

IEnova reports second-quarter 2018 Financial Results

- **Adjusted EBITDA increased 19%**
- **Won a concession to develop a marine terminal for refined products in the Port of Topolobampo with an estimated investment of US\$150 million**
- **Declared 2018 dividend payment of US\$210 million, which represents US\$0.14 per share**

Mexico City, July 25, 2018 / IEnova (BMV: IENOVA) reported today second-quarter 2018 financial results.

Second-quarter 2018 Adjusted EBITDA was US\$219 million, up 19% from US\$184 million in the same period of 2017. The increase of US\$35 million was mainly due to the Termoeléctrica de Mexicali power plant higher operational results and its scheduled major maintenance in the second quarter of 2017, and the November 2017 acquisition of an additional 25% of Los Ramones Norte pipeline.

Profit for the second quarter of 2018 was US\$102 million, compared with US\$46 million in the same period of 2017. The increase of US\$56 million was mainly due to the Termoeléctrica de Mexicali non-cash after-tax impairment charge in the second quarter of 2017 and the EBITDA drivers mentioned above, partially offset by exchange rate effects and higher financing costs.

In June 2018, IEnova management decided to suspend the plan to market and sell the Termoeléctrica de Mexicali power plant. Its financial results are presented as continued operations in the Condensed Consolidated Statements of Profit.

"I am very pleased with our strong second quarter performance and our progress in diversifying our portfolio and customer base. We won a concession by the Integral Port Administration of Topolobampo for the development of our fifth refined product terminal, and 100% of the capacity is fully contracted, long-term, with two world-class refining and fuel marketing companies. We remain focused on projects that materialize into solid financial performance and significant shareholder value," said Carlos Ruiz Sacristán, Chairman and CEO of IEnova.
