

Corporate Profile

Founded in 2005, VirnetX Holding Corporation is a leader in secure real-time communications and collaboration technology. VirnetX's Gabriel Connection Technology allows for secure across-the-network verification using its unique combination of cryptographic certified domain names, computer network addresses and public keys. The Company is engaged in commercializing its patent portfolio by developing a licensing program, as well as developing software products designed to create a secure environment for real-time communications such as instant messaging and Voice over Internet Protocol.
