

## **TeleCommunication Systems Invites Mobile World Congress Attendees to Experience the Innovation and Power of Mobile Communication Technologies**

February 10, 2011 12:32 PM ET

### **Company to Showcase Telematics, LBS, Navigation and Cyber Intelligence, Including a Live Demonstration of the Smart Drive iPhone Application in a Smart Car**

ANNAPOLIS, MD, Feb 10, 2011 -- TeleCommunication Systems, Inc. (TCS) (NASDAQ: TSYS), a world leader in highly reliable and secure mobile communication technology, today announced that the company will be showcasing its industry-driven wireless technologies at Mobile World Congress February 14-17, 2011 in Barcelona, Spain. TCS invites attendees to stop by Hall 8, Stand 8C115 and experience "Connections that Matter" through the company's range of mobile applications and technologies including:

#### **Telematics**

- Smart Drive iPhone Application: This application transforms an iPhone into a high-end navigation, music and calling device for any vehicle. Attendees can experience the Smart Drive iPhone application in an actual Smart Car at the stand.

#### **Location Based Services (LBS)**

- TCS Family Locator(TM): Attendees can view a demonstration of this easy-to-use application for locating, updating and communicating with family and friends. Family Locator allows access to other location-based information such as points of interest and directions. This cloud-based application works across all networks and handsets.
- TCS Workforce Locator(TM): A cost-effective solution to increase employee productivity and safety, Workforce Locator heightens management's visibility into its mobile workforce. During the demonstration, business leaders will learn how to locate, communicate and direct employees across all networks and handsets with this cloud-based application.

#### **Navigation**

- Navigation with 3D City Driving: Attendees can observe the latest advances in a full-featured navigation application that provides real-time, 3D turn-by-turn directions for cities and highway intersections complete with search functionality and web companion.
- NAVBuilder(R) Inside: Learn about TCS' developer platform for the simplest and fastest way to integrate mapping and navigation capabilities into applications.

#### **Cyber Intelligence**

- Security Training: Learn about the cyber security training curriculum TCS offers to hone the skills of those responsible for protecting your networks and assets.
- Security Services: Learn how TCS addresses security issues and helps organizations detect and defend against cyber threats.

#### **About TeleCommunication Systems, Inc.**
