

IEnova Reports Third-Quarter 2016 Profit

- **Adjusted EBITDA up 16%**
- **Completed equity follow-on of 380 million shares at MX\$80.00 per share, a transaction of US\$1.6 billion**
- **Closed US\$1.144 billion Gasoductos de Chihuahua acquisition after receiving COFECE approval**
- **Announced acquisition of 252 MW Ventika wind generation facility for approximately US\$375 million cash plus assumption of US\$477 million debt. Pending regulatory approvals to close the transaction**
- **Awarded two solar projects by CFE: 141 MW capacity and approximately US\$150 million investment**

Mexico City, October 27, 2016 / IEnova (BMV: IENOVA) reported today unaudited third-quarter 2016 financial results. Third-quarter 2016 Adjusted EBITDA was US\$126.2 million, up 16% from US\$108.6 million in the same period of 2015. The increase of US\$17.6 million was mainly due to income related to the Sonora pipeline Guaymas – El Oro segment, and the start of operations of the Los Ramones Norte pipeline in February 2016 and the third segment of the Ethane pipeline in December 2015.

Excluding one-time non-cash effects of the US\$673.1 million gain related to the remeasurement to fair value of our previously held 50% in Gasoductos de Chihuahua and the after-tax impairment charge of US\$68.7 million related to Termoeléctrica de Mexicali power plant, third quarter of 2016 profit was US\$56.0 million, compared with US\$12.9 million in the same period of 2015. The increase is mainly due to lower income tax expense, income related to Sonora pipeline Guaymas – El Oro segment, and mark-to-market losses on an interest rate swap in 2015.

"After the approval and closing of the Gasoductos de Chihuahua acquisition, we completed the largest follow-on offering in Mexico in the last two years, which was also among the top ten largest follow-on offerings in Latin America in the last five years. In addition, we announced the acquisition of the 252 MW Ventika wind generation facility, and we were awarded two new solar projects by CFE: the 100 MW Tepezalá solar project in collaboration with Trina Solar, who will have a 10% stake, and the 41 MW Rumorosa solar project. These acquisitions and the equity follow-on strengthen our balance sheet and position IEnova for continued growth," said Carlos Ruiz Sacristán, Chairman and CEO of IEnova.

GAS SEGMENT

In the third quarter of 2016, Gas segment profit before income tax and share of profits of joint venture, excluding the one-time non-cash effect was US\$81.2 million, compared with US\$57.6 million in the same period of 2015. The difference is mainly due to US\$12.8 million of income related to the Sonora pipeline Guaymas – El Oro segment.

In the third quarter of 2016, Gas segment profit before income tax and share of profits of joint venture was US\$754.3 million, compared with US\$57.6 million in the same period of 2015. The difference is mainly due to the one-time non-cash gain of US\$673.1 million related to the remeasurement to fair value of our previously held 50% in Gasoductos de Chihuahua and US\$12.8 million income related to the Sonora pipeline Guaymas – El Oro segment.

INTERNET BROADCAST

IEnova will broadcast a live discussion of its earnings results over the internet on Friday, October 28, 2016 at 11 a.m. EDT with senior management of the company. Access is available by logging in to the website at www.ienova.com.mx. For those unable to log in to the live webcast, the teleconference will be available on replay a few hours after its conclusion by dialing 001 (855) 859-2056 and entering passcode 7914 8599#.

Amounts are presented in U.S. dollars, the functional currency of the company, except where noted, and in accordance with the International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

IEnova develops, builds and operates energy infrastructure in Mexico. As of the end of 2015, the company has invested more than US\$4 billion in operating assets and projects under construction in Mexico, making it one of the largest private energy companies in the country. IEnova is the first energy infrastructure company to be listed on the Mexican Stock Exchange.
