our ability to comply with all covenants in our indentures and credit facilities, any violation of which, if not cured in a timely manner, could trigger a default of our other obligations under cross-default provisions.

All forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by this cautionary statement. We are under no duty or obligation to update any of the forward-looking statements after the date of this presentation.

Appendix

Use of Non-GAAP Financial Metrics & Additional Information

We use certain measures that are not defined by U.S. generally accepted accounting principles ("GAAP") to evaluate various aspects of our business. Adjusted EBITDA and free cash flow are non-GAAP financial measures and should be considered in addition to, not as a substitute for, consolidated net income (loss) and net cash flows from operating activities reported in accordance with GAAP. These terms, as defined by us, may not be comparable to similarly titled measures used by other companies. Adjusted EBITDA and free cash flow are reconciled to consolidated net income (loss) and net cash flows from operating activities, respectively, in the appendix of this presentation.

Adjusted EBITDA is defined as consolidated net income (loss) plus net interest expense, income taxes, depreciation and amortization, stock compensation expense, loss on extinguishment of debt, (gain) loss on financial instruments, net, other pension benefits, other (income) expense, net and other operating (income) expenses, such as merger and restructuring costs, special charges and (gain) loss on sale or retirement of assets. As such, it eliminates the significant non-cash depreciation and amortization expense that results from the capital-intensive nature of our businesses as well as other non-cash or special items, and is unaffected by our capital structure or investment activities. However, this measure is limited in that it does not reflect the periodic costs of certain capitalized tangible and intangible assets used in generating revenues and our cash cost of financing. These costs are evaluated through other financial measures.

Free cash flow is defined as net cash flows from operating activities, less capital expenditures and changes in accrued expenses related to capital expenditures.

Management and Charter's board of directors use Adjusted EBITDA and free cash flow to assess Charter's performance and its ability to service its debt, fund operations and make additional investments with internally generated funds. In addition, Adjusted EBITDA generally correlates to the leverage ratio calculation under our credit facilities or outstanding notes to determine compliance with the covenants contained in the facilities and notes (all such documents have been previously filed with the Securities and Exchange Commission (the "SEC")). For the purpose of calculating compliance with leverage covenants, we use Adjusted EBITDA, as presented, excluding certain expenses paid by our operating subsidiaries to other Charter entities. Our debt covenants refer to these expenses as management fees, which were \$262 million and \$231 million for the three months ended September 30, 2017 and 2016, respectively, and \$791 million and \$535 million for the nine months ended September 30, 2017 and 2016, respectively.

The Transactions closed on May 18th, 2016. We provide *pro forma* results that give effect to the Transactions as if they had occurred on January 1, 2015 and include the operations of Legacy Charter, Legacy TWC and Legacy Bright House for the full twelve months ended December 31, 2016 and 2015. Due to the transformative nature of the Transactions, the Company believes that providing a discussion of its results of operations on this *pro forma* basis provides management and investors a more meaningful perspective on the Company's financial and operational performance and trends. The results of operations data on a *pro forma* basis are provided for illustrative purposes only and are based on available information and assumptions that Charter believes are reasonable and do not purport to represent what the actual consolidated results of operations of Charter would have been had the Transactions occurred on January 1, 2015, nor are they necessarily indicative of future consolidated results of operations or consolidated financial position. Exhibit 99.1 in the Company's Quarterly Report on Form 10-Q for the three and nine months ended September 30, 2016 provides *pro forma* financial information for each quarter of 2015 and the first and second quarters of 2016 and a reconciliation of the *pro forma* financial information to the actual results of operations of the Company.

For a reconciliation of Adjusted EBITDA to the most directly comparable GAAP financial measure, see slides 17, 18 and 19.

In the second quarter of 2017, Charter conformed the seasonal customer program in the Legacy Bright House footprint to Charter's program. Prior to the plan change, Legacy Bright House customers enrolling in the seasonal plan were charged a one-time fee and counted as customer disconnects, and as new connects, when moving off the seasonal plan. Under Charter's seasonal plan, residential customers pay a reduced monthly fee while the seasonal plan is active and remain reported as customers. Excluding the impact of customer disconnect activity related to the previous seasonal plan, Legacy Bright House residential customer relationships at June 30, 2016, would have been higher by approximately 58,000, and video, Internet and voice PSUs and net additions for the second quarter of 2016, would have been higher by 52,000, 72,000 and 49,000 respectively. Excluding the impact of customer connect activity related to Legacy Bright House residential customers moving off the seasonal plan, net additions for video, Internet and voice PSUs for the third quarter of 2016 would have been lower by 4,000, 6,000 and 4,000, respectively, and residential customer relationships, video, Internet and voice PSUs at September 30, 2016 would have been higher by approximately 54,000, 48,000, 66,000 and 45,000, respectively.
