

IENOVA ANNOUNCES SUCCESSFUL FOLLOW ON OFFERING

Mexico City, Oct. 14, 2016 - Infraestructura Energética Nova, S.A.B. de C.V., (“IEnova”), informs that it has priced its international private offering and its concurrent public offering in Mexico (the “Global Offering”) at a price of MX\$80.0 pesos per share.

Additionally, the initial purchasers in the private offering and the underwriters in the Mexican public offering have been granted a 30-day option to purchase up to 35,067,736 shares at the Global Offering price. The shares in these offerings represent approximately 23.0% of IEnova’s outstanding ownership interest (and approximately 24.8% if the 30-day over-allotment option is exercised in full). Through a subsidiary, Sempra Energy agreed to purchase approximately USD\$350.7 million of common stock in the Mexican public offering at the Global Offering price.

The net proceeds from the offerings are estimated to be approximately MX\$27,117.5 million pesos, prior to the over-allotment option.
