

Financial Tear Sheet

Corporate Profile

Who is Organovo?

- We are a biotechnology company pioneering a unique set of therapeutic and drug profiling capabilities based on our revolutionary ability to 3D bioprint tissues that emulate human biology and disease.
- We are developing *in vivo* liver tissues to treat a range of rare, life-threatening diseases, for which there are few current treatment options other than organ transplantation.
- We are capitalizing on our foundational ability to isolate highly specialized human cells to build robust, functional human tissues by creating a range of novel preclinical *in vitro* disease modeling platforms.
- We are striving to change the face of medicine by enabling translational drug discovery and through clinical development of novel approaches to treating disease.
