

Financial Tear Sheet

CORPORATE OVERVIEW

Xerium Technologies, Inc. is a leading global manufacturer and supplier of two types of consumable products used primarily in the production of paper—clothing and roll covers. Our products are installed on paper-making machines and play key roles in the process by which raw materials are converted into finished paper. We employ our broad portfolio of patented and proprietary product and manufacturing technologies, as well as our extensive industry experience, to provide our customers with tailored solutions designed to optimize the performance of their equipment and reduce the costs of their operations. Our products are integral to paper quality and paper-making machine efficiency, adding value to the overall paper-making process, and are the result of a substantial investment in research and development and highly sophisticated manufacturing processes.

We have an extensive global footprint of 28 manufacturing facilities in 12 countries, strategically located in the major paper-producing regions of North America, Europe, South America and Asia-Pacific, and have approximately 3,200 employees worldwide. We market our products, primarily using our direct sales force, to the paper industry's leading producers.

Available Information

You may obtain, free of charge, copies of our annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K and amendments to those reports on the day of filing with the Securities and Exchange Commission on our website at <http://www.xerium.com> and may obtain hard copies of such reports free of charge by calling the Investor Relations Department at 919-526-1444 or by sending an email message to ir@xerium.com. You may also click on "Information Request" on the investor relation portion of our web site and utilize the form provided to request literature
